A Quarterly Magazine devoted to Fraternity and College Interests. The Official Organ of the Delta Tau Delta Fraternity.

Published at Cumberland, Md., and issued four times during the year; the four numbers of each volume appearing in November, January, March and June, respectively.

Matter intended for publication in The Rainbow should be in the hands of the Editor by the first day of the month preceding month of publication.

Subscription price, \$1.00 per year in advance; (foreign and Canada, \$1.50), single copies, 30 cents. Advertising rates on application.

Address communications and manuscripts for publication to the Editor,

FRANK F. ROGERS,  
Tribune Building,  
New York City.

Entered as second-class matter at the post office at Cumberland, Md., under the Act of March 3, 1879.

## The Record Breaker

DELTA TAU DELTA'S FORTY-FIRST KARNEA LARGEST  
GREEK-LETTER FRATERNITY GATHERING

By H. A. Mfatt

For months Bro. Barker and his Publicity Committee had been painting and prophesying the glories of the Forty-first Karnea, until we had reached such a fever heat of anticipation that it seemed as though that last week in August would never come around. But it did arrive, and we were one of the 843 Delts on hand to bear witness that the promises of "The Greatest Karnea Ever" were abundantly fulfilled. In passing we might observe that the Karnea's attendance of 843 makes a record for any fraternity convention. This is the number of actual, unduplicated registrations. There were fully fifty more brothers at the banquet and some of the business sessions who did not register. If the Editor did not hold us strictly to facts we could claim an attendance of 900 without straining our well-earned reputation for (approximate) veracity.

Thursday, August 24, 1911, was officially scheduled for the opening of the Karnea. But Delts began to drift

in through the Purple, White and Gold decorated entrance of the Auditorium Hotel Sunday. By Wednesday over 400 had registered. In fact, it seemed as though the Karnea was really under way Wednesday. The Arch Chapter was closeted all day in executive session, and delegates and visitors were equally busy with "sessions" of various sorts. Here was exemplified how quickly Delts mix. In a few hours total strangers were as intimate as friends of old standing. But how could it be otherwise? The men were as congenial and as much of the same type as though they had all been selected and initiated by the same chapter. It was a great object lesson that must have impressed every man there with the truth that Delta Tau Delta is a real brotherhood, composed of men of similar tastes, like characters and natural, fundamental congeniality—not an artificial confederation of discordant elements, bound only by an oath, a badge and a grip shared in common.

One of the features of Wednesday was the arrival of Champ Clark, who had come on from Washington immediately upon the adjournment of Congress the day before. Congress has our thanks for its consideration in making this contribution to the success of the Karnea—whatever we may think of some of its other performances. The first official event of the Karnea was the vaudeville entertainment Wednesday night. This consisted entirely of Delt talent, and the big banquet hall on the ninth floor of the Auditorium was none too large to accommodate the appreciative and applauding audience of brothers.

The real work of the Karnea began with the opening business session Thursday morning. After the usual opening ceremonies Bro. Wieland, President of the Chicago Alumni Chapter, in his usual happy and polished style

Forty-First Karnea  
Opening of Business Sessions

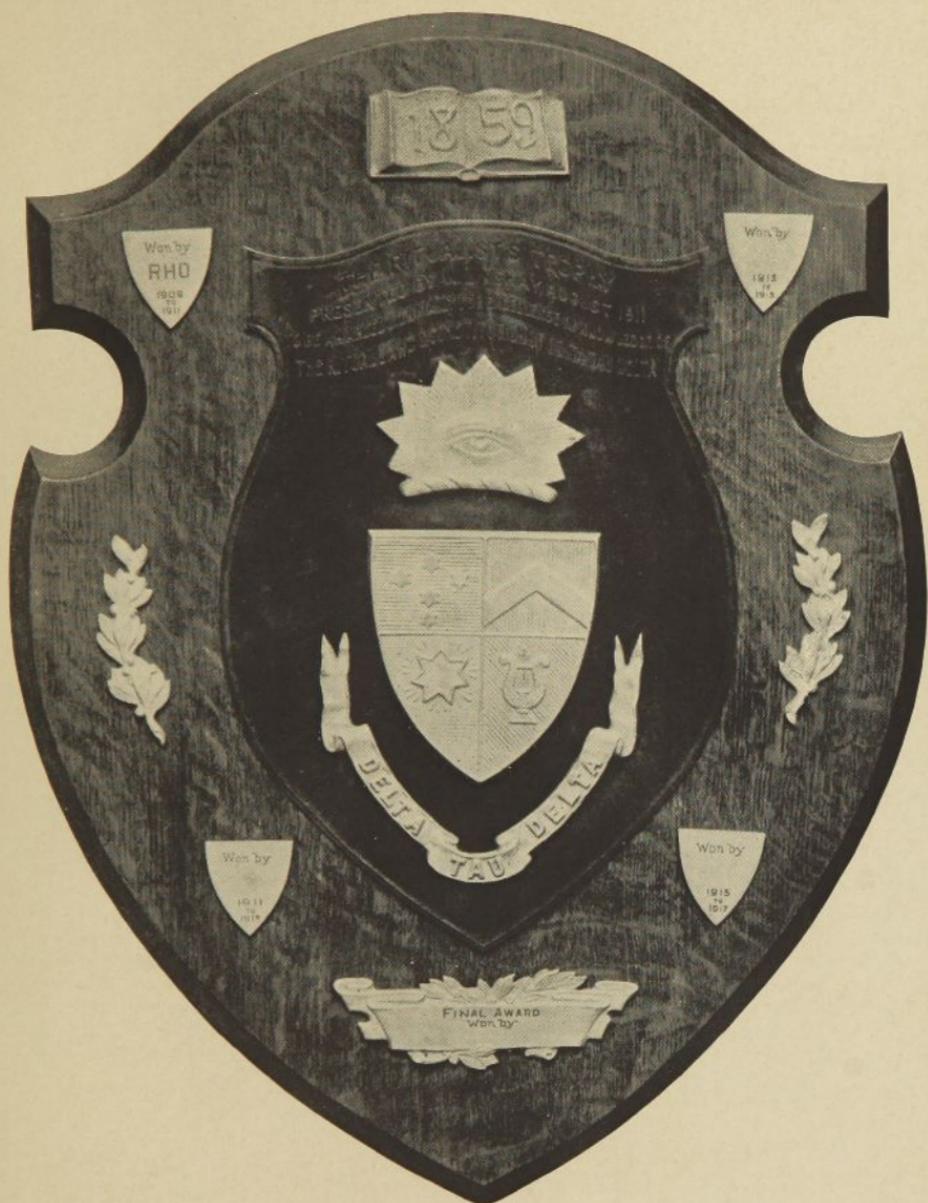

gave the Delts the freedom of all of Chicago they could use. Bro. Nicholson, of Beta Epsilon, accepted this rather tall gift on behalf of the visitors with an insouciance befitting his lengthy physical build. Business sessions continued both morning and afternoon through Thursday, Friday and Saturday. The full proceedings will be published in the Official Minutes, so the reporter will not refer to them here. But he does want to call attention to three features of the business sessions that greatly impressed him. The setting for the business session was ideal. At many Karneas we have had a noisy room that made it difficult to follow discussions, or one too cramped for comfort. In this case, the ball room on the sixth floor gave us a quiet, commodious room that proved ideal. Another excellent innovation was the seating of delegates by chapters and divisions. Each chapter was assigned a placarded table with three chairs for the two undergraduate and one alumnus delegates. The alumni chapter delegates were seated at long tables. This not only added greatly to the comfort of the delegates, but it made it easy to distinguish a speaker by his chapter.

A second most impressive feature of the business sessions were the reports of the members of the Arch Chapter. These reports were most informative of the conditions of the Fraternity and illuminative of the internal working of our excellent system of government. The results shown must have made every Delt's heart swell with pride. But, most of all, was the marvelling realization they brought of the great sacrifices of time and the immense amount of work these officers are devoting to the Fraternity's cause. It opened the eyes of the older alumnus to find what a complex and highly organized business proposition Delta Tau Delta has become, and how much labor

and good business ability is demanded of her officers these days. With a clear understanding of these facts the Fraternity's wonderful advance within the past fifteen years is explained, and her future growth and success is assured. The report of President Curtis stands out in memory particularly—not only as a fine presentation of where Delta Tau Delta stands today and what her achievements have been, but as an unintentional revelation of the grip Delta Tau Delta can get on a busy man of affairs and the time and talents he will gladly consecrate to her service.

The business sessions of the Karnea also demonstrated to us the great love and loyalty her sons have for Delta Tau Delta. The busy alumnus left his desk or curtailed his vacation, the older men made heavy drains on strength and health to be there and the undergraduates were present in numbers and intelligently active as never before. The writer has attended a good many Karneas, but he remembers none where such serious consideration of the welfare of Delta Tau Delta was given on the floor. No Karnea of his recollection ever called forth such eloquent speeches; nor was any other marked by more harmony and real fraternalism, in spite of some inevitable differences of opinion. Wherever any legislation was not unanimous, it was decided by such a large majority that the brothers on the losing side realized that they were looking at the question from the wrong point of view. In fact, it was again demonstrated that when fraternity is made to mean genuine brotherhood there can be no serious difference within our own family.

Of course, the social side of the Karnea was not neglected. Trust that wonderful and hard-working Karnea Committee to let no bet get by it. Thursday night we cashed in that yard of brown ticket we had been given

## THE RITUALIST'S TROPHY

Presented to the Fraternity By W. L. McKay

Awarded to Rho for highest average in Fraternity examinations during past two years. It will be awarded again—on two year average in 1913, 1915 and 1917. In 1919 it will become the property of the Chapter having the highest average for ten years. The plaque bears as its principal decoration the new coat-of-arms, and is the work of Meehan & Rankin Co., of Philadelphia.

when we registered. We had to pump a cop for directions and pay our own car fare. But after we hit River-view Park that brown ticket did the rest. We will not stop to describe in detail the pleasures of that evening for fear we will give too much advertisement to those midget twins—Jack Patten and Eddie Rankin. Then came Friday night with its chapter reunions. Any Delt who did not find enough of his own chapter for a get-together found a hearty welcome at some chapter's table. So all were taken care of.

We can not take the space to mention in detail all the illustrious brothers whose presence lent eclat and dignity to the Karnea. Pittsburgh, New York, Cincinnati and countless other Strongholds of Delta Tau Delta sent their bright and shining lights—men whose names you see constantly in *THE RAINBOW*. But it is always a privilege for the undergraduates to meet in the flesh and blood any of our founders, and it was an especial pleasure to clasp the hand of our beloved Bro. Lowe. Then we were able to pay our respects to the man who made *THE RAINBOW* possible, in the person of Bro. Weems. He it was who started thirty-five years ago, and carried for a year on his own shoulders, *The Crescent*, as our magazine was then called. Many other war horses of Delta Tau Delta were there to inspire the present generation and to see for themselves to what rich harvest has grown the seed of their planting and loyal nurture.

One of the most popular and instructive features of the Karnea was the Educational Exhibit, collected and arranged by Bro. J. L. Kind. A large parlor on the second floor was given over to this exhibit. The catalogs, annuals, photographs, student publications and other material

of every college in which we have a chapter proved mighty interesting.

Every chapter was represented by delegates, and this representation was so fine that it made us long to meet each one of our 1,500 actives. Of course, Beta Upsilon had to hog things. So it was no surprise that she carried home the silver loving cup for best attendance. Gamma Alpha won the big fraternity banner awarded for greatest number at the banquet. The steins awarded for best vaudeville stunts were captured by Bros. Sullivan, Gamma Mu; Ebberle, Gamma Mu; Sigman, Nu; Rankin, Beta Chi; Gray, Beta Chi;; Henck, Beta Xi, and Brigham, Beta Mu. Rho holds the Ritualistic Trophy for best record in fraternity examinations until some other chapter takes it away from her.

Indianapolis won the next Karnea from Cleveland by a nose. If Sherm. Arter had been as well equipped in the nose line as he was with eloquence and maps of Lake Erie the results might have been different. If San Francisco does not get the Forty-third Karnea it won't be because the Pacific Coast did not send on to Chicago a keen lot of boosters. We hope the Karnea committee is getting rested up by now. They have our sincere gratitude for their labors which made everything go off so smoothly and so enjoyably.

Did you think we had forgotten all about the great banquet? Well, we haven't. Editor Rogers has saved that for depiction by a readier pen than ours, and one that can do it greater justice.

Our job stops here.

# Karnea Banquet Notes

With a Post Script

By Louis M. Tobin

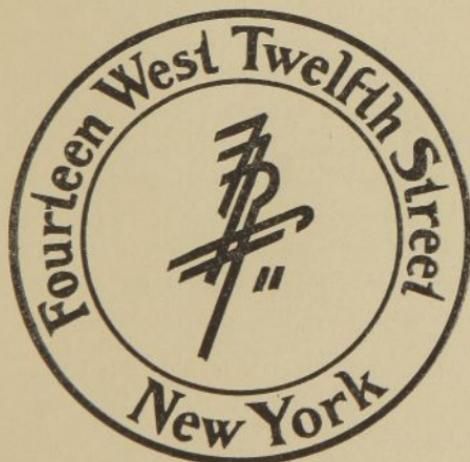

BETA UPSILON

Now we can understand the feelings of the gents in the Sherlock Holmes story who find the "pips" in the palm of their hands and know right off that they are billed to play the leading part in a murder the next morning before breakfast. We don't know for certain just what a "pip" is except that it is a forerunner of woe.

This morning, over our frugal toast-and, we blithely opened a natty gray envelope—opened it jauntily, just as if there was no such thing as sorrow, grief, and fraternity house building in the world. As far as we knew, we had never stolen the crown jewel of the Third Punjab of Dinniawaur, and the Black Hand had never marked us for ransom. After the daily battle for another pat of butter, we withdrew the contents of the natty envelope.

And there was a "pip!"

A regular, sure-as-life, story-book, Sherlock Holmesy "pip.!" Lest a reputation for veracity that is as broad as an extensive acquaintance be shattered, it is reproduced:

We are making the traditional preparations. All the letters have been burned. What is the use to place a guard about the manor? Sometimes I suspect the butler.

Let me put my earthly affairs in order, for Rogers will be the death of me yet.

\* \* \*

\* \* \*

Champ Clark has a good poker face. I have it on authority of the Beta Upsilon brother who sat beside me. I disagree. The fabled gamblers of fiction—Bret Harte's Jack Hamlin and that ilk—sat unmoved without an emotion disturbing their placid phizzes. They nonchalantly picked up the card that completed their royal flush without the flicker of an eyebrow. But had any one of them faced that Karnea banquet mob he would have been forced to recognize its demonstration just as the sapling bends before the mighty winds. (Deep stuff.)

Bill Taft would have smiled. T. Roosevelt would have exhibited ghemastodonic molars. Bob LaFollette would have bobbed the famous pomp. But Champ—A poker face? Perhaps. But more than a poker face. He is second brother to the Sphinx. He is cousin to the mysterious. What went on behind that chiselled countenance as 600 banqueters acclaimed him? Perhaps he was wondering if he would make his train connections. Perhaps he wished that his blood pulsed so boldly. Perhaps he was just glad that he was there—glad that he was a Delt. I like to think that.

So the Karnea committee delivered the Speaker of the House. They did it between trains—but they did it just the same. And they gave the Karnea banquet a touch that it never had before—landed us on the front page next morning, even with a picture of the Honorable Champ in a dress suit addressing his br'ers.

It is true that the democratic Champ had no time for such extraneous fittings as evening clothes. While he may have lost the votes of such immaculates as W. McNamee, of Beta Upsilon, and I. Dahle and the entire Beta Gamma Chapter, many black republicans, on the other hand, apoplectic from their struggles with biled shirts, at once went over to the enemy. It was surely a grateful act of Champ's to kick the dress suit into the discard and appear only relieved by a vest that might have been gray in the days when he was a college president at the age of 23 years but failed to give outward indication of that fact. I certainly appreciated his tact and consideration for me. I felt a whole lot better and the upstart brethren who had made remark of the purple flowers on my shirt bosom quickly took in their sails. At times such as these chronicled some men are above clothes.

Where were the sapient ones who bewail and lament that this U. S. A. has no national anthem that every man, whether a taxpayer or a trust magnate, can stand up and sing? Did you hear 'em that night? I guess not. "Alexander's Rag Time Ball" and "Billy" vied for popularity early in the race. Later the inevitable strains of "Dixie" sounded. They liked "Dixie"—northerners and southerners joined in. Then—"The Star Spangled Banner." They *sang* it—honestly, they *sang* it—We all stood up. Without breaks or falters. No mistake about it. Champ sang. Jim Mann sang. For we were all Americans that night. And I want to tell you it was impressive. Men like Clark and Mann—gray in their country's service—must have been newly inspired by that spectacle.

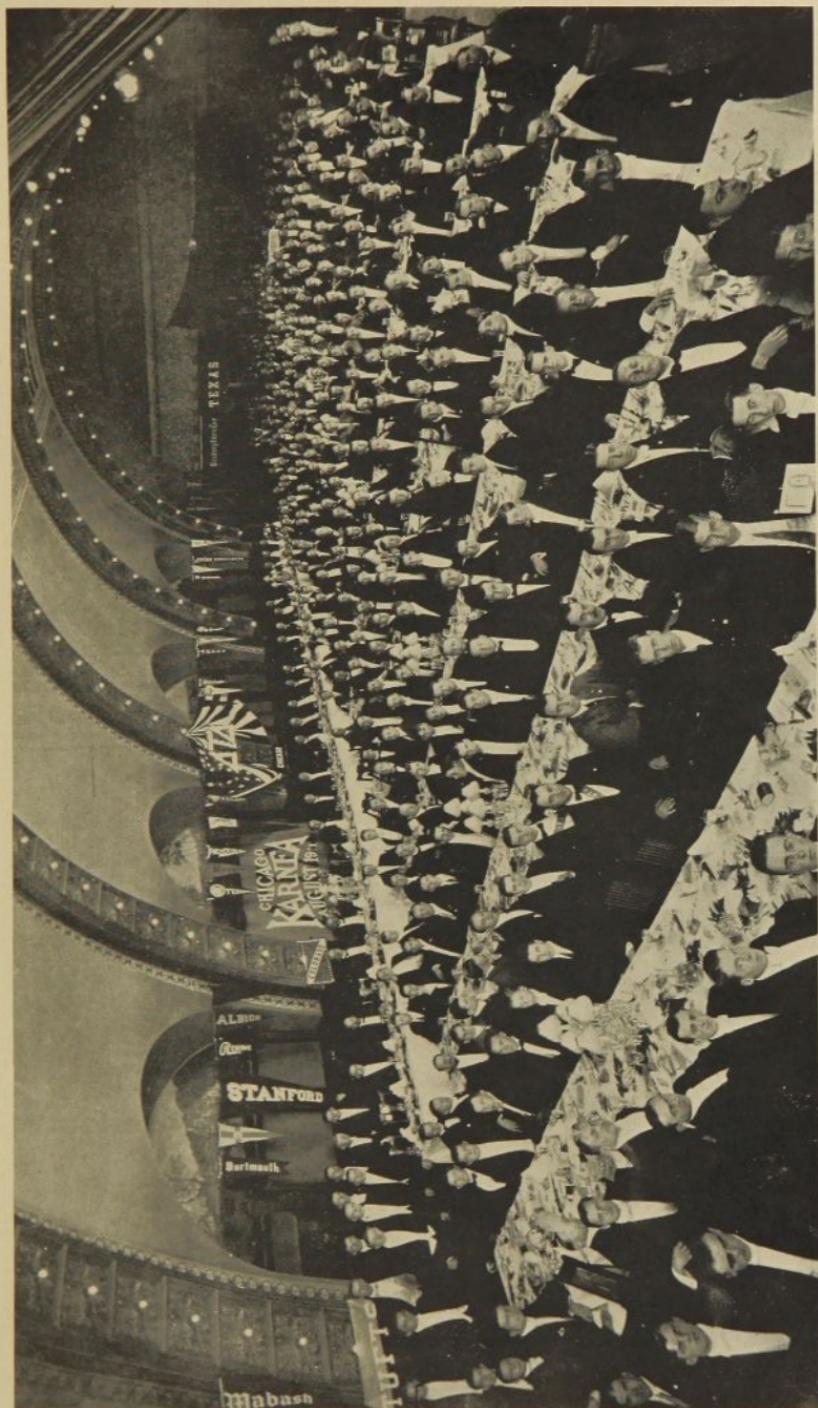

There were few of us who were not nominated for something that night. Before midnight Champ had been

nominated and elected president and had selected his first cabinet, viz.: secretary of state, Jim Mann; secretary of war, G. Paddock; secretary of the exchequer, Shylock Nelson, and secretary of the interior, J. Wakefield. Personally we hesitate between the portfolio of the ambassador to St. James and the postoffice at Savoy, Ill. I leave it to Champ. There are no frills about Champ, as outlined. We are all invited to stick our legs under the White House table. He said "legs," too. Said it just as he began weaving his way to the door.

We were all sorry to have Champ leave. Come again, Speaker, when you can stay longer. And even if you should be sent to the White House and given a demonstration of demonstrations by a glad populace, you will not forget that good-bye we said as you strode out. And we meant it.

To corral the Speaker of the House was a coup beyond a doubt. To make things better that darn Karnea Committee yanked out Jim Mann. Now we have some good yankers right down here at Beta Upsilon—men like Shylock Nelson who would not scruple to reach into a graveyard of the Pharoahs and resurrect a Rameses who had been mummified for 14,000 years beside the sleepy Nile. But we have never been able to yank the minority leader to a Beta Upsilon rally. For he's a busy man. Shylock, *et al.*, takes off his hat to the Karnea Committee. Send us Jim Nov. 25, when we dedicate the new house.

Yes siree. We said good-bye to the biggest man in the land next to the president. Then we welcomed the next biggest man to the next biggest man—none other than Congressman Mann. Sturdy product of the days at Illinois when the great university was a dot on the educational map, risen by sheer force of intellect and

Forty-First Karnea Banquet

application to be leader of the greatest party in the land. We of Beta Upsilon were proud to join in the acclaim. For he was ourn.

And Jim told us what a good fellow Champ was and how if the benighted democrats in their wisdom (which they seldom possessed, he was forced to admit) nominated and elected Champ, he would go right on eating buckwheat cakes for breakfast, knowing that the country was safe.

Champ had said some nice things about Jim. Now Jim came right back. It was too bad that the Speaker was gone—too bad that these foemen did not sit side by side that purple evening through.

The list was not exhausted. John Wayman, if you please, a candidate for governor of Illinois—a product of old Bethany—who took time to plead for a restoration of the chapter to the old school where Delta Tau Delta was born. And then to our own celebrities—"The King"—just as eloquent, just as magnetic as of yore—the forceful Willets—he, too, of old Bethany—and Curtis! The Biggest of Them All, cheered and lauded, pronounced as it were, the benediction on that great rallying of the sons of the Crescent.

Oh, it was a great old dinner, bre'ers. Tom Youtsey sang his Kentucky songs. Beta Upsilon won the \$100 cup (affidavit by C. Axelson as to cost) for the best attendance, much to the satisfaction of the Illini flock. But there was glory enough for us all. Gamma Alpha was handed the banner for the largest crowd at the dinner.

\* \* \* \* \*

P. S.—Yes, there were business sessions. We were a delegate and we attended. They re-elected the whole blamed Arch Chapter. That was nothing new. Every

Karnea that the demon Rogers has asked me to chronicle seems to have been affected the same way. After several months of bitter experience trying to help erect a chapter house, the sanity of a man seeking more strenuous labors is to be questioned, but the Arch Chapterites seem in good shape, trained to the minute and ready to carry on the work. Give them room.

The Karnea is but a memory. Delts have new deeds to plan and do. There are chapter houses to be built and paid for (the latter being of greater importance). But it is certain that deeds will be done for Delta Tau Delta this year that would not have been done were it not for that great love feast they staged in old Chicago.

And remember, do not play four of a kind too hard against Champ.

# A Retrospect

IMPRESSIONS LEFT BY OUR GREATEST KARNEA

By Frank Wieland, Eta '90

Now that the Karnea is all over, and the last committee meeting has been held, and the committees themselves dismissed with thanks—now that the long-anticipated event has passed into Delta Tau Delta history as the very climax of over fifty years of fraternity endeavor, I am trying to figure out just why this particular Karnea impressed me as being noteworthy other than in size and numbers. It was not only our very greatest Karnea, but it was far and away ahead, in point of attendance, of any other Greek letter convention ever held. To me, numbers mean much indeed. An intensive convention might be held with only the Arch Chapter and the delegates present. But that would be a selfish Karnea, for truly all that is good of fraternity belongs to every Delta Tau Delta who has ever worked and worried that his chapter might be of unusual excellence. Every man who registered for the Karnea was living evidence that to him his fraternity had meant enough to warrant whatever of sacrifice it entailed to do her homage. 843 Delts meant that 843 busy men and boys had interrupted their work or their vacations to pay tribute to their Fraternity.

In the estimate of the Karnea's success there figures largely the presence of the distinguished men who made up our program of speakers. That *was* an unusual list. To be able to place Champ Clark and Jim Mann side by side, not for the discussion of politics, but for the greater glory of old Delta Tau Delta; to see John Wayman and Dr. Willett, college mates of a quarter

of a century back, each working for the same results in civic righteousness, but along such vastly different lines—to see them there enjoying themselves, as if there were no more rogues to be indicted, or no more souls to be saved; to listen to the King's glorious climaxes, and Tom Youtsey's Dixie songs; to have them all introduced by our own Ernest Wray O'Neal, staunch Methodist, but first of all, good fellow and enthusiastic Delt; these alone would have made any Karnea a success, and any evening noteworthy. But back of even these was a first cause that keeps recurring to me, and fills me with satisfaction and gratitude; and that is that my faith in the Karnea committee was justified. It demonstrated so much to me that ought to be of value in every alumni chapter. Of all of the committee who did the actual work attendant upon the Karnea, not one had ever been a member of such a committee before. Behold the result. We never had better work, we never had better results. It taught us that there is always potential energy lying loose among the younger Delts, needing only an opportunity. It taught us that it may oftentimes be well for the old-timers to step aside, and give the younger men a chance to show what they can do.

Of the actual business sessions of the Karnea much will be said elsewhere. I think one of the very happy moments of President Curtis' life must have been when he saw the enthusiasm of the delegates for his conception of a greater Delta Tau Delta; and the applause that greeted his reelection was only equalled when, four years ago, likewise in Chicago, he assumed the office of president, with our full confidence. To have come from Indiana does not of necessity condemn a man, eternally, and a touch of New York, with an appreciative Chicago, may make a man wonderfully fit.

As will always be true, tragedy trod close upon the heels of comedy, and again, as will always be true, what was one man's tragedy was another's comedy. The dinner was just about to begin. We awaited only the dramatic entrance of Champ Clark. The orchestra was primed for "Hail to the Chief," and even the Gamma Beta bunch was awed to a brief silence—very brief, by the way, when there worked his way through that vast crowd a husky Delt, and trouble surely had assumed a comfortable resting place upon his brow. Up to the speakers' table he strode, where I was perspiringly figuring out precedences, in order that no distinguished guest might sit too far from the throne of Champ Clark, and possible future Cabinet appointments. "Have you this dinner in charge?" he asked. "If it is successful, yes; if it fizzles, blame Dan Ferguson," I replied. "Well," he said, "I think this Karnea is very poorly managed." He did not say "very," but as this is a Christian journal, read quite largely by young men with morals and vocabulary yet unformed, I shall not quote him literally. "Wherein does it fail?" I asked, for in an instant's time there flashed through my mind the long months of work, the sleepless nights of the publicity committee, and our mad desire to make this Karnea a record-breaker. "Wherein have we failed?" "There is no place reserved for me at this banquet," he raged. Well, not to have had a place at that dinner would indeed have spelled tragedy. If these words shall meet the eyes of that young brother, it may comfort him to know that his tragedy was also my own. I had no place. I ate Charlie Axelson's soup. And when Brandt Downey, flushed with the pride of a seven weeks' son, left his seat to poison the happiness of Harry Van, whose son is only six weeks old, I ate Brandt's bird. And when Harry left

his place for a moment to retaliate, I ate his ice. Which only shows, if one has faith, that a modern Elijah may yet find a broader interpretation for the ravens. There are more than one use for baby boys. They sometimes allow the hungry to be fed.

The distribution of prizes is always awaited with interest by the undergraduates, and as the beautiful loving cup was handed over to Shylock Nelson, the financial patron saint of Beta Upsilon, Bert filled it with purple and white and golden asters, and placed it before Congressman Mann, his chapter's most distinguished alumnus. "That was very neat of Bro. Nelson, wasn't it," whispered a friend at my side. "Yes, and very canny. Bert is treasurer of the house fund, and this pretty little compliment will cost the Congressman \$100." One of the penalties of being a Skylock is that of having all of one's motives questioned. It happens that we had on our committee several who feel quite seriously on the temperance question. Six of the prizes were to be steins, properly dignified with the Fraternity monogram. It seemed a pity to our prohibitionists that anything suggestive of beer and its attendant evils should be awarded to our plastic delegates. The problem was solved by converting them mentally into shaving mugs. Happy thought! If it should happen that they became instrumental in causing in their recipients two hairs to grow where only one grew before, wouldn't it be fine of Indianapolis to have as its Karnea prizes safety razors, thus adding to our art, their utility?

One especially gratifying feature of this Karnea was the re-awakening of the South. Most of our southern chapters have always been good locally. But nationally they have been deficient. Many causes have been respon-

sible—the isolation of the chapters—the lack of facilities for meeting men of other colleges and the lack among the men of opportunities to make inter-chapter visits. But the enthusiasm of the southern men was remarkable, and they came in such numbers and mixed in so prominently in the discussions that it kept the Yankees busy attaching to their final vowels the “r’s” that the Dixies dropped as unworthy of consideration. “Is this your first Karnear?” asked one of Maine of one of Mississippi. “Yes,” replied the other, “It is my first Kahneah. Ah’ve nevah been Nawth befoah.”

The value of the small college in delivering the finished product was never better shown than at the banquet. Only two of the speakers came from universities, the rest being graduates of small church schools. It was quite remarkable that three men as conspicuous in America as Bros. Clark, Willett and Wayman, chosen as banquet speakers because they represented something distinctive in American thought, should all have been students of one small college, Bethany, of West Virginia, Delta Tau Delta’s real alma mater. Bro. Clark, Speaker of the House, stands a fair chance of sitting in the President’s chair. When he told us that, if he were ever elected to the Presidency of the United States, every Delt in the land would be welcome to put his feet under the White House table, six hundred enthusiastic men, possibly largely Republican in their sentiments, accepted the invitation, to the exclusion of all other possible engagements.

Over two years ago we promised Bro. Wayman, if he would speak for us at our annual dinner, and speak well, we of the Alumni Chapter would see that he was eventually elected Governor of Illinois. He *did* speak well. The office is already his. Dr. Willett has always been the idol

# The Men Who Made the Karnea

By W. L. McKay, Beta Tau.

A Karnea is like a watch. If you wind it up it will run itself. That is if the main spring doesn't break. The Chicago Karnea main spring broke short off when Ed. Ladd went to Arizona last March, but Dr. Wieland is a past-master at mending things; and when he got through tinkering with the Karnea Committee you wouldn't know anything had ever happened to it. The new main spring (Charles F. Axelson) was a stem-winder of the Waterbury brand. It took some exercise to wind him, but the escapement was as steady as time itself; and the best part of it is, he isn't run down yet.

My task is not to tell the story of the Karnea. Those who had more time to see it have already written it up one side and down the other and not half told the story I am sure. I am to tell for the benefit of Indianapolis, San Francisco and other seaport towns in which future imitations of the wonderful "Forty-first" will be held, the things which were done by Axelson and Barker and Fischer and the rest of the Chicago bunch that brought out that record breaking 843 Delts and sent them home again rejoicing.

Well then, Oscar, be sure you have a good face on your watch. The front you show is the thing that is going to attract attention. Was the Chicago Karnea a success? Was the world of Delta Tau Delta stirred up as it has never been before? Did about ten thousand Delts who were not there weep briny tears because they could

not go? The answer is, "Yes." And the reason is "Bill" Barker. Yes, some face to our watch, believe me.

Publicity was the one thing that was put ahead of everything else in the work of the Karnea Committee. Everybody knows *The Karneagram* and what it did. It went to every crossroads and hamlet in the civilized world where Delts could be located, and it found them, too. No small job this. Mrs. Barker is a good loyal Delt, and she stood the excitement as long as she could, but in the middle of the last lap she quit and went on a vacation and left the house to the Publicity Committee. The letter heads show that this committee consisted of Bill Barker, Lou Crowell, and Walt Reed, but I understand Crowell did his best work on some very good write-ups in the Chicago Sunday papers, and Reed enticed some gullible merchants into advertising in the "official organ of the great convention." The Publicity Committee that met at 3929 Prairie Ave., was Barker, Axelson, Franz Patton and Buck Powell. That isn't a full complement of numerals for the face of a watch, but if every hour indicated by the average watch checked up as much hard and intelligent work as these fellows did in an equal space of time the old world would take on a gait that would beat a Delt freshman hiking down the road to his first Karnea, and that's going some. No use bothering about the exact number of figures on the dial, Brandt, just so they serve their purpose and get out in front where they belong.

I never think of Brandt Downey that I don't think of money—sort of a comfortable feeling, too, when you are in the great Hoosier city, broke. I suppose the Continental National has already listed an account for "B. C. Downey, Treasurer," but as the chain to the Karnea watch

you'll have to be solid gold, Brandt, double riveted, twist linked, automatic spring spiked, steam hammered, and equipped with Yale locks and electric snap catches to beat the record of "Pete" Fischer, the man who gathered and dispensed the cash of the greatest gathering of Greeks ever held outside of Athens. "Russell P. Fischer" it says on the door at 717 First National Bank Bldg., and that sign spelled cordial welcome to the whole general committee once every week all through the summer when the pow-wows were held. That is the way the invitations were signed, too. The invitations read, "Please remit."

