OF DELTA TAU DELTA

★ ★ ★ ★ ★ *November, 1944*

VOLUME LXVIII NUMBER 1

DELTA TAU DELTA

is a constructive adjunct to the system of higher education. Her objective is to educate, contributing to the young men within her sphere of influence a moral, spiritual, and social development commensurate with the intellectual training supplied by the colleges and universities.

One Moment, Please

In sending to the Editor the account of Gamma Theta's fifty-fifth Chicken Fry, Cherry Leitnaker says, "It is my hope that Gamma Theta's servicemen may see this and know that we are keeping faith with them." Responding to a last-minute call, he came through with the story you'll find on Page 10. We don't know whether the versification is brought on by the fact that the writing was done between 11:00 P.M. and 2 A.M. one night, but that's the kind of editorial assistance that really counts in getting to you news of all the Fraternity.

Chapter news is on the increase this number. May we call your attention to the reports of the undergraduates dispersed through the "Editor's Mailbag" department.

President Boyd reports to you on the state of the Fraternity in "Around the Fireplace with Good Delts" on Page 15, giving a general picture of current conditions and plans for the future, immediate and postwar, as reflected in the formal sessions of the Arch Chapter, held in Indianapolis, Indiana, September 21, 22, and 23, 1944. Minutes of the meetings will be published and distributed to all chapters, both alumni and undergraduate, in December.

Through the department, "Delts in the Service," we have brought to you from time to time reports of the members of Delta Tau Delta who have been honored by the Army and Navy for bravery, gallantry, and service beyond the line of duty. On Page 19, a résumé of these awards is given, with almost three years of war behind us.

Another chapter is doing a splendid job of keeping its members in touch. Mu at Ohio Wesleyan published the *Chapter Mu News Letter* September 24 and distributed it to the alumni and men in service. With it was a very attractive pamphlet, entitled *Chapter Mu News Reel*, by Mother Kent, containing excerpts from many letters which she has received from Delts all over the world.

HUGH SHIELDS.

ENTERED as second-class matter at the post office at Fulton, Mo. Acceptance for mailing at special rate of postage provided for in the Act of February 28, 1925, embodied in paragraph 4, section 412 P.L. and R., authorized February 15, 1926.

A QUARTERLY MAGAZINE devoted to Fraternity and college interests. The official organ of $\Delta\Delta\Delta$ Fraternity. Subscription rate, \$3.00 per year.

PUBLISHED at 1201-5 Bluff Street, Fulton, Mo., and issued four times during the year, the four numbers of each volume appearing in November, February, May, and August, respectively.

ALL CHAPTER LETTERS, alumni notes, alumni chapter letters, death notices, news stories, pictures, and manuscripts for publication should be sent to the Central Office of $\Delta\Delta\Delta$ Fraternity, 333 N. Pennsylvania St., Indianapolis 4, Ind.

Edited by the Central Office, $\Delta\Delta\Delta$ Fraternity.

The Delta Creed

- I BELIEVE in Delta Tau Delta for the education of youth and the inspiration of maturity, so that I may better learn and live the truth.
- I BELIEVE in Delta Tau Delta as a shrine of international brotherhood: her cornerstone friendship, her foundation conscience, her columns aspiration, her girders self-restraint, her doorway opportunity, her windows understanding, her buttresses loyalty, her strength the Everlasting Arms.
- I BELIEVE in Delta Tau Delta as an abiding influence to help me do my work, fulfill my obligations, maintain my self-respect, and bring about that happy life wherein I may more truly love my fellow men, serve my country, and obey my God.

Press-Box View of Global War

By WILLIAM B. DICKINSON, JR., *Kansas, '29*

Southwest Pacific Manager, United Press

A good many months ago I stood ankle-deep in the rubble of a bomb-shattered schoolhouse in a shabby London suburb and watched rescue workers dig for the bodies of the last of more than forty child victims of the bomb dropped by a low-flying German day raider.

It was night, but the lights beneath which the men toiled in the ruins showed a bit of paper fluttering at my feet. I picked it up. It was a page from a child's notebook, a page torn out intact by some freak of bomb blast. On it was one sentence, laboriously printed in childish characters:

"Since 1066 no invader has been able to set foot on English soil..."

I still have that bit of paper somewhere. I think of it as a distillate of the Magna Charta, the Rights of Man, the Preamble to the Declaration of Independence, the Atlantic Charter, the Four Freedoms—all the words in all the centuries in which men have voiced the cause of freedom.

France had fallen; Yugoslavia and Poland had been overrun; the Russian armies were still falling back; Pearl Harbor had been bombed and the American fleet shattered; Singapore was gone; the submarine toll in the Atlantic had risen steadily—defeat had mounted upon defeat and discouragement upon discouragement—yet, as I read that one sentence a child had written in the moments before death fell from the sky, I knew that the free nations could not and would not lose this war, that freedom would not die.

It is a truism that no soldier sees a battle as a clear and complete picture. Equally no correspondent can watch a war as he might look down from the press box upon a football game. Looking back over three years of covering war, writing war, thinking war, I find running through my mind a kaleidoscopic series of impressions, falling into place one after another like the pic-

"Your correspondent in soaked jungle attire, beating a wet typewriter while sitting on a stack of good American-made tires recaptured from the Japs when we took the Admiralty Islands." Cut lines by Dickinson, himself.

tures in the slot machines at a penny arcade.

Just as I might title the story told above: "My Most Uplifting Moment," so other pictures in the series might be called:

Most thrilling—the sight and sound, felt rather than heard, of hundreds upon hundreds of American Flying Fortresses, so high that they were merely silver specks against the sun, passing in perfect formation over London en route to Germany, while a Saturday afternoon cricket crowd of 50,000 at Lords craned their necks and even the players forgot their game to watch.

For a close second, the sight of American Mitchells diving from the low clouds over little Manus island in the Admiralty group to strafe, bomb, and silence Japanese machine guns which had pinned 450 gallant cavalymen—and this thoroughly frightened correspondent—to a tiny strip of beach, and prevented other waves from coming in.

Most tragic—the blood-smeared stairs at the entrance to a London shelter where some 200 persons died in a senseless panic at the start of a minor German night raid in which no bomb fell within miles.

For a second, a naval gunner who only moments before had been a fresh-faced, laughing boy, sagging in his little gunpit aboard a landing craft, half his head shot away, and his hands still clutching the machine gun with which he had been strafing the Jap-held beach ahead.

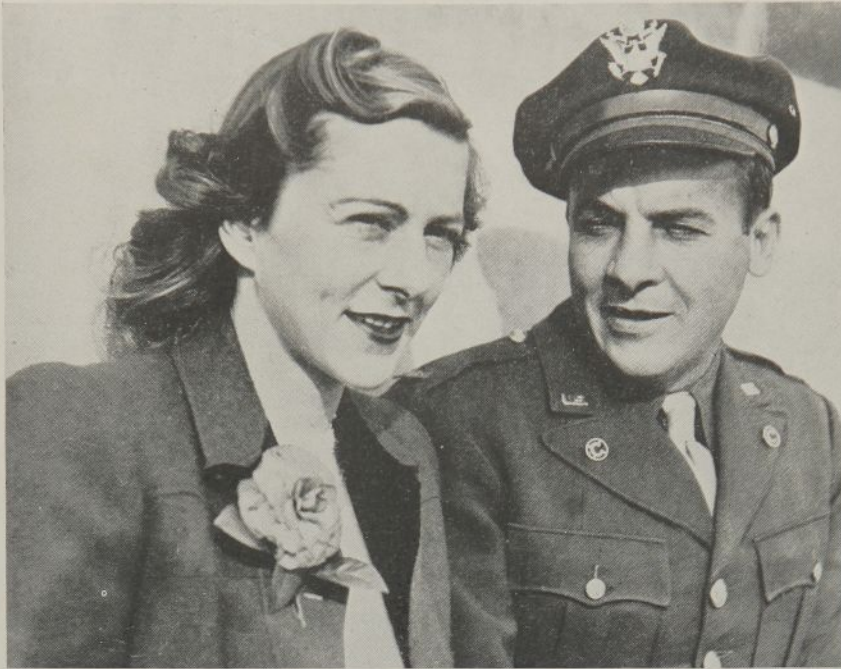

Most beautiful—the lights on the Jersey shore, as seen from the icy deck of a navy ship in the dark hours before dawn when I returned home for Christmas, 1943, after two and one-half years in blacked-out England.

Most frightening—not the London bombing, and not landing with the first wave under Jap fire in the Admiralties, but the time a practicing Portuguese bomber dropped a stick of bombs within 200 yards of the field where my plane was taking on fuel for the long hop to England.

Most nostalgic—watching the shadows of evening close down over the California mountains as my plane headed westward, taking me again away from home, and starting me along the road which I hope will end, some of these days, in Tokyo.

Luckiest break—scoring a twenty-eight hour beat with an exclusive story of the invasion of the Admiralties. General MacArthur gets credit for that one. He landed just eight hours behind the first troops ashore, when no one knew he was within several hundred miles, and because I was the only reporter ashore at the time, gave me a fast trip by warship, torpedo-boat, and Flying Fortress back to the cable-head where I could file my story.

Narrowest escape—on that same Admiralties story. I left the island at dusk. That night the Japanese infiltrated, and the next morning

War Correspondent Dickinson with bride, the former Suzanne Fraser, of Melbourne, Australia.

fourteen of them were killed in the abandoned Jap pill-box which a photographer and I had carefully prepared for our occupancy.

Funniest incident—asking a native policeman during the early stages of a Pacific operation, in what I thought was pidgin English: "You see Japan man?" To which he replied in precise English: "There are several dead Japs over there a few hundred yards. I have seen no live Japanese. They seem to have gone into the hills to escape the naval bombardment."

Worst error—predicting on August 1, 1943, that the war in Europe would be over by Christmas (for-

tunately I didn't write that one for my service) and even more foolishly betting about \$150—I did get three-to-one odds, though—on my judgment.

But correspondents are incurable, and right now I'm predicting that by the time this appears in THE RAINBOW—if the Editor is indulgent enough to print it at all—Germany will have given up the fight and there will be an armistice in Europe. And that by the end of 1945 Japan will have been beaten, too. I hope so—my Australian wife and I are planning to eat that Christmas dinner with my family back in Independence, Mo.

Dr. Renshaw Develops Recognition Method

Putting a supercharger on sight, the Naval Training School (Recognition) at Ohio State University has become a national center for the teaching of split-second identification of military aircraft and ships. The psychological basis of its unique methods was developed on the same campus by Dr. Samuel A. Renshaw, Ohio, '14, professor of experimental psychology at O.S.U.

Training recognition and lookout officers for service aboard ship and at naval bases, the school equips its students to see and recognize a plane or ship in as little as one one-hundredth of a second, to see objects in the dark by not looking directly at them, to know the appearance and principal characteristics of hundreds of Allied and Axis air and sea craft and to memorize the outlines of these warcrafts so thoroughly that they can be identified through a haze, in moonlight, by lightning flash, or the brief glare of gunfire.

The essence of the rapid recognition method developed by Dr. Renshaw and adapted to military use by the naval school consists in teaching the student to see the whole object outlined in one flash glance, rather than attempting to study each of its individual characteristics before identifying the entire object. Dr. Renshaw's method has proved itself to be both faster and more accurate. It has been taught not only to our Navy, but to officers of our Army, Canada, and Great Britain.

Interfraternity Conference Program Planned

When the thirty-sixth annual meeting of the National Interfraternity Conference meets at the Hotel Commodore in New York City, November 24-25, it will truly live up to its name as a conference. There will be no speakers, but the entire time of the usual three half-day sessions, as well as an additional meeting on Friday evening, will be devoted to the study and discussion of fraternity problems. For the past year, under the direction of Chair-

man Leroy A. Wilson, the Executive Committee, through subcommittees and its own meetings, has done an unusual amount of investigation and study concerned with postwar problems that will face national fraternities. As a result, the coming conference promises to be the most fruitful in constructive effort in the history of the organization.

The program outlined is as follows: Friday morning—officer and

committee reports; Friday afternoon—completion of committee reports and round-table discussions; Friday evening—report of the Resolutions Committee presenting all Conference resolutions, which will then be tabled for the Saturday morning session; Saturday morning—following action on the resolutions there will be a discussion on ways and means of implementing the recommendations made.

Long-Lost Beta Charter Found

By F. DARRELL MOORE, *Ohio, '16*

The legend about the disappearance or theft of the charter issued to Beta Chapter in 1862 has proved to be entirely false. It had disappeared from view sometime after 1896, as a reference was found in the chapter minutes that it had been displayed before being placed in safekeeping for the summer.

Allegedly there had been an epidemic of charter thievery about that time. According to the firmly believed legend, one of the three fraternities on the Ohio University campus had had its charter stolen, and believed that the innocent Delta boys had stolen it. So in retaliation, they had stolen the Delta charter. Twenty years later, the third fraternity's charter had been stolen and campus gossip named the same culprit fraternity. So does a legend grow.

During late August of this year truth about the Beta Chapter charter finally came to light. While cleaning out an old trunk in his father's attic (E. R. Lash, '74), "Cobby" Lash, '99, found an old envelope with three sets of manuscript. One set of papers included the original charter issued to the then Eta Chapter at Ohio University, a national fraternity *Constitution* dated 1863, and what probably was the original Beta Chapter bylaws signed by John R. Scott, '64, a charter member long prominent in Delta Tau Delta. The probable explanation for the documents being in Mr. Lash, Sr.'s possession was that they usually were given to him for safekeeping over the summer months. There is external evidence that they were put into the trunk in 1897, and then forgotten; he probably never knew the contents of the envelope, and it never was called for.