I suppose if we give Barker credit for the attendance we will have to give him credit for raising more money than Fischer did, but it is easier to get a five spot out of a fellow for a banquet ticket than to get contributions six months in advance of the "big noise" to pay for yellow stationery and news print. The truth is Bill didn't get all the crowd and Pete didn't get all the money. They both did it and they were backed up by the most loyal support that was ever given the leaders in any work of the kind.

I cannot tell you about all of the work that was done, for I made my little contribution before the combing process began, but I heard stories about night sessions over the city directory and hours spent at the telephone, and I heard of George Paddock coming all the way from Florida several weeks in advance to help on the financial end, which he handled so well four years before. I heard, too, of Kerr, Hills, Pease, Bliss, Courtright and innumerable unemployed undergraduates pressed into service by the shifty master of finance to be sent on special calls; and finally I heard the report of the finance committee showing that thousands of dollars had been collected and disbursed without the loss of a single penny and with the

balance on the right side of the sheet. What was it I said about a solid gold chain to your watch? Do you know, Pete?

A committee cannot work without a secretary. Brad Gardner has been the only official scribe in Chicago alumni circles for years past and he was the minute hand of the Karnea watch. A steady hand recording minutes that were always approved as a matter of course because Brad wrote them. Alva Sowers and Dan Ferguson looked after the hotel arrangements.

Four numerals on the face, and four hours told off by the striking attachment; first the hour of the undergraduate get-together (Jack Patton was assigned to this event); second, the hour of the alumni entertainment at Riverview Park, where Algy Stockton astonished the natives with his five hundred trained vocalists; third, the hour of the chapter reunions, a most trying hour on account of the many separate meetings it brought, but well managed in spite of that by Harold Ellington and Donald Dick; and fourth and last, the greatest joy-fest of them all—the banquet. And who but Frank Wieland could be responsible for gathering together such a list of speakers and 600 Delts to listen to them. After the banquet we put the striking attachment out of business. We had reached the climax. We had passed all records. We leave it to you if Chicago had not made good.

Last night I attended the first monthly dinner since the Karnea, and seventy-five per cent. of the men there had been members of the Karnea committee. A watch has many parts; some stand still while others move; some do little, others much, but every one is necessary to make the watch keep time.

# The Honor System and the University of Wisconsin

By John L. Kind

When the history of the University of Wisconsin is some day written, the college year, 1910-1911, will be recorded as an epoch of agitation and reform. Witness, the student court established, the student conference revised, class platforms with brand new planks, fraternity investigation, and, finally, the pro's and con's of the Honor System.

After many weeks of spirited logomachy, the student conference agreed that the students might decide by vote whether they would adopt the Honor System of examinations. *The Daily Cardinal* devoted considerable ink to editorials and reports, but the students in general evinced little interest. Most of those questioned admitted that they knew little or nothing about the proposed System, many cared less, but some showed a desire to be instructed in its theory and practice. Finally late in the college year a vote was taken, resulting in the overwhelming defeat of the proposed introduction of the System, a very light vote being polled, a fact which may be taken to indicate the general indifference of the students.

It was in the hope that a little light might be thrown upon this problem that I investigated the Honor System as employed in other institutions, addressed several student gatherings and finally wrote this paper. My information is based upon extensive correspondence with other institutions, printed literature, and personal interviews with men who have studied and taught under the System. Where

students and faculty disagree as to the success of the System, I have been inclined to give the benefit of the doubt to student opinion, for the students always know best what they themselves are doing.

The agitation at Wisconsin is, of course, nothing new; neither is it peculiar to Wisconsin, to the West, nor to the present day. Syracuse is in the throes of the same debate, on the part of the faculty and students alike. Indiana has talked of the system, but has not adopted it. Chicago began the tussle over two years ago, but the students, as a body, are not interested. At Emory College, Oxford, Ga., the faculty and upper classes favor it, but the lower classes are suspicious and defeat the attempts to introduce the System. An attempted introduction at the Massachusetts Institute of Technology met with decided defeat about a year ago. Lafayette College has tried the System without success; the students are opposed to it. At Ohio University it was once started by the Y. M. C. A. It failed. The System is a decided failure at the University of Mississippi, a "country school," in the sense that it is far removed from the contaminating influences of cities and large towns, with a homogeneous student public, dormitories, commons, and all the other appurtenances of fellow feeling that make for safe amalgamation, a decided failure, because the faculty will not "keep hands off." The University of Maine has agitated, but the faculty says, "No!" In many other colleges and universities plans have matured to a certain point, only to meet defeat sooner or later.

Whatever may be the cause of failure in these institutions and in others, the fact remains that the Honor System, so-called, is considered more or less of a success in a large number of colleges and universities. In many cases

there is a partial Honor System; i. e., certain professors or departments employ it. In a few the System of Honor embraces all student activities, social and political, athletic and forensic, without particular reference to examinations. At Albion College and at DePauw University, for example, faculty rules have given place to a gentleman's agreement: not to do those things that he should not do, and to do those things that he should do—in the eyes of the faculty. The same practice obtains at Baker University. The cards on which to report absense from compulsory chapel and church exercises were abandoned last year, but the loop hole has proved too big for the late sleepers.

But to come to the Honor System as applied to examinations. None of the largest universities have adopted it. This is especially true of the state universities. There are many that employ the System, however, in certain departments. This seems to be the case in law and engineering especially, and also in medicine. Unfortunately, the space at my disposal prohibits a detailed discussion of the successes and failures of these institutions, but a few pertinent examples will be cited later.

Among the colleges and universities in which the Honor System is in force, in the broad and narrow sense of the term, we find: Virginia, Washington and Lee, Vanderbilt, Sewanee, Texas, Western Reserve, Kenyon, Lehigh, Princeton, Washington and Jefferson, Stevens Institute, Williams, Wesleyan, etc.

The University of Virginia is the Alma Mater of the Honor System, and the faculty and students alike are enthusiastic in their assurance that it is an unqualified success. The System here has a lineage of some seventy years, and to this one factor, rather than to any other one cause, is success to be ascribed. When Thomas Jefferson

founded the university, in 1819, he planned an academic government which should exemplify, as far as possible, the "affectionate deportment between father and son." He argued that "fear" might produce momentary results, but that "pride of character, laudable ambition, and moral dispositions are innate correctives of the indiscretions" of youth, and will engender "the combined spirit of order and self-respect."

This form of student government, the creation of character, may be regarded as the basic principle of the Honor System as understood and promulgated at that university today. Jefferson arranged the dormitories and college buildings in such a manner as to make espionage practically impossible; testimony from a student against his fellow-student was "voluntary and not on oath"; every student was allowed absolute freedom in his choice of all his studies and diet, provided he sought it in places "other than in taverns." Ideal as this form of government is, it soon proved to be an ideal only, and many are the painful struggles and experiences of the professors that are recorded in the annals of those early days. The faculty was compelled to tighten its grip on the students more and more, until they finally revolted. Faculty meetings resembled sessions of a police court. The severer the measures adopted by the faculty, the more frequent and serious the student brawls, until the climax was reached in the assassination of a professor, November 13, 1840. That calamity cleared the atmosphere, and contrition paved the way for a better understanding between governor and governed. The students reformed their habits, the faculty mitigated its punishments, and the university steered its course back to the first principles laid down by the "Father" of the institution.

Examinations, from the beginning, were supervised by a committee, and cheating was abundant. In June, 1842, however, the system of examinations was changed. The newly established understanding and sympathy between student body and faculty had produced such a degree of mutual confidence, in the space of two years, that the following resolution was adopted by the faculty and ratified by the students:

“*Resolved*, That in all future written examinations for distinction or other honor of the university, each candidate shall attach to the written answers presented by him on such examination a certificate in the following words: ‘I, A. B., do hereby certify that I have derived no assistance during the time of this examination from any source whatever, whether oral or written, or in print, in giving the above answers.’”

This is the real beginning of the real Honor System. Later a clause was introduced to preclude the possibility of *giving* assistance, the pledge was applied to all written examinations, and, in the course of time, the scope of the System was extended, until it now embraces all offences seriously involving the student’s honor, including athletics. The Honor System at Washington and Lee, in force ever since the presidency of General Lee, likewise extends to every phase of student activity, and is regarded as the very “basis of student organization.” At Virginia the principles of the Honor System seem to have penetrated so deeply into the consciousness of the students that it is rarely spoken of or thrust into notice. It is an “idealistic reality.” The Virginians say: “It is like the virtue of our women, it is known and understood, but it is not discussed.”

At Vanderbilt, the Honor System dates from the opening of the Academic Department, in 1875, but the rules and regulations are much more explicit, and the System seems to apply only to the examination room. In fact, so far as I have been able to ascertain, Virginia and Washington and Lee stand quite alone, at least among the larger institutions, in the development of "honor" as a basic principle of life, for the cultivation of innate honesty, not confined to time, place, or particular relations to particular persons.

The University of Texas is the only state university in which I have found the Honor System in full force. There may, however, be others. Its birth was coincident with the foundation of the University, in 1884, and was modelled after Virginia; but it is not a complete success, since the students can not be trusted to report fraud. The system was inaugurated at Wesleyan in 1892, in imitation of the movement at Princeton, that same year. Others followed. Kenyon, 1901; Lehigh, 1904; Williams, 1905; Western Reserve, 1909, etc. Naturally, Virginia was taken as the model, more or less, by the other institutions. Practically all, however, confine the application of the System to written examinations, although testimony is not lacking that the new code in examinations has elevated decidedly the moral tone of the students in general.

A careful scrutiny of the constitutions and provisions of the Honor System as in force in all these institutions reveals the following basic points in common: 1. A pledge absolutely required of all students, to the effect that they have neither received nor given assistance. 2. Every student detecting dishonesty must report the offender. 3. A council of students is the judicial body to try all alleged offenders. 4. There must be no faculty

surveillance or espionage. 5. Conviction means expulsion from college.

A typical form of the pledge is as follows: "I hereby pledge my word of honor that I have neither given nor received assistance in this examination." This is the spirit of the pledge everywhere employed, however much the wording may vary. At Stevens Institute the full pledge is required only on "written examinations," and the word "pledge" on "written tests." The reason for this distinction does not seem clear, unless it is simply for the purpose of saving time. At Wesleyan the pledge may be omitted, if the written test does not occupy a full hour, but it is understood that the rules of the Honor System apply none the less.

In most institutions the students are placed upon their honor by the System, and that settles the question. In some colleges, however, the details of their conduct are prescribed very explicitly. At Vanderbilt, for example: "No book or paper shall be brought into the room, except as prescribed by the examining officer." "No communication of any kind shall be had by students with each other during examination." "No student shall leave the room during his examination, except in the case of necessity, and with the consent of the examining officer, and no absences shall be longer than ten minutes." "No student shall be admitted to an examination room more than fifteen minutes after the opening of the examination, without satisfactory excuse." "The plea of sickness shall not excuse a student for failure on examination, and no student may leave the examination room on account of sickness, without the consent of the officer in charge." Other institutions provide for alphabetical seating under the direc-

tion of the honor committee, with a vacant seat at either side of each student, etc., etc.

On the other hand, in some cases the students are allowed to converse freely, so long as they do not infringe upon the spirit of the pledge and do not disturb each other; they may leave the room and go wherever they please, being even allowed to write their examinations in their own rooms. Such absolute freedom is, however, exceedingly rare.

There is no institution which is willing to assert that there is no undetected or unreported cheating. They do feel, however, that the trouble from this source has been reduced to a minimum. It seems to be the general experience that it is practically impossible to rely absolutely upon the students to report the fraud of others. In many cases this is the inherent weakness of the System. The students think it is a "mean trick" to "tattle," even though they themselves would never think of being dishonest in their own work.

In some cases the faculty members are not willing to absent themselves entirely from the room, and the System fails, because the students feel and know that they are being watched, even though "on their honor," and they thus regard it only a fair game that they match their wits against the cleverness of the instructor to catch them "at it." Even at Virginia, the old committee of three professors is still retained in the examination room but only, as they say, to give necessary information, to preserve order and decorum, and not to watch the students, so as to prevent dishonesty. It would seem to an outsider that the presence of this committee is quite contrary to the spirit of absolute confidence in the students to conduct their own affairs; for, remember, that the administration

of the Honor System is an affair of the students from start to finish.

Conviction means absolute expulsion from college in practically all institutions. At Wesleyan, however, the first offense of the freshman is punished by posting his name; the second offense means posting and expulsion. At Williams, a freshman is relegated for a limited time only, but members of the other classes are expelled forever.

If the system is a success in other universities, why should Wisconsin not profit by it? I have the very highest regard for the students of the University of Wisconsin. I have always found them loyal, independent, and sincere, responding readily to fair and square treatment. The Virginia student may not be more honest than the Wisconsin student by nature, but he certainly is by training and education. In Virginia the Honor System extends throughout the educational system of the state; so that a freshman, when he enters the University, does not emerge into a new atmosphere of "honor." What are the conditions along this line in such a state as Wisconsin? If I am to believe the reports I have frequently heard, the high schools, as a rule, give as thorough a training in dishonesty in work as the school system of Virginia offers in honesty. We gather our freshmen from these high schools, where honesty in examinations has not been taught nor encouraged, to say nothing of being required. Would it be safe then to place this delicate instrument, the Honor System, in the deformed and dwarfed hands of the high school graduate? The student conference seemed to think not, and, the plan was to confine the System to the two upper classes at Wisconsin, and to the subjects in which the juniors and seniors were in the majority.

Now, to come back to my first question. Should the students of the University of Wisconsin wish to adopt the Honor System? Before they decide they should and must know the full meaning of the obligations imposed upon them by the System. Signing the pledge is a minor consideration and will arouse little objection, unless perchance the sense of "honor" of our students is so delicate that they feel the pledge an insult. This is the attitude often taken. A student who is really honest will not object, however, to saying so, any more than he will object to being under the scrutiny of his professors. He has nothing to fear. The greatest crux in most institutions has been the full understanding of the meaning of the words, "I have not given assistance." This one provision, in theory and practice, is the reef that has shipwrecked and stranded more honor craft than any other one requirement. Is the Wisconsin student able to realize that failure to report detected fraud is, in reality, "giving assistance?" Will he report the fellow student whom he sees cheating? I have in mind one medical college where it is known that about one-fourth of the members of the first class use foul means to pass their examinations, and the other three-fourths of the students close their eyes. These dishonest students sign the pledge, nevertheless, without hesitation or qualms of conscience, because the professors hover over them with watching eyes and ears. Why do the professors watch? Evidently they know "what's doing." The rate at which the students are thus allowed and compelled to perjure themselves is, nevertheless, tragic and ought to impel some power to inject real honor into the System at that institution, or to abandon it entirely.

Can the Wisconsin students feel that to report fraud is not mere "tale-bearing," that dishonesty is a blemish on

the fair name of Wisconsin, an insult to every Wisconsin man and woman? Two conditions at the University would militate against the success of the System: the presence of fraternities and sororities, and co-education. Would the fraternity men and women be willing to bind themselves by oath to report their fellow-members? Could the requirement to report fraud prevail over the close bond of fraternalism? When I speak of co-education as a great stumbling block, I do not mean to insinuate that the "co-ed" is less honest than the male student. I believe her more honest. But why is the Honor System confined practically exclusively to men's colleges? Peruse the list and you will see that, with two or three exceptions, the System is confined to institutions for men. Add to this list the departments of law, engineering, and medicine,—men's departments. The difficulty lies in the fact that men are loth to report women. Thus the System breaks down.

Upon the willingness and determination of the students to obey this one requirement should depend the introduction or rejection of the Honor System in any college, for on this would depend its success or failure. Let's not have a half-baked System. System makes for perfection, and if this one great flaw is inevitable, let the Honor System alone. If not, then adopt it, and its success is assured.

Remember, too, that the students must gain the consent of the faculty to manage the examinations. Do the professors feel, as a result of past experience, that the students can be trusted? Are they persuaded that the students are sincere? I know of one case where the students adopted the System for the express purpose of being able to "hedge" without faculty restraint. It is "up to" the students to persuade the faculty that they are sincere, that they can and will administer the System ably.

Have the students stopped to think of the difference between "Honor" reduced to a "System," applying only to examinations, and "Honesty" guiding them in all their work and life? They may adopt the "Honor System" in examinations and still crib their text-books full to the brim, prompt their neighbors, copy daily written exercises, come to class unprepared, trusting to luck that they will not be called on to recite, cut classes wilfully, and not infringe upon the Honor System. The Dean of the Virginia Law School has said: "A gentleman may not lie, nor cheat, nor steal—but he may abhor the confinement of the lecture room, . . . and be a gentleman still. And so the Honor System has steadily refused to relieve the dean of his weekly interviews with gentlemen of leisure." But do these "gentlemen" practice real "Honor," real "Honesty?" Why not base our lives and work on "Honesty?" Let's be "honest," whether we adopt the "System" or not, and then "Honor" will take care of itself, and a System of Honor will not only be superfluous, but, in reality, a crude makeshift, far beneath the plane on which we should live.

Dean Lewis, of the Pennsylvania Law School, has said, when asked whether it was expedient to adopt the Honor System in colleges where it is not in force, that it is "like the question of the advisability of spanking children—it depends upon the child." Just where the analogy lies, I am not prepared to explain, but evidently Wisconsin was the child crying for a spanking. This child, however, voted not to be spanked. Now it is "up to" the faculty, and rumors are afloat that that body is considering the introduction of a system of strict proctoring of examinations in the near future. Perhaps the real spanking is coming now.

## The Alumni Club

Trinidad, West Indies,  
September 14, 1911.

Dear Bro. Rogers:—

During the past week at sea, while on my way back to Trinidad, I found plenty of time to think over and realize what the New York Delta Tau Delta Club has meant to me during my stay in New York, and what it is doing, and can do, for all Delts individually and for the Fraternity generally. I want to send you this letter telling a little of what I saw at the club and what I learned of the club's work during the last three months, thinking that you might use it to help other Delts realize what the club holds out to them and to the Fraternity, and in that way help interest more alumni and actives in the club and in its work.

The most prominent thing that I found in the club was national fraternity spirit. It was there in its true form, and that means everything—both from the ideal and practical standpoint. It was the first and only time that I have found New York printed in small letters and seldom spoken of among men who belong to New York. It is the Fraternity nationally with them, first, last and all the time. The members come from all over the United States; and all the credit that New York gets is that it is the city that has attracted the members and is the location of the club's home. The club and its members have given me a better opinion than I used to have of New York and New Yorkers. If anyone has the idea that the club is sectional, egotistical, selfish or narrow, he is wrong on every count. The members come from almost every section and chapter in the United States and they have brought with them a

love for their respective chapters, their brothers and for the Fraternity at large; and being in a place where the club idea is highly developed these men naturally formed a club for their own entertainment, but one unselfishly open wide to all Delts.

When I landed at the club I found a hearty welcome. I found it one of the least expensive places to put up at in New York. The accommodations are very good and the fact that one has the full use of the reading and lounging rooms, the pool table, the writing room, the player piano and especially the roof garden, makes life there far better than anything a hotel can offer. Almost every day someone is at the club or drops in during the daytime. An evening never goes by that from a few to a dozen brothers are not there. The bug of lonesomeness can not live in the house and one can generally find a brother or two who will join him in anything he wishes to do, be it a quiet conversation, a trip to Coney Island, a visit to a theatre or any other form of amusement. One of the first impressions that you get is that you have found a place where you belong to somebody and where somebody belongs to you. That is a great feeling to have and find when you are a stranger in New York. Advice and information are always obtainable, and help along most any line is freely given.

From a fraternity standpoint I believe that the conversations in the lounging room take the palm. There is no place where the problems, the history, the ideas for the future and everything pertaining to the national Fraternity are discussed at such length and so fully as at the club. Fraternity subjects fill three-quarters of the conversations. I could not attend the Karnea, but I heard Karnea talk for a full week after the return of the New York

Delts, and I wager that I can tell more of what happened in Chicago than any Delt who was so unfortunate as not to have been able to attend.

Delts visit the club from all over the country and bring news of their sections. Ideas are exchanged, new viewpoints are given and a broader knowledge of the Fraternity gained by both the visitor and the men at the club. There is nothing like the club for a spreader-of-knowledge, for talking is better than letters or printed articles. The club is full of men who love Delta Tau Delta, and they are doing a large amount of the unselfish and constructive work for the Fraternity. The club means to the alumni the same thing the chapter house means to the actives, and it offers the same chance for national work that the chapter offers for local work.

The New York club is a home for all Delts who will come and use it. Nearly everyone comes, or expects to come, to New York at least once for a visit. The members want everyone who comes to New York to use the club as if it were his own. Everyone is welcome. Have your mail addressed to 66 West 36th Street and go there as soon as you land. If you can't raise anyone at the front door go up through Keene's Chop House. The members want you to come there, they want to meet you, they want to know you, they want to talk with you, they want to know anything that you can tell them of other brothers, of your chapter and of your ideas for the future of the Fraternity. They are interested in you and the Fraternity. They are constructive and up to date and want to keep so, and they want to do all they can to liven and keep alive your interest in the Fraternity. The work of the employment committee is a grand thing along the material lines. The aim is to make it national, and the local success has been so great that I feel sure that their aim will be realized.

To those who are interested, willing and can afford it the resident dues of \$20.00 a year and the non-resident and junior dues of \$10.00 is a small item to contribute towards keeping up the club and helping in its national work. But even if one is not a member he should come to the club, use it, boost it and help everyone to get acquainted with one another and further the national work. The Delta Tau Delta Club of the Fraternity is in New York. I wish it were *A* Delta Tau Delta club instead of **THE** club. Chicago, San Francisco, New Orleans, each of the alumni chapters should be housed in a club house. They need it as badly as the active chapters need homes. I believe the time will come when the alumni chapters will be so housed, and then the interest of the alumni will be so great that the Fraternity can undertake any problem and realize any ideal.

Then we will all appreciate that the best thing to work for is our Fraternity and that the Fraternity means more to us as alumni than we ever thought it could while we were actives. As fraternity men we are missing one of the best opportunities we have. We are only active for about four years. There is a lifetime left in which we can receive benefits from our membership in Delta Tau Delta. When all, or most all, of the alumni realize this fact the big work can be done and the individuals will benefit by co-operation. The alumni club is the solution of the problem which consists mostly in getting the alumni interested. The men of the New York Alumni Club have started it. Help them along by going to the club, and above all get interested and acquainted.

Very fraternally yours,

W. G. FRASER,  
Beta Upsilon, '99.

# Fall In

By James B. Curtis

“Fall in, double time—march!”

When an army is face-to-face with danger and battle is imminent, the above is the command which is heard in every company and regiment until the entire force is quickly put upon the move. Words are not wasted and there is a feeling of alertness and tenseness along the entire line and in every face. Our fraternity, in common with others and the student body generally, in American colleges, is “under fire” on account of the thoughtless and, in many cases, baseless attacks being made. It has been asserted by men prominent in the business world that the American college is not accomplishing its purpose and that its students are “going to the bad.” In some instances, this charge is backed by figures which, if true, are alarming. It must be our purpose, throughout the present college year, to prove that these statistics are baseless so far as our Fraternity is concerned.

Fortunately, it is now some time since Delta Tau Delta took its position firmly in favor of higher scholarship. At your Karnea recently held in Chicago the reports showed most satisfactory results. These results were not obtained without effort on the part of the undergraduates, which is thoroughly appreciated by the national officers. These efforts, however, must be renewed and with such vigor as to leave no doubt of the standing of a single one of our chapters at the end of the present college year. The efforts already made may have been considered good and they have resulted in great improvement; but these must be renewed to the end that nothing will be left undone to elevate our

position among fraternity men and in the college world. Due credit has been given to us by college authorities for the splendid work which has been done within the past few years. It will not do for a single chapter, even though it stood at the head of the list of its college in scholarship during the last year, to think that it can lessen its efforts and its supervision of freshmen and others needing help. If everyone in each chapter will obey the command, "Fall in," and call upon the local alumni for aid, at once, there can be little doubt of continued improvement resulting in a position which cannot be challenged. Fortunately, at the recent Karnea, there was not a discordant note upon the policy of better scholarship. The chapters seemed to take a pride in giving their relative standing and in asking advice as to the manner in which weakness could be overcome. The wisdom of our policy has been thoroughly demonstrated by the words of commendation received from our rivals, societies and educators in general. It has been further demonstrated because it has been copied by others who are seeking to regain lost ground.

It is admitted that the American college places at the disposal of the student facilities equal to any. The number of students, however, has become so great that personal supervision cannot longer be given by college authorities as it was a generation ago. When the facilities are unrivalled, it is the duty of the student himself to take advantage of them. If the institution cannot give sufficient personal supervision, it is the duty of each one of our chapters, and of our national organization, to give to each active therein such supervision as is necessary to make him realize his responsibility and be a credit to his chapter and our Fraternity. A fraternal spirit should be displayed in exercising this supervision. It should not be the aim of

anyone to find fault for its sake alone, but for the purpose of helping correct an error. There should be no delay in determining whether an initiate thoroughly understands his obligation to the chapter and to the Fraternity. It is the duty of the older brothers of each chapter, and of the alumni nearby, to inculcate a spirit of earnestness and fraternalism in each brother soon after he is initiated. He should be made to see and appreciate the opportunities for education which are placed before him and the necessity of grasping them. Some are backward, while others find the path only one of roses. It is the backward student who should be given the fraternal, helping hand. Don't let it be said, at the close of any term or of the college year, that a member of any chapter has failed in his work because of a lack of fraternal sympathy or aid on the part of his brothers. Be watchful, be patient, be fraternal.

Most of our chapters are now living in houses where "home life" is possible, together with something of the influence left behind when one enters college. It should be our aim to make the "home life" of each of our chapters as nearly perfect as possible and to cause it to equal the influences of which each boy had the benefit before. It may be true that there has been carelessness in the "home life" in many chapters and that the houses have been merely so many rooms let to the occupants thereof. This is not the object of a house; and if it amounts to no more than this, the chapter is not worthy of a house. Dissensions should not be tolerated in any chapter and should be "nipped in the bud" if discovered. They have no place in fraternal life. There should be no cliques, nor factions, in any chapter. If it is discovered that there are such, these should promptly be analyzed and common grounds of harmony found.

It is the object of our Fraternity to house every chapter, where this is permitted, to the end that each chapter may have the benefit of "home life." To do this, the conduct of our chapters which now have houses must be such as to commend them to the alumni. Wherever it is necessary, reforms must be inaugurated. It must be borne in mind that no fraternity house should ever be permitted to become a place of intemperance, licentiousness or immorality of any kind. Even the every-day language between the members can well be given attention in an effort to bring to it the air of the real home. In short, the "home life" of each of our chapters should be made attractive, clean, fraternal and beneficial in every way.

College activities should be given the best attention by every chapter and each member should be encouraged to be active in some line. Clean athletics necessarily lead to temperate and clean lives. Social activities elevate the man and enlarge his general knowledge. When each of our brothers makes the most of his opportunity in scholarship and in college activities, there will be left to him little time for the so-called "fast life" of which we hear so much complaint. At the same time, if the life of the student be such as to give him a higher standing in scholarship, as well as a good standing socially, athletically and otherwise, he will find that he has so little time left for purely outside interests as to enable him to have no difficulties financially. An analysis shows that it is not the fraternity expense that brings the burden financially to the student, but that it is indulgence in the practices of the crowds that gather beyond the precincts of the college.

To the end that we may have an "uplift" generally in chapter life and improvement particularly in SCHOLARSHIP, let our battle cry for the year be—"*Fall in-double-time—March.*"

Warren (Ohio) Alumni Chapter  
Summer Outing, August 13, 1911

# Warren Alumni Chapter

AN ACCOUNT OF THE CHAPTER'S SUMMER OUTING  
FROM THE WARREN, (OHIO) DAILY  
CHRONICLE AUG. 14, 1911.

The summer reunion of the Warren Alumni Chapter of the Delta Tau Delta College fraternity drew to Warren yesterday a liberal representation of the organization and Elwell's grove, on the Mahoning above Leavittsburg, was made the rallying ground. Cleveland, Youngstown, Niles, and Warren sent several of the members. Messrs. Gibbs and Cole came down by auto from Andover, and Dave Jameson's New Castle jumbo touring car rolled into the grove with C. A. Ensign, Gil. Nodine and F. S. Chryst for ballast. A roll call revealed the presence of the following: E. E. Blair, Alpha '83; F. M. Ritzel, Alpha '75; G. A. Nodine, Alpha '80; S. C. Lind, Zeta '08; H. M. Hutchison, Zeta '12; M. D. F. Gibbs, Alpha '13; Paul Boucherle, Mu '06; G. T. Pew, Beta Phi '03; H. J. Raymond, Beta Omega '10; C. B. Kistler, Alpha '86; F. S. Chryst, Alpha '80; D. Jameson, Alpha '78; W. H. Little, Zeta '10; R. L. Thomas, Zeta '08; W. B. Cole, Alpha '11; A. B. Clark, Kappa '10; Clare Caldwell, Zeta '02; J. E. Bennett, Beta Omega '011; C. A. Ensign, Alpha '80; E. J. Sanderson, Alpha '89; F. E. Russell, Alpha '90; J. R. Petty, Zeta '05; C. W. Thomas, Zeta '00; G. D. Liles, Mu; R. C. Lathrop, Gamma Zeta '03; W. A. Ritzel, Psi '14.

A trip to the grove in the pretty power boat of the Brewer brothers gave zest and interest to so many that had not previously taken the river trip up from the Leavittsburg dam. At the noon hour a typical Delta dinner was served with Chef Lathrop at the carver's table.

Green corn and watermelon, garnished with the best in the art of pie, cake and other bakery products, coffee made in the shade of the elms, and cigars that Dave Jameson brought in his baggage from Havana, rounded out the refreshment scheme.

It was altogether the usual happy and fraternal occasion sure to result from the mobilization of these men of college experience.

# New York Club's Outing

THE CLAMBAKE AND BASEBALL GAME AT PLEASURE  
BAY

By James Leslie Pinks

BETA ALPHA

The annual outing and clambake of the Delta Tau Delta Club of New York was given Saturday, July 22nd, 1911, at Pleasure Bay, New Jersey. Three score enthusiastic Delts contributed towards making the affair most pleasureable and successful.

As is the custom, the championship ball game between the Philadelphia and New York Alumni Chapters was played in the afternoon. Both chapters had made diligent preparations, and it was indeed two all star nines that lined up with their captains, Bro. Jim Irving for Philadelphia and Bro. Pete Williamson for New York. Captain Irving pitched for Philadelphia and Bro. Doc. Jones, of Michigan, was on the slab for the New York Club. Bro. Redpath donned the mask and chest-protector and ably assisted Bro. Smith, while Bro. Yost, although he spurned all the protective accessories except the mitt, caught a fine game for Philadelphia.

The score was close throughout and resulted in a victory for the New York Club by a score of 3 to 2. Col. Curtis and Dr. Bolard umpired the game and, although there were many close rulings, every one conceded that the decisions were just and the rules were fairly and impartially applied.

The grounds were very fast, having been especially prepared for the occasion under the supervision of Bro. Leonard Snider, who had secured the use of the same from the Hon. Thomas Patten, of the Patten Steamboat Line.

Beta

## Watch the South

CONFERENCE OF THE SOUTHERN DIVISION AND THE  
RE-ESTABLISHMENT OF GAMMA DELTA AT  
ATHENS, GA., DECEMBER 2, 1911.

Saturday, December 2, has been designated as the date for the re-establishment of Beta Delta Chapter at the University of Georgia.

By vote of the Southern Division chapters it has been decided that the Division Conference shall be held at Athens, Ga., on the same date; and consequently the day will probably bring together the greatest gathering of Deltas ever held in the Southern Division.

President James B. Curtis, Dr. John L. Kind, the national treasurer; Bro. W. L. McKay, the ritualist of the Fraternity; Dr. Frank Wieland, former president; President Charles S. Smith, of the Southern Division; Bro. Leonard Snider, who is one of the moving spirits in the New York Delta Tau Delta Club; Secretary D. S. Nicholson, of the Southern Division, and many other prominent alumni of the Fraternity will attend the great gathering.

Bro. Rufus S. Crane and other prominent alumni of old Beta Delta who live in Athens are co-operating with the Utopian Club in preparing for the reception of the visitors and hope to make the occasion a memorable one in the history of the Brotherhood.

Ordinarily, the Conferences of the Southern Division are held in the spring of every second year, but at the recent Karnea in Chicago the delegates from the Southern chapters and President Charles S. Smith held an informal conference at which it was the consensus of opinion that

the date of the forthcoming Conference should be advanced from April of next year to December of the present year in order that the re-establishment of the Georgia chapter might be the occasion for a general rally of the Southern chapters.

It was agreed by all the delegates that isolation and the difficulty the chapters of the Division have in conferring with each other have handicapped the progress of the Division in the past, and the general opinion was that hereafter the Division should hold annual, rather than biennial, conferences. This matter will be acted upon at the Athens Conference.

At the Chicago conference of Southern delegates a Division paper was also discussed. Bro. Elmer Scott of Dallas, Tex., Bro. Rufus Crane of Athens, Ga., Bro. Leonard Snider, of New York, and other alumni especially urged the publication of a paper several times a year as the best means of bringing the chapters of the Division into closer touch. The matter was submitted to President Curtis, Secretary Bruck and other general officers of the Arch Chapter and was so generally commended that the Division President, Charles S. Smith, has undertaken the publication and will issue the first number early in November. It will probably be published about three times a year, with the second issue in February and the third in May.

Deltas from all Divisions are urged to attend the Athens Conference and installation. Further information concerning the notable gathering will gladly be supplied by Bro. Rufus S. Crane, Athens, Ga.; Bro. Charles S. Smith, care The Tennessean, Nashville, Tenn., or Bro. Leonard Snider, Delta Tau Delta Club, 66 West 36th St., New York City.

The combination of a Division Conference and a chapter installation assures a treat that no Delt should miss. Visiting brothers are assured of a royal Delt time. It will be a great occasion that sees the charter of old Beta Delta returned to such a fine lot of men as compose the Utopian Club. The January RAINBOW will give full information about these men who will again raise the Purple, White and Gold standard at the University of Georgia. But all Delts who can will want to look the men over personally and size up the field and equipment of the revived chapter. The Utopian Club members have shown the style of energetic work we can expect from them when they become members of the revived Beta Delta chapter of Delta Tau Delta by having secured already for a chapter home a beautiful old Southern Colonial house, with furnishings all paid for.

## Editorials

### INSURING THE FUTURE

The history of all fraternities that really counts for anything is comprised within the past thirty years.

The present day standing of the some ten or twelve leading fraternities is the result of the wise, and far-sighted policy of these fraternities during this period. We believe that from the fraternities that have attained to this position the leadership for all time to come will be determined by the policies and achievements of the next ten years.

Within the last quarter century we have seen a great shifting of the fraternity field. The East, with its small church colleges, yielded place at about the beginning of this period to the rapidly-growing Middle West. This section, in turn, gave place to the West, with its great State Universities—backed by rapid increase in wealth, marvelous growth of population and ripening culture. No matter what an institution's age, traditions or atmosphere may be, its value as a fraternity field depends on the quality and number of students it can attract. Today we find men of the best fraternity type turning in greater and greater numbers to the technical schools, or to the universities with strong technical and professional departments. This fact has caused a further upheaval in the fraternity world. The fraternities that were far-sighted enough to anticipate this evolution and were able to take advantage of it have been carried along by the

mere force of the movement to positions of commanding importance in the Greek world.

The opportunities for fraternity growth and advancement by wise and timely expansion have passed, and those fraternities that have neglected the chance can never again regain the ground lost. They are doubly handicapped in the competition of the next decade which will determine so much. Numbers without quality will give no fraternity a lasting advantage, but numbers with quality and the homogeneity which insures effective team work is one of the most potent factors in this coming struggle for front rank. Another necessary qualification for success is a strong, centralized form of government, with the administration of the fraternity in the hands of a few keen, level-headed, far-sighted and devoted alumni. Fraternities have attained so highly-organized and complex a development that they require the system of any well-conducted business and they demand for their successful administration the soundest judgment and the best brains of the business world.

Our readers know, without our recounting them here, Delta Tau Delta's achievements of the past, the demonstrated wisdom of her policies and her present internal strength. Our machinery of legislation and form of government have been well tested in the past and we have proved their value. Among our level-headed members there is no desire to experiment along this line or rashly tinker with what has already won us such success and is so well adapted to meet the exacting conditions of the future. We want to take no step backward and abandon no well-proved policy. But what of the future? Delta Tau Delta in the past has been a pioneer and has blazed many a trail along the path of fraternity progress. Is

she ready to sit down now and fold her hands in satisfied self-contentment? The answer has been most emphatically "No." So long as her sons are animated by the same unselfish loyalty and guide her bark with the old-time conservative wisdom her strength will know no waning and her triumphant onward march no halt.

For Delta Tau Delta, expansion is no longer an important policy. We do not mean that we shall ever be reluctant to plant a new chapter in a deserving field; for new institutions will spring up and old ones will develop to a point where a failure to occupy the ground would be the greatest folly. But from now on expansion will take its place as one of the subordinate avenues of advancement in our great general progress. Our pioneer grappling with the problem of chapter supervision and improved scholarship is no longer an experiment. Results in the past four years have exceeded our most sanguine hopes, and we can count on steady future progress. This phase of activity has taken its place as a settled part of our routine administration and as a tested and accepted policy of Delta Tau Delta.

But at the last Karnea we did a piece of fraternity pioneering of the greatest importance, and we set in motion a force that is certain to carry Delta Tau Delta to high pinnacles of achievement in the future. We believe that this is the one addition to our other established policies needed to round out our organization and to insure the Fraternity's future beyond all shadow of a doubt. With services of high market value given free, our regular administration does not require a large sum of money. But the housing of each chapter is a financial problem for us, and for every fraternity. Sole dependence on local alumni assistance is a slow road to attainment; and for a

young chapter, which generally needs a home worst, it is a restricted field. It has been possible for the Arch Chapter to render much assistance with a fund of \$25,000. But this sum is inadequate, and its rate of increase from regular sources too meagre. Our desire and aim is to have every chapter housed within ten years—within five if possible.

For some years the best thought of the Fraternity has been given to this problem, and we have made what progress we could while awaiting the solution. The experiments of other fraternities afforded us little assistance and offered us but slight improvements over our own methods. The final happy solution was presented to the Forty-First Karnea by Bro. Curtis, and enthusiastically approved by that body. It seems as though the framers of our Constitution must have foreseen this day. For when it came to harnessing the idea to our machinery of government we found in the Constitution just the necessary provisions to authorize the Arch Chapter to proceed with the formal details. By the time these lines are read the "great idea" will be an accomplished fact. A full knowledge of the details will be conveyed to our brothers through another medium, and for the present this information will be restricted to our own fraternity circle. Bro. Curtis has shown his opinion of the corporation by purchasing \$5,000 of its securities. Let others fall in line. One attractive feature of the scheme is that it provides a corporation legally qualified to receive bequests and to be named as the beneficiary of a life insurance policy. The brothers should bear these two points in mind—and act.

While the first use of the fund will be the housing of every chapter, its insurance of the future will not end with this accomplishment. In years to come a fraternity

with a large fund at its disposal is in a position to accomplish anything. The next use for the income from this fund that appeals most to us is the establishment of scholarships for Delts. It has always been the policy of the Fraternity to make the financial burden of our actives as light as possible, so that a man's pocket-book would never be the criterion of his eligibility to membership in Delta Tau Delta. But there are many splendid fellows who are barred from a college course by lack of funds—or compelled to drop out before completing the course. In what other way could a fraternity be of more help to the individual, of greater assistance to the colleges and of larger value to the nation!

---

**SCHOLARSHIP  
AND HONESTY**

In recent years we have heard a great deal from college authorities about scholarship. We are in thorough accord with all sound and sane efforts for improvement along this line; and Delta Tau Delta, in common with most all fraternities, has sincerely and effectively labored to bring about such an improvement.

In the January number we propose to discuss with fairness and frankness the responsibilities and shortcomings of both fraternities and faculties in this matter of scholarship and others. At the same time we intend to show the distinction between a fraternity's "duty" to the college and the college's debt to the fraternity. Some pertinent points brought out in Bro. Kind's excellent article on "The Honor System," presented in another part of this number, impell us to anticipate a part of this proposed consideration.

If we believe that the highest duty of the college to the individual is the moulding of his character, the implanting of high ideals and the inculcation of sound moral principles, we must confess that the college falls short. Its methods are inadequate and ineffective—even when the intention is good and a conscientious effort is made. Fraternities are responsible for ninety per cent. of a man's acquisition of these qualities of mind and character that make for good citizenship and service to humanity; and the fraternity that is striving to be of the greatest help to its members should be eager to step in and assume the responsibilities the college neglects.

There is no more essential a quality for a college man's grapple with the real world than honesty. He should have ingrained in his character an honesty that goes beyond a mere adherence to the business world's code of financial honesty. He needs to be honest and square in his relation to his neighbor, but most of all he must be honest with himself. We will not stop to weigh the honesty of much of our class room teaching, nor attempt to determine how much of it is an honest attempt to discover and present the truth—or how much of it is a blind slavishness to traditions and prejudice. The particular phase for consideration now is the honesty of the average college man toward his classroom work. In Bro. Kind's article it has been boiled down to a question of cheating in examinations. It is a strong indictment of college methods and ideals that this practice is so common and that the attitude of the average student body is so callous. Things are not right when college sentiment tacitly accepts and condones such practices.

In almost all cases where higher ideals have been established and a cleaner atmosphere created the change has

been brought about by the students themselves—and generally in the face of faculty opposition. The objection to the Honor System is raised that fraternities present one of the obstacles to the successful working of the System. It may be true that a fraternity man will be reluctant to inform on a fraternity brother. But a fraternity can exercise a much more effective discipline of its members than can any other student or faculty organization. We know of one case in point. A freshman in one of our chapters was reported to the faculty committee for cheating in examinations. The chairman of the committee communicated the facts to the head of that chapter and agreed to suspend discipline if the chapter would assume future responsibility for the freshman. A second offense was reported. The freshman swore on his most solemn fraternal oath that he was guiltless, but there was indisputable proof of his guilt. For his perjury the chapter expelled him and the faculty did likewise.

The active chapters of Delta Tau Delta have responded nobly to our requirements of higher ideals and aims in scholarship. Will they not go a step further and assume a responsibility for their members in which the colleges fail? We hope that each chapter will rise superior to its general student body's leniency toward dishonesty and cheating in examinations; and will, for its own members at least, establish a rigid standard of honesty in all college work. We do not base this plea primarily on moral grounds—but for the vital benefit of wearers of the square badge. Then let this same high standard of honesty apply to college politics as well.

**THE  
GREAT  
KARNEA**

Both active and alumni chapters are showing by the vim with which they have returned to their labors this fall the inspiration and the stimulus gained from the

Forty-First Karnea.

The number in attendance at the recent Karnea is cause for gratification, not so much because it sets a high water mark for size of any fraternity convention, but on account of its indication of present conditions and its prophecy of future results. In the large number of alumni present we had convincingly demonstrated the hold Delta Tau Delta keeps on her sons after graduation and the abiding power of their loyalty and love for the Fraternity of their allegiance. The fact that so many men were exposed to the Karnea's contagion of Delta Tau Delta enthusiasm means that not only will they become infected with it—but that they will spread this beneficent disease until the entire Fraternity is swept by an epidemic of renewed zeal for Delta Tau Delta.

If our powers of observation and deduction are of any value, three important facts were driven home by the Karnea. Older alumni especially appreciated the great evenness of type exhibited by some three hundred undergraduates. We heard the expression on all sides, "They look as though they were all initiated by, and members of, the same chapter." This very gratifying condition is the reason for the harmonious, smooth and effective team work of Delta Tau Delta, which, combined with an unselfish regard for the Fraternity's best interests alone, so noticeably marked all the discussions and deliberations of the business sessions. This evidence of single-hearted loyalty and level-headed judgment guarantees future progress, and it was abundant reward for those brothers who

have labored so hard and conscientiously for the Cause. The Karnea also should have brought a realization as nothing else could of the great progress Delta Tau Delta has made, the enviable position she occupies today and her bright prospects for the future.

The faithful labors of the Karnea Committee which insured the great success of the occasion were a fine example of what results could be secured by hard work and system. No detail was overlooked, and the result was that everything moved with the precision and smoothness of well-oiled clock work. These men deserve, and have, the deepest gratitude of the Fraternity; but they will find their real reward in the consciousness of an exceptional and specific opportunity for service, seized and developed into a valuable contribution to Delta Tau Delta's greater glory.

For some nine hundred Delts the Forty-first Karnea is now a glowing memory. It should be more. Alumni brothers should feel a greater pride than ever that they are enrolled under the banner of Purple, White and Gold and their interest should have been fanned to white heat. The actives should have taken back to their respective chapters the great lesson the Karnea taught them, and these men are responsible for the inculcation in all their chapter mates of these truths. The delegates understand the policies of the Fraternity as never before, the reason for them, their value and their almost unanimous adoption or endorsement by the Karnea. Now it is their duty in especial to see that their chapters fall in line, keep step and, shoulder to shoulder, press forward with unbroken ranks to storm and capture the strong citadel of Delta Tau Delta's high destiny.

**GOOD WORK IN  
DIXIE-LAND**

One of the most gratifying conditions in the Fraternity is the awakening of the Southern Division. Our chapters in the Southland have always been of first rank in their respective local fields, and the men on whom they have bestowed the square badge are of the finest Delt type. But in the past they have not been prompt in the discharge of their duties to the national Fraternity nor as generally active and progressive as their sister chapters.

Isolation and many other conditions have militated against the solidarity of the Southern Division and have made difficult a true conception of Delta Tau Delta in its great national aspect. We trust a permanent improvement has been made in all these respects and that the Division will be no laggard in the general progress of the Fraternity.

The Southern Division will be greatly strengthened by the return of Beta Delta's charter to the members of the Utopian Club at the University of Georgia. The re-established chapter will make its formal bow in the January RAINBOW, and we will reserve our greetings until then. But at this time we want to call especial attention to the Conference of the Southern Division and the Installation of Beta Delta at Athens, Ga., December 2, 1911. This will be the greatest gathering of Delts the South has ever seen, and no brother who can possibly make it should neglect this opportunity to revive his Delt loyalty and take on board a fresh supply of Fraternity enthusiasm.

Our Southern alumni chapters have also awakened to a new life of activity. We hope to see these alumni chapters run the active chapters a close race in enthusiasm and energetic work. The handicap of isolation should be

largely removed by the publication of *The Dixie Delta* by the President of the Southern Division, Bro. Smith. The Fraternity welcomes all these signs of activity in the Southern Division and wishes the brothers all success.

---

### **THE RAINBOW SUBSCRIPTION CAMPAIGN**

In the advertising section of this number will be found the results at the close of the Subscription Campaign, September first. Beta Upsilon wins the tankard for highest percentage rank, and Gamma Xi becomes the possessor of the tobacco jar with a clean record of every alumnus a subscriber.

Except for Fraternity emulation, the contest has not been entirely fair to those older chapters with a large alumni list going back to the early classes. But we were unable to devise any scheme that would offer a more even chance for all. If any brother can suggest such a scheme we shall be very grateful.

We hope the brothers appreciate that the more subscribers we have the better a RAINBOW can be produced. An active chapter should take a pride in having a large percentage of its alumni subscribers to THE RAINBOW, but it also reaps a benefit in the greater interest of such alumni. We trust the active chapters will appreciate their responsibility in this matter and during this year make a stronger effort than ever to bring their alumni into the fold.

A personal solicitation for a RAINBOW subscription from his active chapter has more effect on an alumnus than bushels of circular appeals. In the June number we expressed our appreciation to the chapters which had rendered effective co-operation along this line. But by

accident we overlooked Upsilon. This chapter secured a larger number of subscriptions than any other, and its secretary, Bro. Dickenson, wrote a large number of very effective personal letters. We are sure of their effectiveness, for several of the alumni were moved to send us the letters they had received from Bro. Dickenson.

---

We hope our subscribers will not neglect to advise us promptly of any change of address. Failure to do this has caused many lost RAINBOWS, and we have had to drop all too many subscribers because we could not learn their right address.

---

The Karnea Menu was a very handsome booklet, bearing an engraving of the Fraternity's birth-place on its cover. As long as the supply lasts copies may be obtained from Bro. W. L. McKay, 2308 Central St., Evanston, Ill. Send four cents for postage.

## The Delta Chapters

### Delinquent Chapters—Pi and Beta Tau

#### ALPHA

#### ALLEGHENY

Although we all anticipated coming back early we did not expect the full chapter in the house a week before school opened. The fifteen old men assembled from as many different places and occupations eager to get back to the "Old Stone House," a dream of past years and a realization of the present. We were not disappointed in the anticipation that Johnny McClellan would be ready with a full account of how he spent his summer vacation and how Denny had become one of the most artful in the use of the stiff arm from simply protecting himself in his walks of life. Nor are the accounts of Dago from the distant land of Canada less entertaining and instructive.

As the freshmen arrived on the hill our minds became more serious, for even though we had what is ordinarily a good-sized chapter here, we realized that the future would not look after itself, and accordingly after carefully looking over the qualifications of the different freshies we selected four who we know will merit the good-fellowship of Delta Tau Delta. They are Pierre Nichols, of Meadville, Pa.; George Crawford, of Cooperstown, Pa.; Roy Manne, of New Castle, Pa., and Homer Jacobs, of Emlenton, Pa. Several others are under surveillance, and with the four pledged we hope to carry off our share of the honors in Allegheny's century class.

The dedication of Montgomery Athletic Field has been postponed, and accordingly our opening game of football with Kenyon will be played on the old field lying several blocks from the college. In the game abroad with Cornell we were represented by Bros. Bodenhorn, Lavelly, and Sheffer. The team, although beaten, fought to the very end and the score of 35-0 does not do justice to the hard-fought battle. Allegheny expects to be able to hold the championship of the Western Pennsylvania League, which she won last season.

Colonel Lewis Walker made us a pleasant visit and brought with him a most beautiful Scotch Collie pup, which was immediately christened Badger Choctaw. Bro. Walker is welcome at all times, but especially when in the rushing season we wish candidates to be impressed with an ideal Alpha alumnus.

At the June Banquet Alpha had an honor of which she is justly proud. The actives gave to our President, James B. Curtis, and several of our alumni, the famous Choctaw Degree, which Alpha alone administers. The Indian camp was placed in the beautiful ravine back of the chapter house. The burly Bucks and Warriors presented a formidable array seldom outdone by the furious Choctaw ancestors. After the War Dance the Dog Feast was held in the Great Wigwam on the hill.

Bro. Bruce David spent several days with us during the opening of the year. He is taking an electrical engineering course in Harvard University. Bruce showed his practical knowledge of electricity in constructing and manipulating a wireless system between his home and one of the Scientific Halls of the college last year. Bro. W. B. Cole, whom we credit with putting us on our present good financial basis, visited us the opening week of school.

Both of these brothers held definite places in the chapter, which we will find it difficult to fill.

OSCAR BODENHORN.

## BETA

## OHIO UNIV.

Things have started with a rush this year at Ohio, and bright and early on the morning of September 11th Mrs. Jones and Mrs. Casey, our neighbors 'round the corner, could be heard heralding the return of "them Delts" as they busied themselves putting out the family washing.

Fraternity material of the incoming class was meagre, but we are congratulating ourselves upon those four future Delts who are wearing the square pledge button, doubtless the very pick of the 1915 horde. We are proud to bring before the world of Deltaism: Ronald L. Bean, the youngest of three brothers, all Delts of Athens; Perry Riley, younger brother to "Big Mike," also of Athens; Arthur D. Lynn, of Portsmouth, and Harry M. Trimble, of Bellaire. These men we feel will uphold the high standards of the Fraternity and will be strong in scholarship, athletics and in the general activities of the college.

The football outlook this year bids fair to eclipse any since the balmy days of '07. Coach Hinaman, of Case, has the men in fine condition and we expect to make a very creditable showing. Beta is represented on the team by Bros. Riley and Micklethwait at tackles and Ned Bean on an end and Renshaw at left half.

Bro. "Runt" Hughes is business manager of *The Athena*, the college annual, and we are gratified to note Bro. Edgar Bean's rise in the oratorical world.

Bros. "Floater" Gahn and "Budgie" Gullum, of Columbus, were with us in rushing season to lend grace and dignity to the general atmosphere of the house.

This year marks the fiftieth anniversary of the founding of our chapter. We actives feel grateful for our time-honored heritage and are making plans for a grand get-together at Commencement of all old Beta Men. Good-fellowship and the milk of human kindness will flow profusely. More will be heard of this movement later. Old Beta greets her sister chapters with brightest hopes for their success and we bid all Delts to partake of our hospitality when in striking distance of Athens.

SAM RENSHAW, JR.

#### GAMMA                      WASHINGTON AND JEFFERSON

On the thirteenth day of September, just one week before school opened, two ambitious brothers felt sufficiently recovered from the Karnea to wander into Washington, Pa. At the end of the six succeeding days sixteen had been gathered into the fold; only two, Bro. Patton, '12, and Bro. Arbuthnot, '14, failing to return. The house was put in condition before Tuesday, when the new men began to arrive and when the task of choosing the best from the incoming class began.

Although the freshman class of this year has more out-of-town fellows than usual the local institutions furnished us so few new students that the class numbering 113 is not quite so large as those of the past two years. However, the fraternities seemed to think it rich in material, for forty-one of the new men have been pledged. Of these we bid six and pledged six, beginning Tuesday we landed one each day for six days which was doing well; for we got good men, and with keen competition. The square button with the crossed Deltas is being displayed by the following: Jay Jackson (brother of one of our hard-working alumni), Pittsburgh; Cloyd Robb, Ligonier, Pa.;

Raymond Bracken, Columbus, O.; Henry Sutter and Howard Beck, Shelby, O., and Harold Baer, Uniontown, Pa. These men, together with Jay Gates, pledged last year, will be officially welcomed about the last of October.

When we arrived in town we had the pleasure of seeing our new physics hall well started. This building is of white brick and terra cotta and will cost \$50,000. While not so large as those of bigger schools, this laboratory will be as completely equipped as any. This addition to the college plant is the first result of a grand campaign for new buildings, and by itself will do much to get new men in school. The lack of laboratory facilities has not only hindered the men at the head of the physics department, but it has discouraged scientific students from entering here.

After long-continued and earnest agitation on the part of the student publications and the student senate, the faculty has agreed to give over one chapel period of each week to the students for discussion of subjects of general interest. While a regular chapel period of ten minutes seemed rather short for this performance, Penn State, from whom we are borrowing the scheme, does not use more time than that. The plan, while not perfectly elaborated, consists in general of the selection from the student body of a vigorous and interesting speaker to preside at the meetings and of a program committee of four, one from each of the classes, to choose the topic for discussion and the discussers of the topic. As these speakers may be either professors or students of any class we can get light on the subject from all sides. In this way we expect to create a better understanding between faculty and students and a better fellowship among the undergraduates. By thus getting an expression of opinion from the students

on all matters of importance, the student senate, the faculty, and the board of directors may all have a guide which was before unknown and which we believe they will find worthy of consideration.

The football prospects here are the best in three years. With the one year residence rule abolished more husky men than usual entered in September with the result that our former greatest difficulty, lack of weight on the team, has been somewhat remedied. This year's aggregation will average about 170 pounds to the man. Our first game, with Indiana Normal, we won by the score of 12-0, which was not so bad considering the experimenting done. Bro. Moodey was the only man we had in the game, although Bro. Gettemy and pledges Baer, Sutter, and Beck are on the squad.

Bros. Earle Jackson, '07, and "Ig." Borland, '10, came in time, and stayed long enough with us to render valuable assistance in our rushing season. Of our alumni Bros. Wm. Sherrard, ex '09; Dodd, '08; Hunter, '10; Young, '11; Arnold, '11; Ingham, '11, and Frew Hall, ex '13, have been with us, while several visitors from other chapters have been welcomed. Bros. Adams, of Beta Lambda; Batzell, of Gamma Omicron; Travis, of Chi, and Anthony, Terry, and Hamilton, of Beta Upsilon, more than usually wander far enough away from the beaten path to get into our town. If you are ever in Pittsburgh and have more time than you know what to do with, come over. It is not far, even if it does take from an hour to two hours to get here. If you are on your way between Cincinnati or Wheeling and Pittsburgh enjoy the scenery by coming on the B. & O. and stop off in Washington. Or if you come on a freight train it will most likely stop on the

crossing near our house long enough to let you give us more time than most of our wanderers can.

ROBERT W. SPANGLER.

## DELTA

## MICHIGAN

Following a week of lively rushing, Delta wishes to announce the following eight pledges: Henry Parsons, Elmira, N. Y.; Milton Zimmerman, Marine City, Mich.; Alan Labbé, St. Martinsville, La.; Ray Gould and Clare Gould, Saginaw, Mich.; Chester Dorland, Brooklyn, N. Y.; Malburn Champlin, Hammondsport, N. Y.; Raymond W. Taylor, Los Angeles, Cal. We expect to have four or five more before the end of the semester. Only seventeen men returned to school this fall, and a chapter of thirty is our usual size.

Indications point to an unusually good year for Delta, especially along the line of campus activities. Bros. Garrels and Hanlon are on the 'Varsity football squad, and we have a number of men who should show up prominently in various lines of college doings. School has just opened, however, and nothing has started on the campus.

At the graduation exercises last June, Dr. Guy L. Kiefer, Delta, '87, the Health Officer of Detroit, was given the honorary degree of Doctor of Public Health, while Joseph Ripley, Delta, '76, of Albany, N. Y., received an honorary degree in engineering. N. E. Degen, Delta, '86, of Grand Rapids, and Geo. S. Hill, '01, of San Francisco, were among the returning alumni.

Work on the first complete directory of chapter Delta is progressing, and it is hoped that it will be published by the middle of November.

Prospects for a whirlwind football team seem to be about to be fulfilled, judging from the excellent work at

the Case game, when we defeated the Cleveland school 24-0. Delta will have open house during the games this year, and any alumni or Delts who can attend will be shown a rousing good time. The home schedule is as follows: Oct. 21st, O. S. U. at Ann Arbor; Oct. 28th, Vanderbilt at Ann Arbor; Nov. 4th, Syracuse at Ann Arbor; Nov. 18th, Pennsylvania at Ann Arbor. The M. A. C. and Cornell and Nebraska games are away from home.

The attendance of the actives at the Karnea was somewhat of a disappointment, as only six were on hand, but the wonderful "pep" of the thirty alumni made the Karnea know that Michigan was on hand.

The initiation banquet will probably be given on the night of the Syracuse game, Nov. 4th. The usual custom of having it in Detroit will probably be followed. We hope that every alumnus who can possibly get away will attend this function and help make it a greater success than ever before. Invitations to all Delts in the vicinity will be sent out later.

OSCAR BECKMANN.

## EPSILON

## ALBION COLLEGE

Epsilon's house has again opened her doors and extended a hearty welcome to the enthusiastic actives, who are returning almost to a man to make this year the banner year for our chapter.

We feel the loss of our loyal seniors, who worked faithfully to make Delta Tau Delta the best Fraternity on the campus. Bro. Prentiss Brown has gone to the University of Illinois, having a scholarship there, to specialize in the study of Economics. Bro. Melvin Hollinshead is now Capt. Hollinshead, of the Nebraska Military Academy, at Lincoln, Nebraska, and now has a real bona-fide

uniform to wear. Bro. Lucius Smith has left for Brookfield, Missouri, where he will take up his ministerial duties. Bro. Smith has a fine parsonage, and is now looking for a help-mate. Bros. Henry Fallas and Wm. Slocum are attending other schools this year. Bro. Fallas is in Amherst College, and Bro. Slocum is now in Ann Arbor, where he will study engineering. Bro. Ned Smith has also gone to Ann Arbor to take advanced work in chemistry.

In spite of the loss of these good men Epsilon is taking her place in the front ranks of college activities this year. We have in our midst the President of the Y. M. C. A., the President of the Lecture Course Committee and the Editor of the college paper. We have men in every department of athletics, having three men on the football team, one regular and three candidates for the baseball team, and the captain and another regular on the basketball team.

At present we have four of the likeliest looking pledges on the hill: Zael Lutz, Howard Karcher, Claud Hyde, and "Octy" Graham. Both Lutz and Graham are baseball men, and Hyde is a fine tenor. Karcher is a good all-around man and a fine student.

Epsilon has been active also in the social way. We have had several "feeds" and good rousing gatherings in the house, and we are now planning for the most unique entertainment pulled off in college this year. Aided by our loyal alumni who have kindly consented to furnish their autos, we are going to have a big auto party on the evening of the Sixth inst. We will motor to a neighboring town where one of our alumni resides, and will there have a banquet in the hotel. Of course our lady

friends will be invited, and it will be quite a large social function.

The life in our house has been very much smoother and without friction this year. Last year was our first year in a house of our own, and there were so many things to arrange and clean up, it being a new house, that many things could not be attended to as they ought. This year has been very successful in the house thus far. Every phase of our house life is ably governed by individuals or committees, and from every indication Epsilon has the most prosperous and enjoyable year ahead of her that she has ever experienced.

FRANK FOOTITT.

## ZETA

## WESTERN RESERVE UNIV.

September 19th found eleven members of the old guard rounding up freshmen as fast as they were registered. After a careful survey of the class of '15 we have pledged six freshmen who bid fair to become the livest of Delts. They are: Raymond Portmann, of Massilon, O.; Edward D. Humphrey and Francis B. Martin, of Geneva, O., and Harold W. Yost, Thomas J. Herbert and Harold C. Knopf, all of Cleveland.

Freshman Yost is a brother of "Mac" Yost, who is head of the chapter this year, while Portman is a cousin of Muff, Doc and Art, the Zeta men who have covered themselves with so much mud and glory on Ohio football fields.

This year the Pan-Hellenic enforced the new rushing rule which prohibits the rushing of men until after they are registered in the university. So far it has been very successful, and will probably be continued. We are now

making a careful clean up of the rushing field, and may add one or two names to our list of pledges.

Seven actives and a large number of alumni attended the Chicago Karnea last August.

Before the opening of college the house was thoroughly renovated and the living rooms refurnished and decorated. Eleven men are now living in the house.

Zeta men are already getting into college activities, and we are well represented in all student organizations. Bro. Wells is President of the junior class; Bro. Yost, Leader of the Glee Club; Bros. Portman and Wells are members of the 'Varsity football team and Bros. Harsh and Nussdorfer are substitutes. In addition to these we have a number of minor offices.

Bro. Shawn, Beta Phi, '12, has affiliated with us. Bro. Barstow, Gamma Gamma, '14, is also in college. Bros. Jackson, Chi, '09, and McCabe, Mu, '09, are in Law School. Three of our men entered other institutions this fall. Bro. Van Buren, Zeta, '11, is in Harvard Law School. Bro. Bradley, '12, entered Oberlin Theological Seminary. Bro. Hassler, '13, is studying agriculture at Ohio State University.

Our annual initiation will be held on October 21st, and a large delegation of out-of-town Delts are expected.

LAWRENCE G. KING.

## KAPPA

## HILLSDALE COLLEGE

College opened for registration the 18th of September, and shortly there were eight active men back shaking hands and relating their summer experiences. Though our number was not large we quickly got busy and with the help of three old pledges we have had a very successful season. The actives back are Bros. Beal, Whaley, Myers,

Jenkins, Milliman, Reed, Bach and Tinkham. The old pledges are Taker, Wilson and Coldren. We have done nothing as yet in the social line other than some informal gatherings for new men. However, Bro. Shupp, ex '13, entertained the actives and pledges at dinner a short time before leaving for Chicago to enter the University. Our rushing so far has resulted in securing five of the best men on the campus, and we take pleasure in introducing to Delta Tau Delta Edwin Arthur, '13, of St. Johnsville, N. Y.; Dwight Harwood, '14, Plainwell, Mich.; Conway Peters, '15, Edon, Ohio; Carl Katzenmeyer, '15, and Glen Worden, '15, of Hillsdale. We are now settled in our new location at 4 Fayette Street, one block from the College. New furnishings were bought and installed during the summer and we have a very satisfactory place. So far we have been visited by Bro. Hess, of Mu Chapter, and Bro. Cook, of Delta, often dropped in before leaving for Ann Arbor. Any Delt is always welcome and we hope that none will overlook us when in town.

Hillsdale has a record-breaking attendance and classes are crowded. A new biological laboratory has been installed and many general improvements were made during the summer. What has pleased the student body the most is the new coach, John Hunt. He is a former De Pauw star and is building up a great team for Hillsdale. We won the first game, Oct. 14th, from Kalamazoo Normal, 14 to 6. Kappa was represented by Myers, Beal, and Harwood in the back field, and Wilson at center. We are disappointed that a confusion over dates has made a game with Albion impossible, as we would very much like to return the courtesy that Epsilon showed us when we

were there last year. The situation is very promising for Hillsdale in general and Kappa in particular.

FORREST D. TINKHAM.

## LAMBDA

## VANDERBILT

The opening of school found only six of Lambda's old men back. Much of this loss was due to the typhoid epidemic at the close of school, Bros. Bell, Anderson, and Reeves being out on this account. Bro. Stewart, of last year's class, is teaching and coaching the football team at Montgomery Bell Academy, while Bro. Butler is assistant instructor in bacteriology in the Medical College.

Although our loss was large, it has been largely replaced by Bro. J. S. Jones, of Beta Epsilon, who will affiliate with us, and by the seven men we have pledged, namely: James D. Everett, Bernard Evers, James C. Gordon, H. Grady Davis, C. H. Davis, John T. Swafford, and Henry Pointer.

Lambda was greatly honored by having the pleasure of giving Bro. Champ Clark an informal reception, while he was visiting the Tennessee State Fair. Bro. W. K. McAllister, who served on the Tennessee Supreme Court, but who is now a member of the Vanderbilt Law School faculty, was also at the reception.

Bro. Brown, one of our last year's freshmen, will again uphold the honor of Lambda on the 'Varsity football team, and pledge Swafford is a promising candidate for the team. Bro. Shelby has been elected Vice-President of the Sophomore Medical Class, and this being the only election up to date, we hope to place some of the officers in the other classes.

A new feature of Lambda's publicity campaign is *The Lambda News Letter*, which is published at frequent intervals, and sent to her alumni throughout the country.

The coming term promises to be one of scholastic activity, and we intend to set the pace in this line at Vanderbilt. To make certain of this we have appointed a committee to keep in touch with the class standing of each member.

The alumni of Lambda are never too busy to take an active interest in everything that concerns the welfare of the chapter, and it is pleasing to note the frequency of their visits to the chapter house.

We are very glad to hear of the revival of the chapter at Georgia, as we feel that it will greatly strengthen the Southern Division, and we anticipate with a great deal of pleasure a visit from our northern brothers who come down to install the Beta Delta Chapter.

WALTER C. CAMERON.