The charter is particularly interesting because it is undated and unsigned. The chapter's history is that a member initiated at Jefferson College (then known as the Alpha) transferred to the Ohio University and proceeded to organize himself

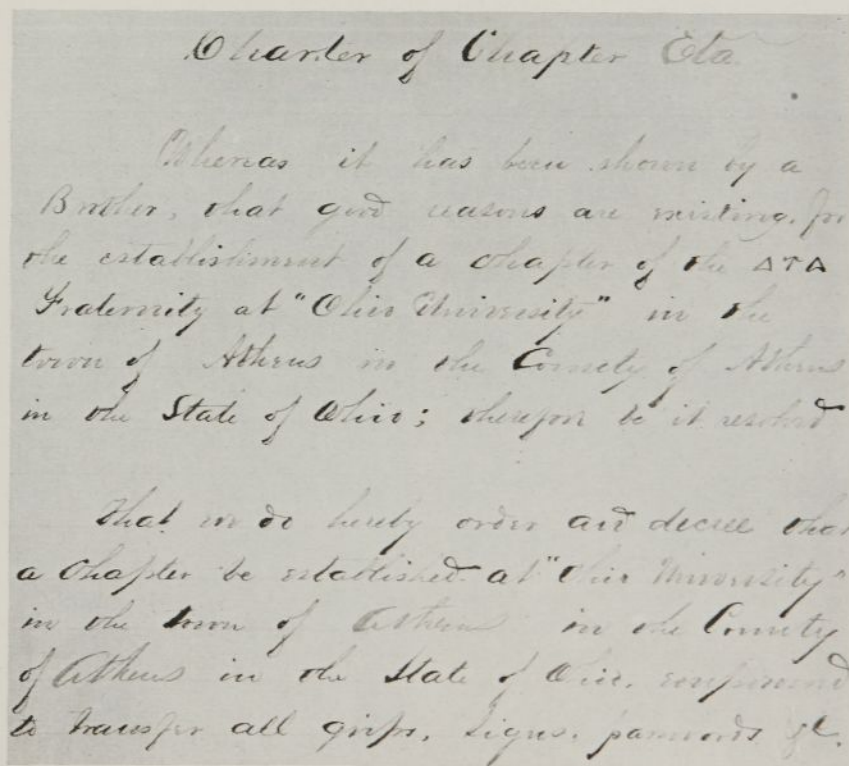

a new chapter of Delta Tau Delta. It was originally known as the Eta, but shortly afterwards, in a reshuffle of the alphabet, became the Beta. The copy of the *Constitution* may be the oldest one in existence, and the bylaws may also be the oldest.

The other documents are of more general Fraternity interest. They are the secretary's minutes for the national conventions of 1868 and 1869. The 1868 convention was held at the Neil House in Columbus, Ohio, on July 7, 1868, and the 1869 convention at the McHenry House in Meadville, Pa., on April 14, 1869. As J. L. McMaster, Beta, '69, (later mayor of Indianapolis), was secretary of the latter convention, and John R. Scott had been elected Grand Magister of the Fraternity a year earlier, these minutes are probably the official minutes. They have been added to the archives of the Fraternity at the Central Office.

The chapter roll in 1868 was Alpha, Jefferson; Beta, Ohio; Theta, Allegheny; Lambda, Monmouth; Omicron, Ohio Wesleyan; and Pi, Pittsburgh. Highlights of the convention minutes included the announcement of a new chapter at Hillsdale College; all chapters in flourishing condition, with members occupying prominent positions not only in college but also in social circles; arrangements for the publication of a catalog for \$46.00; constitutional amendments creating the offices of Grand Magister and Vice Grand Magister; the establishment of a \$1.00 tax on each member for the creation of an extension fund for the establishment of new chapters; a similar tax on each chapter to pay part of the costs for the chapter Alpha; and sundry other laws on procedure.

Delegates to the 1869 convention

(Continued on Page 17)

Opening paragraphs of charter long thought stolen.

Designing for Tomorrow

By RUSSELL H. BACH, *Wisconsin, '42*
of Milwaukee Industrial Designers

A craft through the ages has been the creating and making of something new and improving the old. From the first crude home implements to the present-day well designed home and industrial products, groups of men have seen the necessity and have had the ability to improve our working tools.

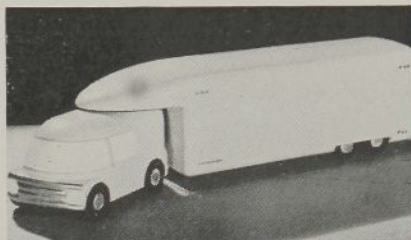

The trained industrial designer of today is carrying this profession on in more skilled and basically sound methods. He has at his disposal an unlimited combination of materials with which to create, the finest tools with which to produce, and a wealth of engineering data to back up his creative resourcefulness.

Design for sales and production is the foundation of every idea and plan. The ability to gauge the public need and want through merchandising research forms the basis for a successful selling product. The product developed for production is designed through creative thinking, a thorough understanding of production methods, and the application of the correct material to the design.

With the manufacturer gradually reconverting to postwar production, he finds that many of his tools and machines are either obsolete or too war-weary to produce his old models again. The new machinery and tools he needs call for advanced engineering; the new materials he will work with call for design-en-

the design-conscious American consumer.

One such item is an all-plastic food container. This food container will enable families to keep a meal warm for approximately forty-eight hours. By scientifically designing the interior of the container, liq-

Overhead trailer designed for safety and increased cargo area.

uids, vegetables, meats, potatoes, and bread or cake can all be carried and kept warm in one unit. Lightweight, easy to carry, small in size, and in an unlimited range of colors, they offer untold possibilities for family and group outings.

Another item being redesigned for the home is an electronic air purifier. In a few short minutes of operation any odor will completely disappear from the air or clothes, leaving a fresh atmosphere. No larger than a portable radio, it has been functionally designed for use in any room.

Shown on this page is a proposed bottling plant that has been designed for the worker and for the educational interest of the public. In this plan the modern machine setup provides a better relationship between the machine and its operator by making the equipment easier to maintain, clean, and operate safely.

An easy handling of visitors by the use of a ramp that circumscribes the bottling room gives them a chance to view the functions of the machines at any level without interfering with the operations.

From the time the bottle is washed until it is in the customer's hands no human hand can touch it nor impure air contact it. This is accomplished by a continuous plastic-

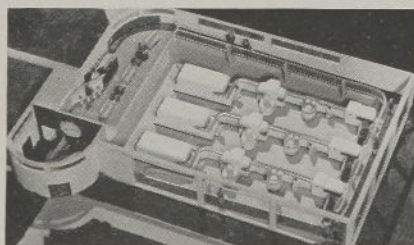

sealed hood over the bottling line which contains electronically purified air; and also by the complete packaging of the bottles before they leave the conveyor.

With the coming abundance of goods from which to choose, the consumer is going to buy only that which has been designed to appeal to his taste. The manufacturers who are planning for this market realize that the designer is in a position to know the desires of the consumer and is able to give the latest in design-engineering to his product.

From the drawing board of the industrial designer can be seen new futures for irons, trailers, toasters, bathroom fixtures, motors, stoves, bottling equipment, etc., designed for tomorrow. Whether streamlined or cleanlined, they have all been designed thoughtfully for the latest in plastics, metals, plywood, ceramics, or synthetics.

Before and after design of golf ball washer that increased sales and lowered production cost.

Bottling plant designed for the worker and the interest of the public.

ineering; and the consumer calls for and is expecting new designs.

Many of our postwar products will be taken from the equipment of the armed services and sold directly to the people, or redesigned to fit

Miami Is Open

Joining the other chapters in the state of Ohio, Gamma Upsilon at Miami was reactivated as of October 18, by the efforts of undergraduates, Delt V-12 transfers from other chapters, and interested alumni. With the co-operation of Gamma Xi, six men were initiated at the chapter house in Cincinnati, October 22. Since Gamma Upsilon Shelter is rented to the University, chapter activities will be conducted out of the house. All Ohio chapters now have active operating status.

W. H. Brenton Named Vice-President

VICE-PRESIDENT BRENTON

One item of business of first importance, and of general interest as well, handled by the Arch Chapter at its meetings in Indianapolis, Indiana, September 21 to 23, 1944, was the confirmation of President Charles T. Boyd's appointments of three Arch Chapter officers. Due to business duties, Philip S. Van Cise found it necessary to resign as Vice-President, and W. H. Brenton, Iowa State, '20, Secretary, was appointed to complete his term.

Clemens R. Frank, Western Reserve, '19, President of the Northern Division, was named to fill the vacancy created by Mr. Brenton's change to the vice-presidency, and William H. Martindill, Ohio, '32, was appointed President of the Northern Division, replacing Mr. Frank.

It is with regret that the resignation of Mr. Van Cise is announced as he has been an able and forceful figure in official Fraternity circles since 1939 when he became Secretary. He has been active in Fraternity work for many years, particularly in Denver and the Rocky Mountain district. He was elected Vice-President at the wartime Karnea in March, 1943.

Mr. Brenton has served as Secretary of the Fraternity since the 1943

Karnea. Prior to that he was Treasurer, having been elected to that office in 1939. He has been active in the corporation affairs of his chapter for a number of years. He is a banker and resides in Des Moines, Ia.

To fill the vacancy made by Mr. Brenton's appointment, Mr. Frank was elevated to Secretary. He is an attorney and has been assistant attorney general of Ohio since 1939. He has served as secretary and vice-president of the Northern Division. Appointed President of the Division late in 1939, he was elected to that office at the Conference in 1940. He has been continuously in the service of Delta Tau Delta since his graduation from Western Reserve, where he was very active in chapter and campus work. He resides in Columbus, Ohio.

Fraternity work is not new to Mr. Martindill, who, from the time of his graduation from Ohio University in 1932, has been an interested and active alumnus. He has been vice-president of the Northern Division since the Conference of 1940, having under his jurisdiction the chapters in the state of Indiana—Indiana, DePauw, Butler, Wabash, and Purdue. He has appointed as his successor Ernest L. Miller, In-

SECRETARY FRANK

DIVISION PRESIDENT MARTINDILL

diana, '27, a past-president of the Indianapolis Alumni Chapter and an officer of the Beta Alpha house corporation.

Mr. Martindill was a zone credit manager of The Pure Oil Company until mid-1944, having been with that company since 1932. In 1944, he joined Stokely-Van Camp, Inc., in an executive position in Indianapolis, Ind., where he lives. Hard-working in local Delta Tau Delta activities, he is a past-president of the Indianapolis Alumni Chapter.

Underwriters Elect

National Association of Life Underwriters, holding their 55th annual convention in Detroit, Michigan, in September, elected WILLIAM H. ANDREWS, JR., *North Carolina*, '20, of the Jefferson Standard Life Insurance Company, of Greensboro, N. C., president for the ensuing year.

Holding successive offices as secretary and vice-president in the past two years, Mr. Andrews has served twice as chairman of the N.A.L.U. war bond committee and for four years as an association trustee.

He has held presidencies of both the Greensboro and North Carolina associations.

How to Start a New Chapter

By WILLIAM M. HUTCHISON, *Indiana, '20*

They call it reactivation. But when everything begins at scratch—no actives, no pledges, no rushees, no housemother, no cook, no nothing—it's simply starting anew. Giving birth. And with labor pains.

Correction, please. Beta Alpha *did* have something. Although there hadn't been an active undergraduate Delt on the Indiana campus for a year, there was a fine Shelter . . . a remarkably sound financial position (thanks to Pat Edmondson, dean-of-men-emeritus, for that) . . . a closely knit, smooth-working alumni organization fired with enthusiasm . . . the will to do a needed job.

Beta Alpha Shelter had gone Navy—officers' headquarters, on account of its convenient location. In compliance with basic communication attention was invited to AR 615-20 Par. 26 as amended by AR 6 7/8 which was rescinded by WD Circ 32-19 which rescinded WDAGO Memo 121½ . . . and presto! the Shelter suddenly was returned to civilian status and made available to the Fraternity in mid-July.

Other fraternities were reopening. Most had been fortunate in having been able to maintain some sort of active nucleus. Despite the fact that first classes were but six weeks away, it took only thirty seconds to decide to reactivate Beta Alpha. And less than an hour to get the wheels moving.

Initiates, Pledges, Rushees Work

First off, a letter requested rushee information and recommendation. That letter went to every Delt in the state, chapter irregardless.

It costs dough to run a chapter; considerably more to start one going again. The response was swell when we wrote to Beta Alpha oldsters for a bit of aid. Ernie Miller,

alumni association treasurer, gulped when phone toll charges came in, but results justified.

Stith Thompson, international authority on folk lore, chapter adviser, and stout fella, did a bang-up

Singing in the Rain

job of getting the Shelter in shape, with assistance of his secretary and Lee, long-time Delt houseman. Windows and woodwork to be scrubbed. Plastering (the Navy had its own ideas as to where doors should be). Furniture and rugs to be collected from storage and points beyond. Hired help non-existent. There's a limit to what three people can do.

The Shelter wasn't quite ready when Bill Sherfey, Brazil, first rushee, arrived. He later admitted he was "surprised" to find neither rugs nor furniture. We put him to work moving chairs, polishing trophies. Nothing like getting a freshman in the harness early. This may be called the indirect approach. He must have liked it; he's a Delt pledge now.

Just about then the boys from Gamma Lambda arrived—some via first class; most by rule-of-thumb. Couple of them traveled a round-about 200 miles in thumbing the g8 miles to Bloomington.

Newspapers talk about rivalry between Purdue and Indiana. Bunk! Maybe there's a "we're-the-best" feeling just before the final football game of the season. But the 100 per cent co-operation between Gamma Lambda and Beta Alpha is just one more reason I'm proud to be a Delta Tau Delta.

The entire Gamma Lambda chapter (including brand-new pledges) was on hand to complete the job of making a house look like a home. And to do a hard-hitting job of rushing. Some who started moving

the piano at 0800 Saturday were still hanging pictures at 0800 Sunday.