#### MU

#### OHIO WESLEYAN UNIV.

Chapter Mu has this fall realized what its members have been planning and striving for for the past decade or more. When college opened on September 20th, the chapter moved into its new \$18,000 home, just completed. It is the first house especially built for fraternity purposes at Ohio Wesleyan. As Editor Rogers has promised to let us tell the Fraternity about our house and how we got it, in the January RAINBOW, enough said now.

With the new house as an added incentive, the old men couldn't stay out this year, and eighteen of them found their way back to our Delta shelter. Bro. B. J. Dupre, of Beta Phi, also entered school this fall and is living with us.

Though somewhat handicapped by the fact that our house was not entirely finished by the opening of college, the end of rushing season found the crossed Deltas on

four of the most likely looking youngsters in the university. They are Lowell Heminger, '14, of Findlay, O.; Russell J. Calendar, of Delaware; Maynard Guss, of North Adams, Mass., and Lane W. Lancaster, of Bellaire, O., all of whom are freshmen. Heminger is on *The Transcript* staff, the college weekly, while Calendar is on the freshman football squad.

Bro. Tracey Jones was recently elected a member of the university court, while Bro. H. V. Campbell has been selected as Leader of the 'Varsity Glee Club. "Trace" is also making good as full back on the 'Varsity eleven this fall and is a member of the 'Varsity debate squad. We now have five men on *The Transcript* staff, including editor-in-chief, associate editor and business manager.

Nearly a dozen of the brethren from Beta visited us on the occasion of the football game with Ohio University. Division President Brandt C. Downey spent a day with us and sat down with us to the first meal in our new house.

HAROLD S. HOOVER.

NU

LAFAYETTE

The morning of September 14th broke bright and clear. At seven-fifty o'clock the college bell rang out its last call for chapel. The 1912 college year had begun. We mention these facts, not because they really did happen, but because, coincident with them, another day broke clear for chapter Nu; another year was started in her life; and another season of hard work had begun for her men who numbered sixteen.

The shaking down process, always felt at the start of a new year, is over; and out of it we have managed to find places for six pledges. Five of the best "Frosh."

and a mighty good sophomore are now wearing the pledge button of Delta Tau Delta. Judging from the looks and the past record of these men, they will be heard from in the near future. They line up as follows: B. Shupp, G. Lee, K. Kuebler, C. Davenport, R. Shilling, and J. Hess.

The usual welcoming back to college of one another came to an abrupt halt by the awful news of the death of Bro. P. Schoch. He was returning home from work on the Lehigh Valley Railroad when an express train struck and instantly killed him. His death will not only be greatly felt by the chapter, in which he was a good worker, but it will be greatly felt by the college upon the track, where he was a strong man to gather points, as the past season's record shows.

Among our visitors thus far this year was Bro. Palmer, of Beta Nu. We hope that many more of the good Deltas like him will find their way upon the hill when they visit Easton.

GEO. KEELY.

## OMICRON

## UNIV. OF IOWA

Rushing began with the good old Delt "pepp" the week before the opening of school, twelve old men being back ready to work for the school and the Fraternity. During the summer months our house was in the care of Bro. L. D. Lonergan, who turned it over to us this fall newly painted and remodeled—Thanks to "Lony!" From then until the opening of school, September 18th, Bro. Ed Feeney's car was in constant use, bringing freshmen to our house; and we didn't lose a "bid."

We were all ready then for our opening party of September 22nd. "King" Cole, of Beta Pi, who was visiting here, the eleven old men and twelve pledges enjoyed one

of the most elaborate parties ever given in our house. Twelve pledges—Count 'em—Arthur J. Feeney, Iowa City, Iowa; K. Amor Morrissey, Dubuque, Iowa; Carl Hemsworth, Waterloo, Iowa; Hal Mosier, Waupelo, Iowa; Joseph Murphy, Cedar Falls, Iowa; James Martin, Cedar Falls, Iowa; Clark Hemsworth, Waterloo, Iowa; Eugene Black, Fairfield, Iowa; Xavier Nady, Fairfield, Iowa; Albert Qually, Decora, Iowa; John Garret, Moulton, Iowa; Julian Geist, Cedar Falls, Iowa, and they are the cream of the freshman class.

In addition to losing three strong men by graduation, Bro. Wallace H. Wernli, "Simp" Keller and "Blondy" Hunter, Jr., did not put in appearance. We are glad to say that Bro. "Little Willie" Felkner has not as yet recovered from a severe attack of "rushitis," contracted about September 14th. "Bill" and his jokes still lead the bunch and it will be impossible for us to stop with twelve pledges, since a few good men are still on the campus.

Iowa has a strong football schedule this fall, our biggest game at home coming on November 18th, when we meet Ames. Omicron is hoping that the visiting Delt delegation will be large—we have a rather large table but there is always room for more.

Since it is a little early for the meeting of the Pan-Hellenic Council we are unable to give any report, but the requirements for initiation will probably be the same as last year.

Bro. "Bill" Williams of Primgar, Iowa, and his "family trunk" turned up late, but here nevertheless. He has enrolled as a freshman Law and is a valuable addition for what appears to be Omicron's most successful year.

BLAKE V. WILLIS.

PI

NO LETTER

RHO

STEVENS INST. OF TECH.

On September 23rd Stevens Institute commenced its forty-first year, and the Delts got together for a year that has very bright prospects.

At present there are twelve actives, but our initiation will soon increase that number to nineteen. Among other things that we have shown our freshmen is the "Ritualist's Plague," and they are assimilating the idea that to win once means to win again. To back this the fellows who were at the Karnea have not yet finished telling what happened.

About October fifteenth the Stevens Castle will be opened as a dormitory and Student's Union. This marks a new era in the history of the Institute; and as our house is but a stone's throw from the Castle we will be in the center of all activities.

The football and lacrosse teams have started in their fall schedules and the opening games have been played.

The men in the chapter have received many honors in class elections and we have all settled down for a good year's work.

C. S. TREWIN.

UPSILON

RENSSELAER POLY. INST.

Opening day, September 14th, found Upsilon with sixteen actives back at their posts ready for the duties of the year. During the past two years great advancement has been made in the scholastic standing of our chapter. This fall we are higher in rank than for years, and we are all intent on making this year the most successful

in scholarship as well as in the other student activities at Rensselaer.

The freshman class numbers 180. This is a little less than last year's class, the probable cause being a further increase in entrance requirements. But it is expected that as a result, fewer men will be dropped from classes, leaving a greater percentage to graduate.

This fall our campus is badly torn up because of the construction of two new buildings. The Administration Building, a gift of \$125,000 from the Pittsburgh alumni, is now nearing completion and will be occupied some time in the spring. The other is a new gymnasium. At Commencement last June the class of '87 pledged themselves for \$150,000 for an R. P. I. gym. It is to be one of the finest in the country, and no expense will be spared to make it so. Excavations for it have already been made. It is to be ready for use by June 1st, 1912.

Since school opened we have had the pleasure of welcoming the following Delts to our home: Bro. Stuart Lake, Beta Omicron; Bro. Beale, Delta; Bro. Weed, Gamma Lambda; Bro. Grigson, Gamma Zeta, and Bro. Doremur and Bro. Baker, Upsilon.

E. M. DICKINSON, JR.

## PHI

## WASHINGTON AND LEE

The university opened on September 14th with nine loyal Delts reporting for duty, all ready for another year that will be, we hope, as successful as the last one. The enrollment of the university bids fair to surpass that of last year and, from all indications, will be in excess of 675.

A gloom that cannot be dispelled was cast over the school by the resignation of our President, Dr. G. H.

Denny, to accept the Presidency of the University of Alabama. Every influence was brought to bear to retain him and a monster demonstration of the students was held, but all of no avail. His departure will be an irreparable loss, for his work as the head of this institution has been nothing short of marvelous.

At the present writing the prospects are fine for a winning football team. So great is the abundance of new material, that it is a foregone conclusion that several of last year's 'Varsity men will be unable to get their places back.

Coach Pollard, together with his assistant, Derrill Pratt, a former University of Alabama star, has been busy rounding the team into shape, and if the first game is any criterion it is surely a winning combination. Roanoke College was swamped 61 to 0 on a muddy field where fast play was impossible but where team work and good coaching were at all times in evidence. The schedule contains a number of hard games and a decided innovation in the shape of a Thanksgiving game with Tulane, at New Orleans. While they are not our natural rivals, it will be a splendid opportunity for Washington and Lee to test her strength with the colleges farther South. Phi is represented on the squad by Bros. Fiery and Ramsey.

Our chapter regrets very much the loss of Bros. Knote, Saunders and Winborne, who obtained their law degrees, and are, we are pleased to say, well on the way to the top of the legal ladder. Bros. Gates and Clark will not return, nor will Bro. Noell, Editor-in-Chief of last year's annual, who has accepted a position on *The Baltimore Sun*.

The rushing has been rather strenuous this year owing to a scarcity of material, but Phi has made as good, if not a better, record than anyone; for, so far, we have

succeeded in placing the square badge on five men: J. R. Strong, of Dallas, Texas; W. H. Smith, of Richmond, Virginia; R. W. Winborne, of Roanoke, Virginia, brother of R. M. Winborne, '11; J. S. Bostwright, of Danville, Virginia, and E. M. Barber, of Graham, Virginia.

To our number has also been added Bro. B. D. Causey, a member of the chapter in 1899-'02, who has returned for the study of law, and Bro. C. B. Foster, who became a Delt at Gamma Beta.

The outlook is exceedingly bright for Phi this year, and although early in the year, honors have already commenced coming our way. Bro. Hannis has been elected Vice-President of the Student Body and has also become an instructor in mathematics. Bro. Hood was elected President of the senior class and also to membership in the cotillion club. Bro. Shiles has been elected Assistant Manager of the 'Varsity baseball team, also to membership in the cotillion club and will lead the sophomore cotillion. Pledge Strong is Secretary-Treasurer of the freshman class. Bro. Peters, President of the Final Ball, is also President of the Dramatic Club, of the Combined Musical Clubs and Business Manager of *The Southern Collegian*. He has not returned to school yet, but will shortly.

We are glad to have back with us Bro. Lynn, who was forced to leave school last year on account of serious illness. Bro. Finnicum, of Beta, has paid us a visit this year and the chapter was also honored by a visit from Bro. Kendrick Charles Babcock, former President of the Fraternity, who signed the charter of this chapter.

It is not often that Phi has the pleasure of entertaining members of the Arch Chapter, either past or present, so naturally a rousing welcome awaits any one of them.

We are planning to hold our annual reception and wish to assure every Delt everywhere that, at that, or any other time he will find the warmest kind of welcome awaiting him in Lexington.

R. D. RAMSEY.

## CHI

## KENYON

As is usual in the first chapter letter after the beginning of the fall term of college, the happenings of Commencement Week are to be discussed at some length. Last Commencement Chi made the week of unusual importance to the chapter's alumni by celebrating her thirtieth anniversary. In response to the series of letters which Chi had sent out to all her alumni announcing the coming event, some thirty of the brothers returned to the Hill. Delt spirit and enthusiasm ran high at the banquet, and the toasts, responded to by men whom Chi is justly proud, did much to make the anniversary a complete success and to imprint the memory of the event upon the minds and in the thoughts of all present. Commencement, however, had its drawbacks in that it took from Chi two faithful men in Bros. J. D. Southworth and A. G. Goldsmith; besides it bespoke the loss of Bros. R. A. Weaver and F. C. Marty, both of whom were among Chi's staunchest supporters and to whom she owes much for her predominance in college activities.

Once back on the Hill for another year of college work, the chief item of interest to the chapter was the rushing and pledging of new men. The entering class was small, but every active was on the Hill a couple of days before college opened in order to work hard for the interests of Chi. As a direct result six good men were pledged, whom we introduce to readers of *THE RAINBOW* with no

little pleasure. Their names are as follows: A. P. Roe, Piqua, O.; W. H. King, Lima, O.; T. G. Laney, Lima, O.; Harry Gayer, Sandusky, O.; E. L. Tiffany, Dayton, O.; J. Akers, Jr., Cleveland, O. Among the alumni who were with us during the rushing season were Bros. "Walt" Morris, "Ed" Southworth, "Toot" Cable, "Jim" Cable, "Bob" Weaver and Frank Marty. Bro. Appleton, of Beta Beta, was also on hand for a few days.

Thus far internal chapter interests have been dealt with exclusively. On the outside, however, football has our entire attention. The schedule this year is an exceedingly hard one for Kenyon and, on account of the lack of good material, this year as yet promises little more than a repetition of the last football season. Bro. Axtell, who by the way is captain of the team, is the only real veteran on the squad, and promises fair to equal, if not surpass, his former fine record. Besides "Cy" there are two other Chi men who are making places for themselves on the team, "Weary" Wonders and "Sam" Langmade.

The new Library, which everyone expected to be ready for use at the opening of college, still remains unfinished. The interior work has progressed and is progressing so very slowly that the building will not be ready for occupancy before the first of the year, or even perhaps the end of the semester. The Library, however, will, when it is finished, be one of which Kenyon can truly be proud.

Returning again to purely chapter concerns it can be said that the prospects for Chi are exceptionally good. Seven actives, including Bros. "Cy" Axtell, "Slats" Gaines, "Curly" Wheaton, "Weary" Wonders, "Mike" O'Ferrall, "Sam" Langmade and "Deacon" McMaster, have returned for work. Besides, Bro. "Pat" O'Ferrall is again at Bexley. With the six pledges we will march

down the path fourteen strong and our singing should make the other bunches sit up and take notice.

As in the two years previous, initiation will take place only after the matriculation examinations have been passed; accordingly, the exact date is not known. Chi, however, extends to the alumni a hearty invitation to be present.

V. C. McMASTER.

## PSI

## WOOSTER

The opening week saw nine of Psi's actives projecting themselves into view from as many points of the compass. Out of sixteen men last year four were lost by graduation and three were kept out of school by unavoidable circumstances.

The staunch old guard who remained, however, stuck to the guns with such good results that the fellows are with good reason jubilant. We now have two pledges who are eligible for initiation, besides twelve freshmen who will in all probability be initiated in February. The new bunch is composed of fellows of extremely classy and promising timber, as is evidenced by the fact that more than one rival fraternity did more than eye them madly. As to the personnel of this interesting bunch of young paladins, they are athletes, singers, musicians, students, debaters and society men, a truly representative bunch.

As for the old men: Bros. Evans, Weygandt, Kohr and Cunningham are all on the 'Varsity football squad, and each bids fair to make his "W." Bro. Weygandt is Manager of the Glee Club, which will also have its full quota of Psi's men. Bro. Monte Smith was recently elected Editor-in-Chief of *The Index*, the Wooster annual published by the junior class. Bro. Townsend, captain of

last year's freshman debating team should have an excellent look-in on one of the 'Varsity debating teams.

Wooster's prospects in general are as bright as those of Psi Chapter. Kenarden Lodge, our magnificent new men's dormitory, surpasses anything of its kind in the state. It is a Waldorf Astoria in everything except cost of living. Our new \$100,000 gymnasium, now in process of construction, is a lulu. With our ten new professors this year came a freshman class by far the largest in the history of the institution.

Bro. "Shock" Palmer, '09, recently of Boston Tech., has blown in several times recently and lent his charming bellow in furthering that form of vocal music which finds its best setting when the moon is brightest and the girls are sleepest.

During our rushing season we had the pleasure of a visit from Bro. Handerson, of Zeta Chapter. We sincerely hope that we will be the recipients of numerous visits from our various brothers during the year. Drop in, even if you can stay only an hour or two.

KARL J. DIGEL.

## OMEGA

## PENNSYLVANIA

Summer at last is over, and college is again in vogue, and the outlook for Omega is brighter than ever before. Although somewhat handicapped by the new inter-fraternity agreement, and the loss by graduation of four of our strongest brothers, our enthusiasm runs high.

During the summer many needed changes were made to the interior of the house, and the returning brothers were pleased with the result.

In our last letter the inter-fraternity agreement established here in regard to rushing and pledging of fresh-

men was outlined. Owing to it fraternities cannot pledge before December, but Omega is "holding her own" with the other fraternities and in December we will have the "button" on the best men in the freshman class. So far this agreement has worked fine and all fraternities here are pleased with it. Many things may be said for and against it, but the most important thing is that it gives the fraternity men ample time to look a man over, and likewise gives the "rushee" time to look the fraternity over.

Pennsylvania opened her football season by defeating Gettysburg. Bro. Dillon, who played tackle on last year's team, is again at the same place. Bros. Radford and Keenan, who played on last year's freshman team, are out for the 'Varsity and should make good before the year is over.

"Bill" Reeder, Karl Abbott, Weston, and "Bunny" Fisher are now business men. "Bill" is in the wholesale clothing business; Abbott, the hotel business; Weston, the architect business, and "Bunny," who could not make money fast enough, has gone to Alaska to dig for it.

Bro. Alexander has been elected to the Sphinx Senior Society and Bro. Dillon to the junior society, Phi Kappa Beta.

During the early part of the summer the cricket team made a trip into Canada and Bros. Evans and Keenan both members, report a fine trip. Keenan won his "P," having the highest bowling and batting average on the team.

"Reg" Goucher, Jack Dillon and "Bill" Hooker are again members of the Musical Clubs. John Alexander is an Editor of *The Pennsylvanian*, and "Ed" Crothers is once more on *The Red and Blue* staff. "Al" Saylor, who

hurt his eye a few days ago, is doing nicely and will soon be out of the hospital.

The door of Omega is always open and all brothers coming to or near Philadelphia are invited to come see us.

O. E. RADFORD.

#### BETA ALPHA

#### INDIANA

The opening of school this year found Beta Alpha in new quarters. We have now a smaller house which serves us well while we are working on plans to start a new home of our own. Alumni and actives are both working hard on the proposition and we hope to have the plans completed and the actual work commenced before many months have passed.

Eleven old men reported for the rush this year with their coats off and their sleeves rolled up for work. Bro. Hicks, of Beta Zeta, was among this number and to say that we were glad to have him expresses it mildly. He will be with us all year. These eleven men, under the guidance of Bro. Graves, succeeded in rounding up the best bunch of freshmen in school. We have a total of twelve men; and we take pleasure in introducing to the Delt world the following: Hugh Barnhart, Rochester, Ind.; Otto Englehart, Brazil, Ind.; J. Harvey Van Reed, Williamsport, Ind.; Hugh Lawrence, Peru, Ind.; Thomas Horan, Peru, Ind.; Joe Stephenson, South Bend, Ind.; Donald Vliet, Indianapolis, Ind.; Ralph Mitten, Worthington, Ind.; John Jordan, Indianapolis, Ind.; Lyman Brackett, Rochester, Ind.; Norval Harris, Terre Haute, Ind.; Richard Simmons, Bloomington, Ind.

These freshmen are already organized and are doing things. Otto Englehart was elected president of his class at the recent election and every freshman helped at this

election. Barnhart, Brackett, and Englehart are out for the freshman football team and are practically sure of a place on the team.

We should have five men on the freshman basketball team this year, for we have in Barnhart, Brackett, Vliet, Stephenson and Horan men that have represented their high schools in this sport.

Indiana continues to grow in every way. This year's enrollment will be larger than for any previous year, and there was a better bunch of freshmen entered school this year than in former years. The university has made many improvements and is making more to accommodate the larger enrollment.

Our football team bids fair to be the best that has represented us in many years. Beta Alpha has no men on this team, but all are trying to help it win the conference title this year. Basketball and track practice has begun here. Bro. Graves will hold down his old position on the 'Varsity Five and Bro. Bose will captain the track team. He is now working with the cross country team, of which he was a member last year. We have a beautiful trophy to decorate our walls this year. Our chapter baseball team carried off the honors last spring in the inter-fraternity series.

We start our Social activities on the twenty-first of this month by having our first dance. Any Delt is welcome. We expect to make this a big affair and to give our freshmen an insight into what we can do in this line.

We are always at home and are glad to welcome any Delt that comes our way. We have already had visits from several loyal Deltas, the chief of these being Dr. W. D. Howe, who is head of the English Department here.

MARTIN T. PATTON.

## BETA BETA

DE PAUW UNIV.

Another session of nine months opened at De Pauw September 18th, and seventeen tried and trusted Beta Beta warriors were back on the job with blood in their eyes, all eagerly awaiting the fight which would ensue during the coming three or four days. There is no doubt but that success will result from careful planning and thoughtful preparation in any phase of life, and it is to these credentials that we attribute our success in the rushing campaign this year. The entire summer was spent in writing to prospective men, dating them up and talking to them individually—until we had six men pledged before school opened (perigorically speaking). And “the seventeen” was certainly a loyal bunch, for most of them returned three or four days before registration in order to clean the rugs, carpets, windows, etc.; in fact, to overhaul the house in general and to make it have an attractive and welcome appearance. And as a result we have welcomed ten “gold square prizes” into our midst. So, brother Delts, we beg to introduce to you the following pledges: Carl Smith, Don Smith, Stroh; Ben Lurie, Harry Gadbury, Marion; Carson Light, Pekin, Ill.; Mitchell Tilotson, Lafayette; Eldie Troxell, Gordon Thomas, Ward Byrkit, Dorsey Mead Anderson, Greencastle.

Bro. Hulverson, who has been instructing young America in the Interlacken School for Boys at La Porte, Ind., is again with the old guard this year. Also Bro. White, who was one of the head guys in the Swift Packing Co., Chicago, since changed into convincing the people that they should use “Wear-Ever” Aluminum Cooking Utensils in their homes, has decided to cast his lot with the “Betar Betars” this year. With these two additions and with the ten future Delts we feel as if we occupy the most

prominent place among the nine fraternities at De Pauw University.

Bro. Ira B. Blackstock has certainly done more for this chapter than we can here express, and it is no more than right to let the other Delts know how loyal he has been to us. This summer he had a "bran" new furnace put in our house; he has given us several gifts, financially and otherwise; and for every dollar that is given by our alumni to pay off the house notes, he gives an equal amount. He was down as usual to our spike this year and was as lively and enthusiastic as was Ponce de Leon when he discovered the "Fountain of Youth." Our adopted brother, Elam Neal, is another example of loyalty. Every week or so he runs over to see his son George and to greet the bunch. Example No. 3 is Carl Mote, one of the big squeezes of *The Indianapolis Sun*. Carl was over one evening during the spike and the way he talked to one of the yearlings was so convincing that the young gentleman thought his name was mud instead of Tillotson, and Carl didn't have to use his reserve force at that.

On the 'Varsity football team we have Bros. Tucker, Long, Moore and in all probability pledge Thomas. We have the Editor-in-Chief of *The Depauw Daily*; Business Manager of the same; in fact, we nearly run that paper. Recently one of our members was elected President of the Athletic Board; the President of the Press Club and Vice-President of Sigma Delta Chi fall to our lot. Time and space will not permit the enumeration of the many other reputable positions which we hold in college affairs.

But there is one thing which we must not forget. Bro. McConnell, who occupies the presidential chair of this university, shows no favoritism for this chapter, but time and again he has favored us and has advised us in many

chapter undertakings. In fact, we generally go to him as our chief counsel and we want him to feel, through our RAINBOW letter, that we sincerely appreciate what he has done for us.

This letter will soon become a story, so it must now come to an end. We welcome all our brothers and especially our alumni back to spend a few hours with us. Don't think you will feel out of place, for it is our intention to make you feel in place.

E. R. PATTERSON.

#### BETA GAMMA

#### WISCONSIN

At this writing, school has been in session barely a week and hence news, both of the college and of the chapter, is still in its rudimentary state.

Due largely to the stimulus of our "real" new house, fifteen of the old men returned to college this year. The rule, laid down last year by the faculty, that freshmen can not be initiated into fraternities from the fall of 1912 on, was another drawing card for the old men, as it made competition among the fraternities very interesting. Through hard work we have secured thus far this season eleven new men—men who, we are positive, will make excellent Delts. Here is our winning eleven: Messrs. George M. Murphy, Oconto, Wis.; Frederick E. Niedringhaus and Chester E. Parker, St. Louis, Mo.; James B. Leonard, Boston, Mass.; Carl E. Conron, Danville, Ill.; Oscar W. Schmidt, Milwaukee, Wis.; John E. Gefall, Vienna, Austria; John A. Williams, George J. M. Cooper, Joseph T. Steuer and David B. Ogden, all of Chicago, Ill. These men are representative of nearly every college course and of nearly every nationality—the first time in our history.

We are indebted to Bros. Smith and Hecht, boosted by many loyal alumni, for the fact that our new house is now patiently waiting for a roof. The building is of Madison sandstone, laid in its crude state, will accommodate twenty-four men and, when completed, will be the most formidable competitor in any line of Madison architecture. We all thank Bro. Edwin Seipp, of Chicago, for this. We hope every Delt, who finds it possible, will take advantage of our "house warming" sometime about the first of January.

Our football prospects this year are excellent, due to the abundance of seasoned and unseasoned material and the ability of our coaches. No team could possibly be a failure when coached by a patient Richards and an aggressive Driver. Complying with the prophecy of Steffens, the men are heavy and swift and surely "capable of line plunges." Watch our eleven when we tackle the Big Eight!

Remember—*All Delts*—our temporary quarters are at 222 Langdon Street, and you all are heartily welcome.

NORMAN A. ENGLISH.

#### BETA EPSILON

#### EMORY COLLEGE

Beta Epsilon returned only four men this year, but these were primed with unusual zeal and enthusiasm, urged on by the loyalty characteristic of true Delts.

Spiking season has been unusually profitable. We have the following new men: Bros. Edwards, Bass, Lovell, Thompson and Franklin. Mr. J. T. Dismuke, a pledged man, will be taken in at next meeting. We were aided materially in securing good men by the untiring efforts of our loyal alumni, who did not hesitate to spend time and money in behalf of Beta Epsilon.

Football prospects for Emory are exceptionally luminous. In line with her time-honored custom, Beta Epsilon will be represented noticeably on the gridiron. We expect great things from "Alphabet" Taylor and Jonny Jones. Several men are trying for places upon the relay team.

Bros. Edwards and Bass have joined the orchestra. Bro. Taylor is Secretary of the Student Body. Bro. Jack Jones is Business Manager of *The Emory Phoenix*.

Chapter house sentiments have revived and work has been begun with systematic earnestness to secure same. There is a general determination not to let our enthusiastic efforts wane.

Bros. Mizell, Peavy, and Gibson have honored us with visits, Bros. Mizell and Peavy being present during a part of the spiking season.

All of us anticipate attending the Conference of the Southern Division at Athens, and at the same time witness the re-establishment of Beta Delta.

We are always glad to warmly welcome Delts who happen in the vicinity of this little village, and will feel slighted if you pass us by.

E. W. STROZIER.

#### BETA ZETA

#### BUTLER COLLEGE

On the Twentieth day of September in the year of our Lord One Thousand Nine Hundred and Eleven a baker's dozen of Beta Zeta Delts decided that they thought it was about time to start the chapter's activities for the thirty-second year. Incidentally, Bro. Thomas C. Howe, President of Butler College, which is located near the chapter house, thought it might be well to open the doors of his knowledge factory. It came to pass that all of the lucky thirteen Delts wandered into the college and decided that

a college was a pretty good thing to have around a fraternity house.

Once upon a time during that same week the Delts decided that it might be appropriate to show the other Greek letter fraternities what they amounted to. So we looked over the annual consignment of verdant ones, sorted the sheep from the goats, then sorted the sheep over several times, and when rush week had passed the Delt pledge button could be seen across the campus adorning the coats of eleven of the pick of the freshman class.

Not a spike was lost. The new men are: Clarence H. Toon, George Spiegel, Clifford Handy, Evert Badger, Fred Jacobs, Reid Sprague, Charles Marshall, William Hacker, Ray Everson, Clarence Guedel and John Glendenning. Owing to a ruling of the faculty they cannot be initiated until they have completed successfully two terms of the college year. A freshman council has been organized, however, and the men are getting next to the spirit of the Fraternity in a way that makes the older men feel mighty good. Several of the new men already have made their marks in college activities and give promise of brilliant college careers.

The college year was opened with Beta Zeta in a new chapter house. We removed just prior to the opening of the school year to a new home at 5532 University Avenue two squares east of our former location. The house is an excellent one and everyone is pleased with our new location.

The college year opened auspiciously. The attendance is larger than at any time in the history of the college and everything is booming. The football squad turned out to be much stronger than was expected and the early contests were big victories for the Butlerites. We are

represented on the 'Varsity by Silver at right half and Joe Mullane at right guard. Many of our other men and several of the freshmen are giving a good account of themselves on the gridiron. Bro. Clarence Reidenbach has been appointed Student Manager of Athletics and has charge of the managerial end of the games. Prospects for basketball are excellent with Bro. Silver as captain of the squad.

We are still filled with memories of the Karnea, "the greatest ever," and we are taking this premature occasion to welcome every Delta to Indianapolis to attend the Karnea in 1913. Make up your mind now that you will be one of those who will answer present.

Beta Zeta proffers fraternal felicitations and best wishes and extends once again the old welcome to visit us.

FRED. E. SCHORTEMEIER.

## BETA ETA

## MINNESOTA

The university opened this fall with very cheery prospects for Beta Eta. The old men who returned are Bros. Luther, Tom Curtis, Ben Curtis, Beare, Jenswold, McGee, Gunderson and Boyle. These with Bro. Edwin Buehler, who hails from Beta Gamma, gave us a good nucleus to start with.

The mettle of her pledges is what Beta Eta is particularly proud of this year. We have one of the finest bunches of freshmen who ever put on the button, and we are proud to have them representing Delta Tau Delta around the campus. Our new pledgemen are: William Calloway, Harrison Root and George Kennedy, from Minneapolis West High; James Rush, from Minneapolis Central; Frank McFadden and Donald Stowell, from St. Paul Central; Kenneth Urquhart, from St. Paul Mechanic

Arts; Morrison Harris, of Duluth; Ferdinand Shumaker, of Ortonville, and Kenneth Ribble, of Brainerd. Besides these we have pledged, since the appearance of the last RAINBOW, John Martin, of Minneapolis East High. Johnny is a brother of Bro. Dean Martin, who graduated last June.

The football season opened Saturday, September 30th, with Ames. Although the weather prohibited the best football, our team looks mighty good and the 5-0 score against Ames does not indicate the relative strength of the two teams. Bro. Buehler and pledgemen Root and Calloway are all out on the squad and promise to develop into 'Varsity material.

The inauguration of President Vincent will take place October 18th, and a spirited celebration is being planned. On the eve of the inauguration a big torch light parade will be held; students and alumni of Minnesota and alumni representatives from other colleges will march in the parade. The boys will carry torches and the girls Japanese lanterns. All will wear gowns. Bro. Luther is chairman of the committee on arrangements. Bro. Ben Curtis has recently been elected President of the Junior Civil Engineers.

Our social season will be informally opened October 14th and 15th with a house party to be held at Bro. Luther's and pledgeman Kennedy's cottages on Lake Minnetonka. We are also planning for our first informal dancing party, which will be given some time in October in honor of our freshmen.

We have had the pleasure of having Bros. "Dad" Elliot, Brigman, Wieland, and also Bros. Powell and Lambert, who have been added to the faculty, visit us this

fall. We are still at 1009 University Avenue S. E. to welcome any visiting Delt.

Two new engineering buildings and two additional medical buildings which are rapidly nearing completion are going to add materially to the appearance of our campus.

The Phi Gamma Deltas are building a beautiful red brick house on University Avenue.

The best wishes of Beta Eta are extended to our sister chapters for a successful school year.

C. LAWRENCE BOYLE.

#### BETA THETA

#### UNIV. OF THE SOUTH

The university opened with a considerable increase in its enrollment over last year and with certain additions in its faculty which will materially strengthen it and fully close up the gaps caused by last year's resignations and the death of Dr. Cameron Piggot, Professor of Chemistry. The additions to the faculty are as follows:

Reginald Irving Raymond, B. S., B. D., Instructor in Biology; Alfred Henry Nolle, B. A., Instructor in Modern Languages; Colin McKenzie Mackall, B. A., B. S., (Chem.), Professor of Chemistry; Wilson Lloyd Bevan, Ph. D., Professor of History and Economics; Watson Selvage, M. A., Associate Professor of History and Philosophy.

We are very glad indeed to welcome Bro. Mackall to Sewanee. In the brief time of his association with us he has made many friends on the Mountain and his interest in the Active Chapter of the Fraternity here would almost rival that in Beta Iota, his parent chapter. He is admirably succeeding in his work as Professor of Chemistry

and there is every reason to suppose that the chair left vacant by the death of Dr. Piggot will be filled most creditably.

The Sewanee Military Academy is particularly flourishing. The Quintard Dormitory is full and the neighboring cottages are being fitted up to accommodate the overflow. The faculty of the Academy has likewise been considerably strengthened and the prospects of the school were never brighter. Particularly in an athletic way are these prospects bright, and the Academy should have a championship preparatory eleven this season.

The 'Varsity football material, while greater in numbers than in the past three years, is very light and it is going to be a difficult thing for Sewanee to make anything of a show against the heavy elevens which she goes up against this season. Bro. Henry Phillips is again assisting Mr. Cope in coaching the team. In the words of the Head Coach: "Our prospects this fall are about as good as they have been in the past two years. It is true that we have lost Lanier, Browne, Ward, Gillespie, Juhan and Faulkinberry, and that their places will be hard to fill. But we are going to fill those places no matter how hard it may be. We are up here to work, and work it will be, as the new men who have been on the squad for the past week can testify. The team that represents Sewanee this fall has got to be a fighting one in order to win. Remember, fellows, I said *fight*; and by *fight* I do not mean slug, but good, hard, clean, legitimate football; playing for all you are worth until the last whistle blows, no matter how the score stands."

Our football schedule is as follows:  
Sewanee vs. University of Georgia at Athens, October 21

---

Sewanee vs. University of Texas at Austin,	November 2
Sewanee vs. Tulane University at New Orleans,	November 4
Sewanee vs. Georgia Tech. at Atlanta,	November 11
Sewanee vs. University of Alabama at Birmingham,	November 18
Sewanee vs. Vanderbilt at Nashville,	November 30

Of the number of unconditioned freshmen in the university this year Beta Theta invited six and secured three. We take great pleasure in introducing our new pledges: Clarence Horner, of San Antonio, Texas; Levin Swiggett, of Sewanee, Tennessee, and John Staton, of Saluda, North Carolina. Several of the men we are rushing are still conditioned, but a petition is now pending with the faculty to establish their eligibility. Our chances for getting these men are good and we hope to report an additional number of pledges before long. We "bumped" other fraternities in securing two of the above men.

Bros. Ewing and Orr, of Gamma Kappa, were on the Mountain this past summer. There were also a large number of Sewanee Delts back on a visit. Bro. Fayette Ewing, an old Beta Theta man, was with us at the opening of the term, but was obliged to leave for Memphis "on business" shortly after his arrival.

EDMUND C. ARMES.

## BETA IOTA

## VIRGINIA

This issue of *THE RAINBOW* finds Beta Iota in a very flourishing condition, and the prospects for a successful year are most encouraging.

When the University of Virginia started, in September, its eighty-sixth session, there were thirteen active members of Beta Iota here to begin the year with renewed spirit

and zeal. To this number we were fortunate in adding by affiliation Bro. Stuart H. Gillmore, of Gamma Eta, and Bros. James C. Anderson and Ben. F. Wilson, of Gamma Iota. All three of these have that loyal Delta spirit and have been of great assistance in helping to rush.

The rushing season is now at its height and thus far we have pledged six men, whom we take pleasure in introducing to the Fraternity. They are: Henry Herbert Balch, of Oxford, Maryland; Robert Kent Gooch, of Charlottesville, Virginia; William Walton Rixey, of Charlottesville, Virginia; William Horace Rose, of Myersdale, Pennsylvania; Arthur Guy, of Washington, D. C., and Roger Bone, of Washington, D. C.

Football is the center of attraction at the present time, and although the season has barely begun there is every evidence that we will have a team up to our usual standard. Beta Iota is well represented on the gridiron and in nearly all of the college activities. Last spring we won the inter-fraternity baseball series and are now the proud possessors of a very handsome silver trophy cup.

Our new house, which for the past ten years has been our dream, but which, however, began to materialize only two years ago, was completed last June and formally opened with the house party during finals. It is a brick structure in the colonial style of architecture, three stories high and is strikingly imposing and beautiful. Every man in the chapter looks upon it with great pride and satisfaction.

The house party proved to be a most delightful affair and its success was greatly enhanced by the presence of some of our most loyal alumni: Bros. John Cutchins, Colin

Mackall, Jimmy Drake, Stuart Leake, "Potts" Easley, Charlie McVeigh, Billie Lamb, and Lewis Crenshaw.

In closing Beta Iota wishes her sister chapters the best of success during the coming year, and extends a warm welcome to all Deltas who may come to Charlottesville.

RUDOLPH TURK.

### BETA KAPPA

### COLORADO

With the opening of school this fall sixteen of last year's actives reported, ready for the rushing season. Bro. R. J. Bruner, Jr., returned to us, after a year's absence, and Bro. Hal. Cook, of Omicron, who was here last year, affiliated with us on his return this fall.

By graduation we lost three good Delts: "Bill" Edgar, a medic; "Pi" Hart, an engineer, and "Dode" Huffsmith, a culture student. Their term of service is by no means over, however, for, like all Beta Kappa men, they are taking a lively interest in the Active Chapter, and are with us as often as circumstances will permit.

The reported as missing when the roll was called are Bros. Ferd J. Lockhart, Carl A. Ritter, W. Archie Irwin, Bob Alexander, Louis Hart and Clifton Miller. Hart is rapidly recovering from typhoid fever, contracted on a camping trip this summer, and Clifton Miller has affiliated with the Beta Rho Chapter.

By the end of the second week at school we were laying back and congratulating ourselves for having picked a representative bunch of freshmen. There are eleven of these embryo Delts with us, at present, and all of them made of the stuff that does things—grit to the backbone. Three of them, John Lannon, Stanley Vaughan, and Stratton Martin are football men; Frank Divisek is a basketball man and is out for the team; Herbert Spring

is a baseball player and a politician. The remaining six, Burton Shattuck, George Mayne, Wylie Nichols, Albert Menig, Clarence Gilland and Boyd Freeman, are entering into the literary activities of the school.

Bro. John D. Rich, all Colorado half back last year, is going to retain the honor by playing in his accustomed place on a championship team.

We have had visits this fall from Bros. Hans Barkan, Charles A. Rice, Allan Beck, Walter Morris, George Stidger, Ammy B. Edgar, Ferd J. Lockhart, Frank Moorehead, Horace Dodge and Charles O. Huffsmith.

We have but one appeal to make. We would like to see every alumnus of Beta Kappa, and at any other chapter, up here at least once a year, and as many times more as it is possible for them to make it. We are so far from any other active chapter that we must rely wholly on ourselves and on the Denver Alumni Chapter to maintain the standard of Delta Tau Delta in this section of the country, and this is our appeal, the latch-string is always out, and we are ambitious.

GEO. T. HARLEY.

BETA LAMBDA

LEHIGH UNIV.

Surpassing our most sanguine expectations, Beta Lambda was exceedingly fortunate to have nine men back from last year to begin operations this fall. As is the case every year, each freshman class is thought to have less fraternity material than any of its predecessors, this year proving to be no exception, unless that the enrollment of the entering class this year is the smallest in the history of the university. However, we have equalled the best achievements of our greatest rivals in securing three of the most prominent freshmen in Harold Augustus

Brown, of Carbondale, Pa.; Louis George Glesmann, of Rome, N. Y., and Wharton Girard Ingram, of Philadelphia, Pa., and from the present indications there is every reason to believe that we will have two or three more pledged in the next fortnight.

Never before has a football season taken such a bright aspect as this year's, and it is in a large measure due to the substantial foundation laid last fall. With a nucleus from last season for Coach Reiter to continue his good work, there has been an influx of football material unprecedented in the history of Lehigh's athletics, and with the efficient services of our new athletic regime, the season should prove a most successful one.

Founder's Day is expected to be a greater occasion than any of those in the past, as the trustees of the university have changed the date from the second Thursday to the first Saturday in October to allow a larger number of the alumni to attend the exercises. Both the freshmen and sophomore teams have been practicing faithfully for their games, and it is expected the sports will be exceptionally interesting.

Several new members have been added to the faculty since last year, and the opening of the new Eckerly B. Coxe mining laboratory should be most beneficial to the student body. As this is only the second week of college, few important happenings have taken place, but everything will be well under way by the time for the next issue of *THE RAINBOW*.

H. L. ROONEY.

BETA MU

TUFTS COLLEGE

When the chapel bell pealed out for Registration on the Twenty-first of September, fifteen active Delts were

at their posts, their happy, ruddy faces showing that the long vacation had served its purpose and sent back a jolly, healthy crowd. This was not, however, their first appearance; for the house for some time past had been the scene of great activity resulting in a chapter home which was more hospitable and homelike than ever. But when it came to rushing, things were rather different than usual, for this year the number of entering students fell off decidedly from previous years, and the percentage of "on Hill" men was smaller than ever before. Nevertheless, we had the pick of the class, resulting in six corking members of the class of 1915 wearing the crossed Deltas.

The first of Beta Mu's second generation has appeared in the person of pledge Warren M. Fiske, of Mexico City, the son of W. H. Fiske, one of our charter members. The other pledges are: William Richardson, of Newtonville, Mass., and Earle Hewitt, of South Royalton, Vt., both from Goddard Seminary; Courtney N. Starkweather, of Plainfield, New Jersey; Raymond W. Newton, of Somerville, Mass., and Herbert T. Stanger, of Roslindale, Mass. Each is a star man and the glory of Delta Tau Delta at Tufts is certainly safe in their hands.

We are feeling quite encouraged concerning football here this fall; for after last year, with its failures as to victories, this year we have won our first game as a result of the hard work and conscientious coaching of our new coach, Tobin, of Dartmouth. Although the final line up is not determined, we feel sure that Beta Mu will be represented by Bro. Towsley, '14, and pledges Richardson and Newton. At our Athletic Association elections last spring Bro. Hudson, '12, was made Tennis Manager and practically every committee has its Delt representative.

The Musical Clubs under the management of Bro. Stryker, '13, are already looking forward to their trips through Vermont and New Hampshire at Christmas time, and south to Washington and Richmond, Va., at Easter. In addition to the manager and Brigham, '12, the leader of the Glee Club, we have the Associate Leader of the Mandolin Club and some half dozen men who have good prospects for the trips which serve as veritable loadstones in drawing out the material.

The whole crowd is wild over the stories from Chicago portrayed in most vivid terms by our Karnea delegate, and we are all after him day and night for new recitals, never tiring of hearing of the eight hundred and fifty Delts. And on the quiet—there's not a single one of us who missed that great event but who has taken oath, silently to be sure, to be present at the Karnea of 1913. The night of the great Karnea Banquet saw about thirty Delts in the neighborhood of Boston seated at a little "Karnea banquet" of their own, and the enthusiasm which ran high that evening surpasses description.

As yet our social life has hardly begun, and still we have had two most pleasant and successful rushing parties. It was certainly a joy to see how the alumni showed up at these times. If they only realized what good they did at this most critical time in the fraternity year by the impressions they make in the eyes of the entering class they would certainly come around more. But alumni and other Delts—don't wait for the rushing season to make us a visit, but drop in at any time; the door is never locked and there is always someone here to give you the welcome which only true Delts can bestow upon their brothers.

BURT A. HAZELTINE.

**BETA NU****MASS. INST. OF TECHNOLOGY**

In spite of the fact that the Institute opened on the 25th, nearly a week earlier than usual, Beta Nu had fifteen men back for rushing by the 20th. At the close of school last term we pledged Murtha P. Quinn, '13, of Pittsburgh, Pa., while our efforts this fall have resulted in the pledging of the following members of the class of 1915: H. P. Sabin, of Denver, Col.; T. N. Tolar, of Cambridge, Mass.; Benjamin Neilson, of Boston, Mass.; C. Coleman, of Como, Miss., and Julian K. Ferguson, of Louisville, Ky. The rushing season is by no means over as yet, however, and we hope to have as many more good men to put through in the November initiation.

We were represented at the Karnea by seven actives, six of whom are back in the chapter this fall, attempting to instil into their less fortunate brothers some of the enthusiasm gained at that great gathering.

The class and school elections have not taken place as yet, but when the results are announced there is no doubt that Beta Nu will still be able to maintain her reputation of being actively interested in all the student organizations.

It is expected that interest in the question of the new Technology site will revive with the return from Europe of President Maclaurin. The announcement of the choice of the corporation was eagerly awaited last spring, but in vain. We of this chapter are especially interested in having the question settled, so that we may go ahead with plans for a chapter house of our own.

JOHN L. BARRY, 3rd.

**BETA XI****TULANE**

With tales and details of the Karnea still being re-

counted (there were four Beta Xi actives in Chicago on the scene of action) Beta Xi was "doing guard duty" at the first ringing of the college bell. Of the eleven actives of last year, five have returned: Bros. Lemoine, Kahao; McLain, Spearing, and Naef. By graduation we lost Bros. Coleman, O'Keefe, and Sherwood, while Bros. Steele and Baskin have gone into business.

As the university year is but a couple of days old (or young) at this writing, Beta Xi is unable to report any rushing results, although we have already spotted several choice freshmen and hope to be able to introduce them to the Delt world in our next letter. The freshman class is not as large this year as last, but it does seem to be a case of quality rather than quantity.

Tulane's football prospects are unusually bright. The team was on a week's training camp, and has been out for practice every afternoon since, returning a week ago. We are looking forward to our games with Sewanee and L. S. U. with the greatest of interest.

The new \$60,000 engineering building, to be called Stanley Thomas Hall, is still being erected, and will probably be completed by the first of January. Work on the new gymnasium will begin soon, and on the completion of these two new buildings, Tulane will be one of the best equipped colleges in this part of the country.

Well, brother Delts, it's up to you to call on Beta Xi to show you a good time whenever you drop into New Orleans.

EMILE NAEF.

BETA OMICRON

CORNELL

Beta Omicron's prospects for the new year are indeed bright. Thirty-one old men have returned to college, an

unusually large number. Among these are Bro. "Gene" Bennett and Bro. "Gene" Smith. Bro. Bennett will pursue graduate work towards an M. A. degree. He has also secured an instructorship in the university. Bro. Smith will continue his work in C. E. Bro. "Stubby" Magner, Captain of last year's baseball and hockey teams, will return shortly to continue his law course.

Since our last letter Bro. Bowen and Bro. Murrell have been elected members of the Sphinx Head Society, which is made up of men who have done the most for the university. Bro. "Windy" Bennett has been elected to Dunstan, the sophomore society. Bro. Stockstrom has been successful in his competition for Assistant Business Manager of *The Widow* and has lately been elected to *The Widow* Board.

The new rushing system is in effect this year and no rushing was allowed until October 2nd. We have pledged John James Munns, '13, of Pittsburgh, Pa. "Jimmie" is a promising candidate for the football team and has already played in one of our two games. To date, we have also pledged two freshmen, Raymond Le Roy Shoemaker, of Washington, D. C., and Clifford Victor Herbert, of New York City. We have some very promising material at hand and expect to have some more pledges within the next few days. Bro. Cassius R. McBroom, who has entered Cornell this fall from Washington University, has been affiliated. We are surely glad to have "Mac" with us.

The football team started practice on September 12th, and the outlook for a successful season is very good. We have played two games so far, winning both by defeating Allegheny 35 to 0 and Colgate 6 to 0. An important change in our schedule has been made this year, in that Michigan has been substituted for Harvard. We are

represented on the squad by Bros. Lutz and Williams, and pledge Munns.

Beta Omicron wishes all the sister chapters a most successful year.

ANDREW R. McCOWN.

## BETA PI

## NORTHWESTERN

Starting the year with eighteen actives and twelve pledges of really superior merit, Beta Pi can well feel confident of success in all lines of activity at Northwestern this year.

Increased interest is being taken in athletics and the athletic board, of which Bro. Frank is treasurer, has formulated a plan for bringing about increased attendance at contests during the coming season. Bros. Burkhardt, Shephard and Gleason are out for 'Varsity football with excellent chances for making the team. We will be well represented in other lines of athletic activity which will begin later in the fall.

*The Northwestern Magazine*, of which Bro. Frank is Editor, and to which Bro. Armstrong is one of the chief contributors, promises to have an unusually successful season. Bros. Milroy and Marxen are members of the board of *The Northwestern Daily*, of which the former is one of the five desk editors.

Tryouts for the dramatic club come within a few weeks, as well as for debating contests. In all of these lines Beta Pi will be well represented.

One of the topics of interest is the planned erection of a chapter house to be built on the campus before next fall. Land will be furnished by the University, as well as assistance in the obtaining of loans. Plans preparatory

to the beginning of work of construction have been practically completed, and Delta Tau Delta will have the honor of being the pioneer in a movement which two or three other fraternities have started and which all will eventually follow.

Our alumni helped us to an unusual extent in rushing this year. Several of our best men were obtained partly through their efforts. Many thanks.

The pledges are as follows: Luther D. Friestedt, Chicago; Donald Dennis, Sioux Falls, S. D.; Claude Schneible, Chicago; Irving Wood, Evanston; Ralph Richards, Evanston; Clayton Hyslop, Beloit, Wis.; R. D. Synwalt, Edgewater; W. Glæ Paul, Prescott, Ariz.; Arthur Taylor, Wilmette; Benjamin Davy, De Kalb, Ill.; Reuben Davy, De Kalb, Ill.; Onor Davis, South Bend, Ind.

Those who returned for the year are: Armstrong, Baird, Carr, Carwardine, Burkhardt, Cole, Dwinnell, Ellis, Fisk, Frank, Gleeson, Ilgenfritz, Marxen, Milroy, Mondereau, Shepard, Thompson (Post-graduate) Johnson.

MERRILL DWINELL.

## BETA RHO

## STANFORD

Seldom have the prospects for a new year been brighter for Beta Rho than now. To start with, fifteen Deltas returned to college. Bro. Neil Wilson, who spent last year at Yale, is again with us; and, as an addition, we have among us the following new brothers: Allen F. Bullard, '15, of Los Angeles; N. Orville Brookins, '15, of Dayton, Ohio; Carey H. Nixon, '15, of Anawa, Iowa; L. Ernest Kelly, '14, of Oakland, Cal., and Brooks Tompkins, '15, of Los Angeles.

Before quitting college last fall we succeeded, after several hard-fought games, in winning the inter-fraternity baseball cup. Much interest was shown in the series—especially in the last two games in which we defeated Theta Delta Chi and Delta Upsilon successively, thereby completing the series and coming out victorious.

Bro. "Teb" Terry—that man Terry—who plays short-stop on the 'Varsity nine, won the other baseball cup for having the highest batting average of the season.

Four Delts—Bros. Little, Phillips, McInerny and Hall—were among the members of the glee and mandolin clubs who were chosen to go on the trip to Chicago last May and June. To hear them tell of the many good times they had while away would make anyone anxious to take such a trip. Before dispersing in Chicago, at a meeting of the mandolin club, Bro. Hall was elected president of that society for the ensuing year.

Not long after our return to college this fall the names of the men elected to the Quadrangle Club, Stanford's senior honorary society, were announced. Two out of the seven elected were Delts—namely, Bro. "Fin" Gilfillan, captain of the baseball nine, and Bro. "Jimmy" Thomas, Editor-in-Chief of *The Daily Palo Alto*, our college daily.

"The World and his Wife" was presented in the Assembly Hall last week by Sword and Sandals, the college dramatic society. Bro. Turpin had a lead in the play—playing the part of Pepito—and Bro. McConnell took the part of the servant.

The Karnea, that one big event in the careers of all true Delts, will be held in San Francisco, 1915. Hundreds upon hundreds of loyal Delts will visit San Francisco at that time. To these many men let me say that Beta Rho of Delta Tau Delta is but thirty miles away

from San Francisco, and any Delta near here cannot afford to miss a visit to Stanford where Beta Rho extends a glad hand.

A. R. McCONNELL.

BETA TAU

NO LETTER

BETA UPSILON

ILLINOIS

After spending the summer in numerous ways eighteen men from last year's chapter returned to the temporary quarters awaiting the completion of the new home. Considering the difficulties and inconveniences, this has been a most successful rushing season. Three men had been spiked last inter-scholastic and together with two other pledges returned to aid in adding more to the list. Without a house large enough to lodge the actives the rushing began, and is coming to a close with eleven men pledged at this time.

The football practice started on September 20th with prospects for another winning team. The game with Chicago is the most important of course, although the Minnesota team journeys down to play on November 25th, when the second annual home-coming will be held here. At that time, when the alumni are back to renew acquaintances and to meet the new Delts, the new house will be dedicated. The workmen will be ready to leave what we are proud to call the best fraternity house in Champaign, and the men of Beta Upsilon will move into the home with the realization of their dream fulfilled. It will be a glorious event when after years of waiting the oldest chapter at the University of Illinois will enter a residence worthy of her seniority.

In athletics Bro. Hall is trying out for end on the 'Varsity football team. Bro. Deardorf, an affiliate from Gamma Lambda, and pledge Decker have cast their lot with the freshman squad. Contrary to expectations Bro. P. M. Johnson has taken a farm in Minnesota and will not return this fall. He was expected to do great things on the gridiron, but the call to get an early start in his favorite occupation was too strong.

Several of the brothers have paid us visits even at this early date. "Pat" Allen, of Peoria, came over to look at the new house and meet the brothers. "Roy" Stipes has stopped his work long enough to drive out for a little chat. "Stiffy" Stedman has been on the ground since the rushing began to help in his usual way. "Kelly" Kelso continues to make this house his headquarters.

With the prospects of a new house and the many athletic contests and social events to add to the winter's amusements Beta Upsilon extends to all good Delts a most hearty and cordial welcome. There is no bell to ring, the door is never locked; so walk in for we always welcome a visitor.

V. WESCOTT.

#### BETA PHI

#### OHIO STATE

If a visitor had dropped in on the boys at the opening of the semester he would have found them with their sleeves rolled up, working as they used to in the old-time husking bees. For Beta Phi was moving into her new house at 1857 Indianola Avenue. There was an enormous amount of work to be done, but by dint of much elbow grease and plenty of hustling we had the work finished by registration day; and so we were not hampered in our rushing. We now have a large sixteen-room house, surrounded by

a fine lawn and in an excellent location. The first floor contains the parlor, dining room, a large hall, the den, billiard room and the kitchen. On the second floor are six bedrooms and bath, and on the third, five bedrooms and bath. We are all very proud of the house and feel that it is immeasurably superior to the old one.

Those who had been at our record-breaking Karnea came back with plenty of enthusiasm. Beta Phi's representation was not nearly so good as we had expected. The password now is "Me for Indianapolis" and we expect the chapter to turn out en masse. Great interest has also been taken in the idea of holding the 1915 Karnea at San Francisco, and several members have already signified their intention of making the long trip across the continent.

The result of our rushing season of 1911 was six promising pledges and we have more in view. They are as follows: Robert Bushnell, of Mansfield; Walden Grund, of Toledo; Clyde Griswold, of Kenton; William Wheaton, of Gallipolis; Horace Stueve and Clarence Stroebel, both from Cincinnati. At present the freshmen are a trifle puffed up over an overwhelming victory over the sophs in the cane rush. Next Wednesday they run a relay race with the Kappa Sigma and Beta Theta Pi "preps," and if they do not uphold the honor of Delta Tau Delta you may be sure that a trip to the bath tub awaits them. Bros. Hassler and Blythe, of Zeta and Beta, respectively, are also at Ohio State this year.

Beta Phi opened her social season with an informal dance at the Ohio Union on October 4th, introducing her freshmen. The affair certainly was a success, as the fellows can testify.

The men started their school activities this year by jumping into the school elections with a vim. As a result, Bro. Rosino was second highest man in the race for the Sophomore Student Council, by virtue of which fact he holds over next year. The fellows feel as if they can now to some extent pardon him for the stuff he forces us to eat at the house. Bro. Hanley was also elected Secretary-Treasurer of the McKinley Club. We feel sure that Beta Phi will have several men on the Social Committees also.

The "Ohio Union" surely has been a success this year, which is proven by the fact that the co-eds have registered a protest because women have access to the building only on Wednesday afternoons (and when dances are held there, of course). The reading rooms, lounging rooms, billiard rooms, restaurant, in fact the whole building is filled from morning to night. We feel that as a center of congregation and a place for wholesome recreation the Union cannot be surpassed. There are two other buildings now going up at the university, the Library Building and the Archaeological Museum, the construction of the library being well under way. These buildings will be valuable additions to "the most beautiful campus in the country."

Ohio State's football prospects are not very bright this year. We have a good coach in Vaughan, of Yale, but material is poor and we will have one of the lightest teams in years. "State" has already been virtually defeated when she twice was barely able to beat mediocre teams from small schools. Lately, however, the team has shown great improvement and the students hope it will be able to hold down both Michigan and Syracuse, as well as our

Ohio rivals. If Bro. Briggs keeps up his good work, he will be sure to get in some of the big games.

The chapter advisor and the alumni have shown much activity this year, and materially helped us in our rushing. We are indebted to Bros. Peterson and Rothwell for generous gifts for our new house. The alumni dinners continue to be very successful, the first Saturday of every month showing a large number of alumni and actives at the meeting place.

We have had quite a few visitors this year, among whom were Bro. Cobb, '07; Bro. W. M. McCleary, Gamma, '00; Bro. "Jimmie" Rothwell, '07, and Bro. Clements, '13. But we haven't had *too* many visitors. Drop around to 1857 Indianola and see if we have.

EDW. S. THOMAS.

#### BETA CHI

#### BROWN UNIV.

Beta Chi opened the year with twelve old members, including Bro. Gallant, who was compelled by ill health to leave us in the middle of last year, and Bro. Ingalls, who has entered Brown from Tufts. We regret that there are five men missing from our ranks: Bros. Brownville, Currier, Neal and Ossberg have left college to enter business; Bro. Hildebrecht has entered the Sheffield School at Yale. An early start in rushing, however, gave us, in spite of the fierce competition of nineteen other fraternities, eight of the best of the freshman class: John Randolph Carlson, Roxbury, Mass.; Roland Edes Copeland, Roxbury, Mass.; Clarence Frederic Corp, Providence, R. I.; Cecil M. P. Cross, Providence, R. I.; Harry E. Emmons, Jr., Brunswick, Me.; Carl De Kitt Everingham, Suncook, N. H.; Seth Kimball Mitchell, Haverhill, Mass.,

and Harold Earle Watson, Providence, R. I. They are all out for college honors in one line or another.

Bro. Daland is Manager of the track team and Associate Editor of *The Brown Daily Herald*. Bro. Conzelmen, who was the pitcher on last year's championship baseball team, is on the Cammarian Club, a student self-governing body, membership in which is considered a high honor. Mitchell, one of our pledges, is playing center on the Brown football team, which promises to excel even last year's team, the one which beat Yale 21-0.

On November the Eighteenth our initiation banquet will be held, at which we will celebrate the fifteenth anniversary of our chapter. At that time we expect to have Bros. Gray and Rankin explain how they "got away with" two of the Karnea cups this summer.

LOUIS C. TAYLOR.

#### BETA PSI

#### WABASH COLLEGE

When college opened we found that ten of our regulars had come back to ornament the campus and to stir things up for Delta Tau.

The freshman class was large, but there was a poor supply of good fraternity material. We picked out four of the youngsters and we are as proud of them as we are anxious to have you meet them. "Bill" Brown, Crawfordsville, had a Delt brother here before him. "Skuk" Ristine, Crawfordsville, was less fortunate in having two Beta brothers here in college a few years ago, but "Skuk" knows "Who's Who and Why" around here. "Bud" Russell, Hoopston, Ill., is a cousin of Bros. "Pop" and "Ty" Cobb, and was pledged last spring. "Pony" Dame, Oxford, Ind., could see Delta Tau over the heads of the other fraternities, even if "Pony" isn't as large as some

people we have seen. That's them, and you'll like 'em the minute you see them.

We were sorry to lose Bro. "Biddy" Gray, who went to Bradley Tech. We are looking for "Biddy" to come back some one of these days. Bro. Karl Huffine is out this term running one of his old man's factories, but is coming back next term. Bro. "Doc" Carlin left us for good and has gone into business. Bro. "Kang" Pantzer has entered Harvard. We miss the hungry Dutchman around here, and the college will miss him, too, when the track season begins.

Wabash has again organized a football team and will play the first game against Purdue on October 7th. The team was disbanded in the middle of the season last year upon the death of pledge Ralph Wilson, who was half-back on the team. Prospects for a winning year are not so good as they were last year, but the present team promises to be capable of upholding the old time scarlet reputation. Bro. "Skeet" Lambert is quarter on the team and the college is looking to him to win the Purdue game. Bro. "Louie" Bishop is making a good fight for an end position and will probably annex another "W" by the end of the season.

We had the house repapered and painted during the summer and it now looks much better. Both the Kappa Sigs and the Sigma Chis have new houses this fall, the former owning theirs, but neither house is as good as our own.

You can not please us in any way more than by coming down to see us.

ROBERT ROSS McCABE.

## BETA OMEGA

## CALIFORNIA

Well! Bos! Well! We're off again in a clinging cloud of colloidal clay. The intercollegiate Flunkstakes are on. Woops my dear! Grab the reins!

"Our dear old Alma Mater's calling, calling, calling,  
And gents her voice is hoarse,  
For the same old stuff we're falling, falling, falling,  
Of course we are, *of course!*"

Just now we are looking forward, the goggles well polished, toward a prosperous term. But we stumbled on a demand for a RAINBOW letter in the rack, and lit on our sentimental side, looking backwards. And scattered among the stars we saw several things.

They came, they saw, we conquered. What's that? Yes, six new vertebrae must keep the back-yard, no, bone-yard, Oh! I mean the back-bone straight, none of the sway-back stuff for us. Let me pause in this epistle to tell who they be. "Ted" Haley, "Doc" Bailey, Earl Parrish, and Gus Moller hail from Berkeley Town, Calif. Ellard Beans, a cousin to "Lima," and nephew to "String," shipped up from San Jose, and "Son" Parmelee, of the winged variety, flew up from San Diego. Cliff Rutledge and Ken Griffin, Ex '14, returned to college, making in all a well-rounded freshman class.

Too bad; yes eleven of the boys betook themselves to foreign parts, four of our seniors did us the honor to graduate. "Hank" Chandler and "Walt" Rivers entered that institution called "Tech" in Boston with much clamor and noise. "Ed" Coleman accompanied the boys, but fell off the train at Harvard. "Pink" Darmer, Leo Bradner, and "Os" Lawton are going to work. "Babe" Cleary, poor "lil" fellow, lost his little "nanny" and failed to show.

Ah! Shivers! Behold! Ken White, Ex '12, eased down from Alaska, after a year's work in the mines, and will finish college. Package, yes, two of them, C. O. D. "Kinc" Kincaid, Ex '11, "graduate" from Yale, and "Bob" Peebles, of Gamma Delta Chapter, his side kicker, are with us for a couple of years, taking post-graduate work. The "Shears" are right on the trail of our dear little "Kinc," so we keep him safely locked up.

On September 2nd, the aforementioned pieces of bone matter tripped the "light fantastic" and on the same evening were initiated into our mysteries. We postponed our banquet to the 23rd of the month, and believe me, "bo," it was a good one. Several fine talks escaped from "fletcherizers of the lint."

Our little smoker, in honor of the 'Varsity football team, saw one grand gathering of all the bunches about the campus. The "stunts" scheduled took well and I figure none went home dissatisfied. A bit more than a month and we journey south to the enemy's camp to indulge in our annual pig skin contest with the Cardinal. A veteran team; and our hopes are high that she can turn the trick again.

Gee! but the boys are getting into activities. Bros. Haley, Bailey, and Parrish made the glee club. "Ted" and Earle also have good parts in the treble clef play, "When Johnny Comes Marching Home." "Fat" Willoughby, because of his superb lung development, will render several ditties as the "Major." "Eddie" Walker, of Extravaganza fame, is managing the play. Earl Parrish has inside five-eighths well in hand, and believe me, that boy Beans will make the boys of the track team hustle if they want to catch him in the 880. The way the "Frosh"

are entering the big activities, to say nothing of class committees, is indeed pleasing to us.

Bros. White and Rodgers are on the 'Varsity squad. Bill Gay is instructing the squad out for fall baseball practice. "Jenny" Miller, because of his college work and job on the rally committee, did not try for his place on the debating team, but he will come back hard next term. Ken Griffin will no doubt accompany the mandolin club to the Hawaiian Islands this Christmas Vacation.

It is a little early in the term for further "dope" on this line. Must save a little for the next document.

When *you're* in town just ring the bell,  
You'll be welcome sure as—well,  
Just trot up and ring the bell.

RICHARD DYER JONES.

#### GAMMA ALPHA

#### CHICAGO

The college year opened October the Second with bright prospects for Gamma Alpha. The chapter lost Bros. Paul, Lewis and Trimble through graduation, and Bros. Fletcher and Charley Rothermel have left college. Bro. Trimble is back, however, and is studying law.

Thirteen actives reported and the affiliation of Bro. Hiram Lewis, of Gamma Theta, raised our number to fourteen actives. The rushing season has just begun, and Gamma Alpha already has secured seven of the finest freshmen on the campus. We certainly feel proud of our "frosh," and we expect great things from them. However, we have not quit, and we will probably pledge a few more before rushing season is over.

Our prospects for the football championship of the "Big Eight" are not very rosy, but Chicago can always

count on her team to fight to the last. Bro. Sauer is our only man on the team and is the star of the squad.

Gamma Alpha is taking her usual part in athletics, having three of the captains of the five principal teams for next year. Bro. "Pat" Page, of football, basketball, and baseball fame, has accepted the position of Assistant Director of Athletics at the university and is helping coach the teams.

In closing, Gamma Alpha wishes to extend her best wishes to her sister chapters, and cordially invites any Delt passing through town to make us a visit and look over our promising bunch of freshmen.

ROBERT W. MILLER.

#### GAMMA BETA

#### ARMOUR INST. OF TECH.

The school year once again rolled into shape at Armour Institute and found us with eighteen actives ready to take up business again. The registration shows the enrollment of freshmen to be less than in previous years. However, that did not materially affect our choice of desirable men and we feel that we have put the square button on as fine a bunch of freshmen as heretofore. The chapter held a rushing smoker on September 15th, and one again the following week, September 22nd. There was also a freshman hand-shake at the school on the same evening. The first house dance came September 23rd, when several rushees were present. At the present time we have the following men pledged: Messrs. John Aeberly, Chicago; Joseph F. Chamberlin, Chicago; Walter H. Hallstein, Chicago; A. F. Holden, Chicago; Philip Hockenberger, Columbus, Neb.; Joseph C. Norton, Farmington, Ill.; Earl E. Suders, Baraboo, Wis.; Walter Reitz, Chicago. The pledges left over from last year are Frank

G. Cooban, Chicago; Raymond Koch, Chicago, and Ormand Springer, Chicago. The initiation will be held October 20th, 21st and 23rd. The preliminary events will take place on Friday, the 20th. The real rough house, on Saturday and the Ritual on Monday. Monday evening there will be a theatre party and a little supper after.