Co-operation reached some sort of climax at 4 A.M. Sunday, when the 20-foot Venetian blind in the ruckus room was renovated. The blind was measured off in four-foot sections. Five men applied cleaning compound to half-a-dozen slats, then stepped back. Another five men jumped in to finish with polishing cloths. By the count . . . hup, two, three, four. The cadence of a well-oiled football team coming out of T formation. In no time the entire blind was glistening.

Rushees had been arriving. Lloyd Knight and his gang from Gamma Lambda took time out to serenade numerous sororities. A downpour of rain did not dampen their enthusiasm, nor the applause they got, nor the admiration of the rushees who went along for their first thrill of college life.

It may have been an error to follow the age-old custom of clinching first dates. A recent interfraternity

Cream of the Crop

ruling decreed no pledging until Tuesday midnight; hence, others fought for *last* dates—Tuesday dinner, evening, smoker.

George Browne, Sr., has ever been a past master in presenting Delta Tau Delta to desirable rushees. His twenty-odd years of selling real estate and securities had not dimmed that ability one whit. In fact, it may have added a touch of persuasiveness and finesse.

We adhered strictly to the Tuesday midnight deadline, so I can't say who was pledged first. Maybe it was Phil Moore, Indianapolis, who had dates with a dozen fraternities but didn't bother to fill them after becoming acquainted with Delta Tau.

Then there was Harry Wallace, Terre Haute, who filled all of his sixteen dates—then returned to don the white pledge button.

In between, there were Bob Meyer, Indianapolis; Ed McLean, Indianapolis; Del Russell, Park Ridge, Ill.—three regulars on the varsity football team—John Funk, Jr., Jeffersonville; Bart O'Mara, Kenosha, Wis.; John Piatt, Jr., Goshen; Don Atkins, Rushville; Bud Gates, Indianapolis. And Sherry, as we said.

Dave Englehart, Brazil, was pledged, but was unable to enter I.U. Kenny Bayliss, Indianapolis, withdrew from school on account of illness, but will be back in December.

Lest some of you grads recall when thirty pledges represented a poor harvesting, let me tell you the dozen Beta Alpha pledges are above average, quantitatively and qualitatively.

Speaking of quality, the words "cream of the crop" recur year after year. (Guess they even said it about my own class.) I'll say this: I've never met a dozen pledges who appear to have the stuff as the Beta Alpha pledges do. Hope the swell-heads aren't listening in.

You've probably been wondering about initiates. Well, we did some wondering about that, too. Prevailed on Hugh Thornburg, ex-Marine, to enter I. U. law school as a PG. Then John Hatfield, pre-med, returned as a senior. And Roger Semple, Ohio Wesleyan and Cincinnati University, transferred as another senior. That makes three initiates. What more could one wish? Besides, Bob Mitchner, Beta Beta, is working on his master's degree, doing some teaching, and helping Stith Thompson keep an eagle eye peeled.

Locating a qualified housemother on short notice is a chore. After phone calls to many parts of these United States, we found Mrs. Amelia Neely—right in Bloomington. She's a peach.

After employing a high-powered catering service for a week, we bumped into a first-rate cook. What-a break!

Also in there pitching at all times were Bill Jenner . . . Lee Waynick . . . Doc Warren . . . John Car-

Hoffman Speaks at Denver

CED Chairman Hoffman greeted by Philip S. Van Cise on arrival in Denver. Both are former Arch Chapter members.

Paul G. Hoffman, Chicago, '12, former President of Delta Tau Delta, addressed an audience of Denver business and civic leaders early in October under the auspices of the University of Denver in the opening lecture of a series on "The Re-conversion From War to Peace."

Mr. Hoffman, chairman of the Committee for Economic Development, believes that it is the "quintessence of horse sense" to strive for a postwar economy that will fully

meet the social and physical needs of the nation. He contends that a 30 to 45 per cent increase in the output of goods and services is both feasible and necessary if postwar unemployment is to be avoided.

"If the job was just one of re-conversion after the war those who are complacent would be justified," he said. "But the job is to expand from 1940. To merely go back to the economy of that year would be disaster."

mack . . . Ernie Miller . . . Hib Rust . . . , but it's most unfair to pick out a few of the many guys who were really on the beam, so I won't go any farther.

Well, that's one way to reactivate a chapter.

Oldest W. & J. Delt Celebrates 97th Year

W. D. Brandon of Butler, Pennsylvania, who celebrated his 97th birthday on November 1, 1944, is probably the oldest living Delt. He is in excellent health, going to his law office every day. Mr. Brandon joined the Gamma Chapter at Jefferson College, Cannonsburg, Pa., in 1865. Jefferson College merged

while he was an undergraduate to form Washington & Jefferson College, at Washington, Pa. He was graduated in the class of 1868. He is its sole surviving member and the college's oldest alumnus.

Mr. Brandon receives THE RAINBOW and continues his interest in Delta Tau Delta. Reminiscing a little, he told of the agitation against secret societies by the faculty soon after he became a Delt. An edict from the faculty said that anyone joining would be expelled. More than one hundred members of the various fraternities resolved to pack their trunks and quit the college. This came to the faculty's attention and the edict was soon revoked and fraternities have flourished ever since in the college.

Fifty-Fifth Chicken Fry Held

By FRANK C. LEITNAKER, *Baker*, '19

"Keep the Chicken Fry alive!" have been the words of instructions left at the Gamma Theta chapter house when the Delts marched off to war and left the responsibilities of the Shelter fires in the hands of a younger generation. The fifty-fifth annual Chicken Fry was held on October 7, 1944, and there will be more of them in the years to come. The Chicken Fry will go on even though Uncle Sam demands the last man from the Gamma Theta chapter house—alumni will take over in that case and perpetuate this tradition of Delts of Baker University, until the boys come marching home.

One hundred eighty Delts, guests, alumni, and wives fried and consumed sixty chickens, along with several gallons of potato salad, pickles, rolls, cup cakes, and hot coffee, while thinking of the boys in service who would do a stretch of ninety days of K. P. in order to be present. The big central fire built by the ten actives and pledges of the chapter from big logs to a height thirty feet, warmed the hearts of all present and gave a most beautiful setting for the "walk-around" and singing of "Delta Shelter" by all the male voices present.

More alumni of the chapter were present than had been expected. These men and their wives or sweethearts drove their cars or came by bus that they might again mingle among friends at the joyous occasion. Some had saved gasoline for weeks to make the trip. One alumnus gave up a part of his vacation that he might be off from work when the Chicken Fry was held. Thirty men and their dates attended from Gamma Tau Chapter at Kansas University.

Gamma Theta's Chicken Fry was started in 1889 by the members of Alpha Omega, the organization which became Gamma Theta of Delta Tau Delta in 1902. In the early days, hayracks carried the chapter members and their dates out to the country where they fried chicken over bonfires (three or four couples to a fire) and ate a picnic

supper. Following the picnic, the evening was spent in giving stunts of various and sundry kinds and other entertainment and concluded with the singing of songs and the ride back to town on the hayracks.

The modern version of the Chicken Fry is more complex. Just prior to the war, 400 people were in at-

Central fire at Chicken Fry

tendance at the annual event. For about six weeks prior, the entire chapter spends Saturdays and some evenings after school hours in erecting a large pile of big logs in a four-sided pyramid to a height of thirty or forty feet. Wood is cut for a large number of smaller fires which are scattered over a forty- or fifty-acre wooded field. Chickens must be obtained, dressed, and cut up. The other food must be prepared. A large number of skillets must be borrowed from townspeople. The food is put in bushel baskets—enough food in each basket for three couples. A big truck takes the food and supplies to the Fry location at six o'clock in the evening. Couples who are congenial group themselves in three's, and take a basket of food to one of the smaller fires in the field. The wood fire is for warmth and atmosphere. The chicken is fried in a skillet over a gallon tin can with V's four inches long snipped down from the top, filled half full of sand and saturated with gasoline. It is a beautiful sight to stand in the center of the field and see these 125 to 150 small fires glowing in the evening moonlight, and it would make anyone happy to realize the good times

being had around these many fires.

The big fire in the center of the field is soaked with kerosene and lighted just as twilight is deepening into darkness. It lights up the entire field and can be seen for miles around. It is as a big heart, a Delt heart, spreading its warmth and cheer to all the little fires scattered over the field and adding cheer to the party.

When the smaller fires are getting low, and the food has "hit the spot," the crowd gathers in to the central fire. Here a paddle line forms and pledges run the gauntlet while actives and alumni swing the big boards the pledges have previously put handles on. Pledges are wise, however, and always have an abundance of padding material in the north part of their trousers when they run south. The pelts of the paddles on pledges' pants sound as if a balloon tire were being hit.

Then the walk-around and songfest—with hands on the next fellow's shoulders, the long queue of Delts circles the big fire a half-dozen times to the marching step of "Wah-ne hee, Wah-ne ho," and comes to a stop in a group. Basses, tenors, baritones, and leads get together in the group in order that the singing may prove balanced and well done. A number of Delt songs are sung and the songfest is closed with "Delta Shelter" which always thrills singers and listeners alike.

Following the songs, the young couples drift back to their smaller fires and dates are presented with the beautiful, handmade paddles the chapter members have previously carved, decorated, and ornamented for the favors of the occasion. I am told that Delts ask for a kiss (or two) in exchange for these paddles. Paddles for woo! Some don't, some do.

But faculty members and wives who are guests or chaperons, alumni, and their wives remain around the large fire and greet each other and enjoy a fine evening of visiting, talking about college pranks, and

(Continued on Page 14)

Penicillin, the Miracle Drug

By DR. FRANK R. FERLAINO, *Columbia, '22*

Associate Medical Director, Schenley Laboratories, Inc.

Penicillin, the new wonder drug, was discovered accidentally in 1928. Dr. Alexander Fleming, Professor of Bacteriology at St. Mary's Hospital in London, was studying the growth of staphylococcus germs. This is the type of organism which causes bone infection, boils, etc. These bacteria were being grown on a petri dish usually used for this purpose. There were numerous colonies growing luxuriantly; however, in one corner of this dish there was a mold growing leisurely. These molds had been noted before, growing on culture media in petri dishes or plates, and were regarded as a nuisance and contaminants, and as a consequence were usually discarded and thrown away.

Dr. Fleming observed, however, that in the vicinity of the mold the colonies of staphylococcus germs had disappeared. This was an epoch-making observation. In other words there was a clear zone around the mold representing an area in which the bacteria could not grow. On this occasion Dr. Fleming immediately recognized the importance of the phenomenon although he had seen it before, as had many scientists in the past. He decided then and there to study the problem further. The discovery was made.

He repeated this performance and found that certain organisms which readily cause disease would not grow near the mold. The mold, he decided, must produce or contain a chemical substance which would stop the growth of bacteria. He then cultured the mold and studied it in order to identify it. He first thought it was *Penicillium Rubrum* but it was later proven to be *Penicillium Notatum*. The mold was grown on a nutrient broth medium. It was found to produce a liquid substance which Dr. Fleming named PENICILLIN. This discovery was complete. Other scientists must be made aware of this. They would hardly believe it.

DR. FRANK R. FERLAINO

What Are Penicillium Molds

Molds are actually common substances. They are found on almost all foods and they are looked upon as pesty substances. They spoil many food products and other articles. *Penicillium* molds are found on bread, apples, oranges, meats, cheese, etc. The name, *Penicillium*, was given to these molds by scientists because under the microscope they possess the general appearance of a brush, broom, or feather. The word *Penicillium* was coined from the Latin term—*Penicillus*—which means pencil or pencil-like projection as hair or feathers. Molds are usually destructive in their action. *Penicillium* rot is one of the largest factors in the destruction of stored apples. *Penicillium expansum* is by far the most destructive. There is no doubt that many strains of *Penicillium* are the active agents that cause destruction of foods and do so mostly by incidental contamination. Spores of molds are everywhere, and particularly in the atmosphere, in great

abundance. At room temperature, they reach the surface of foods and thus contaminate these products. Their growth depends on suitable moisture, temperature, light conditions, and media on which to grow.

Not all molds are destructive. *Penicillium camemberti* gives to camembert cheese its characteristic flavor; likewise, *Penicillium roquefortii* gives to Roquefort cheese its delicious taste. There are species of *Penicillium* which produce oxalic acid when grown on proper media. *Penicillium glaucum* even produces alcohol. Many *Penicillium* molds produce a yellow-colored growth. Others may produce a green pigment or a deep crimson color. Industry has utilized their ability to produce these chemical substances, and citric acid and oxalic acid have been produced on a commercial basis by the use of molds. *Penicillium Notatum* is the mold which Dr. Fleming found on his culture plate on that memorable day in 1928. This mold secretes a liquid when grown on suitable media. This liquid contains an acid which is the wonder drug given the name PENICILLIN.

Dr. Florey, one of the brilliant workers at Oxford, said "that the discovery and development of penicillin may be looked upon as quite one of the luckiest accidents that has occurred in medicine." Westling, a Swedish mycologist, first described *Penicillium Notatum* in 1911.

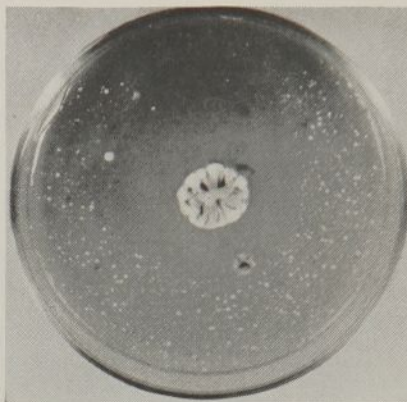

Dr. Fleming carried out additional experiments in the test tube and showed to his own satisfaction that many bacteria which cause disease were inhibited, that is to say, they were not permitted to grow, by this penicillin liquid. Scientists call the ability of a chemical to stop the growth of bacteria bacteriostatic. He concluded that penicillin had bacteriostatic ability. He studied other types of bacteria and found that there were

other disease-causing germs which were not inhibited by this liquid. These organisms would grow normally. They were resistant to penicillin and to its chemical agent, whatever it might be.

He proceeded to carry out additional experiments. He injected some of the broth or liquid containing penicillin into rabbits and found that it was not toxic (poisonous) and that the new mystery drug could be injected into small animals without danger to the animals. This, also, was very significant, as it is well known that most drugs or chemicals which stop the growth or kill bacteria are poisonous (toxic) to animals. He, in addition, found that the white blood cells were not injured by the liquid penicillin. It is well known that the sulfa drugs can injure the white blood cells and for this reason sulfa drugs are said to be toxic. In comparison penicillin is not toxic.

From all this, Dr. Fleming concluded that the mold *Penicillium Notatum* secretes or excretes a chemical substance which has marked ability to stop the growth of bacteria and that it is not toxic to animal tissues. Further investigations proved that this new drug or liquid could be used locally as an antiseptic to infected wounds or skin lesions. It could be injected into the blood stream of animals without harm. He published his observations and findings in 1929 in the *British Journal of Pathology*. It passed unnoticed for 10 years. Nothing more was done. The sulfa drugs became popular and held the attention of all scientists.

Yet in 1938 quietly a group of scientists at Oxford University became interested in Dr. Fleming's discovery and they began to study the problem of this new drug with renewed vigor. This group of investigators achieved great results. They labored with diligence for several years but in the end made scientific history. This team of scientists proved by laboratory and animal experimentation that penicillin is a potent chemotherapeutic agent able to inhibit the growth of bacteria both in the test tube and also in the animal body. They also found that this chemical liquid was unstable at room temperature.

Close-up of Penicillium Notatum mold on nutrient media inoculated with staphylococcus aureus. Clear zone shows where penicillin has killed off bacteria.

They developed a process of purification and concentration and in this way the first stable products containing penicillin were produced. From this point on it was not the crude broth which Fleming had made but a highly potent chemical agent with which to fight bacteria. The sodium salt of penicillin was developed and this was more stable and more potent.

Bacteria which cause disease were classed as bacteria sensitive to penicillin or as bacteria which were not sensitive to penicillin. These findings were most important. By this time the war had come to the shores of England. This new powerful agent with which to fight disease might assist materially in winning the war. More work had to be done. Scientists, the world over, were not yet aware of this great discovery. In 1939, a grant of \$5,000.00 from the Rockefeller Foundation gave impetus to their research and kindled the hope that possibly this new wartime drug could be produced in larger quantities. In July, 1941, Drs. Florey and Heatly visited the United States. They gave their time, knowledge, and findings to American scientists. They demonstrated how penicillin could be obtained in relatively pure form and demonstrated its clinical use. They stressed the importance of production of this drug on a large scale.

Large Scale Production Achieved

The American scientists accepted the challenge. Research was started, pilot plants to master technique of

production were set up. Industry and pharmaceutical houses were called upon to try to produce the drug. Anyone who could grow molds and produce penicillin was urged to enter the field. Several concerns which had had experience with molds and fermentation process showed clearly to the government and military officials that they could grow this temperamental mold. The result was that they received assignments to build factories and produce this new wonder drug on a mass production scale. Because of this mass production the cost per bottle per 100,000 units will be reduced so that penicillin will be within reach of all pocketbooks. Some twenty-two companies were assigned the great task of producing sufficient amounts of this new chemical agent for the military forces. Industry has met the challenge and the various concerns are now in full production. Large-scale production is producing for the Army, Navy, U. S. Public Health Service, and the 1,000 civilian depot hospitals throughout the country some 200 billion oxford units per month. A year ago there was practically no production. Much of the foresight, energy, and correct estimation of the magnitude of the effort required goes to Dr. A. N. Richards, Chairman of the Committee for Medical Research. He recommended the enormous outlay on plant necessary to make mass production a reality. Production is going ahead rapidly. More of this wonder drug must be produced for our Allies and South American countries. The United States is at present producing 95 per cent of all the world's supply. From all corners of the earth, demands came daily for more and more of this new chemical agent with which to fight disease and save lives.

Penicillin Production and Method of Action

The production of penicillin is not simple. It is a rather complicated process and consists of the following steps. First, it is important to isolate a pure culture of *Penicillium Notatum* and spores of this mold must be recovered. The preparation of the *inoculum* from the pure spores is the next step. Then

comes the inoculation of a suitable medium with spores under sterile conditions. Then comes the growing of mold under careful control of air and temperature. The next step is separation of *mycelium* from liquid medium containing penicillin. Then it is necessary to recover the penicillin solution and to concentrate it. Under sterile conditions the standardization of the product's potency must be achieved. After all this, the product is ready for packaging as a sterile powder, the sodium salt of Penicillin.

The best known methods of growing penicillin are the trickle process, the bran process, the surface process, and the submerged process. Interest centered about the possibilities of mass production of this new chemical agent. The submerged or shaker methods were suitable for mass production. Various firms entered the field of penicillin production in view of the tremendous demands from the armed forces.

Numerous other molds have been studied, hoping that a substance superior or equal to penicillin would be found, but thus far no substance of equal antibacterial power has been discovered. It was indeed a very fortunate accident that penicillin was discovered. Many of the other molds secrete substances which have antibacterial qualities, but none surpass penicillin, and most of the others are quite toxic when administered to animals or man. The manner in which penicillin acts is not known. It is, however, known that penicillin stops the growth of organisms, thus giving the white blood cells an opportunity to destroy these bacteria. It is now thought that when penicillin is administered clinically in large doses, it has not only a bacteriostatic effect but also a bactericidal effect actually destroying many of the germs. Most commonly the method of action is one of bacteriostasis, that is, inhibiting the organisms and not permitting them to reproduce themselves.

Methods of Administering Penicillin

Penicillin is injected usually intravenously or intramuscularly, and it thus gets into the blood stream and reaches the site of infection. It can also be administered locally in

the form of an ointment or as a powder or solution for local uses. The present-day method of administration that is preferred is intramuscular injection.

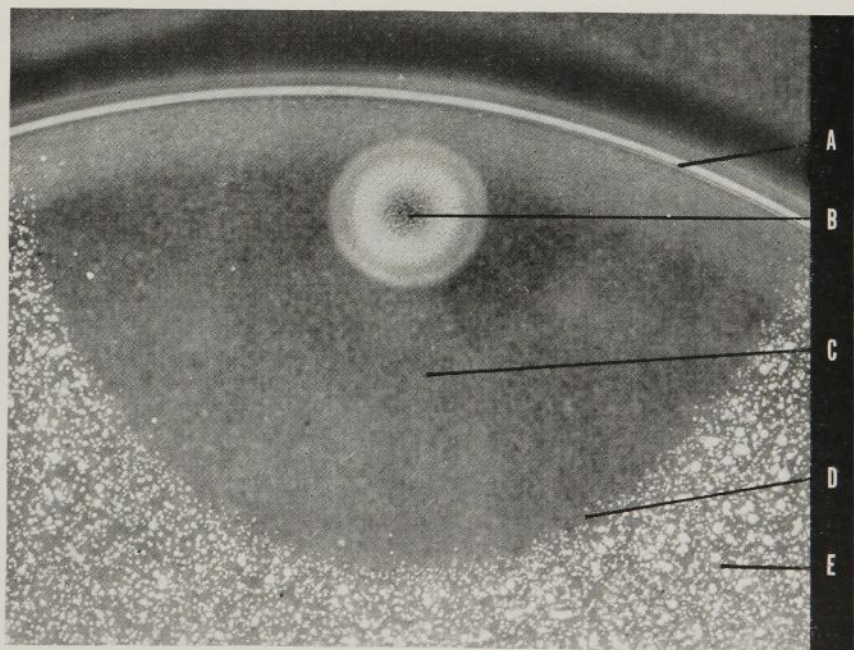

It is necessary, in severe infections, to inject solutions of penicillin in dosages of 5,000 or 10,000 units every three hours around the clock. This large number of units is contained usually in one or two cc of physiological salt solution. Recently, Army doctors in the Army Medical Center in Washington, discovered a method whereby penicillin can be mixed with beeswax and peanut oil. This mixture can be given as a single injection containing the complete daily dosage. The present method of administration in salt solution requires an intramuscular or intravenous injection every three or four hours. The newer, beeswax-peanut oil method which gives slower absorption and slower excretion of the penicillin is definitely superior to the older saline method which requires troublesome and repeated injections on the average of six to eight times a day.

The ultimate wish of scientists, at the moment, is to find the absolutely correct chemical formula of penicillin

and to manufacture the product synthetically. This objective has stimulated research. It is hoped that success will crown the efforts of these scientists. It is well known that penicillin cannot be administered by mouth because the gastric juice and the hydrochloric acid appear to destroy the chemical agent. The analysis of penicillin has already been achieved. The approximate chemical formula for penicillin is known. It consists of carbon, hydrogen, oxygen, and nitrogen, but no sulphur as first thought.

Scientists are working frantically to make penicillin synthetically. This will probably prove to be more difficult even than the making of quinine synthetically. There is, however, no reason why this should not be achieved.

From all that has been done to study the action of penicillin in its remarkable activity against bacteria in the test tube and in animal experiments, it was evident that penicillin had tremendous potentialities in the field of human medicine. At first it had been difficult to obtain enough of this precious new drug to treat human cases. The Oxford group of doctors, however, produced enough of the drug finally in

A. Edge of glass Petri dish. B. Magic Mold, *Penicillium Notatum*, growing leisurely. C. Area of inhibition—bacteria cannot grow in this zone because of action of penicillin liberated by mold. D. Edge of margin of inhibition zone. E. Colonies of staphylococci germs growing luxuriantly.

the winter of 1940 and 1941, when London was receiving its worst bombings, to treat the first 6 human cases of severe infections successfully. The results were very promising. With the knowledge that penicillin is effective in bacterial infections, physicians and hospitals were most anxious to obtain this new wonder drug for treatment of individual cases and for research. The dosages for various diseases and the diseases in which penicillin should be used have been worked out most carefully. In America the initial human cases were treated by Dr. Dawson in the fall of 1940 at the Presbyterian Hospital Medical Center in New York City. This was the beginning of a new era in the treatment of infectious diseases.

Medical Indications

Penicillin is effective against several types of infections. It is particularly effective against gonorrhea, syphilis, pneumonia, meningitis, gas gangrene, childbed fever, and staphylococcus infections which cause boils, carbuncle, osteomyelitis, etc. It is, also, most effective against streptococcus infections, which cause all types of infections and blood poisoning.

Penicillin is highly effective in many infections which are resistant to treatment with the sulfonamide drugs. Penicillin is almost without toxicity in therapeutic dosage, and yet it has the capacity to combat pathogenic bacteria without injury to body cells. These facts make it superior to the sulfa drugs.

Penicillin is the best therapeutic agent available for the treatment of all staphylococcic infections with and without bacteremia; it is valuable in acute osteomyelitis. It is of value in carbuncles and soft tissue abscesses, and the lives of many cases of meningitis and cavernous or lateral sinus thrombosis have been saved with penicillin. It is effective in all wound infections. It is helpful in all cases of clostridia infections which organisms cause gas gangrene and malignant edema. Penicillin is most effective, and it should be used in all hemolytic streptococcic infections, such as cellulitis, mastoiditis with intracranial complications, pneumonia and empyema, puerperal sepsis, and per-

itonitis caused by this common type of organism. It is most curative in all pneumococcic infections of the lungs and meninges and pleura.

One organism that is particularly susceptible to action of penicillin is the gonococcus. This organism is the cause of gonorrhea. This infection has resisted all forms of treatment. It formerly required many months of effort to effect a cure. Now, with penicillin, this dreaded infection can be brought under control quickly. Army doctors have shown that with one single injection of 80,000 oxford units of penicillin suspended in beeswax and peanut oil, this disease can be cured, not in one day but in eight hours.

In the last few years much has been written about the cure of syphilis by various methods in short periods of time. The arsenicals were always dangerous and toxicity reports were numerous. Now with penicillin, early syphilis can be cured with one million and half oxford units of penicillin. It takes exactly four to six days to effect a favorable outcome in this disease which required a minimum of two years to cure. There is no doubt that penicillin will revolutionize the attitude towards the social diseases. What the effect will be on morals and customs no one can state. There will be drastic changes undoubtedly, for these diseases can be not only cured easily but in time completely eradicated.

Unfortunately, penicillin will not cure all the diseases caused by infectious organisms. It would be misleading to give that impression. It has already been proven that typhoid and paratyphoid diseases are not cured. Influenza and poliomyelitis which are caused by a virus are likewise not affected. Rheumatic fever which is the cause of heart disease is not favorably affected. Tuberculosis and malaria do not respond to the action of this wonder drug. These are only a few of the diseases which are not favorably influenced by penicillin.

Increasing supplies of penicillin will make it possible, however, to explore its use in many tropical and other diseases. The greatest contribution which can be made by this drug is that, as larger supplies be-

come available, it can be administered to prevent infections instead of giving it as a last resort. The military forces are now using it in battle casualties in an effort to prevent serious infections from developing. It is given in very early stages and is thus proving of great value. Future research will disclose many uses. The promises for the future are great indeed and undoubtedly other molds will be found which will produce chemical agents far superior to penicillin. A marvelous new era for new chemotherapeutic drugs has opened up. Much human suffering will be saved because of the ability of penicillin to cure gonorrhea and syphilis. Many lives will be saved by its effectiveness in curing pneumonia and meningitis. The fact alone that penicillin is effective against staphylococcus and streptococcus organisms, which are the cause of the most common types of infections, including war wounds, makes penicillin the most valuable antibiotic agent ever discovered. As a result of its availability and use during World War II the lives of many American and British soldiers are being saved daily.