This year's outlook is just as good as the previous ones. Bro. Sam Todd still holds that he is the only man that can manage *The Fulcrum*, and he is also manager of the Glee and Mandolin Clubs, which expect to take quite an extensive trip this year. The chairmanships of the four social committees are filled by Delts. Bro. King and pledge Hallstein are respectively President and Treasurer of the sophomore class.

The house is in better shape than at any time in the history of the chapter, having been all decorated and several pieces of new furniture having been added. Bro. John Bassett presented the chapter with a nice table and chair. Bro. Pratt also gave a table. Each of our alumni intends to give us a stein, which is to have his name on it. Bro. Pet Robinson was the first to present the chapter with his stein and we are anxiously awaiting the arrival of others.

Athletics at Armour have taken a new start and each class has track and basketball teams.

The same alumni are living in the house, while many drop in just for a short time. Among them was Bro. Jack Sullivan, of Gamma Mu. We hope that all Delts passing through the city will not forget that Gamma Beta has the same old place at 3142 Michigan Boulevard and drop in if only for a short time.

TOM. C. BOLTON.

## GAMMA GAMMA

## DARTMOUTH

The college year opened at Dartmouth on September 21st, last, and Gamma Gamma had thirty-one men back to go after the freshmen. The entering class contained some of the best fraternity material that has come into Dartmouth for some time, and Gamma Gamma is working hard to land a good delegation. Plans are progressing very well now and with well organized efforts during the chinning season, which comes from October 10th to the 1st of November, there is no reason why we will not land one of the best delegations that has been initiated into the chapter. Recommendations have come in to me from a large number outside of our own alumni, and I wish to express my thanks to all who have been so interested.

Naturally the chinning will keep us all busy from the 10th on; but regardless of this we have three brothers on the football squad, two are training for the fall track meet and one is holding up his end against the present freshman class in the fall series of baseball games. Prospects for a good football season are bright now. In the three games that Dartmouth has played of the schedule, the points won are 62, while her opponents have only 3 to their credit. Hard work in signal practice and scrimmage work with the second team will be the order from now on to the Princeton and Harvard games. It is the general impression on the campus that these two will be very closely contested games.

Gamma Gamma is still located on the top floor of the Davison Block, where we have six large rooms, these we have remodelled and refurnished throughout this fall.

The one big stunt that we are to pull through this year is the Initiation Banquet and the Tenth Reunion all in one. At this writing I can not give you the exact

date but will say that it will be some time around the 15th of November. Bro. Howard M. Clute, '11, D. M., '14, is chairman of the committee in charge of the function, and he will inform you as soon as possible about the matter in detail. One of the things that we are working for is the visit of President Curtis at this banquet, and as we have received a letter from him stating that he is planning a visit to Gamma Gamma this year, we feel quite certain that he will arrange to make it at the time of the banquet. When you do hear from Bro. Clute do not say you can not come, but just drop things for a few days and take a trip back to old Gamma Gamma and see what the actives have to offer you in the line of entertainment.

To all Delts, with our alumni, the actives wish to extend a most cordial invitation to our chapter hearthstone. Again let me urge upon all the alumni that this may come in sight of to be sure and make their plans to get up here for the tenth reunion. We will do the rest after you arrive in Hanover.

LLOYD H. BUGBEE.

#### GAMMA DELTA

#### WEST VIRGINIA

Our fall term began September 25th and found sixteen of our actives on the ground for the rushing season. We have three pledges carried over from last year and count ourselves fortunate in pledging four new men: Stewart Race, Fairmont, W. Va.; Bob Harrison, Clarksburg, W. Va.; Frank Hutchinson, Fairmont, W. Va.; Charlie Suisell, Grafton, W. Va. We still have several promising prospects.

We were some pleased to have Bros. Knote, of Phi; Howell, of Gamma Eta, and Laugh, of Gamma Delta, drop in for a few days at the beginning of the term. And

right here we would like to insist that all wandering Delts drop in to see us when in this neck of the woods.

The football outlook is very promising again this year. Three teams are out every day, and under the supervision of coaches Lender and Merrill great things are expected. Gamma Delta is represented by Capt. Bell, Bros. Floyd, Speer, Adams, Lively and pledge Harrison.

JOHN L. SMITH.

### GAMMA EPSILON

### COLUMBIA

We were particularly fortunate this year in having twenty-two men return to college. Although our losses are small in number we miss such men as Bros. Allen, Hoffman, Griffith, and Ayer.

Here at Columbia the competition for good men is very warm. The whole chapter reported a week ahead of time in order that we might get a first look at the entering class. At the present time we have three of the best freshmen pledged and expect to get the rest soon. Those pledged are Hamilton H. Howry, Denver, Col.; Randall H. Ormsbee, Texas, and Maurice Shibley, New York City. Howry is out for the basketball team and is somewhat of a musician. Ormsbee is a track man and Shibley, who is big enough to lick his brother, is out for crew.

At our first chapter meeting Bro. Keeler gave us one of his enthusiastic talks, and he certainly is some enthusiastic Delt. Several of the alumni offered a prize for the best decorated room in the house. As a result the house looks better than it ever has before. Bro. "Perk" Browning is back after being absent a year.

Delta Tau Delta is well represented on the campus, in fact, we have men in every branch of activity. Bro. "Ed"

Williams rowed 3 on the victorious freshman crew at Poughkeepsie. Bro. Patterson was also at Poughkeepsie. Bro. G. S. Shibley is on the 'Varsity baseball team and has a splendid chance for the basketball team. He is also Chairman of the *Junior Year Book*.

Columbia always gives one of the best college shows, and this year will be no exception, for Bro. Stevens is Assistant Manager. Bro. Harding is the star player of the hockey team. Bro. Burroughs is Assistant Manager. Bros. Brock and Roy Bonsib are on *The Spectator* board, while Bro. Ray Bonsib is the best quarter miler in college. The class elections come off soon, and the Delts expect to carry off several honors.

To hear the brethren talk of the good times at the Karnea this summer makes one plan to be at Indianapolis in 1913.

At a recent chapter meeting Bro. Mudd announced his engagement to Miss Esterbrook, of New York City. It was quite a surprise to everyone. At the present rate the chapter will be broke buying wedding presents.

A. H. BURROUGHS, JR.

#### GAMMA ZETA

#### WESLEYAN

Never has Gamma Zeta faced such a promising year. Of our thirty men, Bro. Morgan, '14, was the only one who failed to return. Seven fine freshmen have been added to our numbers. They are: Bros. Fred C. Holton, of Syracuse, N. Y.; Edward F. Nourse, of Berlin, Conn.; Junius S. Raboteau, of Brooklyn, N. Y.; Walter R. Stillman, of Watertown, N. Y.; Charles H. Taft, of Montclair, N. J.; Samuel H. Usher, of Brooklyn, N. Y., and Albert K. Dickenson, of Ivorytown, Conn. Bro. G. H.

Irwin, of Chapter Nu, has been affiliated, making a total of thirty-seven men.

The initiation banquet, held October 13th, was a roaring success, much of which was due to the presence of President Curtis. We were very glad to have many of the old alumni back with us for this occasion.

Bro. Mitchell, '12, was forced to resign the football captaincy on account of injuries. In spite of this, Gamma Zeta is well represented on the football squad by Bro. Grant, '12, Bros. Steeb, '14, and Allison, '14.

In the spring elections we were unusually successful, securing a majority of the offices. Bro. Hanna, '12, was elected President of the College Body and President of the Y. M. C. A.; Bro. Wendell, '13, was elected Captain of the Track Team; Bro. Carnall, '13, was elected Assistant Manager of the Track Team, and Bro. Potter, '13, was elected Assistant Manager of the Musical Clubs. Nor is Gamma Zeta lacking in high scholarship, for of our six men graduating last spring, Bros. Marsh, Wriston and Maynard were elected to Phi Beta Kappa.

For her sister chapter, Gamma Zeta wishes a most successful year; to all Delts a hearty welcome at any time is extended.

JOSEPH W. ROWE.

GAMMA ETA                      GEORGE WASHINGTON UNIV.

The 29th of September is the day the university opened for the season—not so with this chapter. For this makes the second year that we have kept the house and table running the entire summer, thus enabling our chapter dwelling to be the rallying place at all times for all loyal brothers. We thank the brothers who temporarily roomed

with us during the summer months for their help and hope that they will visit us again. Among them were Bros. Bullock, J. T. Miller, H. T. McGowan, Richard D. Jones, Gilbert Willoughby and Robert McM. Hunt.

Although school has only been open a week, our plans for rushing have been well perfected and we are pleased to note that Mr. Degnan, of the District of Columbia, is our first goat of this season. We shall hope to report that at least eight new men have joined our chapter before the next letter is due. Rushing at this university is carried on with great difficulty because of the inability of the members to meet the new men. This is due in part, if not wholly, from the fact that our various university buildings are scattered about the city.

We are glad to announce that Bros. Borland, of Gamma, has affiliated and become a member of the freshman law class; also that Bro. Parker, of Gamma Kappa, is now an affiliate of this chapter.

The house has just received its fall cleaning and is in very fine shape. We have plenty of room for all, so do not pass us by when in Washington.

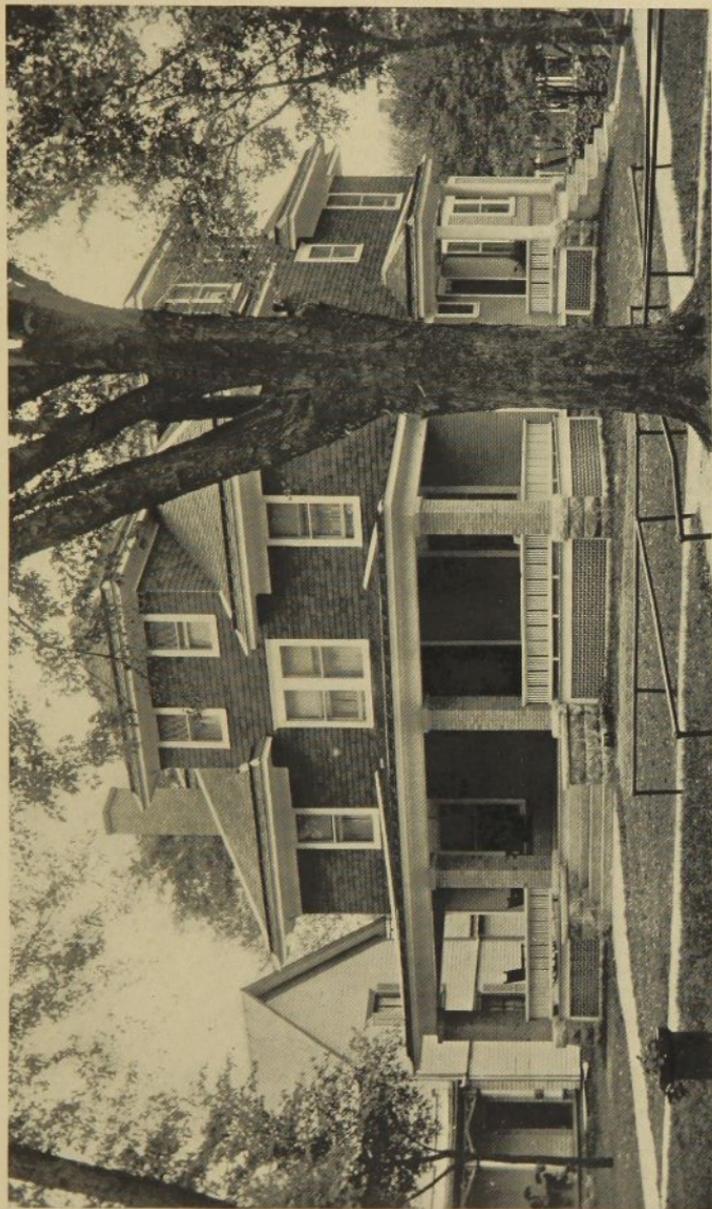

J. RAYMOND HOOVER.

#### GAMMA THETA

#### BAKER UNIV.

The new school year is well under way and all the signs point toward a prosperous year, both for the school and for the chapter.

Upon the 23rd to the 26th of September occurred probably the biggest events in Baker's history. At that time the exercises in connection with the inauguration of our new president, Dr. Wilbur N. Mason, were held. Upon Sunday, the 24th, President Taft and his party spent

Gamma Theta's New Home  
(Owned)  
Baker University

the day in Baldwin and attended the exercises. With the President of the United States and Senators and Congressmen and College Presidents and other such dignitaries the town received a taste of high life such as it had never had before. During the afternoon the chapter enjoyed visits from two prominent Delts; Dr. Francis J. McConnell, President of the Pe Pauw University, and Major Butt, Military Aide to the President.

Several of our alumni were here to enjoy the festivities.

At a meeting of the Board of Trustees the sum of \$90,000 was raised in the interest of the school so that it now seems that a brighter future is opening for Baker.

The fraternity situation this year is a somewhat peculiar one. For some time there has been considerable agitation among the trustees over the fraternity situation, some favoring sophomore pledging; some freshmen pledging after six weeks, and some unrestricted pledging. At the last meeting the sophomore rule was put into effect, and consequently we have no freshmen to bring out. It is hoped that upon account of local conditions which make the rule undesirable from the standpoint of the fraternities it will be repealed at the December meeting of the board.

Gamma Theta opened the year with ten men in the chapter and started housekeeping in our fine new home Bro. Callaway, however, was forced to leave school upon account of serious illness in his family.

We are proud of our new home and hope that if any Delt comes within hailing distance of Baldwin he will come around and help us enjoy its comforts.

WALLIS HOCH.

## GAMMA IOTA

## TEXAS

The University of Texas opened for matriculation on Wednesday, September 27th, and eleven active Delts were "on the job" to see that our house was spick and span and to look over the incoming freshmen. Nine of our last year's bunch returned, and Bro. Frank Fenille, who has been helping to dig the big ditch down in Panama, and Bro. Brevard Weaks, are with us again.

During the summer our house has been repapered and painted, and also improved by the addition of a big porch. We are all well satisfied with our quarters for the coming year.

Owing to Pan-Hellenic rules here, a man cannot be pledged until he has finished his matriculation, but we all got busy helping to matriculate the freshmen whom we had spotted, and at the end of the week Gamma Iota had four fine freshmen pledged. They are as follows: A. R. Ellis, Lockhart, Texas; Caldwell Nagle, Austin, Texas; Guy T. Robinson, Palestine, Texas, and N. H. Rather, Belton, Texas. Besides these, we have three men in view whom we hope to have pledged long before this letter is published.

We were very much pleased to find that Bro. E. G. Barnett, from Beta Rho Chapter, will be with us in school this year.

Now that rushing is diminishing in excitement, everybody is thinking about football. The season promises to be a bright one for Texas. The team has just returned from a two weeks' training camp at Marble Falls looking very fit.

It is a great disappointment to Gamma Iota and to the whole school that Bro. Clark Brown has been taken sick

with typhoid fever. We are glad to say that he is getting along nicely now. "Little" Brown was scheduled to play fullback this year for 'Varsity and would probably have been elected captain for next year. Speaking about captains, since the last RAINBOW, Bro. "Waddy" Baldwin has been elected captain of the baseball team for 1912.

We are all very much pleased with the success of the Karnea, as related to us by our delegate, Bro. Cappinger.

We had a short visit recently from Bro. Douglas Burnett, of Delta Chapter, who is now in Houston. We heartily invite all Delts in this part of the country to make it a point to stop at 610 W. 24th St., Austin, Texas, and see us.

JAS. B. ANDREWS.

#### GAMMA KAPPA

#### MISSOURI

The school year for 1911-12 opened at the University of Missouri September 21st, with twelve fraternities in the field, but Gamma Kappa was well in the lead with twelve live and enthusiastic Delts.

The new faculty ruling, passed last February, which prohibits the initiation of any man until he has received twenty-four hours' credit, went into effect with the opening of school. The usual good fraternity material was apparent around the campus, but in consequence of the new ruling rushing was most carefully and scientifically carried out. Gamma Kappa was most fortunate in placing the pledge button on four goats, none of whom will give us any anxiety as to their passing the necessary amount of work. They are: Wm. Phillips, Linnens, Mo.; Fred L. Chamberlain and Paul C. Simmons, Kirkwood, Mo., and Russell C. Richards, Louisiana, Mo. In addi-

tion to these four enthusiastic goats we congratulate ourselves on the opportunity to introduce our new brothers: Meade Woodsen, of Independence, Mo., and Robert Gart Shryock, of Kansas City, Mo.

To show that the Delts of Missouri are here for a purpose five members of Gamma Kappa received degrees last June. They are: Bros. "Shang" Magruder, "Jedge" Higbee, "Petala" Orr and "Billy" Cowperthwaite.

Thanks to the founder of a scholarship in Landscape Gardening Bro. "Billy" Cowperthwaite is able to be with us and work for his A. M. degree and look after our lawn. Owing to parental objections the Tigers lose their star punter, Bro. "Long Tom" Hall; but he will be seen later in the 'Varsity basketball line-up and as captain and center fielder of the 1912 'Varsity baseball team.

Because of the Missouri Valley ruling the annual Missouri-Kansas football game must be played on college grounds, and Columbia will be the scene of the clash on November 25th, the Saturday before Thanksgiving. And it is to be on the eve of the big game that Gamma Kappa will play host to visiting Delts from all parts of the country. Taking as a criterion the numerous inquiries received concerning the big banquet, we will have the biggest gathering of Delts ever in this "neck of the woods."

F. D. CROOKS.

#### GAMMA LAMBDA

#### PURDUE

Gamma Lambda took the cream. Fourteen other fraternities were forced to be content with the skimmed milk. Not a single man saw Delta Tau that could see anything else, and our pledges were drawn from men who had been most cordially invited to join other fraternities; but "they

went with Delta Tau." Our rushing season was one of the most successful in the history of the chapter. We started out the season with a most comfortable nucleus of old men, although eight of the finest brothers that ever wore the pin graduated last June. Prospects were not overly bright as a beginner, but hard work and the right bunch in the right house did the work. This year gives every indication of being one of the most successful in the history of the chapter from every standpoint.

Not only in the choice of our freshmen have we been extremely fortunate, but in the manner with which the men have started in to corral class honors, along with numerous university laurels. Among our pledges are some excellent athletes, some star students and some prime entertainers. From Indiana three men are wearing the pledge button; L. C. Simpson hails from Vincennes, L. A. Stewart from Princeton, R. Wiltfong Shaffer from Rochester. From New York, D. Boyd McConnell is with us, while G. Stockton Lehman comes from Pittsburgh. Morris Hall and John Newlin represent West Virginia, and C. O. Shively is the Dayton, Ohio, representative. Henry Lane Ogle comes from Louisville, Ky. Bro. W. K. Abernathy has joined the chapter from Mu, Bro. A. Blackledge has joined us from Beta Zeta. Bro. Hoffman has joined the Science Department faculty and is living in the house, while Bro. H. F. Fore, of the English Department, dines with us and uses the telephone frequently. Bro. Ballenger, Ex '09— in his further pursuit of knowledge, is finishing up with the 1912 class. Bro. McAleenan, Ex '13, is also with us again.

Bro. Tavey is Captain of the Football Team, Bro. Mummert won his numerals in baseball, Bro. Flanagan was a member of the Prom Committee, Bro. Ballenger is

playing on the Senior Class Team; Bro. Mauck is a member of the Student Council and Manager of the Junior Football Team, Bro. Sheedy is on the squad, Bro. Lowry is Captain, pledges Simpson and Shaffer are members of *The Freshman Insignia* Board, Bro. Tallmadge is an Editor of *The Exponent*. It would take too much room to go down the list.

In closing, Gamma Lambda wishes to extend her best wishes for the unquestioned success of her sister chapters during rushing season, and to extend a true Gamma Lambda invitation to any wandering Delt that might be in the vicinity. Anyone can tell you where Delta Taus live. Look us up.

R. C. LOWRY.

#### GAMMA MU

#### UNIV. OF WASHINGTON

To say that Gamma Mu has "come back" would be stating conditions in a mild way. All summer long the newspapers in this northwest country have printed highly colored accounts concerning the faculty action in regard to the location of our beautiful new chapter home. It was thought to be contrary to the laws of good propriety to allow a fraternity to house itself between two sorority homes. The newspapers decided that frosted windows had solved the problem; windows so constituted that it would be impossible for the occupants of one domicile to look across into the one adjoining. Nevertheless, the faculty have been kind enough to allow us to take up our new residence by placing a few easily adjusted provisions to the edict. Our new house is a beauty and has been fitted out with very artistic rugs and curtains, donated by our alumni. The principle features are the spacious chapter room in the basement and the fourth floor dormitory. We

are the first fraternity on the campus to adopt the idea of a common sleeping room.

To begin with, only eight of last year's bunch returned to stare wild-eyed at the new conditions. With only eight men and lots of "Karnea Spirit" we have rounded up thirteen of the "fairest squabs" that ever ran an errand. Here they come: Loyd A. Pockman, Spokane, Wash.; Howard Taylor, Seattle, Wash.; John Congist, Berkeley, Cal.; Archie Byler, Shelton, Wash.; Ned Edris, Spokane, Wash.; Jay Adams, Lexington, Wash.; James P. Momb, Roslyn, Wash.; Barney Oconnor, Philadelphia, Pa.; Chester Fritz, University of North Dakota; Ray Cook, Portland, Oregon.; Clyde Johnson and Horace Weber, Spokane, Wash.; Thomas H. Boyd, Portland, Ore.

As regards athletic prospects for the University of Washington I can safely say that they are of a brilliant hue. It looks like more championships again. The football squad has lost very few players and has a host of famed "prep" school stars from which to draw. The crew has returned almost to a man and already are beginning to look for the scalp of the Southern colleges, Berkeley and Stanford.

Basketball is ready and one of our full grown freshmen has already been looked upon by the university to fill the center position.

Three of our freshmen will no doubt make the freshman football team, and the remainder are eagerly looking forward to their special branch of collegiate activity. Another one of the pledges is in the running for president of the freshman class and seems quite hopeful.

Of late we have had quite a few surprises from visiting Delts. Among those who have helped us eat the "hash"

are Bros. Kingsly, Beta Eta; Hoffman, Gamma Alpha; Malcolm Douglas, Beta, and Bro. Cox, Beta Omicron. The last named brother is a new faculty member in the English Department and a new acquaintance to our somewhat delapidated music box.

We owe a great deal of thanks to the Puget Sound Alumni Association. At our first big rushing smoker, on very short notice, they turned out so well that nineteen different chapters were represented.

So if any wandering Delt thinks that a trip to the West would plunge him into a wilderness of strangers let him look us up immediately upon arrival. The latch-key is in the well. Don't knock! Walk in!

WYNN R. EBERLE.

#### GAMMA NU

#### MAINE

The morning mail again finds our old friend Cy at his place in line. After waiting patiently he received his share of the allotment and retired to a corner to enjoy it. The pleasure expressed in the old man's face was sufficient proof to the curious loungers that a letter had arrived from his boy in Orono.

"How's your boy, Cy?" asked one, who was evidently bolder than the rest.

"Slick as a bean," answered the old man, apparently pleased by the fact that he had been noticed. "He's started in agin and he's stickin' right to his book."

"I suppose he's stoppin' with the same crowd this time, ain't he?" was the next query.

"Yas. He ses them there Delt fellers are a fine crowd. A few of them didn't go back this fall because they got all the book larnin' that's up thar, but Bill ses they're

goin' to be bigger this year than ever. They hed eight fellers ride the goat, Oct. 12, and Bill ses they're goin' to get more. Let's see who they were: 'Bob' Hamill, from Worcester, Mass.; 'Clarice' Hamill, from Worcester, Mass.; 'Dannie' Rowe, of Portland, Me.; 'Frank' Kelly, from No. Andover, Mass.; 'Thunder' Merrill, from Woodfords, Me.; 'Law' Libbey, from Portland, Me.; 'Cutey' Pettey, from No. Dartmouth, Mass., and 'Lord' Chapman from Oldtown, Me."

"Wal, do all the new men live in Bill's house, Cy?" asked the curious one.

"Course not. Why, they hev two hundred and fifty men in thet first year crowd. They built a new house up thar this year. It's called Hannibal Hamblin Hall and they all live thar. Bill's house can only hev seven of those new fellers. Thet's the new rule up thar.

"Bill ses thet a feller named Mr. Redpath, from New York, came up t'other day and gave them some good advice. He's the head of those Delt fellers in this part of the country."

"I s'pose they're havin' thet darned football racket up thar now," said the inquirer.

"Yas, Bill ses thet they beat a crowd from Fort McKinley and from New Hampshire State College but they got a whippin' from those Rhode Island State fellers. They hev a runnin' team up thar, thet's goin' to run a crowd from Tufts across country pretty quick. 'Parson' Morris, one of Bill's crowd is on the team. 'Happy' Schrupf and 'Speed' St. Onge are goin' to run on the Maine crowd this year, besides this Morris lad. He ses thet 'Max' Coyne and 'Heck' Peaslee are playin' baseball for their class team and they can play, too.

"They're goin' to hev a blow-out up thar in thet Delt house pretty soon. Bill ses they go in strong for society.

"Bill ses they're goin' to hev a big feed up thar soon and they're goin' to try and get all the old men back. They like to see the old fellers and they hev quite a deal of company on account of this."

Here, the old man stretched and yawned and after carefully folding up the letter and replacing it in his pocket, walked into the street. The loungers settled back in their chairs and were soon engaged in discussing town topics.

JOHN P. CRONIN.

#### GAMMA XI

#### CINCINNATI

The opening of this college year finds Gamma Xi with eighteen actives, in addition to whom we have pledged four good men and have several good prospects.

We had a very good delegation in attendance at the Karnea at Chicago in August and our representatives enjoyed their first Karnea immensely, bringing back glowing accounts to their less fortunate brothers. We were especially gratified to win the prize for the highest record of alumni subscriptions to *THE RAINBOW*, our percentage being one hundred per cent. and we were well pleased to have Bro. Robert Heuck receive one of the steins for his vaudeville stunt at the Karnea smoker.

Gamma Xi is most fortunate in the considerable number of honors she has captured at the university this year. Bro. Walter Heuck has been re-elected Captain of the 'Varsity Eleven, completing a splendid record with which this sturdy hero of the gridiron and popular Delt will close his university course. With him, in the squad, will be found Bros. Robert Heuck, Max Tange, Paul F.

Becker and John Maescher. Bro. Chas. W. Cummings has been elected Manager of the team, thus making Delta Tau Delta a strong feature in 'Varsity's most promising football season.

Bro. Walter H. Montgomery has been elected President of the senior class as well as Manager of *The 'Varsity News*, and Basketball Team. Bro. John Maescher is the President-elect of this year's junior class and Bro. Carl V. Eiser is likewise honored by the second year law class. Bro. Robert Heuck's artistic ability and ready wit have won for him the Editorship of next year's annual. We are well represented in the membership of various college organizations, and altogether Delta Tau Delta is very much in evidence in all the student activities at the University of Cincinnati.

We are looking forward to the great event of our chapter life this year in the privilege of entertaining the Thirty-first Conference of the Northern Division of our Fraternity next February, and we are most anxious to make it a record event in the Greek-letter fraternity history of Cincinnati. Consequently we most cordially invite all Delts who can possibly come to be with us at that time and help make our competitors sit up and take notice. Cincinnati is an ideal convention city and there is much of interest here to entertain visitors. So plan to come to the Conference and bring your Delt friends with you.

During the summer we moved our chapter house quarters and are now occupying an attractive nine-room dwelling on the corner of McCormick Place and Maplewood Ave., Mt. Auburn. This has improved our facilities and we extend a hearty welcome to all visiting brothers.

WILLIAM L. FREYHOF.

## GAMMA OMICRON

## SYRACUSE

Old Syracuse still retains enough of her former attractions to bring back to Gamma Omicron twenty-seven men ready for business. And they found it immediately, for the house needed shingling. So instead of succumbing weakly to the Union, "Buddie," "Beaut," "Clarice" and the rest calmly rolled up their sleeves and proceeded to lay on the boards. Consequently the house is shingled, and we have a hundred odd dollars to use somewhere else; and every man that helped experiences a peculiar gratification in contemplating the shining roof. We are looking forward with some "big ideas" to a new house; but though our plans may seem difficult to realize from the present situation, what dreams cannot be brought to pass with a bunch of dignified college men who can, if need be, unbend and work a little?

When the shingling was completed, the rushing was begun with the same enthusiasm and "pep," and now at the end of two weeks we have eight as fine products of the "rushing" machine as could be found anywhere. They are: Irving P. Macauley, Waterbury, Conn.; Walter Clark, Springville, N. Y.; W. Paul Frantz, Wilkes-Barre, Pa.; James V. Shufelt, Chatham, N. Y.; Charles S. Dur-yea, Roslyn, L. I., N. Y.; Bert E. Morse, Corning, N. Y.; Henry B. Taylor, Albany, N. Y.; Earle D. Stout, Portland, Me. We expect to produce two or three more men and then shut up shop. A stunt party is to be given, at which time each pledgling is to pull off some stunt of sufficient merit to deserve applause from the men who first thought he had some good stuff in him. We anticipate something great inasmuch as we have engineers, football players, and musicians. The initiation and banquet

will occur as soon as possible and then the work of the year will begin in earnest.

Bro. Fisher, with his two hundred and forty pounds, manages to hold down the position of center on the 'Varsity football team, and Bros. Benedict and Abberger are on the squad. Three pledglings, Morse, Shufelt, and Taylor, are out for freshman football, displaying the kind of stuff that gets there. The 'Varsity has played only one game thus far, that being against Hobart. Bro. Fisher took his old stand and Bro. Benedict played full back. Syracuse won 6 to 0. The new graduate coaching system is being tried out, and Coach Cummings, '02, is showing the efficiency of the plan. Bros. Layton and Ogsbury are our track representatives, being busy every afternoon on cross country practice.

During State Fair week the Mystic Krewe gave their seventh annual Karnival, with a fantastic parade each evening. Bro. Melville A. Clark, '10, was crowned King Ka-Noo-No VII, at which time the King and Queen Ka-Noo-No VI abdicated, and Honorable Edward Schoeneck, Mayor of Syracuse, and William S. Farmer, President of the Mystic Krewe, presented the keys of the city to the new royal court.

Gamma Omicron has nearly completed the first year of her existence, and it is with the firm determination to stick to the highest ideals that she confronts her second year. We extend to all the chapters our heartiest wishes for a successful year.

GEORGE M. OAKS.

## The Delta Alumni

### NEW YORK ALUMNI CHAPTER

The members of the Club who attended the Karnea brought back the most enthusiastic report, and what is better for the Club, they so well advertised the Club among the Fraternity in general that since the Karnea an unprecedented number of brothers from all parts of the country have been visiting the Club daily.

It is becoming generally known that the Club is really just as beneficial to the members of the Fraternity residing outside of New York, as to those who live here or in the vicinity. The purpose of the founders of the Club, which is the purpose of the present officers and members, is to make the Club a sort of a clearing-house of ideas for the benefit of the Fraternity. The daily chats of our various brothers of the north, east, south and west result in suggestions and movements which redound to the good of every member of the Fraternity. After all, the yearly Conferences and the occasional Karnea do nothing more than crystallize the new and developing ideas and suggestions between conventions. The Club, being a meeting place for Deltas of every chapter, does, and will continue to, afford an opportunity for exchanges of Delt ideas as well as for the formation of new friendships and the renewal of old ones.

We do not desire the co-operation of the various members of the Fraternity for the purpose of furnishing us

with money so that we, the residents, may continuously have the privilege and pleasure of basking in the atmosphere of Delta Tau Delta. But we are so conveniently situated as to be able to afford a meeting place for all of the members of the Fraternity, and we ask the active interest and co-operation of every chapter from Maine to California, and we extend most gladly our welcome to every brother in the Fraternity and as often as he may wish to avail himself of it, whether he is now or ever shall be a member of the Club.

Since the last issue of *THE RAINBOW* a large number of Delts from various parts of the country have found good positions through the energetic and systematic work of the Employment Committee of the Club. The committee does not limit its work to any particular section. It uses each and every member of the Club, and especially the non-resident members, for the purpose of giving publicity to the movement. The Committee is constantly receiving applications from both employers and employees. Several men have recently been assisted in securing positions on newspapers and magazines, both in editorial and managerial capacities. A number of men have found places with engineering concerns. Several men have been sent to foreign lands by means of the work of the Committee. The Committee always has places for qualified Deltas, and if the work for which the brother is qualified is rather unusual, the Employment Committee does not hesitate to enlist the services of each and every member of the Club who happens to be familiar with the work that the brother desires to do. Every young man in the Fraternity who is placed in a position becomes a most active assistant of the Employment Bureau. We find in many cases that where a man is placed in a position his appreciation is

such that within a short time he is able to report several good positions to the Employment Committee, and as a consequence thereof new places are filled by Delts. In a number of instances men who have been assisted have been able to turn profitable business over to other members of the Fraternity who are in a position to take care of it. Certainly the primary purpose is to assist the young men of the Fraternity in getting started right. Unless you are in touch with the work of our Employment Bureau, you can have no adequate idea of the good that is being done.

*The Manhattan Delta* is published monthly and has come to be one of the most important institutions of the Club. The Club is indeed fortunate in having an officer and a member who, although City Editor of one of the greatest existing newspaper dailies, is willing to regularly sacrifice his time in order to edit our paper. Every brother who has the privilege of regularly receiving copies of *The Manhattan Delta* appreciates the work of Bro. Hillegas.