Armies are in constant battle. The destructive weapons which are being used would ordinarily cause seriously infected wounds and the mortality would be extremely high. Authoritative medical sources state that the greatest majority recover from their wounds without serious infections. *Why?* The answer is simple. *Infections are controlled by penicillin.*

Fifty-Fifth Chicken Fry

(Continued from Page 10)

usually singing some more songs. They've wooed and won; Delts all as one.

And so it is that Gamma Theta Chicken Frys go on year after year. Only once has J. Pluvius sent torrents to necessitate the holding of the Fry inside. The Frys go on and Gamma Theta Chapter members are brought closer together; alumni appreciation grows keener; and a Baker University tradition is being kept alive.

AROUND THE FIREPLACE

WITH GOOD DELTS

A REPORT FROM THE PRESIDENT

PRESIDENT BOYD

In the spring of 1943, Delta Tau Delta, like all other college fraternities, faced the prospect of a virtual cessation of chapter activity. The government's training program was put into effect at most of the institutions where our chapters are located. This program resulted, generally, in the leasing of the chapter house properties by the colleges and universities which in turn rented them to the government or used them for other institutional purposes. The undergraduate members had little time for the usual fraternity activity. As a result, the college fraternity was more nearly out of business than at any other time since the system has come to maturity.

Despite these adverse conditions, Delta Tau Delta continued to operate during the college year 1943-44. A portion of the chapters completely suspended operations but nearly two thirds of them continued to operate on a basis of partial activity. Nearly all the operating chapters were out of their houses. The record of accomplishment of these chapters, low in man power, and with limited time available, was told in this column in the August number of *THE RAINBOW*. The Arch Chapter prescribed minimum standards of operation which were complied with in fine spirit.

Blueprints Made for Future

The government has now withdrawn its training program, for the most part, and the houses are being returned to the owners. Most of the leases will not be renewed. Thus the way is opened for the reactivation of a portion of the chapters which ceased to operate. Already, the trend is toward the reopening, re-establishment, and rehabilitation of the closed chapters. Several have already resumed an active status, so that now over two thirds of the Delt chapters are open. It can reasonably be expected that the percentage will be larger by next spring.

Delta Tau Delta has undertaken to plan for the future. Ways and means for re-opening closed chapters and strengthening those which are open have been developed and perfected. Blueprints have been drawn so that the Fraternity can move forward rapidly. The chapters will be assisted through an enlarged field staff, resident advisers, and colonizers. These plans for the future of the Delt chapters require the whole-hearted co-operation of alumni and undergraduates. During the past year the alumni have turned in a magnificent performance in all respects. This participation in the work of the Fraternity has developed much new life and interest. An evidence of this interest lies in

the increased number of members paying alumni dues and in the increased number who have taken out Loyalty Fund Life Memberships. Then, too, in many cases the alumni have been largely responsible for the conduct of chapter affairs.

Fraternity Balances Budget

The Arch Chapter met in Indianapolis September 21, 22, and 23. At this meeting the state of the Fraternity was reviewed and the conclusion was reached that the situation is well in hand. Reports for the fraternity year ending July 31, 1944, were presented. The number of initiations during the year was low, on account of the interruption of operations. With reduced initiation fees and annual dues, which are the main revenues of the national Fraternity, it was anticipated a year ago that in all probability a deficit would be incurred. But we are happy to report that on account of the reduction in expense the Fraternity was able to balance its budget.

Plans were adopted at the meeting for the rehabilitation of the chapters, for further use of The Delt Development Program, for the broadening and strengthening of the Fraternity's endowment funds, for further perfection in internal organization and control, and for keeping abreast of conditions as they mature. Plans were also made looking forward to a regular Karnea in 1945, even though on a streamlined basis.

The way ahead is much brighter. The difficulties and adversities of the last year and a half, while they have been severe, have nevertheless developed many good by-products. Over-all interest in the Fraternity is perhaps at a high watermark. This is reflected in the mail and in the payment of back obligations. Our alumni deserve a great hand, and the young men who, without experience or background, have kept most of the chapters open, are likewise deserving of commendation.

Parents Are Liaison Agents

We also pay tribute to the parents of our younger members who have served as liaison agents between their sons and the Fraternity. In this contact with parents there is an idea for the future, to bring them more and more into the fraternity life of their sons.

Our greatest tribute is reserved for those of our number who are engaged in war in the service of their country. The latest statistics show 8,093 in the armed services, 137 killed in action, 24 missing in action, and 18 prisoners of war. To all these we pay our most sincere respects. The Fraternity awaits the day when most of them will return, many to their old college chapters. They have found new values in Delt membership as they have marched to and fro over the face of the world. Delta Tau Delta will be prepared for them when they return.

▼ FROM THE FRATERNITY-COLLEGE WORLD ▼

By Alvan E. Duerr, *Kenyon, '93; Williams, '93*

The National Interfraternity Conference invited the presidents of its member fraternities to meet in early September with the Conference's Postwar Planning Committee and to review with it the preliminary draft of its report to the next annual meeting in November.

Some fifty presidents or their proxies were present. The session lasted all day. Discussion was general and amazingly relevant, and it revealed a remarkable unanimity in the forward-looking attitude of the men present. Apparently everyone realizes that the end of the war will usher in an altogether different era for the fraternities. Equally keen was the desire to discover what direction the changes would take.

As epitomizing the answer for us all, the story was told of a fraternity man in the service who asked that a copy of his fraternity ritual be sent him that he might refresh his memory and prepare himself better to resume his interrupted fraternity life when he returned to college after the war. In the same vein, many a college president has recently told us that if the fraternities would live up to their own rituals, he could ask nothing more. That is not a bad idea; for those rituals suggest a way of living that would make fraternity life an enriching experience beyond anything the average college man has had heretofore. And with that the debate on the value of college fraternities would be still-born.

The entire discussion was based on the acceptance of the belief that the next decade of fraternity history would make good reading only as the alumni come to the aid of their chapters, counselling with them, helping them to integrate the scattered chapter, helping ex-service-men to return to the ways of normal living, acting as big brothers at a time when the spirit of fraternity will be a necessary force in shaping the future for the entire world. If the fraternity has ever meant any-

thing to those of us who have left college, this is the time to show it.

The Postwar Planning Committee has a large membership of experienced fraternity men, including three college presidents—two of whom are presidents of their own fraternities—and three college deans. As a result, its report approaches the problem from every angle. The report promises to be the most forthright analysis of fraternity life which has as yet been made, and should supply an excellent background for the planning of member fraternities. And then all that remains is to do something about it.

★

How can we find our way out without one?

★

Dean Warnock, of Penn State, recently made a striking suggestion apropos the so-called antagonism of college presidents to the fraternities, that we hardly realized how often a college president is called on to defend the fraternities on his campus—and he must defend the organizations which he allows to function—in answer to the many questions and criticisms of parents, the general public, and college trustees. Then the Dean asked whether it might not be better to give the president some good ammunition with which to satisfy these people instead of worrying about his attitude toward us.

★

The Theta Delta Chi Educational Foundation has been chartered by the Regents of the State of New York to establish college scholarships and to aid needy students. Among the officers of the foundation are President Day, of Cornell; Harvey D. Gibson, president of Manufacturers Trust Company, New York; Eugene G. Grace, president of the Bethlehem Steel Corporation; Eric Johnston, president of the United States Chamber of

Commerce. The Foundation has already received sizable contributions, and should make a strong appeal to Theta Delta Chi alumni. There is no better or worthier way than this to impress upon the public that the fraternities are in fact an adjunct to the educational program.

★

If a program for reconverting the fraternities after the war had to be reduced to a short statement, two words would suffice: *responsibility* and *accountability*.

★

Phi Gamma Delta is a good fraternity too; in no small degree because it has a secretary who is almost in Hugh's class. Scoop Wilkinson has carried on a one-man fight for years against calling the undergraduates the active chapter. Now he is coming into his own. For it is commonly agreed that the fate of the fraternities in the years immediately ahead lies largely in the hands of the alumni, that they are indispensable if we would return to the full vigor of prewar days. Their mature view alone can help undergraduates to adjust fraternity life to the great changes in outlook which the war is bringing about; in fact, for which the war is being fought.

What can the alumni do? Specifically, they can conserve the assets of the chapter during absence of the undergraduates, so that chapters may be revived without undue handicap; they can inform themselves about the postwar plans of their colleges, especially as they affect fraternities, so that fraternity life may start off on the same footing, and not on the basis of outmoded practices which have done us no good; they can be ready, the moment there is evidence of a resumption of normal college life, to rebuild the undergraduate chapter, instead of waiting for returning members to do the rushing; they only can give to the returning servicemen the understanding direc-

tion and encouragement that will enable them to forget war experience and resume normal attitudes and thinking.

It is well to recall in this connection that Iowa, which has formulated so excellent a plan for its fraternities, will not allow any chapter to reopen except with the endorsement and promised supervision of a responsible committee of its alumni. The Central Office should require that of every chapter.

★

Fraternity loyalty is nothing that we can command or that we have purchased in the initiatory rites. It is the spontaneous return for what fraternity life has been made to mean to the initiate.

★

Delta Kappa Epsilon has published a postwar plan as part of its centennial celebration. The announcement opens with this statement: "This year, 1944, Delta Kappa Epsilon celebrates the One Hundredth Anniversary of its Founding! The times call upon us to vitalize our future rather than to glorify our past." No better slogan could be devised for every fraternity alumnus in the country in his relations with his chapter. The Deke postwar goals are summarized as: greater stress upon scholastic achievement; less emphasis on social activities; closer supervision of moral conditions; especial interest in the personal development of every undergraduate member. To implement this program the Deke Council proposes the appointment of an alumni committee of not more than six members for each chapter, who "will make themselves responsible for maintaining in their chapter standards that will give life to the goals stated and be satisfactory to the particular university or college and to the Council." Hundreds of Dekes participated in one way or another in the formulation of this program. It consequently represents a widespread movement and should receive widespread support. The fraternity system would progress by leaps and bounds if we all united to make these objectives effective. And we should get more support from the colleges than we have ever commanded.

Kappa Sigma has just established and incorporated a War Memorial Fund. Its purpose is to provide a series of \$200 scholarships for worthy members who lack the means to complete their courses. Their goal is \$100,000 in gifts from alumni for the first year, and ultimately \$1,000,000.

So far the fund does not differ from the loan funds which most of the older fraternities have, except that these scholarships will be outright gifts and Kappa Sigma will apply the standards of its Leadership Awards—a modified ODK rating—in assigning them. Nevertheless, the undertaking is a fine tribute to the men who have served their country and have not returned from the service.

One thing could add to the significance of these scholarships. Fraternities involve an expense which is beyond the reach of a large part of the student body, irrespective of personal acceptability and future promise. Too many men prominent in business, professional, and political life are college graduates but not fraternity members to warrant any belief of ours that our selections are conclusive. A fitting war memorial to the men who are fighting to entrench the democratic way of living would then be to broaden the base of selecting fraternity members, so that it might include what the State University of Iowa has called "a certain group of the natural leaders of men," who are now deprived of fraternity membership merely because they lack the necessary means.

Some fraternity should establish such scholarships for men who would not be chosen until the end of their sophomore year, by which time they could have demonstrated some of their inherent power and promise. We talk much about the need of four years of indoctrination; we've had the four years but not the indoctrination. So let's try instead to develop a standard of fraternity life that will make the college world think it is worth waiting for and working for, and then let us enrich our membership with men who have proved their purpose and their "natural leadership."

★

The real thing for the student is the life and environment that sur-

rounds him. All that he really learns he learns, in a sense, by the active operation of his own intellect and not as the passive recipient of lectures. As for this active operation, what he really needs most is the continued and intimate contact with his fellows. Students must live together and eat together, must talk and smoke together. Experience shows that that is how their minds really grow. And they must live together in a rational and comfortable way.—*Stephen Leacock in his essay on Oxford.*

★

Classroom instruction can contribute little to the moral and social development of young people and must, therefore, be supplemented by the informal training which should be available in the fraternities and dormitories in which the students live together.—*President Ruthven, University of Michigan.*

Beta Charter Found

(Continued from Page 5)

were present from Alpha, Beta, Theta, Iota, Omicron, Sigma, (Hillsdale), and Chi, (Wilmington). A report was also received from Lambda. Later a delegate from Rho (Jamestown, N. Y.) appeared. The outstanding historical duty of the Meadville convention was to transfer the Alpha from Jefferson College to Ohio Wesleyan. This was made necessary by the report of the chapter delegate from Alpha that "his chapter is in a flourishing condition, but that it would be weak after the present term owing to the number going out in the senior class, and also in consequence of the rules of the college which utterly forbid students joining secret fraternities."

When announcement of the discovery of the charter was made at the annual meeting of the chapter house corporation on September 30, the alumni were dumbfounded. Had anybody else other than "Coby" Lash been clearing out the attic, these invaluable documents probably would have passed unrecognized and turned in on a waste paper drive. From now on they will be in the custody of the chapter adviser, Frank Gullum, in a safe deposit box.

HONOR ROLL OF DELTA TAU DELTA

... that from these honored dead we take increased devotion to that cause for which they gave their last full measure of devotion.—Lincoln.

Beta—Ohio

LT. DONALD H. IRONS, '44, killed in action in France July 10, 1944.

Mu—Ohio Wesleyan

NORMAN SCRIMSHAW, '43, killed in action in France August 18, 1944.

Nu—Lafayette

LT. FREDERICK C. HOHNBAUM, JR., '41, killed in action July 15, 1944.

Tau—Penn State

LT. JOHN H. McNARY, '42, killed in action in Italy June 7, 1944.

Omega—Pennsylvania

ACTING SGT. THOMAS C. POWER, '44, wounded in France, presumably at St. Lo, and died July 20, 1944.

WILLIAM G. STEWART, '44, formerly reported as missing in action, killed July 29, 1944, while serving with the Army Paratroopers in France.

Beta Beta—DePauw

LT. (J.G.) MARK K. BRIGHT, '40, formerly reported as missing in action, killed in action July 16, 1944, in strafing an island in the Pacific.

Beta Zeta—Butler

LT. FREDERICK H. STRIBY, '39, killed in action in France July 8, 1944.

Beta Kappa—Colorado

WILLIAM B. WEHRLI, '43, killed in action in the Pacific.

Beta Xi—Tulane

ENSIGN THOMAS O. BELL, '40, died December 30, 1943.

Beta Pi—Northwestern

LT. ALBERT R. FLEISCHMANN, JR., '43, killed in action in the European theater of war.

Beta Upsilon—Illinois

DONALD F. HAMLEY, '45, killed in action at Saipan July 2, 1944.

LT. (J.G.) ROBERT D. PERKINS, '37, lost at sea after air collision of two fighter planes during gunnery practice off the coast of Florida near St. Augustine.

Gamma Gamma—Dartmouth

LT. PAUL B. DEWITT, '39, instructor at the Smyrna, Tennessee, Army Air Field, killed when his plane crashed in mid-air with another plane.

LT. RALPH A. MERIGOLD, '38, killed in action over Los Negros in the Philippines August 9, 1944.

Gamma Delta—West Virginia

LT. LOUIS F. GIRARD, JR., '45, killed in action over Cambrai, France, June 12, 1944.

Gamma Zeta—Wesleyan

JOHN DALE CUNNINGHAM, '44, killed June 4, 1944, by an exploding shell in Rome.

Gamma Iota—Texas

LT. ALEXANDER H. BRITAIN, JR., '42, killed July 14, 1944, in an airplane accident in China.

JOHN F. HIGGS, '42, killed in action sometime this year.

Gamma Phi—Amherst

CAPT. CHARLES B. SKINNER, '37, drowned March 23, 1944, while attempting to rescue a soldier during maneuvers near Elkins, West Virginia.

LT. MERRILL H. TILGHMAN, III, '38, killed May 24, 1944, in action on the Anzio Beachhead in Italy.

Delta Beta—Carnegie Tech

CAPT. ROBERT D. CAMPBELL, JR., '44, killed in action August 15, 1944, while strafing an enemy airfield near St. Trond, Belgium.

Delta Gamma—South Dakota

ENSIGN HOLLIS W. KLINE, '43, killed in airplane crash at Norfolk, Virginia.

Delta Epsilon—Kentucky

LT. ROBERT J. AMMONS, '43, killed in action in France August 12, 1944.

Delta Zeta—Florida

LT. WILLIAM E. MITCHELL, '39, killed June 18, 1944, while serving with the communications department of an infantry division in Italy.

This information received at Central Office from July 1 to October 11, 1944

The Rainbow Honors These Delts

The names listed below are forever immortal. Some have given their lives in the struggle to make all men free; some are missing in action; some are prisoners of war; others have been wounded in the conflict; and still others have distinguished themselves by valorous action. Good Delts all, Delta Tau Delta honors them for their devotion to country, to liberty, and to humanity.

Prisoners of War

Lt. Col. Joseph S. Bell, DePauw, '21
 Lt. Louis M. Benepe, III, Minnesota, '41
 James M. Brown, III, Amherst, '39
 Robert L. Browning, Tulane, '42
 Harold Graybeal, Ohio Wesleyan, '21
 Ben K. Humphrey, Idaho, '38
 Lt. Fred H. Jones, Florida and Alabama, '38
 James K. Keeley, Dartmouth, '34
 S/Sgt. George P. Kountz, Jr., W. & J., '42
 Capt. Crile P. McClure, Ohio Wesleyan, '39
 Lt. George M. Moore, Kansas, '37
 Major John J. Neiger, Illinois, '33
 Capt. Jason N. Quist, North Dakota, '38
 Sgt. William M. Ransdell, Butler, '44
 Lt. Harry F. Rearden, U.C.L.A., '39
 Capt. Donald W. Robinson, North Dakota, '36
 Lt. Charles R. Taylor, Tennessee, '40
 Capt. Charles E. White, Tufts, '37

Missing in Action

Pilot Officer Reginald H. Bedell, Jr., Sewanee, '44
 Lt. James W. Blackburn, Georgia, '41
 S/Sgt. Franklin A. Buck, Jr., Florida, '40
 Capt. Thomas M. Clapp, Jr., Georgia Tech, '41
 Capt. George E. A. Crane, Oklahoma, '37
 Lt. George L. Davis, West Virginia, '42
 Capt. John A. Dewey, North Dakota, '37
 John Fekete, Ohio, '43
 Lt. J. Charles Fitzgerald, Western Reserve, '40
 Joseph M. George, Georgia, '34
 Lt. (j.g.) John Richard Goheen, Kansas, '42

Capt. Walter R. Guthrie, W. & L., '40
 Lt. Richard P. Howard, Dartmouth, '41
 Lt. Charles W. Knop, Alabama, '42
 Lt. Royal I. Lee, South Dakota, '38
 Lt. Richard P. Lehr, Western Reserve, '39
 Lt. John M. Long, Alabama, '40
 Major William A. Miller, Alabama, '34
 Lt. Milton C. Reeves, Purdue, '39
 Lt. (j.g.) John M. Robinson, Jr., Cincinnati, '43
 Ensign Philip H. Sanborn, Dartmouth, '39
 Lt. Robert K. Schrader, Pittsburgh, '40
 Lt. (j.g.) Robert R. Teigen, Northwestern, '36
 Ensign James H. Wells, Amherst, '42

Distinguished Service Cross

Capt. Robert P. McCampbell, Nebraska, '41
 Lt. W. Wallace Stover, Ohio State, '38

Navy Cross

Lt. (j.g.) Jack P. Barnum, Miami, '39
 *Lt. (j.g.) Mark K. Bright, DePauw, '40
 Capt. Carl E. Conron, Illinois, '40
 *Ensign Richard A. Jaccard, Kansas State, '40
 Capt. Francis X. McInerney, Colorado, '20

Legion of Merit

Lt. Jackson S. King, Stanford, '36

Silver Star Medal

Lt. Richard C. Danahy, W. & L., '41
 Lt. George L. Davis, West Virginia, '43
 Capt. Ross V. Hersey, W. & L., '41
 Capt. James P. Jacobson, South Dakota, '41
 Lt. Lloyd E. Kindall, Colorado, '43
 Lt. Richard R. Lehr, Western Reserve, '39
 Capt. James R. McCartney, West Virginia, '41
 Capt. Francis X. McInerney, Colorado, '20
 Major William A. Miller, Alabama, '34
 Capt. Charles W. Murphy, Jr., Idaho, '41
 Major George A. Parker, Stanford, '38

Distinguished Flying Cross

Major Wilbur Beezley, Nebraska, '38
 Capt. William Berkeley, Western Reserve, '40
 *Capt. Robert D. Campbell, Carnegie Tech, '44
 Capt. Richard T. Cella, M.I.T., '39
 Capt. Willard E. Fawcett, Butler, '38
 Lt. (j.g.) George Forbes, Colorado, '38
 Lt. Balfour C. Gibson, California, '39
 *Lt. Louis F. Girard, Jr., West Virginia, '45
 Lt. (j.g.) Emil Hanson, Washington, '40
 *Ensign Richard A. Jaccard, Kansas State, '40
 Major Charles D. King, Tennessee, '41
 Major Elwood T. Lippincott, Miami, '41
 *Ensign Louis M. Love, Stanford, '39
 Lt. James M. Montfort, Lafayette, '41
 (with one Oak Leaf cluster)
 T/Sgt. Angus M. Nicoll, Nebraska, '41
 *Lt. Kenneth F. Strong, California, '39
 Lt. Charles R. Taylor, Tennessee, '40
 Lt. William R. Teague, Hillsdale, '43

Soldier's Medal

Capt. Erwin G. Morrison, Stanford, '26

Bronze Star

Lt. Col. George P. Guthrie, Ohio State, '26
 (with one Oak Leaf cluster)
 Lt. Frank M. Kibler, W. & L., '38

Air Medal

Lt. Burton L. Bardeen, U.C.L.A., '40
 Capt. William Berkeley, Western Reserve, '40
 *Lt. (j.g.) Mark K. Bright, DePauw, '40
 (Gold Star in lieu of second Air Medal)
 *Capt. Robert D. Campbell, Carnegie Tech, '44
 (with three Oak Leaf clusters)
 Capt. Richard T. Cella, M.I.T., '39
 Lt. Richard C. Danahy, W. & L., '41
 Capt. Willard E. Fawcett, Butler, '38
 (with one Oak Leaf cluster)
 *Lt. Louis F. Girard, Jr., West Virginia, '45
 (with four Oak Leaf clusters)

Lt. Richard B. Howes, Florida, '41
 (with one Oak Leaf cluster)
 Capt. Oliver F. Keller, Florida, '38
 Major Charles D. King, Tennessee, '41
 Lt. James M. Montfort, Lafayette, '41
 (with three Oak Leaf clusters)
 *Lt. John P. Ragsdale, Michigan, '42
 Lt. (j.g.) John M. Robinson, Jr., Cincinnati, '43
 *Lt. Kenneth F. Strong, California, '39
 Lt. William R. Teague, Hillsdale, '43
 Lt. David E. Walling, Lawrence, '38
 Ensign James H. Wells, Amherst, '42
 Lt. Daniel R. Wolterding, Lawrence, '38
 (with one Oak Leaf cluster)
 Major Burton D. Yarian, Butler, '41

Purple Heart

*Capt. James A. Boyd, Idaho, '39
 Lt. Richard C. Danahy, W. & L., '41
 Lt. Allan A. Fisher, Western Reserve, '30
 Lt. Robert L. Gibson, West Virginia, '41
 George D. Harris, Tennessee, '45
 Capt. Ross V. Hersey, W. & L., '41
 *Ensign Richard A. Jaccard, Kansas State, '40
 Capt. Charles W. Murphy, Jr., Idaho, '41
 T/Sgt. Angus M. Nicoll, Nebraska, '41
 Pvt. Eugene C. Powell, Jr., Emory, '43
 *Lt. John P. Ragsdale, Michigan, '42
 Lt. James G. Simpson, Pittsburgh, '43
 War Correspondent George H. Tucker, Virginia,
 '29
 *Lt. Daniel R. Wolterding, Lawrence, '38

Combat Infantryman's Badge

Lt. Robert R. Miller, South Dakota, '43

Navy and Marine Corps Medal

Lt. Waldo E. Houf, Ohio, '40

Croix de Guerre

Capt. Ross V. Hersey, W. & L., '41
 Capt. Douglas M. Smith, Pennsylvania, '19
 *Deceased.

DELTS IN THE SERVICE

Winner of the Distinguished Flying Cross and Air Medal, and recommended to receive two Oak Leaf clusters, LT. WILLIAM R. TEAGUE, *Kappa*, '43, has completed 50 missions with the Fifth Air Force in the Southwest Pacific. He was co-pilot of a B-25, the "Impatient Virgin."

LT. JOHN R. NELSON, *Washington*, '42, former field secretary, paid the Central Office a visit recently, having completed a nine-month training course at Yale in the Army Airways Communications Systems, which handles the communications systems for the air forces. He is currently stationed at Chanhute field, Rantoul, Ill.

CORP. EDWARD B. KUNZ, *Minnesota*, '42, who sailed with D-day invasion forces and was wounded in action in France, is recovering in a hospital in England.

News releases in August reported that the Twelfth Air Force B-25 bombardment group had set the record for 500 bombing missions over enemy territory—the largest number of missions flown by any bombardment group, either heavy or medium, in the Mediterranean theater of operations. LT. COL. MAYNARD W. BELL, *Oregon*, '30, is an executive officer in the headquarters group. He went overseas in November, 1942, and has been stationed in Tunisia, North Africa, and Algeria. He has been awarded the European Middle-East African campaign ribbon with three battle stars and the American Defense Service Medal.

JACK G. BOES, *Purdue*, '46, received his silver wings in graduation ceremonies September 8 at Lubbock Army Air Field.

COL. FRANKLIN S. MILLIGAN, *Toronto*, '10, of the Royal Canadian Engineers, formerly stationed in Toronto, Ontario, has been promoted to Engineer in Charge, Pacific Command, Vancouver, B. C.

LT. C. LYNCH CHRISTIAN, JR., former president of the W. & L. chapter, class of '44, completed fifteen weeks of intensive training as a four-engine bomber pilot at Liberal Army Air Field, Liberal, Kan., in July and qualified to command the crew of a giant Liberator bomber. He received his wings April 15, 1944, at Ellington Field, Tex.

A veteran of ninety-one missions over Europe, LT. JAMES M. MONTFORT, *Lafayette*, '41, is now acting as an instructor for fighter pilots freshly arrived in the European Theater at an Eighth Army Air Force Composite Station in England. He has been awarded the Distinguished Flying Cross with one Oak Leaf cluster and the Air Medal with three Oak Leaf clusters.

LT. ROBERT T. ANDREWS, U.S.N.R., *W. & J.*, '41, is now serving on the USS "Boise," after having been a year in the carrier task forces in the Pacific, where

he served on the staff of Admiral Sherman and Admiral Ramsey.

A member of the famed 85th Infantry Division, LT. FRANK M. KIBLER, *W. & L.*, '38, was cited for bravery and awarded a bronze star for rescuing a fellow soldier while under fire. The citation reads as follows:

"For heroic achievement in action on May 23, 1944, in Italy. During an enemy air attack Lt. Kibler voluntarily rendered first aid to an injured soldier and succeeded in moving him to a protected position."

CAPT. GENE WESLEY NORRIS, *Washington*, '41, was promoted in July from the rank of first lieutenant at Randolph Field, where he is a statistical officer for the AAF Central Flying Training Command.