The "After the Karnea" monthly dinner was perhaps as successful as any dinner ever held by the Club. President Curtis addressed the members, and in his own modest way pointed out the path to be followed during the next few years, and set forth clearly and explicitly his ideas for accomplishing the vast work which he proposes to accomplish with the co-operation of his brothers. Just a word in connection with this idea of co-operation. It is impossible to believe that any considerable number of the older members of our Fraternity who have attained success and occupy high places in the affairs of the various parts of the country will refuse to come forward and actively participate and co-operate with our presi-

dent, who has been and is devoting himself so loyally to the work of the Fraternity. The difficulty has been that these men have not been approached properly, and usually only for the purpose of attending banquets. There may be a few impossibles and there may be a few men who have adequate reason for refusing to give their help to the advancement of the ideals of Delta Tau Delta, but the great majority will gladly, willingly and actively cooperate if you and I make them all feel that the activity is a continuous one, and that we propose to make the influence of this Fraternity one that will be felt in every direction. The Club has given our president its active support in the past and it proposes to do infinitely better work for him during the next few years.

At the last monthly meeting the annual election was held and Bro. Sam Connor, of Beta Gamma, was elected President of the Club for the ensuing year. Bro. Connor occupies a high position with the Fuller Construction Company, of this city, and has already shown great executive ability in the plans which he has formulated for the Club for the coming year.

Monthly dinners are all held at the Club House and many visiting Delts arrange their trips to New York so that they can be present at one or another of these dinners. The dinners come regularly on the second Thursday of each month. Tuesday luncheons are now held at the Mills Building restaurant at 15 Broad Street instead of at the West Street Building restaurant at the foot of Cedar Street. At every Tuesday luncheon there are a score or more of Delts present, and as the winter months approach the attendance will undoubtedly be considerably increased.

Bros. Warner Orvis and E. E. Jacobsen played the finals for the pool championship a short time since, and Bro. Jacobsen won by a few points. A cup was presented to the winner by Bro. G. D. Cooper, who at the same time exhibited a very heavy Delta seal ring for the winner of the next pool tournament.

Many members and visitors had occasion to enjoy the roof garden during the hot summer months. It proved to be one of the most popular features of the Club because it was one of the coolest places in New York in the summer. Scarcely a night passed that Delts visiting New York for the summer did not find their way to the roof garden.

Bro. "Bill" Frazer, of Beta Upsilon, who lived at the Club for some months, has returned to Trinidad, where he has interested an English syndicate in large oil fields upon which he has options. Bro. W. B. Knapp, of Gamma Gamma, sailed for Hong Kong last month as a sales-agent for the Standard Oil Company. Bro. Dawson, of Colorado, has just returned, by way of London, from a mining expedition in South America. He is now living at the Club.

The Club reserves rooms in the annex which are not occupied by resident members, but which afford accommodations at all times for non-residents who are visiting the city. A special rate is made which is less than one-half the rate at any of the good hotels.

The Club is about to issue a new directory of members and of brothers in the vicinity of New York. It will be much more complete than the present one. If any brothers know of Delts in New York or vicinity who are not in the old directory, please send their names and addresses to the secretary.

Bro. Leonard Snider has the promise of a goodly number of prominent Deltas to join his party to the installation of the Chapter at the University of Georgia, December 2, 1911.

Bro. John Costello, one of the most affable members of the Club, married Miss Katherine Desmond, of Pennsylvania, on September 20, 1911. They spent several days in New York recently.

The Club expects to tender a banquet to the thirteen Delts in Congress within the next few months. It is rather difficult to fix a date that will suit the convenience of all these public officials, but the committee in charge is very enthusiastic and will doubtless find a time convenient to all.

The following are some of the recent visitors at the Club:

Sidney W. Crocker, Chicago, Ill.; Stuart J. Fuller, American Consul, Gothenberg, Sweden; Col. Louis Walker, Meadville, Pa.; W. G. Moore, Baltimore, Md.; Kenneth W. Tapp, Kansas City, Mo.; Robert Miller, Chicago, Ill.; Sherman Arter, Cleveland, Ohio; A. P. Trautwein, Carbondale, Pa.; H. G. Greer, Steubenville, Ohio; N. S. Rivviri, Pittsburgh, Pa.; Simmeon J. Hardy, East Hampton, Maine; Vincent L. Gallagher, Chicago, Ill.; James A. Wakefield, Pittsburgh, Pa.; Herschel H. Jones, Lebanon, Indiana; Philip Woerlein, New Orleans, La.; Lemuel R. Brigman, Newport, Ky.; Harry R. Blythe, Boston, Mass.; Albert L. Hall, Waukezon, Ill.; William Reeder, Philadelphia, Pa.; W. W. Walton, St. Louis, Mo.; Dr. Seth A. Brum, Philadelphia, Pa.; C. H. Getchell, W. Somerville, Mass.; Geo. F. Brumen, Minersville, Pa.; Stuart Maelian, Minneapolis, Minn.; D. A. Holbrook,

Pittsburgh, Pa.; R. F. Schwenker, Birmingham, Ala.; Chester H. Forsyth, Trolfalgo, Ind.; J. W. Gray, Bridgeport, Ct.; Richard D. Daniels, Brookland, D. C.; Frank F. Lippett, Meadville, Pa.; Dr. Geo. M. Piersol, Philadelphia, Pa.; D. Brailey Gish, Seattle, Wash.; Jack Sullivan, Seattle, Wash.; H. T. McGowan, Fort Worth, Texas; E. J. Rankin, Philadelphia, Pa.; Geo. F. Davis, Havana, Cuba; J. N. Costello, Philadelphia, Pa.; C. R. Spare, Philadelphia, Pa.; S. Lloyd Irving, Philadelphia, Pa.; L. R. Gracy, Saranac Lake, N. Y.; C. V. Calvin, Meadville, Pa.; John S. Martin, San Francisco, Cal.; W. H. Parks, Trimble, Tenn.; D. E. Newell, Kingston, Pa.; Caswell P. Ellis, New Orleans, La.; Arthur Fant, Memphis, Tenn.; H. G. Clevender, Boston, Mass. Leonard Maynard, Hartford, N. Y.; Nat Fitts, Denver, Colorado; J. Raymond Merrell, N. Adams, Mass.; D. F. Watson, Jr., Bridgeport, Ct.; R. H. M. Canfield, Bridgeport, Ct.; H. J. Gighaus, Philadelphia, Pa.; R. M. Gibson, Upper Sandusky, Ohio; R. F. Hamilton, Pittsburgh, Pa.; Geo. A. Sigman, Philadelphia, Pa.; A. H. Miller, Philadelphia, Pa.; "Jack" Martin, San Francisco, Cal.

The Club most earnestly requests every brother coming to New York to make our home his headquarters while here. We agree that we will treat him well, furnish him with accommodations if he desires them, and derive a great deal of pleasure and benefit from his company, if he will but deign to accept our hospitality. No matter how often you come the privileges of the Club are yours whether you are a member or not. We are firmly convinced that within a year we will have doubled our non-resident membership. It is a most unusual thing not to

find Delts from at least a dozen different chapters and states at the Club House every day.

JAS. LESLIE PINKS.

#### CINCINNATI ALUMNI CHAPTER

The last dinner of the Cincinnati Alumni Chapter was held on the night of September 29th, 1911, at the University Club. There were present of alumni and actives the following: Bros. A. A. Taylor, M. D. Southworth, Clarence Pumphrey, W. A. Draper, J. S. Mueller, H. F. Koenig, Constant Southworth, B. H. Wayne, B. C. Bowen, O. C. Wyman, J. A. Stacy, John Maescher, Bertram Stansbury, Walter Heuck, Robert Heuck, E. B. Story, George K. Miller, Joseph Matre, H. Botsford McRae, Max Zange and Wm. L. Freyhof.

Arrangements were inaugurated looking towards the entertainment of the Conference of the Northern Division next February, and every effort will be made to make the affair a great success. We hope that as many of the alumni as possible, as well as a large number of actives, will be present at the Conference, in addition to the regular delegates.

CONSTANT SOUTHWORTH.

#### SAN FRANCISCO ALUMNI CHAPTER

The summer months were made very enjoyable for the members of the San Francisco Alumni Chapter by means of the weekly get-together luncheons. These weekly gatherings are very informal and serve to bring all the Delts residing in or about San Francisco in closer touch with each other. During the summer these luncheons were held at the University of California Club and were well attended and appreciated by those Delts who, not unlike

the scribe, were forced to remain in town pursuing the Mighty Dollar—or better said the Mighty Copper.

Those members of the San Francisco Alumni Chapter who were fortunate enough to attend the Forty-first Karnea, brought back glowing accounts of this, the greatest Greek letter fraternity convention, and were loud in their praises of the way in which they were treated by Chicago's hospitable Delts.

The fall initiations of Beta Rho and Beta Omega, at the Universities of Stanford and California, have taken place and we feel that both chapters are in good condition.

The 1915 Karnea Committee, appointed by President H. R. Mann, Jr., of the San Francisco Alumni Chapter, is working steadily for the realization of that goal for which all Delts on the Pacific Coast are striving, namely, to pave the way for a great Karnea in San Francisco at the time of the Exposition. In this connection we wish to thank the Arch Chapter and the members of the Fraternity in general for the loyal support accorded to our delegates by the Forty-first Karnea assembled. We have been given the opportunity to "make good," and we assure you that everything, within our power, will be done to make the Forty-third Karnea, in 1915, a success.

A. E. EHRHORN.

#### INDIANAPOLIS ALUMNI CHAPTER

The Chicago Karnea is a thing of the past and will be long remembered by those present as a great convention in point of numbers, but now the next Karnea is up to us, and Bros. Downey, Pond and Jeffries have been appointed a committee to devise a financial plan to meet the expenses of the Karnea and to submit the same to a call meeting of the Delta Taus of the state in the near future.

We want to get the whole state interested as a committee of the whole to extend a glad hand and a warm welcome to all visiting Delts.

J. R. MORGAN.

#### BOSTON ALUMNI CHAPTER

The alumni of Boston have never attempted any activities in the summer months on account of the large percentage of graduate students in our ranks, most of whom are out of town after the colleges close. This year, however, we decided to attempt a dinner on the night of the Karnea banquet. It was not officially a Boston Alumni Chapter function, but a gathering of both alumni and actives, arranged by two or three loyal Delts on the spur of the moment, and announced by letters, postals, and word of mouth. About fifteen answered the call and attended our informal dinner at the American House, where we spent the evening talking "Karnea" and wishing we were there.

The last meeting previous to this was a smoker at the Harvard Union early in May, attended by about twenty-five. This fall we will have an informal meeting in October, to lay plans for our big annual event, the All New England Banquet. The secretary is now busy revising the mailing list, and will try to reach every Delt in the state.

R. C. FOLSOM.

#### CLEVELAND ALUMNI CHAPTER

The Alumni Chapter has taken a hand in helping Zeta rush the new men, and they were not slow at the game. At the initiation the alumni expect to show up strong "among the distinguished ones present."

The regular monthly meetings will be held as usual this year. Will chapters send in addresses of alumni who have recently moved to this vicinity?

At the June meeting Hon. Miner G. Norton, Sigma Prime, '78, was elected president of the chapter. We were relegated to our old job of secretary and treasurer.

Our president was a candidate for the nomination of mayor on the Republican ticket. While the organization was too strong in opposition, nevertheless he made a very creditable run.

Ben U. Rannels, Mu, '89, won a place on the ticket for member of the Board of Education. His election is confidently predicted. Clayton C. Townes, Zeta, '11, now serving as city councilman, has been renominated.

SHERMAN ARTER.

### LOS ANGELES ALUMNI CHAPTER

After more or less extended vacations we are once more active at our respective callings, including our monthly dinners and the weekly luncheons. Twenty loyal Deltas met at the University Club, Thursday evening, October 5th, at which time we decided to continue our monthly dinners on the first Thursday with luncheons the other Thursdays, the same as last year. All visiting Deltas will find a true welcome.

We had with us, for the first time, Bros. J. B. Rickard, Gamma Eta, '04, and J. H. Osinga, Gamma Beta, '06, each of whom joined our chapter. Bro. Rickard has just resigned from the U. S. Land Office service, with which he has been connected for the past seven years, to open a law office in the Security Building. Bro. Osinga is sales-manager for the Lord Motor Car Company.

In the State Methodist Conference just held in our city, Bro. Bishop Hughes, of San Francisco, and Bro. Rev. Charles Ed. Locke, pastor of the First Church here, were the leading divines. Each day the newspapers gave considerable space to each of our brothers.

Dan Cupid has been busy. Bros. John Mulholland, Delta, '10, and John M. Wright, Delta, '10, are among his recent converts. Bro. Mulholland is assistant purchasing agent for the Los Angeles Railway Company. Bro. Wright, who has been with the Bent and Pennybacker Company, General Contractors, for the past year, has been transferred to Arizona, to have charge of the company's work in Arizona, New Mexico and Southern Colorado. At present he is in the northern part of the state on his honeymoon, after which, he will be located at Phoenix.

Bro. Ernest W. Oliver, California, '95, is now one of the vice-principals of the Los Angeles High School. He has charge of all the boys as well as command of the High School Cadets, who under a recent law, became affiliated with the National Guard of the State.

We regret that Bro. Stanley Dixon, Beta Rho, '10, has seen fit to return to his former home, Detroit. Our sincerest wishes for his success go with him.

The "College Tramp," Bro. George F. Zimmer, (so dubbed because he holds the record for attendance at more universities than any other Delta), has ceased to be head clerk for a large law firm and has hung out his own shingle in the Citizens National Bank Building.

RUBEN S. SCHMIDT.

## SEATTLE ALUMNI CHAPTER

On Sunday, July 30th, the Delta Tau Delta men of this vicinity had one of the finest picnics ever held anywhere by anyone. A boat was chartered, and after the girls and guests and lunch were stowed aboard in safety, a most delightful sail followed. We landed at Bro. Vernon Metcalf's summer home on Miller's Bay, where the fun began. Capt. Pond, U. S. N., to whom we are indebted for part of the day's pleasure, sent over his Marine Band from the Pennsylvania, which added greatly to the enjoyment of all.

On the evening of August 26th we had a big crowd out for a Smoker at the Olympus Cafe. Several of the active chapter who were in town joined us and the musical end was looked after capably by Bro. Kellogg. On September 21st the Active Chapter held a house warming in their new house which was attended by all the alumni chapter members who were in town. There were Delt representatives from 29 universities present that evening. It is a fine house and the outlook for the chapter is brighter than ever. On September 28th there was a rushing stunt at the house which brought forth good fruit. There are now 13 pledges, but we are not going to stop at that number.

Our Saturday luncheons still are held regularly and are largely attended. A week ago 35 were present, and usually the tables are filled. We extend a most hearty invitation to all traveling Delts to join us.

Bro. E. G. Cox, Beta Psi, '97, who was an instructor in English at Cornell for several years, has joined the University of Washington faculty, and as soon as the

boys know him he will be the most popular member of the Professor's Club.

Having heard that President Curtis was to visit Seattle this fall, we wrote him asking him to let us know when, so that we could hold our Annual Banquet at that time. His trip, however, has not been planned definitely as yet and he could not tell us just when he will arrive. But when he does get here we will have one good party.

Bro. Kendric Charles Babcock, former president of Delta Tau Delta and of the University of Arizona, and now with the U. S. Bureau of Education, will be here for the fiftieth anniversary of the University of Washington. He is to be the principal speaker and we hope to be able to separate him from the festivities long enough to entertain him ourselves.

WM. C. PHILLIPS.

#### OKLAHOMA CITY ALUMNI CHAPTER

On September 15th a few of the Oklahoma City Deltas got together for a dinner at the Savoy Cafe, the main purpose of which was the organization of the alumni chapter, which was started something like two years ago. Through the sad death of Bro. Robert Chambers, Beta Upsilon, the work stopped until last June, when through the efforts of Bros. Potter, Kilpatrick and your humble scribe we are now able to come before the Fraternity with a live alumni chapter.

Our purpose is to make this a state affair and we hope to give you a little more on this in the January issue of *THE RAINBOW*. At that time we also will have every Delt in the city on the roll. The writer would appreciate letters from our brothers giving the names and addresses

of Delts in Oklahoma. We want to hunt them up, have them come over to our city and keep in touch with each other.

As there are not very many of us we have our monthly meetings at the different homes of the brothers. Our first and very successful one was held at the home of Bro. Scales, Lambda, '91. Bro. Scales treated the boys in a very fine way for the Dry state of Oklahoma, and it is not necessary for me to say that goodfellowship and true Delt spirit was in evidence all evening and far into the night. In fact, the affair was such a success and the brotherly spirit was so much that all came forward promptly with dues. I am able at this time to say that every man has his dues paid and there is money in the treasury.

The chapter has the following members: Bros. E. M. Landrum, Beta Epsilon, '91; Henry M. Scales, Pi, '90; Dr. A. B. Potter, Beta Pi, '00; Edward P. Boyd, Beta Upsilon, '01; John B. Perkins, Pi, '06; C. F. Severin, Omicron, '06; J. J. Kilpatrick, Beta Xi, '07; Paul E. Heinrich, Gamma Theta, '12.

Our officers are: President, Dr. A. B. Potter, Beta Pi, '00; Vice-President, E. M. Landrum, Beta Epsilon, '91; Secretary-Treasurer, Paul E. Heinrich, Gamma Theta, '12.

In closing the Oklahoma City Alumni Chapter wishes success to the active chapters. Don't fail to look us up if in our city.

PAUL E. HEINRICH.

#### DENVER ALUMNI CHAPTER

Among the eight hundred and fifty Delts who regretfully watched the last hours of the greatest of Karneas

roll around, there were two delegates from the Denver Alumni, Morris and Beck, who might have been heard to repeat to themselves, with a decided emphasis, the words, "Indianapolis" and "Frisco." And since their return to Denver their time has been spent in mourning over the forty Karneas they missed before the forty-first made them regular attendants. The memories of this wonderful gathering of Delta Tau Deltas will long remain with them, and it is hoped that at least a part of the fine inspiration of this convention can be transmitted to the unfortunate brothers of the Mountain State who could not be there in person.

With the cooler weather of the fall comes a renewal of interest in the meetings of the alumni in Denver. On the fourth of October nearly a dozen men turned out for the first of the fall luncheons, which had dwindled somewhat in numbers during the summer, owing to a general dissatisfaction with the place of meeting.

The change from Fridays to Wednesdays will not decrease the attendance, it is thought, but will make it a great deal more convenient for some of the regular lunchers. From now on a Delt table will be reserved at the Standish Hotel, 1530 California Street, every Wednesday, from twelve until one o'clock, and all visiting brothers are most welcome.

The beginning of the third year of the Denver Chapter will occur on the last Saturday evening of October, the 28th, at which time plans will be made for the big banquet that occurs on Thanksgiving eve, each year. At the time of writing, no place has been selected for this October dinner, but it is our intention to continue these monthly dinners after the same plan that was followed during the past year, with, it is hoped, an increased attendance. At

the annual banquet there will be the usual flow of eloquence and oratory, and, to prevent soaring, a heavy feed will begin the evening. We expect to have Champ Clark with us, if he is in the city on that date, and will advertise any other brothers who will give us assurance of their presence.

Delta Tau Delta has not long had an organization in Denver, but with the hearty support and co-operation of our splendid bunch of actives at Boulder, we hope to keep on growing in numbers, in interest, and in other lines of strength, until we can welcome an invasion, some future August, by the Greeks that stormed Chicago in 1911.

L. A. BECK.

#### ST. PAUL ALUMNI CHAPTER

During the past summer there has been an epidemic of marriages among the Delts in this vicinity. First was the wedding of Bro. Freeman Cooper, Beta Eta. Next came the marriage of Bro. Donald R. Brewster, Beta Eta, early in June, to Miss Anne Louise Allyn, in St. Paul. Then on June 23rd Bro. Rupert Hauser married Miss Myrtle Wick, both of St. Paul. On July 19th Bro. Everett Tawney, Beta Gamma, married Miss Constance Day at Fairmount, Minn. Bro. Tawney is at present connected with the government service at Seattle. Before the next issue of *THE RAINBOW* another alumnus is to be married, but to avoid embarrassing him, announcement will be deferred until later.

The first meeting of the season was held September 15th, at Carling's. The delegates to the Karnea were present and made a report, and also Bros. Hewitt and Taplin, of Minneapolis, gave their versions of the business and pleas-

ure of the Karnea. The next meeting will be at the Commercial Club on October 13th.

Bro. Edward C. Downing, Psi, '85, who was connected with Macalester College, St. Paul, for many years, has accepted a position with Berea (Ky.) College. He is Dean of the College and Professor of Latin. Bro. Price Wickersham, Beta Eta, spent the summer in England, and incidentally assisted in the coronation of his friend, King George. Bro. Burt M. King, Beta Omicron, has taken charge of the legal department of Crane Ordway Co., St. Paul. Since the last letter, the St. Paul Chapter has been joined by Bro. L. L. Manwaring, of Stillwater, and Bro. Spencer Haven, of Hudson, Wis.

#### BIRMINGHAM ALUMNI CHAPTER

Fraternity matters have been quiet in Birmingham during the summer, due to the absence of many of the bunch who have been on their vacations. However, things are livening up now. Early in November we are going to hold a banquet at the University Club, and expect to have a grand rally of all the Delts in this section.

Bro. Ray has left Birmingham and gone to Wetumpka, Alabama, where he is practicing medicine. R. F. Schwenker, from the University of Cincinnati, is a recent addition to our ranks.

The chapter has 15 members in the city, as follows: Dr. A. B. Harris, known of old as "Buck" Harris, is an eye, ear, nose and throat specialist, and has his office in the First National Bank Building. Charles I. Baker holds a position in the department store of Loveman, Joseph & Loeb. Dr. Percy H. Woodall is Birmingham's leading osteopath. Reverend Raimundo de Ovies is rector of St.

Andrews Episcopal Church on the South Highlands. Smith Cullom, Jr., more often called "Puss," is manager of the Alabama Abstract Company. Tom Epperson is salesman for the Overall Hawes Hat Company, and enjoys the reputation of being the greatest lid seller in the state. Dr. Emmet Cloud is an interne at the Cunningham Infirmary, and is quite skillful in the art of sawing bones. Bill Reynolds, Jr., has lately been appointed inspector of risks for the Southern States Fire & Casualty Company. Ed. Houston, who was treasurer of the Fraternity some time back in the 90's, is now a successful real estate agent. F. P. Cheape is district agent of North Alabama for the Massachusetts Mutual Life Insurance Company. E. M. Durham is principal assistant to the Chief Engineer of the Southern Railway. L. W. Janeway holds a responsible position with the Tennessee Coal, Iron & R. R. Co., and is located at Corey. A. C. Ramsey is salesman for the Westinghouse Company. "Fritz" Sharpe is resident engineer in charge of the Birmingham-Corey division of the Tidewater Electric Railway. R. F. Schwenker is representing the International Steam Pump Company in the Birmingham district.

Out of town members are: Dr. J. S. Winters, of Bessemer, Alabama; W. A. Cospers, of Goodwater, Alabama; Dr. T. W. Powers, and Dr. Ray, of Wetumpka.

All of this bunch are on the lookout for new members for the Birmingham Alumni Chapter, and if any Delts are thinking of locating in Birmingham and wish information in regard to this city, we will be glad to supply same.

The chapter extends a cordial invitation to all Delts to visit Birmingham. Visiting brothers will please make themselves known to the chapter by calling on F. P.

Cheape, Office 807 Empire Building. Bell 'Phone, Main 2817. Residence 'Phone, Main 1275.

F. P. CHEAPE.

#### WARREN ALUMNI CHAPTER

We want to have a little news about the Warren Alumni Chapter, but this letter must be brief. The annual summer picnic on August 13th was a hummer, with twenty-five Delts in attendance. The majority of the boys went up the Mahoning River five miles in a house boat, and the others went in Bro. Dave Jameson's big automobile, with the exception of the Commissary Department, which went partly in an automobile and partly in Bro. Sander-son's surrey, hauled by a very good horse. The entire day was spent under a good grove of maple trees along the river. The usual good things to eat were on hand, and the day was a success in every way.

At the Karnea we were represented by three men, Bros. F. M. Ritzel, A. B. Clark and R. C. Lathrop. The Karnea was a corker.

The next meeting of our chapter will probably be in Youngstown.

Warren Alumni Chapter extends best wishes to all the members of the Fraternity.

R. C. LATHROP.

#### PORTLAND ALUMNI CHAPTER

The Portland Alumni Chapter refused to surrender to vacationitis and other deadly summer ailments and continued its regular Saturday luncheons despite the same. We are forced to admit, nevertheless, that we felt their somniferous influence. Most of the brothers have recov-

ered, however, and the big round table in the corner of the Imperial Grill has resumed its wonted appearance.

About the middle of this month we shall hold our annual meeting and banquet, at which time the officers for the next year will be elected and we shall renew our youth and love for Delta Tau. Bro. Ralph Coan has charge of the affair and its success is assured. We are sure that this celebration will create enough enthusiasm to carry any faltering brother through to the next watering(?) place.

During the past spring and summer we have tried to do our duty in scouting for the Fraternity and have recommended several men to various chapters East and West, and from reports that we have received our work has been of value. We have yet to hear from several men whom we have suggested as desirable material.

Reed Institute, a college of Liberal Arts in Portland, with a magnificent endowment, opened this fall for work in the first two years. There was room for but one-fourth of the applicants. Fraternities are excluded for the present, presumably that the school may become well established so that when they are admitted fraternities of recognized standing will be eager to install chapters there.

Let no Delt come to Portland without looking us up.

HARRY H. PEARCE.

### ALPHA

'77—Col. Lewis Walker, of this city, who is the president of the Alpha Chapter Building Association, recently presented us with a fine thorough-bred Scotch collie. He has been named "Choctaw Badger" and certainly makes a fine pet.

'78—Hon. L. L. Davis rendered some important decisions as judge of the Allegheny Court of Pittsburgh during the recent "Ripper" controversy.

'79—Dr. Charles B. Mitchell, one of Chicago's most eminent divines, was the principal speaker at the Founder's Day exercises of his Alma Mater.

'79—Lowrie McClurg, of the A. C. McClurg Publishing Co., of Chicago, recently made some valuable gifts to the chapter in the way of photographs, pictures, souvenirs, etc. Bro. McClurg was our alumni delegate at the Karnea this summer.

'80—Dr. Charles E. Locke, who is at the head of the largest church in Los Angeles, Cal., is President of the Los Angeles Alumni Association of Allegheny College.

'88—James Taylor Petty is on the staff of the *New York Herald*. Bro. Petty is one of the famous "FAT Trio," the other members being "Fatty" Kistler and "Sunny Jim" Wakefield. We challenge anyone to find a better one. We want to see Bro. Petty at the next Alpha Reunion for sure.

'89—John C. Armstrong is with the W. J. Gilmore Drug Co. Bro. Armstrong attended the Karnea this summer.

'90—Wm. C. Deming is a prominent lawyer of Cheyenne, Wyo. Bro. Deming was recently prominently mentioned for Governor of his State.

'93—Frederick B. Palmer is a famous war correspondent. Bro. Palmer has been writing popular stories for the magazines, but is now writing a series of articles on Municipal Problems in *Hampton's Magazine*.

'97—Seymour C. Hayden is with the American Bridge Co., of Ambridge, Pa. Bro. Hayden "came back" last

June for the first time since he left college. He says he will never miss another reunion if he can help it.

'97—Archibald L. Irvin is with the General Manifold Co., of New York. Arch was formerly president of the New York Club House Association and is one of the Fraternity's workers and one of our most loyal alumni.

'98—Walter G. Harper recently completed a magnificent seven-story building for the Crawford County Trust Co., of this city.

'02—Jay E. Fitzgerald is in the Civil Service, doing editorial work in the Bureau of Manufactures of the Department of Commerce and Labor at Washington, D. C.

'04—Malcolm H. Dewey has been honored with the chair of German at his Alma Mater during the absence of Dr. Mulfinger, who is in Europe this year on Sabbatic leave.

'05—Dr. Harold Gaston is fast gaining a great reputation as an eye, ear, nose and throat specialist in Erie, Pa.

'07—Gaylord Church is a graduate of Annapolis and is with the Army at present.

'07—Frank Stockton graduated from Johns Hopkins University recently and has accepted the chair of economics at the University of Rochester.

'08—Otto H. Houser recently married Miss Ethel Mills, a graduate of Allegheny College and a member of the Theta Sigma Sorority, a local society here. Bro. Houser graduated from the Boston Theological Seminary last year and has accepted a call from a Methodist Church in Cleveland.

'98—"Booze" Russel is studying law and running a large barber shop (pardon me), tonsorial emporium, on

the side in Los Angeles, Cal. Bro. Russel is the Secretary of the Allegheny Alumni Association of that place.

'09—R. R. Lippit is studying music in Europe.

'09—Wm. L. Mould is studying law and working for the Bell Telephone Co. at Cleveland, Ohio.

'09—Raymond C. Crawford is at West Point.

'09—"Venus" Cole, the 300 pound prize beauty, is "holding down" a real estate business in Shreveport, La., and is causing palpitation of the heart among the "creole dames."

'10—"Dick" Baker is studying law at the University of Pittsburgh. We expect to see a good deal of "Bake" however, for there is a powerful attraction here which brings him back very frequently.

'11—"Cy" Stetson is studying law at Western Reserve in Cleveland. We expect to see "Cy" President some day.

'11—Howard Mitinger pitched excellent ball for the Huntington, Pa., team this summer. It looks like the "Big Leagues" for "Mite."

'11—Charley and Ed. Hamaker are studying medicine at Medico Chi, Philadelphia.

'11—Bruce David is studying engineering at Harvard, where he was honored with a scholarship.

'11—"Com" Cole is engaged in the hardware business with his father at his home "city."

Note—Andover has a population of 900 by the last census, an increase of 10 in the last 10 years. "Com" is the new addition to the population for this year.

'12—"Butch" Krug is in business at Cleveland, Ohio.

'12—Paul Herbster is with the Morris Packing Co., of North Side, Pittsburgh, Pa. Paul became a benedict last year.

Ex '14—Harrison Askey is in the State of Washington, his father having accepted a call to the Methodist Church at Hoquiam. Brother Askey writes that he visited the chapter at the University of Washington at Seattle and he says they are a fine bunch of fellows. Bro. Askey also attended the Karnea.

Ex '14—Ira B. Shoup is teaching in the public schools of New Castle, Pa.

Ex '14—Rudolph Cullum has entered the freshman class at Cornell. Quite a large number of Alpha men are doing engineering work for the Baltimore and Ohio R. R. Company at present. Among them are the following: Bro. Arthur W. Thompson is the General Manager of the road. Brother Thompson began at the bottom and worked his way up to his present splendid position. The following are working under the Engineering Department of the road: Bros. Cappeau, "Babe" Fullerton, and "Irish" Adsit at Pittsburgh; Bro. Herman Fowler at Wheeling and "Red" Phillips and Essex Penman at Baltimore, Md.

The following Alpha men attended the Karnea this summer: Of the alumni: Bros. Lowrie McClurg, "Sunny Jim" Wakefield, John C. Armstrong, Charles M. Blair, Wm. C. Deming, Archibald L. Irvin, and Harley D. Carpenter. Of the actives: Bros. Calvin, Leitzel and Askey.

The Alpha Reunion this year was the most successful ever held in Meadville. Altogether the attendance registered up to sixty. Besides the active chapter the following alumni were present: Bros. J. R. Andrews, C. D. Baker, A. J. Bates, Wesley Best, R. X. Brown, G. W. Canfield, H. D. Carpenter, F. S. Chryst, E. P. Cullum, G. S. Davenport, F. E. Cutler, E. W. Day, M. H. Dewey, C. A. Ensign, M. D. Gibbs, D. A. Gill, W. G. Harper,

S. C. Hayden, O. H. Houser, A. L. Irvin, David Jamison, C. B. Kistler, C. F. Lewis, F. F. Lippit, W. L. Mould, R. L. Phillips, F. E. Russel, Wm. Schermerhorn, Leroy Monereau, J. E. Silliman, E. J. Stetson, Jas. S. Stewart, J. A. Wakefield, Lewis Walker. We were also honored with the presence of our President, James B. Curtis, Beta Zeta; W. D. Homaker and Bro. Wakefield, of Gamma, and Frank C. Lockwood and Bro. Study, of Gamma Theta.

### GAMMA

Ex '12—"Heinie" Rivers, who visits us every now and then, spends the greater part of his time working for the Rivers Bros. Produce Co., Los Angeles, California. However, he may be found, almost any old time, at his address in Monrovia, Cal.

#### BETA UPSILON

'72—Dr. J. J. Davis is now living at the University Club at Madison, Wis.

'96—George Jobst's firm, V. Jobst & Sons of Peoria, are constructing a large hotel in Peoria.

'97—L. F. Hamilton now lives at Washington, Pa.

'98—Warren Haseltine is with Jobbins Chemical Co. in Aurora, Ill.

'99—W. G. Fraser is again located at Trinidad, B. W. I.

'99—T. L. Burkland is president of the Citizens State Bank at Nampa, Idaho.

'01—H. L. Brittingham was recently married to a Danville girl.

'03—Perry Barker is with A. D. Little, chemist, 93 Brod St., Boston, Mass.

'04—Hal Barter is with Stone, Webster Co. at Seattle, Wash.

Ex '04—B. C. Nelson is a member of Nelson & Son's new grocery.

'04—A. W. Errett, of Kewanee, is engaged to be married soon.

'04—F. A. Holtzman is now with Crill Construction Co. in Chicago.

Ex '05—Ralph Hon is a member of the law firm of Grass & Hon with offices at 508 Bailey Bldg., Seattle, Wash.

'06—G. T. Donoghue's new address is 4866 Kenmore Ave., Chicago.

'07—Nain D. Hamilton's address is 1516 Orleans St., care of Welch Mfg. Co., Chicago, Ill.

'07—"Conan" Doyle now lives at 6549 Yale Avenue, Chicago.

'08—R. S. Arthur with Madiera Mamore R. R. Co., Mamores Amazonas, Brazil, S. A.