Cumulative Military Statistics

In Armed Service	8,093
Died in Service	137
Missing in Action	24
Prisoners of War	18

Nine members of Delta Tau Delta received their commissions as weather observers at Chanhute Field, Rantoul, Ill., June 4, 1944. All are second lieutenants. They are: First row, CHARLES L. BRETSCHNEIDER, *Hillsdale*, '45; CHARLES A. YAGER, *Michigan*, '45; WALTER F. BAUER, *Michigan*, '45; and MELVILLE C. HILL, *Amherst*, '45. Second Row: PAUL W. HAAS, *Minnesota*, '44; JOHN H. PLATT, JR., *Michigan*, '45; DONALD W. ALVIN, *Amherst*, '45; ROBERT L. FARWELL, *Amherst*, '43; and DON B. JONES, *Kansas*, '46.

Editor's Note: There are now 8,093 Delts in service whose names have been reported to the Central Office. The names of the members listed below were received from July 1, 1944, to October 12, 1944. The military listing was inaugurated with the February, 1943, number, and includes the names, years, and ranks (when given) by chapters.

▼ FROM THE EDITOR'S MAILBAG ▼

Beta Epsilon's house has been returned to it by the University and will be open for chapter and alumni use November 1.

The chapter continues to function actively on the Emory campus and expects to be able to reach its "pre-war strength" before long. We have lost a great number of men to the service, but fortunately have added good men to carry on.

Harry Letaw, '46, recently was called to active military service. He had been serving as president of the Interfraternity Council and had done a great deal in the task of maintaining a strong fraternity spirit on the campus.

We enjoyed an advance Hallowe'en Party on the thirtieth of September. Everyone enjoyed the presence of ghosts and everything that makes up Hallowe'en in this unusual party coming a month ahead of schedule. The Delta Shelter was decorated with all the trimmings, and all the brothers and dates were surprised when they were led through the horror chamber into the living room.

The chapter held an initiation on the tenth of September for three members, Leo Jules Coco, Fred Shane, and William H. Ridley.

By DUNCAN FARRIS.

★

ROBERT E. MCCREARY, *Allegheny*, '18, Monaca, Pa., has been named as judge of the court of common pleas of the Thirty-sixth Judicial District, and will serve until the first Monday in January, 1946.

★

DR. GEORGE M. PIERSOL, *Pennsylvania*, '02, director of the center for research in physical medicine at the University of Pennsylvania, was the speaker at the opening session of the three-day meeting of the United States Chapter of the International College of Surgeons which held its ninth national assembly in Philadelphia early in October.

DR. BARRETT

DR. ROBERT S. BARRETT, *Sewanee*, '98, has been elected Grand Exalted Ruler of the Benevolent and Protective Order of Elks at its meeting in Chicago. Dr. Barrett and Mrs. Barrett, residents of Alexandria, Va., have converted the lower floor of their home into a Masonic service center for visiting servicemen for the duration of the war. Dr. Barrett, who has been an editor and publisher and has held various government posts in South America, has been retired since 1925. He was Grand Worthy Master of the Virginia Masons in 1942.

★

Gamma Sigma—Pittsburgh

During the summer Gamma Sigma pledged thirteen prospective Delts, coming out second best on the Pitt campus. We also initiated one member of the Alpha chapter at our last initiation. Our social program was kept up as much as possible this summer in spite of the decreased number of members active during the hot months. Among the outstanding social events was the "Bowery Brawl." This is the name of the dance that every pledge class

gives for the active members. We are now exercising our vocal chords in anticipation of winning the Interfraternity Sing which is to be held on December 9.

That we are one of the most active of the fraternities on the Pitt campus can be attested to by the following list of campus activities held by Delts: business manager of the *Owl* (the student Year Book); assistant business manager of the *Owl*; 3 out of 9 members of Men's Council, one of whom is the vice-president; 3 out of ten Druids (the honorary sophomore activities society), one of whom is president; president and 7 members of the Brackenridge Society (war veterans); 4 out of ten YMCA cabinet members; advertising manager of the *Pitt News* (the campus newspaper); social chairman of the Student Congress; chairman of the "Howdy Hop" (a major dance of Pitt's social season); and treasurer of Interfraternity Council.

I believe that the above list shows better than anything else that we are very active this year and are doing extremely well considering the slump experienced by all fraternities during the war.

By STANLEY S. GOEHRING.

★

Alpha—Allegheny

Much to their surprise and, we daresay, to their regret, fraternities at Allegheny sold Alpha Chapter short this fall. Looking back over the chapter's most recent history and activity, these competitors in the freshman mart thought they had reason to follow their course, for Alpha's rushing efforts during the past year had been rather feeble. But what they overlooked was Alpha's reserve strength, its determination not to be licked by these wartime conditions, its eighty years of continuous operation backed by a larger organization with an eighty-five year service record, plus the fact that Alpha's prime salable commodity—membership in Delta

Alpha and Gamma Sigma Delts following initiation of Allegheny's class at the Pitt chapter house.

Tau Delta—was still a highly desirable product and would continue to be so in the days to come.

All of which leads us to say that we rocked the Allegheny Greeks. It was not an easy job—was rushing ever easy? The Central Office sent Richard Barnhart and Robert Buell, Gamma Sigma actives, up to help our three actives with the rush week program. We seem to have royally entertained the freshmen. When the noses were counted we were tied with a competitor with six pledges (the quota was seven) and four other Greeks trailed.

On Monday, October 9, the Meadville alumni had the new pledges as guests at dinner. Thirteen alumni were on hand to welcome the prospective members of the Alpha, with plenty of singing and good fellowship.

Henry C. Lavelly, '45, is pledge-master. We are going to train the frosh as per the Delt Development Program. We are going to check on their scholarship during the semester, although all of them have good scholarship ratings. Since we are not operating the Shelter, we will have to work up more group activities to take the place of the brotherhood-cementing influence of a Shelter.

A recent check-up of Alpha men who left active membership to join the armed forces indicates that many are hoping to come back to finish their work after the war.

On September 24 Mack D. Cook, II, was initiated by Gamma Sigma Chapter for Alpha Chapter. We are mighty happy that this could be arranged. The contacts with our neighboring chapter will be, we

hope, only the beginning of more to follow.

By WILLIAM F. REICHERT.

★

Delta Zeta—Florida

The pre-session opening of the University of Florida for the benefit of entering students September 13 was the occasion for the assembling of the chapter's actives, who, when all counts were made, consisted of John Boling, Ed McLean, Norman Tuckett, and Andrew Potter. They are the president, vice-president, secretary, and treasurer, respectively, of the chapter, all upper classmen and 4-F for military service, but carry a wicked wallop when it comes to the rushing program. The activities of rush week and succeeding days have resulted in a total of eighteen pledges as of this date. The program is being continued less intensively but more critically and several additional wearers of the sign of a pledge are anticipated.

The pledges as a group are rather young but nevertheless decidedly alert as to the possibilities of getting their college work under way and as far advanced as possible when students are few and professors are plentiful. The pledges mostly live in the University dormitories as required which results in a partial capacity house load. We are planning however to keep the house open as long as possible and anticipate easier problems after the end of the semester. The pledge class has been organized with Lewis White, of Miami, as its president; Ed Benjamin, also of Miami, as its vice-president; Albert Mendoza, of Miami, as its secretary; Bob Elliott, of St. Petersburg, as its treasurer; and Charles Powell, of Miami, as its

Guard. They have been given Fraternity responsibilities and as a consequence the chapter house and its surroundings and the extracurricular activities on the campus are receiving a complete going over.

A happy impromptu social hour or two of dancing and refreshments at the house culminated the evening, which was mainly occupied by the Varsity football team winning over their first adversary of the year, the Naval Air Station team, 36-6. Homecoming has been definitely set for October 28 when the team tangles with Maryland. We are anticipating the visit of all of the alumni who are not in the armed services and some of the members of other chapters.

Since the opening of the current semester several of the actives of the chapter during recent years have visited us. We are mighty proud of these Delts and hope for the early return of them to the fold. Pvt. Grady Drake, from Camp Robinson, Arkansas; A/C Jim Watson, from a Virginia camp, and Lt. John Germany, from Fort Knox, have stopped at the house.

Delta Zeta's class of 1930 claims among army circles Col. I. B. Anderson, Major W. M. Fifield, Major M. N. Owens, Major R. Leslie (Lesczynski), Lt. R. Goodbread, and Lt. John Mackey.

Naval Air Commander Carl E. Jones, Delta Zeta, '34, chapter president 34-35 and George E. Allen, Delta Zeta, '39, of the F.B.I., chapter president 39-40 are both located in the national capital and coincidentally are close residential neighbors.

Captain D. E. Williams, Delta Zeta, '34, has one of those Army assignments that so many of us have heard about but never observed. We would gladly offer our undivided attention and tend strictly to business, too, for that job—Jack is a WAC recruiter.

Dr. D. Marston Bates, Delta Zeta, '27, who has been studying mosquito-carried diseases of man in Albania, Greece, and Egypt was in the United States recently before going to a new assignment which locates him at Villavicencio, Colombia, South America. He is working under the auspices of the Rockefeller Foundation.

By NORMAN TUCKETT.

*Gamma Iota Chapter at Texas***Gamma Iota—Texas**

The Delt Shelter was taken over by the Navy in July, 1943. It was then the chapter moved to a smaller house suitable to its needs where it stayed until July, 1944. Even though it was small the Delts accomplished much on the U.T. campus. Since November we have initiated thirty men.

Last November, Gamma Iota held the winter formal at the Austin Country Club with music being furnished by a local band. The annual Christmas was held at the house and numerous parties, picnics, and open houses were held during the next few months.

During the year Theo Painter was president of Phi Eta Sigma and Roy Munroe was reporter. Banks McLaurin took over the presidency when Theo left for med school. Painter was a member of the Cowboys, honorary service organization on the campus, and Who's Who in American Colleges and Universities. He is now a midshipman at med school together with Craig Boyd, Bill Neil, Ray Harrington. Bill Neil was elected president of Alpha Sigma Delta with Craig Boyd as historian.

The Delts put on an excellent show in the annual carnival and were winners in their league in intramural touch football.

Ed Shutze was elected president of Alpha Phi Omega and Roy Munroe was elected historian.

The annual Founders Day Ban-

quet was held at the Driscoll Hotel in Austin. Dr. H. T. Parlin, Dean of College of Arts and Sciences, member of the Distinguished Service Chapter, a Delt from Colorado, made the principal address. H. Grady Chandler was the toastmaster of the banquet. Besides the actives and pledges, Theo Painter and Alfred Ellison were up from med school, and Lt. George Kern, Delt from Iowa State, and Austin alumni were present. The retiring president, Ballard Watts, was presented with a gold gavel. President Banks McLaurin was presented with the Scholarship Award, Herb Reid, the Big Brother Award, and Frank Sherwood, the Outstanding Pledge Award.

Banks McLaurin, who receives his commission from the Naval ROTC in November, besides being president of the chapter was president of the Engineering School, member of Tau Beta Pi, Chi Epsilon, American Society of Chemical Engineers, treasurer of Y.M.C.A., member of Ramshorn Association, and served on the Judiciary Council in student government.

During spring training in football, the Delts had two men on the A Squad—Ed Shutze and Bruce Scott.

In March, the Delts gave a barge party on Lake Austin for the sweetheart nominees. During the roundup, a big event on the campus, the Delts had a buffet supper for the visiting sweethearts from the six Texas schools.

On Mothers Day, the Mothers Club entertained the members and pledges with a buffet supper. Many of the Austin Dads were present.

In the past months, many alumni visited the chapter among them Lt. (j.g.) Malcom Kutner. Ensign Joe Nash, Jack Chewning, Midshipman Jim Baskin, Pvt. John Banks, Ensign Bill Ellison, Lt. Don Boatman, Lt. George Terry, Pvt. Henry Nash, Petty Officer Rike Peevey, Ensign George Wolford, Lt. J. C. Brooks, Cadet Lewis Smith, Pvt. John Warden, Lt. Chink Taylor, Lt. John G. Cornwell, Paratrooper Jim O'Neil, Pvt. Nathan Boals, Lt. (j.g.) H. Grady Chandler, Jr., Maurice Adams, Lt. (j.g.) Thad Grundy, and Lt. Bob Sneed.

Also during the year, John Higgs, '42, and Alex Britton, '43, were killed in action. Ensign Buddy who received his commission in March is now in Italy. Bill Hulsey left the chapter for med school in Washington, D. C. Dick Smith and Art Evans have gone to midshipman school. Lt. Phil Laughlin has been cited for action in the Marine Air Corps. Both H. Grady Chandler, Jr., and Thad Grundy have been cited for action in the Pacific.

This spring, the Delts had the finest formal on the campus, the music being furnished by the Camp Swift service band. The guests included the greater portion of the sweetheart nominees.

In spring sports, Gamma Iota won the fraternity baseball tournament and was runner-up in the all-uni-

versity tournament, winning nine straight games. In the intramural track meet, Joe Painter won first in the high jump and Burke Morrison took second in the broad jump. The Delts finished third in the meet. To wind up the sports calendar, they won the fraternity swimming meet and were runners-up in the all-university meet in this event. At the end of the year, the Delts were only a few points out of second place in the all-year fraternity intramural standings.

In July, the V-12 released the Delt Shelter. The house was remodeled just in time to ring up big rush weeks in July and September and the chapter now has a pledge class of twenty-six men being the largest in wartime. The active chapter is going big with thirty men including affiliates, Bob Manogue, Gamma Xi; Don Wolfe, Gamma Xi; Les Price, Beta Xi; and Dave Evans, Gamma Tau.

The new officers for the year are C. Stanley Banks, Jr., president; Robert A. Manogue, Jr., vice-president; John E. Evans, Jr., treasurer; and Franklin A. Gilliam, recording secretary.

During the year, Ed Shutze, Dan Krausse, David Dellinger, and Frank Sherwood were elected to the Silver Spurs, an honorary service organization. Delt members in the Cowboys, another service organization, include Banks McLaurin, Stanley Banks, Roy Munroe, Vic Crews, and Billy Andrews. Frank Sherwood is chairman of the all-university dance committee and president of the Fort Worth Club. Ballard Watts also serves on the

dance committee and is a member of the Arts and Sciences Assembly in student government and the interfraternity council. Dan Krausse was elected to Tau Beta Pi.