'09—R. O. Beck is doing engineering work in Sioux City, Ia.

'09—Gordon Mabin is married to Miss Nancy Tucker, of Danville, Ill.

Ex '11—Earle Miller and Miss Olive Manly, of Harvard, Ill., are married.

'11—"Berry" Barradel is at the head of the mathematical department of the Oak Park High School, Oak Park, Ill.

'11—John Bassett is with the General Electric Co.

'11—Jack Frazer is taking a business course in Chicago.

#### BETA PHI

'07—Bro. "Bill" Tracy is chairman of the local Men and Religion Forward Movement Assn.

'10—Bro. Ed Kinney and wife were presented with a ten-pound future Delt, Friday, Oct. 6.

'10—Bro. Warner Bushnell is employed in the chemical laboratory at Hibbing, Minn.

'11—Bro. Geo. M. Haverfield is employed in San Luis Potosi, Mexico.

'11—Bro. Claude W. Pettit is assistant principal of Logan High School. He is also coaching the football team.

'11—Bro. Sylvester Noble has joined the ranks of the benedicts, being married to Miss Corna Greiner.

'11—Bro. Warren Briggs is now teaching American History at Piqua High School.

'11—Bro. Stanley N. Sells is credit man in the firm of J. H. & F. A. Sells.

## BETA CHI

'97—Frank E. Watson can now be found at 832 Main St., Springfield, Mass.

'99—A. H. Blanchard has left Brown University to teach in Columbia. He will also open an office in New York, as Consulting Engineer.

'01—John P. Gray went out to the Karnea last summer and took one of the prize steins by his vaudeville performance. Rankin, ex '11, also got one.

'03—Henry B. Drowne is with "Prof." Blanchard in New York.

'05—"Ted" Hascall is with us often nowadays. We would like to see more of the alumni as often. He is a physician at Riverside, R. I.

'08—A. C. Thomas is Director of Religious Education at the First Baptist Church, Providence, R. I.

'09—"Johnny" Bunker is Instructor in Sanitary Engineering at Harvard University.

'09—I. W. Patterson is demonstrator for the Texas Oil Co. and is at present located at Springfield, Mass.

Ex '09—"King" Carley is staying with us now. He is a government engineer at Newport, R. I.

'10—Gaius Barrett is teaching at Mt. Hermon Seminary, East Northfield, Mass.

'10—"Bob" Seybolt is taking his Ph. D. at Columbia University.

'11—"Gumshoe" Canfield is working with the Kanawha & Michigan R. R. His address is 606 Donnolly St., Charleston, West Virginia.

'11—"Al" Corp, guard on last year's crack football team, is coaching the Connecticut Agricultural College Football Team this fall.

'11—"Cy" Greene is with the War Department at Newport, R. I.

'11—"Doc" Watson is in the construction department of Swift & Co.

'11—Earle Donle is taking his A. M. at Columbia this year and also assisting Prof. Blanchard in the office.

'11—Earle Dane is with the American Fidelity Co., of this city, and is at present living at the house.

#### BETA PSI

'07—John Booe, who has been in Seattle for several years, is home on a visit and has dropped down to the house several times.

'08—"Pele" Neal, who is practicing law at Noblesville, Ind., was down to the "rush."

'08—"Hic" Ulrich is in the chemistry department at Cornell. "Hic" was down here recently.

'10—Jack Wilson is taking a three years' course in law at Chicago University. He was down to see us a few days ago.

Ex '11—"Dug" Douglass is working for the Pullman Company. "Dug" spent a few days with us at the opening of college.

'11—"Pig" Lambert has a fellowship in chemistry at Minnesota University.

'11—"Ted" Ristine is in the banking business at Fort Dodge, Iowa.

#### BETA OMEGA

'99—John J. White is now with the Scranton Life Insurance Co. in San Francisco and is residing at 1585 Le Roy Ave., Berkeley, Cal.

'00—"Con" Loring started the ball rolling for the Karnea in 1915, circulating boosters throughout the East.

'00—"Bro." Schneider (Beta Upsilon) gave the boys of the chapter a most pleasant evening at his house a short time ago.

'01—Bro. Lowry (Gamma Alpha) was present at our initiation banquet and spoke a few words of greeting.

'01—E. Merritt Rector was married to Miss Ruth Richards at Nevada City, Cal., April 19, 1911.

'03—Jack Karrigan is back from the Philippines, and left the affairs of the D. T. D. Development Company while he starts a peony ranch in the Contra Costa hills.

'05—"Tot" Baker is doing some engineering work for the Snow Mt. Power Co., in Mendicino County, Calif.

'06—"Stu" Chisholm is among the boys again. His advice as Chapter Advisor is sincerely appreciated.

'07—"Izzy" Wright has undertaken the burden of domestic husbandry by marrying Miss Dorothy Edith Bridge at Santa Ana, Cal., May 15, 1911. Good luck, old man.

'08—"Spider" Kelly—greetings to the little spider.

'08—"Jimmy" Northcroft was at the banquet. Believe me, it was good to see the old boy again. "Jimmy" has been up in Idaho all summer doing some work for the Holt Mfg. Co.

'11—"Fu" Brayton is head over heels in the bond business. Selling 'em right and left "Bo," aren't you?

'11—"Spatter" Vail is in Alaska doing assay work. He writes that he sleeps with a mint at his feet and an arsenal at his head—do be care-ful!

'11—Ralph Robson, old "Robo," is in with his brother in San Francisco. Civil engineering, and making good.

Ex '12—"Pink" Darmer is on his way home after an extensive tour through Europe. "Bog in old fellow," if you must go to work.

Ex '13—Leo Bradner (Gamma Mu) has all the cares and troubles of a little home on his shoulders.

Ex '14—"Os" Lawton is working for Bro. Van Sant in San Francisco. He will return to college next August.

### GAMMA GAMMA

'02—Harry B. Ballou is a physician and surgeon at the State Homeopathic Hospital at Middleton, N. Y. He is a member of the American Institute of Homeopathy, Society of Neurology Psychistry, Homeopathic Society of N. Y., Middletown Medical Club, Middletown University Club, Phi Alpha Gamma, and a graduate of the University of Minnesota Medical College.

'02—George K. Pattee has been a professor in the Penn State College but is at present on a year's leave of absence.

'04—A. W. Kimball is a commercial traveler for H. J. Heinz. He was married July 29, 1907, to Miss Grace M. MacGregor, of Wellsville, O. Charles MacGregor Kimball, Dartmouth, — —?was born Nov. 12, 1908. Kimmie says he is expected to be an all American fullback and end his career as President of Delta Tau Delta.

'04—L. W. Webster is assistant Superintendent of the Royal Worcester Corset Co.

'06—M. W. Webster is in the insurance business at Berlin, Conn.

'07—E. H. Frost is Assistant superintendent for the Fred F. Fields Co., who are shoe manufacturers in Providence, R. I.

'07—H. D. Oliphant, "Father," is Senior Master at the Ridge School, Washington, Conn. He says that he is married and happy and hopes to see us all next June. Believe me, he will have to come up before then or else there will be trouble brewing when he does come.

'08—Jesse Harding is an insurance broker in Haverhill, Mass. "Miss Dorothy Edgerton Mills recently announced her engagement to yours truly" is the way that he expressed it in his reply to my letter. He says also that K. S. Brackett, '03, is employed by the N. E. Tel. and Tel. Co.

'09—A. C. White, "Reggie," is a chemist with the E. I. Du Pont Powder Co. at Carney's Point Plant, Penn's Grove, N. J. He says that all they do in that place is make farmers out of the young stock so that he could use the recommendation blank that was enclosed in his chapter letter. I had a very good letter from him as well as from the other alumni that you find in this list.

'09—C. L. Sheldon is a clerk in the New Britain National Bank and also secretary and treasurer of the Dartmouth Lunch Club of Hartford, Conn. He informs me that Geo. W. Pliphant is with the firm of Castle, Gottheil and Overton, 41 Park Row, N. Y.

'09—"Deac." York is in the produce business, corner of Commercial and North Market Streets, Boston, Mass.

Ex '09—Carl Butman is an assistant editor at the Smithsonian Institute at Washington, D. C.

'10—Bruce Knapp has recently taken a position with the Standard Oil Co. and expects to go to China in the near future look after the business there.

'10—H. P. Jackson is with the American Fidelity and Trust Co., of Montpelier, Vermont, and says that he is

neither dead nor married as yet. In reply to the question as to whether he knew anything about any of our alumni he remarks, "No, but I expect that they are all in jail." Perhaps he thinks because they have such a model jail in his burg that all places do also.

'10—M. C. Taylor is a student in the Harvard Law School.

'11—A. D. Pease is at present residing at 73 Hamilton St., Dorchester, Mass., and gives his occupation as a gentleman. That sure must be a hard job for you, Peaso.

'11—G. C. Barnes is at work for an insurance company in New York but expects to be permanently located in the business soon.

'11—G. F. Dwinnell is studying at the Harvard Medical School this year.

'11—Percy Deshon is to enter the U. S. Army in about three months.

'11—H. M. Clute is a student in the Dartmouth Medical School this year.

'11—W. G. Gordon is taking his last year in the Thayer School of Civil Engineering this fall.

'11—J. B. Welch is somewhere on the face of the globe but just where it is hard to say; the last report that came to me was rather indirect but was to the effect that he was traveling in the countries over the big pond.

#### GAMMA EPSILON

'07—Dan Goren, C. E., is an agent for the Ingersoll watch people. He is located in Kentucky.

'09—Harry Hall is a mining engineer at Virginia City, Mont. It is reported that he recently discovered a very valuable piece of property.

'10—"Pete" Barnum is in the Law School and is living at the Delt house.

'10—Paul Thomas is abroad enjoying a much needed vacation.

'10—"Trot" McConnell is with the China Copper Co., Santa Rita, New Mexico. He is reported to have been in on Harry Hall's find.

'10—Homer Carr is back in the United States with the same mining concern.

'10—Ted Counselman is a mining engineer at Miami, Arizona.

'11—Sam Hoyt is pursuing his studies at a German University.

'11—Dick Klugescheid is in the Law School.

'11—Jim Allen has a law office in Chanute, Kansas. He is to be married November 7.

'11—Jones Griffith is in the fire insurance business in Mayfield, Kentucky.

'11—Jim Hoffman is a mining engineer at Porcupine. He is at present in New York City.

'11—"Wobby" Ayer is a mining engineer of Morenci, Arizona.

Ex '13—Deggie des Granges is in the office of William Swarzey, the architect.

Ex '13—Charlie Hoffman is in the advertising business.

#### GAMMA ETA

'08—Our "Franky" Hemmick is now the proud father of a young daughter, who says papa just like a Victrola.

'08—Louis Allen is reported as having raised a tremendous crop of apples this year. Don't forget the bunch, Louis.

'08—Burton Green has taken up his residence in Los Angeles, California, conducting special examinations for the Land Department.

'09—Bob Duenner is just now taking his exams. for a surgeon in the Navy.

Ex '10—Fritz Crafts became married to Miss Mary Barton during the summer. Best wishes.

Ex '10—Hervey Moore, the lawyer, ran a good race for congressman for his home town of Trenton.

#### GAMMA THETA

'02—Scott E. W. Bedford has been elected to the chair of Philosophy of Chicago University.

'03—Harry P. Study is now located at Sedan, Kansas.

'06—William Hudson was married this summer to Miss Hortense Imboden, Delta Delta Delta.

'08—J. A. Allen has finished his law course at Columbia and is practicing at Chanute, Kan.

'08—Henry Farrar is taking law at Harvard.

'08—Frank Boys is practicing law in Kansas City.

'10—Herbert Bailey is singing with the Hoosier Quartette in Lyceum work.

Ex '10—J. C. Jacobs, who was married this summer, to Miss Patience Goodlander, Delta Delta Delta, is in business in Topeka, Kansas.

Ex '10—C. M. Wood is construction engineer at Columbus, Kansas, upon a sewer construction.

'11—F. D. Brooks is superintendent of schools at Guthrie, Oklahoma.

'11—George S. Counts is teaching in the High School at Wellington, Kansas.

## GAMMA LAMBDA

'06—"Mike" Sheedy has entered the class of benedicts. The event occurred Oct. 25th. "Mike" has arranged a little jollification here to commemorate the affair.

'09—Bro. H. Verne Weed wrote the other day and informs us he is now connected with the New York Telephone Co., Bell System, at Albany, N. Y.

'11—Bro. "Bisky" Overstreet sends in the report that he will shortly visit the chapter. He will drive over in his car from Robinson, Ill.

Gamma Lambda's Alumni Chapter at Altoona, Pa., consisting of Bros. W. Stauss Spieth, '11; Clifford L. Hanod, '11; Oscar N. Edmandson, '11; "Hi" Henry, '12, will all be out here this month to help pull "Mike" through the fire and assist in the aforementioned festivities. These brothers are all connected with the "Pennsy" at Altoona.

'11—Bro. T. N. Richards is located in Newark, N. J., with the General Electric Co. They say "Rich" has thoroughly reformed and is living at the Y. M. C. A.

'11—Bro. Greyson W. Morrison is staying in Pittsburgh. We expect a visit from Greyson shortly.

'11—Bro. "Chet" Taylor is located in Aberdeen, Wash., with some lumber company.

'11—Bro. George L. Hoffman is an instructor in the university this year and at the same time is working for a degree. "Bugs" has the goat of the freshmen "Ags."

'11—L. G. Zinsmeister is in business in Louisville, Ky. "Zins" is chief coffee roaster of the firm of Zinsmeister & Sons at that place.

## GAMMA OMICRON

'07—Bro. "Billy" Stickle has recently gone to New York City, where he will continue his musical work.

'07—Bro. William A. Snyder has a musical studio in Syracuse.

'07—Bro. H. D. Phoenix is an architect in Syracuse.

'08—Bro. F. V. Bruns is conducting a flourishing insurance business in Syracuse.

'09—Bro. N. Warner VanLengen, M. D., has a fine practice in Syracuse.

'09—Bro. Lewis T. Dixon is doing architectural work in Buffalo.

'09—Bro. J. H. Leneker is principal of the High School at Minoa.

'09—Bro. M. E. Granger is an architect in Syracuse.

'10—Bro. S. H. Coleman is at the head of the S. P. C. A. of Erie Co., being located at Buffalo.

'10—Bro. H. S. Mason is organist and director at the South Presbyterian Church, Syracuse.

'10—Bro. P. E. Batzell is introducing a new book in the public schools, making his headquarters at Syracuse.

'10—Bro. E. G. Atkinson is an architect in Albany.

'10—Bro. H. C. Hopkins is with the Bryant-Marsh Co., Chicago, Ill.

'10—Bro. F. C. Briggs has a fine position in the capitol at Albany.

'10—Bro. F. A. McCord is in a banking business in Philadelphia, Pa.

'10—Bro. M. A. Clark is manager of the Clark Music House, Syracuse.

'11—Bro. Fred. J. Leonard is filling a hospital appointment in the House of the Good Shepherd, Syracuse.

## The Delta Authors

MU

CHARLES E. JEFFERSON

“WHY WE BELIEVE IN LIFE AFTER DEATH,” by the Rev. Charles E. Jefferson. Houghton, Mifflin & Co.

Two lectures by the pastor of the Broadway Tabernacle Church of New York City. Dr. Jefferson delivered them as the first of the series of the Raymond F. West Memorial lectures at the Leland Stanford Junior University. This lecture course was founded by Mr. and Mrs. F. W. West, of Seattle, in memory of a son who was killed before the completion of his college course. The permanent endowment provides that each lecture shall be given on some phase of the subject, “Immortality, Human Conduct, and Human Destiny,” and it was fitting that the course should open with a sincere affirmation of the belief in immortality.

He does not go so far as to say that all men can hold a fixed faith in immortality, or that he personally can offer the palpable evidence which will convince the obstinate and materialistic mind. But he says: “It is as unreasonable to deny the existence of spiritual genius as it would be to deny the existence of poetic or musical or inventive genius. These spiritual geniuses are called poets, prophets, seers. They see. They possess intuition, insight, preternatural vision.

“It is given to some men to make themselves believe. They speak as having authority and not as men who learn

things out of books. They do not argue. They care little for external proofs of what they say. They carry the proof of their convictions in themselves." He speaks of Socrates, Goethe, Hugo, Tennyson, and Emerson as among those who were convinced of immortality—all of whom were "better believers than they could give grounds for." And he says "The real evidence is too subtle or too high to be written down." And he concludes his eloquent and earnest volume by statement that if a man would have confidence in the life eternal he must live today like an Immortal.

## The Chapter Eternal

EPSILON

LINTON BEECH SUTTON

GEO. EDWIN WILLITTS

WHEREAS, Almighty God, in His infinite wisdom and judgment, has seen fit to remove from the activities of this life our beloved alumni, Bros. Linton Beech Sutton and Geo. Edwin Willitts,

*Resolved*, That Epsilon extend to the bereaved families of these brothers our sincerest sympathy in their deep affliction, and be it further

*Resolved*, That a copy of these resolutions be sent to the families of our departed brothers, that a copy be spread on the minutes of the chapter, and that a copy be sent to THE RAINBOW for publication.

EPSILON OF DELTA TAU DELTA.

---

PSI

WALTER LOUIS KEMPER, '10

Bro. Kemper died at his home in Van Wert, Ohio, Aug. 16th, after struggling bravely against typhoid fever for three weeks. Mr. Kemper was not yet twenty-two years of age, having been born January 3rd, 1890.

It was with a distinct shock that students of Wooster University, so many of whom loved genial old "Zip," received the news of his death this fall. He had gone to

Blairstown Academy, N. J., only a year ago to face probably the brightest prospects of any graduate of the class of '10. He had been re-elected for the year '11-'12 at a handsome increase in salary, which showed that he had made good.

He possessed a broad charitable nature and a fascinating personality which won all irresistibly to him. Combined with these rare traits he possessed a clear, analytical mind which gave promise of rare attainments in either scientific or scholastic fields. Nor did he neglect that phase of activities which appeal to every normal, healthy young man—athletics. After winning his "W" he successfully coached the Blairstown Academy football team in addition to teaching mathematics. Bro. Kemper's death is indeed a severe loss to the Fraternity, for his interest in Delta Tau Delta had no bounds.

---

NU

PETER CLARK SCHOCH

WHEREAS, Almighty God, in His infinite wisdom, has seen fit to remove from life our Brother, Peter Clark, Schoch, and

WHEREAS, by his tragic death, Nu Chapter of Delta Tau Delta has suffered the loss of a loyal and faithful member, be it

*Resolved*, That we, the members of Nu Chapter, extend to the bereaved parents of this Brother our sincerest sympathy in their deep affliction, and be it further

*Resolved*, That a copy of these resolutions be spread upon the minutes of the chapter, a copy published in THE

RAINBOW and a copy be sent to the parents of our dear and beloved Brother.

H. C. FERNAU,  
W. W. LABARR,  
GEO. KEELY,  
*Committee.*

## The Greek World

February 21 has been agreed upon as initiation day for all fraternities at Ohio Wesleyan. No freshman is to be initiated who fails in more than three hours' work in the first semester.

New chapters have been established as follows: Chi Phi at Ohio Wesleyan, Alpha Chi Rho at Wesleyan, Kappa Delta at Coe College, Iowa; Alpha Phi and Kappa Alpha Theta at North Dakota.

"A new fraternity, Zeta Delta was organized at Idaho during the last year. It has a membership of thirty and its purpose is to apply for a charter in Sigma Alpha Epsilon."—*Phi Delta Theta Scroll*.

Central University offers free lots to fraternities desiring to build thereon, and also offers to lend part of the money for the houses. None of the chapters has taken advantage of the offer so far.

Delta Kappa Epsilon governs itself between conventions through a board of nine trustees. Each one of their forty-five chapters has a representative on the Board about every ten years, to serve for two years. The Yale Chapter, at the time it gave up the absolute domination which it had held up to that time, received the right to a permanent member of the Trustees. The Board meets on the third Thursday of every month at the fraternity office, 30 Broad St., New York City, where a stenographer is permanently employed.

The third Inter-Fraternity Conference in New York, December 2, 1911, should be unusually important. The delegates will undoubtedly come well prepared for an intelligent and fruitful discussion of fraternity problems, and the report of the permanent Committee on Fraternity and Faculty Relations should be interesting and valuable. The Conference is composed of the following fraternities: Acacia, Alpha Chi Rho, Alpha Delta Phi, Beta Theta Pi, Chi Phi, Chi Psi, Delta Kappa Epsilon, Delta Phi, Delta Tau Delta, Delta Upsilon, Kappa Sigma, Phi Delta Theta, Phi Gamma Delta, Phi Kappa Psi, Phi Kappa Sigma, Sigma Alpha Epsilon, Sigma Chi, Sigma Phi, Sigma Phi Epsilon, Sigma Pi and Zeta Psi.

Recent fraternity conventions were: Sigma Chi, Pittsburgh, June 27-30; Beta Theta Pi, Niagara Falls, Ont., July 4-7; Phi Gamma Delta, Pittsburgh, July 5-8; Delta Chi, Chicago, July 13-15; Delta Upsilon, Rutgers, October 12-14. Delta Kappa Epsilon will meet in Chicago, December 8, and Sigma Alpha Epsilon in New Orleans, December 28.

On account of the large number of men coming to Cornell from other colleges, the Beta Theta Pi chapter there has decided to affiliate no members of other chapters as active members of the Cornell chapter, while admitting them to the privileges of inactive membership. These privileges do not include the right to vote, to have a voice in chapter meetings except by invitation, or to live in the chapter house during the regular college year.

"The number of our Chapters is by Constitutional enactment limited to twenty-four. We are not over-hasty in determining where the balance of those twenty-four shall be located. Certainly, however, fraternities in the west and extreme south need anticipate no future competi-

tion with Alpha Chi Rho. In placing the twelfth Chapter of the Brotherhood in Wesleyan College, Middletown, Conn., the National Council has adhered firmly to traditional policy in the Fraternity."—*Alpha Chi Rho Garnet and White.*

We are reliably informed that at each of three southern institutions where fraternities are prohibited, several fraternities exist *sub rosa*. We refer to Virginia Military Institute, Wofford College and the University of South Carolina. Phi Delta Theta has had a chapter at each of these institutions but has none now. If the final decision of the authorities of the University of Mississippi is to prohibit fraternities, it is morally certain that they will nevertheless continue to exist there *sub rosa*.—*Phi Delta Theta Scroll.*

## The Greek Press

Phi Kappa Psi will publish four times a year, in November, January, March and May, a secret journal called *The Mystic Friend*. The regular numbers of *The Shield* will appear in October, December, February, April, June and August.

---

"The fraternities at the University of Washington up to this time (*sic*) have wielded a wholesome influence. They have in a large measure, been factors for good in university management.

"The university is rapidly becoming great in point of enrollment, with over 2,400 students as the total enrollment for the present year. We may not have realized ourselves that it is in size the fifth of the straight universities; that is, state universities without Federal help. At the present rate of growth of the state universities, inside of five years Washington will be the second state university in the country without Federal help."—*Thomas F. Kane, D. K. E., President of the University of Washington.*

---

Delta Chi took a most wise and commendable step when she excluded from her ranks members of other fraternities. Some of the advantages she reaped are stated by a member as follows:

"If the professional fraternity is 'parasitic in character,' there can be no reason for its existence. Its only effect would be to weaken the allegiance of the Greek-letter man to his college fraternity. His loyalty would be 'parasitic' and when the law school days are over, the man remembered that he 'belongs' to a professional fraternity, and that is all. His loyalty to his college fraternity returned and his was only one more name added to the list of a 'parasitic' fraternity's membership. We are making no criticism of those professional fraternities that may care to continue this policy; our comment is directed to the experience of Delta Chi, and that the change has been for the better, no member of Delta Chi, alive to its present improved condition, will gainsay.

"Eight years ago when the movement to make Delta Chi a real fraternity was born (for it was then that the first real step was taken) the fraternity was at most of its chapters a mere law club, whose membership was recruited from the other Greek-letter organizations, and, while many men were added to our rolls who have given the fraternity credit and in whose association she is proud, these were the exception. Then but two chapters in the fraternity occupied chapter houses; no attempt was made to take part in the affairs of the larger Greek world; no magazine was issued. In short, we were simply a loosely jointed organization, at sea without a definite purpose.

"Delta Chi saw that she was 'parasitic,' that the tie which bound its membership was 'necessarily weaker than that which binds college fraternity men together' and she resolved that she must either become a real fraternity or lapse into what we know to be practically law clubs. Five years of agitation; at least one stormy convention, the loss of several chapters served to convince Delta Chi that the change must be wrought. And it was wrought. It was not without heartaches. There were many misgivings, but it brought greater happiness in its wake than it drove from its prow. It made Delta Chi one thing to all men.

"Think of the change from then to now. Every chapter save one is in a chapter house and that one is located in the heart of the business district of Chicago; several of our chapters own their houses and others building them; a wide awake college fraternity magazine, a larger attendance at conventions, an unqualified interest in the work of the international organization, an activity in the local affairs of each particular college and its fraternity situation and a fraternity spirit of which any college organization would be proud. She does not divide her loyalty. Her sons serve one master. She is no longer 'parasitic.' The tie that binds her members is as close as that which links the membership of the 'regular college fraternities' and all because Delta Chi realized the very things which Mr. Baird sees today with reference to the 'college fraternity,' all because she would not be 'parasitic.'"—*Delta Chi Quarterly*.

---

This clipping from an exchange should appeal at this season to our alumni of the 1911 vintage. It also furnishes us the opportunity to remind them that a subscription to *THE RAINBOW* will help greatly to revive and keep green the memories of undergraduate days.

"One of the first things a freshman learns as he grows into the college man is that there is a whole lot in having close friends among his fellows. He may have the girl back home, but if he is normal and healthy he begins to find his greatest pleasure among

the fellows with their associations and sports—the girls become side issues. His association with them begins to take on the quality of the more the merrier—dances and social affairs of all sorts where there are crowds. He begins to absorb friendships, and with them comes an appreciation and respect for those high ideals which are now, ever have been, and ever will be the lodestone which make magnetic the personalities which are rubbed against them.

“Just here the fraternity comes in. We can talk fraternity forever—but when we get through it is all contained in association, mutuality, appreciation, and high ideals. Rub the noses of two thoroughbred bull dogs together and there is a dog fight resulting in lasting hatred. Rub two thoroughbred fraternity men together and there follows from association appreciation and respect, regard and love. By progression comes the chapter unit and unity.

“But on a bright day in June, amid the excitement of visiting alumni, girls, and dances, refreshments, etc., there comes a farewell. There is a sinking of the spirits and a restless, uneasy throb of the heart—and a man begins to be born as he catches a late train without the attendance of all the fellows and without the hurrahs and huzzas, and without the ‘see you in September.’ Everybody is too busy, it seems—too many home-folks there to see him graduate and to demand the time which almost seems the right of his fellows.

“Then he goes out and up against it. Too much has been said about this fight to get his foothold in the world to attempt to add anything, except this thought—he fights without the chapter unit behind him. Each man of the chapter used to back him up. Now they are doing it only with hope, while individually they are up against the same fight. He does not get to visit his chapter. He sees his fraternity brother only occasionally. Those of his chapter are to be found in every state—too far away for much fraternal intercourse. In a few years he begins to love his fraternity as the memory of dear days gone by. Soon he is likely to class it with those pleasures of memory like boyhood. The troubles of the old frat life are forgotten. He remembers best the associations of the individual men.”—*Kappa Alpha Journal*.

---

Some very sound and sensible thoughts are expressed by Sigma Chi's retiring president in the following extracts:

“It seems to me that the most significant fact of the present fraternity situation is the growing desire of the chapters to co-operate with college faculties so as to promote a good standard of scholarship and a clean and business-like government of chapter houses. The average chapter no longer regards the faculty as an entrenched enemy, and the average faculty no longer favors sending a man to the gallows because he is caught smoking a pipe. College authorities

seem to have learned, as witness recent important reports, that the Greek-letter society is to be an abiding institution, that it exerts a wholesome influence, and that discretion should prompt them to deal with it tolerantly rather than in a spirit of blind opposition.

"As for the Greek-letter men, an overwhelming majority of them want to stand high in scholarship and acquire credit in other ways, and they are willing to work in harmony with college authorities, if these authorities will concede the reasonable fact that a young man of twenty or thereabouts who is getting ready to engage in a tussle with billigerent circumstances and meet all kinds of men without fear or handicap, should not be coddled as an infant nor propped up as an irresponsible.

"I have a kindly feeling and a measure of respect for the typical college professor. He is usually learned, often kindly, sometimes just, and nearly always sincere. But his environment and the close angle at which he views men and affairs are quite different from those of the mercantile or professional alumnus who is in the thick of a fighting career. His estimates are too often adjusted to the short range of the campus. I have known men who were given the stamp and seal of faculty approval, who did not amount to a whoop when they became engaged in the real mix-up of life. Also I have known men who took the double degree of N. G. and G. B. who later became highly successful, even when success is measured by a strict Presbyterian standard.

"You could pick out twenty scholarship stars and put them together in a chapter house and the result might be a dreary bunch of misfits. Conversely, I can imagine twenty men, all of them hanging on the ragged edge of faculty disfavor, who would squirm their way into your inmost affections and warm the cockles of your heart before you had known them for twenty minutes. I can imagine such a chapter because I have known it.

"Let us not take ourselves too seriously on this scholarship proposition. The statute of limitations has exempted some of us from investigation on this score and the mantle of charity continues to work overtime.

"We hope to see in our chapters men who are interested in all proper forms of student enterprise. We want them first of all to be largely endowed with the attributes which distinguish man from the brute creation. We want them to be decent and manly and cheerful and surcharged with human sympathies. We want them to have courage enough to fight their own battles and philosophy enough to enable them to smile at defeat. We want them to adjust themselves during college life to some of the conditions which inevitably will surround them after they leave college. We want them to be charitable and broad-gauge and ready to take orders just for the plain satisfaction of being useful. We expect them to get the important part of their education from daily contact with keen young men of their own kind. Incidentally, we expect them to make a creditable showing in their battle with the curriculum. Many college profes-

sors will be surprised to learn that the curriculum is merely incidental to a college career. Because many educators have rather set views on the importance of work in the recitation halls, and in order to avoid controversies and misunderstandings, it will be just as well for all young Sigma Chis to continue to pay more or less attention to the curriculum."—*Sigma Chi Quarterly*.

# New York Delta Tau Delta Employment Committee

**AIM** Realizing that many younger brothers from the fifty-five universities and colleges where  $\Delta T \Delta$  has active chapters, come to New York each year in search of jobs, the New York Club has appointed a committee to co-operate with and assist any Delt coming to New York in one of the most important events of his life—namely, that of securing his first position. This committee will maintain a complete bureau of information, where a card index will be found, giving a list of all available positions, whether with brother Delt or with business corporations, professional men or others not members of the Fraternity. A like list and complete data in regard to applicants for employment will be kept for the convenience of prospective employers. There will be no charge made to either employer or employee. We are doing this for the good of  $\Delta T \Delta$  and her younger sons.

**EMPLOYER** An important part of this work will be for all the older brothers who are likely to require the services of recent college graduates, or who are in a position to know of openings, to communicate with the committee, advising them of the nature of the employment in regard to which they are most likely to have information of value in placing younger brothers. Send in this information at once, whether the positions are in New York City or elsewhere.

**EMPLOYEE** Any members who desire to secure positions in New York City should fill out the blank below and send it to the committee at once. Until this work is made more national in scope, applications for positions in other localities and in foreign countries may also be sent in.

Address all communications to

## Employment Committee

$\Delta T \Delta$  CLUB

66 W. 36th Street

NEW YORK

I wish the help of the Committee in securing a position. ....19.....

# NEW YORK DELTA TAU DELTA CLUB

---

Every Delt who visits New York should become a non-resident member. We believe that this club fills a long-felt want of the Fraternity and it should have the support of Delts from all sections.

We already have a growing non-resident membership, but we want *you* to fill out the attached blank and send it in at once. If you are already a member, we want *you* to call this to the attention of some non-member Delt and get *him* to send in his application.

If you intend to come to New York, have your mail addressed care of the Club and make it your headquarters while here. We will spare no effort to make your stay enjoyable.

Every Tuesday and Thursday are club nights. The monthly dinner is the second Thursday of each month; and *every* night is a *house warming*. The Delt luncheon is held at the Garret Restaurant, West and Cedar Streets, every Tuesday at one o'clock.

Fill out the attached application for membership and send it in. You will never regret it.

# The Delta Flower

I know a little Flower that's as lovely as the rose,  
Though it has neither fragrance nor a thorn;  
It is not tall and stately, but near the ground it grows,  
And it smiles up like the smiling of the morn:  
And every Delta swears by the Colors that it wears,  
For they are Delta's Colors from of old.  
Oh, the smiling, friendly Pansy is every Delta's fancy,  
With its Purple and its White and its Gold.

Oh, the Pansy, the Pansy! 'Tis the loyal Delta's fancy,  
As its Colors in their loveliness unfold,  
That he sees his Banner dancing, in splendor still  
advancing,  
With its Purple and its White and its Gold!

The nicknames that we shower on this darling little  
Flower

Are assurance of its welcome and its worth:

"Heart's-ease" and "Johnny-jump-up" are familiar  
household words

To Anglo-Saxon tongues around the earth.

But, Pansy—"that's for thoughts"—is the name we  
love the best;

And when the smiling Pansy we behold,

The Delta's thoughts will be of our loved Fraternity,  
With her Purple and her White and her Gold.

Oh, the Pansy, the Pansy! 'Tis the loyal Delta's fancy,  
As its Colors in their loveliness unfold.

That he sees his Banner dancing, in splendor still  
advancing,

With its Purple and its White and its Gold!

JOHN R. SCOTT