With fifty-six men, and in their house with men in all important organizations on the campus, the Delts will continue to be one of the leading fraternities on the U. T. campus.

By DAVE EVANS, JR.

★

Gamma Tau—Kansas

Gamma Tau Chapter has opened up this year with forty members. We are still operating to the full extent, and are looking forward to a successful year. We are operating a table, and plan to put on several social events which will come very close to being on the peacetime level. We have set a goal of fifty members and are going to resume work on it as soon as the new students arrive for the next term.

At the present time, we are looking forward to the fifty-fifth annual Baker Chicken Fry. This fry is a joint party with the Gamma Theta Chapter of Baker University. The Gamma Theta Chapter is the responsible party for this occasion, and to them goes all the credit for the good times.

In the very near future, we have the annual Fall Paddle Party and Homecoming to plan for. We have been working on plans for the Homecoming which should give all the grads something to remember, at least until the next time.

Martin B. Dickinson, Supervisor of Scholarship, visited Gamma Tau

Chapter October 2. At this time, he explained many things in the way of scholarship and matters of the Fraternity to the boys. We had a full house turnout for this. The house corporation and chapter adviser were also present and suggested that the boys in Gamma Tau begin to draw up some plan for the pledging of men returning from the armed forces. Many items were brought to light that convinced us that these men, who are largely older than the present group, will bring about a change in the training of pledges.

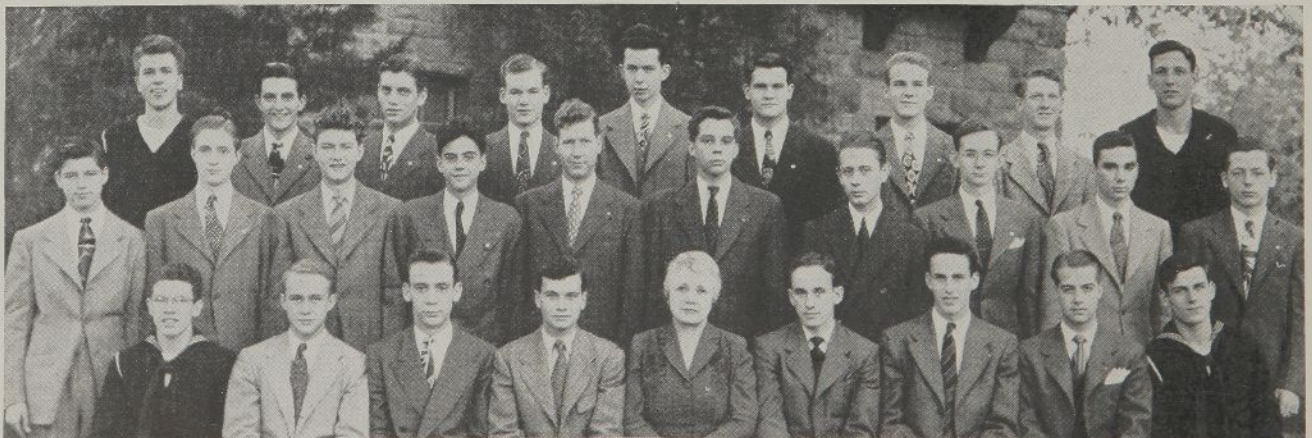

By F. R. WENDLANDT, JR.

★

Delta Beta—Carnegie Tech

Delta Beta Chapter at Carnegie Institute of Technology has a bright outlook considering the wartime conditions under which we are operating. At the present time, the active roll numbers twenty-three, and eight pledges will soon be initiated. Further, we are now in the midst of a rushing week, and anticipate at least ten more good pledges in a few days.

Of the twelve national fraternities formerly on the Tech campus, only four are at this time operating. Delta Beta has been the only house at Tech which has been strong enough to continue without such aids as having nonmembers living in the house. The turnover of members has been very rapid. Few men are enrolled at Tech for more than a year. Consequently, our only post-war problem will likely be housing a hundred or more members now in the armed forces who will return to

Gamma Tau Chapter at Kansas

Tech upon discharge. Rushing has currently assumed an odd but pleasant feature. It is little more than a matter of looking over the incoming freshman classes and deciding who among them would make good Delts.

Since Tech has cancelled intercollegiate football schedules, intramural football will be very popular this fall. We plan to enter two teams, and should have new additions to the trophy case.

After weeks of pros and cons on the matter, we finally purchased a mascot—a cocker spaniel. After three weeks of his being in the house, it is commonly agreed that his living conditions far exceed those of the members. He keeps a large collection of clothing, gathered at random from the various closets. But all in all, he does give a pleasant touch to the Shelter.

By ROBERT L. HARLOW.

★

Gamma Pi—Iowa State

Gamma Pi is carrying on in spite of the fact that all of the members are in service. At this writing the chapter is composed of nine active members, all of whom are members of the Navy V-12 unit here at Iowa State. During the past year the Shelter has been leased to the College, but now that the housing situation has been relieved the house is once again in the possession of the chapter. Though the house is unoccupied, it is used to a certain extent for meetings, social events, etc.

An informal dance was held in the Shelter September 30. It was the first event of the current season; at present, plans indicate a generous amount of social life despite the fact that our time is curtailed by Navy demands.

Rushing has been limited to members of the V-12 program since the civilian population is practically nil, and we do not have adequate time or facilities for the rushing of civilian men.

Our sympathy goes out to Brother Bob Wehrli (formerly of Beta Kappa) who recently received word of the death of his brother, Pfc. William B. Wehrli, in Pacific action.

Many of the members of antebellum Gamma Pi have returned recently for short visits. Among these were: Warrant Officer Robert

Knecht, U.S.M.S.; Lt. W.C. Paddock, U.S.M.C.R.; and Ens. Benner Hitchcock, U.S.N.R.

The president of Gamma Pi, Ted Thomsen, was recently honored by being initiated into Tau Beta Pi, national engineering honorary.

By the time this goes to press the active chapter will have been enlarged by the initiation of three men: Paul Peterson, Mike Petersen, and Wayne Thompson (all three are members of the V-12 program here). Nice going, fellows.

By JAMES J. BRENNAN.

★

Delta Gamma—South Dakota

Delta Gamma chapter is not only carrying on this year, but it is forging ahead, laying a firm foundation for the postwar period. We are one of the few fraternities on the campus who are maintaining a fully operating chapter. We have six actives on the campus who have been doing a fine job of rushing. We have seven pledges: Tom Luby, Norris Tollefson, Darryl Booth, Bud Doyle, Bud Sundling, Gene Mayer, and Bill Hogan.

Bill Kunze and Tom Luby, an all-state basketball player from Huron, S. D., are members of this year's varsity basketball squad. Four actives, Reaney, Doohen, Van Voorhis, and Graham, are studying medicine in the Army and Navy programs. Koehn and Guenther are carrying the flag for the arts students and Bill Kunze has aspirations of becoming a lawyer.

Harding got his commission in the Marines. Bob Erickson was commissioned in the Tank Corps and was also married to Carol Edwards. Bob Raw is married and in the tank destroyers. Brandon is stationed on a small island near Midway and is a first looie. Lee Gilbert is in New Guinea. Bob Antony was commissioned in the infantry and is in France with Jim Ellwein. Chuck Berg, Antony, Stark, Oviatt, Goon Johnson, and Beach have all been home on furlough. Bob Whitney was married to June Adams from Huron. Beardsley is married and still instructing at Corpus Christi. Jim Doyle received an appointment to West Point. Weeks was home on furlough and is in the infantry, as is Brooklyn. De Geest is stationed at Iowa City. Keith

Miller is a second looie and is stationed at Sioux City. Navigator Bob Gravrok was home on furlough. Chuck Austin is married and is an Ensign. Kell and Bob Miller are still in Italy and Stadek is stationed somewhere in North Carolina.

By NORMAN E. GRAHAM.

★

Gamma Zeta—Wesleyan

Under the able direction of Ted Seamen, president, the Gamma Zeta Chapter has kept itself well up among the strongest houses at Wesleyan during the past year. With twenty-five active undergraduate members the Delts are represented in almost every extracurricular activity on campus. Ned Dewey, Carson Gibb, Roy Jones, and Phil Baker are lettermen on the Soccer team. Six brothers from the chapter are members of the college body senate, the largest delegation from any house. The college paper, broadcasting station, choir, and the rushing committee all have representatives of the chapter in responsible positions.

The house will definitely be kept open throughout the winter months. With the help of the alumni we hope to install a new furnace which will save considerably on the coal bill. The brothers all have worked together to paint and redecorate the rooms to make the Shelter look more presentable. We lost ten men in July who reported to Midshipmen Schools from the V-12 unit here but with the able assistance of our fraternity adviser, John Lindemuth, the sophomores and freshmen have kept the house in good running condition.

In July we pledged a full delegation of fifteen men, initiating three the sixteenth of September and ten the twenty-third of that month. After the latter initiation, Dick Homstead, our chef, served a light supper for the visiting alumni and new initiates.

Some time during the near future we are hoping to have a smoker, so that the alumni in the vicinity can meet the new brothers and look over the changes in the house. In the middle of November another edition of our chapter newspaper, *The Hustler*, will be distributed to all alumni of the chapter. It will enumerate in detail the work of the

Kappa Chapter at Hillsdale in fall of 1944.

chapter during the past year. We in the house look forward to the future with assurance that Gamma Zeta will remain open for the duration, and hope that any alumni near Wesleyan will be sure to stop into the house.

By WARREN McENTEE.

★

Kappa—Hillsdale

Kappa Chapter is starting on her seventy-eighth year with renewed confidence and determination to carry on in spite of wartime restrictions and to operate in such a manner as to preserve all of the chapter's traditions and to uphold her position on Hillsdale's campus and in the Fraternity in a creditable manner.

The outlook is considerably brighter than a year ago. Four actives returned to school and the chapter has pledged nine men, all of whom are most definitely excellent material.

Of course the house is open as usual and Mother Flowers is still on the job as housemother. Committees have been set up and are functioning with the idea of making the chapter's operation just as near normal as is humanly possible.

Russell Rowe, pledge from Detroit, has been elected president of the freshman class. At this writing no other elections have been held but we are hopeful of being well represented in extracurricular activities as usual.

Alumni will be glad to know that after a year's lapse football is re-

turning to Hillsdale's campus. Brother Dwight Harwood has 18 men on his squad and some of his material is quite outstanding. While the team probably will not be able to challenge Notre Dame or the Bears yet, it is very gratifying to see football resumed. An effort is being made to arrange a home football series with Albion for Homecoming at both schools and two or three other games will be played.

Plans are now shaping up for Homecoming on October 28 and the chapter is anticipating a good crowd of alumni back.

By EDGAR B. LINCOLN.

★

Beta Mu—Tufts

Since Beta Mu became active again last spring nine new men have been pledged. They are Robert A. Ackerman, '45, Robert E. Bartlett, '46, William A. Burgess, '46, William Burt, '47, Arnold E. Carlson, '46, George Kidder, '47, Robert Tait, '46, Herbert Nelson, '46, and Charles Olney, '46. With the help of the alumni we hope to have an initiation for these men October 21. Although the house is now being used as a girls' dormitory, it is hoped that we will be able to hold the initiation in the chapter hall. The same night we are planning a formal dance in honor of the new initiates at the Winchester Country Club.

New officers were elected recently for the coming semester. They are William Hooper, president; Charles

Wakefield, vice-president; and Arthur Foster, secretary-treasurer.

The chapter is well represented on the football team by Bob Ackerman, first string guard; Bill Hooper, a back; and Bob Tait, an end. Bill Burgess is playing on the soccer team and Art Foster is running for the cross-country team. Russ Crowell and George Kidder played on the baseball team last summer. Last spring Bill Hooper, Bill Fagan, Herb Nelson, and Bob Tait were mainstays on the lacrosse team.

Don Moss has been manager of the *Tufts Tracer* which is the magazine published by the Naval training unit here at Tufts. Shorty Mancib and Bill Dowden are kept busy by the Tuftonians, the local dance band. Shorty is the band's business manager and Bill plays the sax.

Several of Beta Mu's men hold key positions in the Naval Regiment. Bud Cushman and Bob Ackerman are Regimental and Battalion Adjutant respectively, Spike Staples is Regimental Bugler, Curt Drury and John Thalheimer are Company Commanders, and Don Moss and Jack Amato are Platoon Leaders.

By ARTHUR R. FOSTER.

★

Rho—Stevens

On November 1, the Delts are getting back the chapter house from the school which has been using it as a dormitory.

The house will lose many men November 1. Brothers Widenor, Markert, Eichman, Malchow and Farley, all of the class of '45, are among the V-12 students graduating this term. Brothers Heaps, McAllister, Schaefer, and Merrill and Pledge Summers will be going to pre-midshipman's school as deck candidates at the same time.

Walter West, '46, has been elected new president of the house, succeeding Austin McCormack, '45. Nils D. Sellman is the new vice-president with Dick Guerin, '46, as treasurer, Bob Lamb, '46, recording secretary, and Ned MacDougall, '47, corresponding secretary.

On the sixteenth of September, all the Delts from the chapter attended a party given by Bill Young, '37, an alumnus of Stevens and a brother Delt. The party was a great affair

with blind dates, swimming, and a "weenie" roast all provided. Brother Stillwell, '42, was also in attendance.

The house also held a graduation party on Saturday, October 7, for the seniors and deckmen leaving this term. In the afternoon, all saw the Broadway hit "Jacobowsky and the Colonel" followed by a dinner at the Meyers Hotel. After that, all adjourned to the house for a bang-up party.

After a six-month leave of absence due to illness, Donal McCarthy once again returned to our midst. Don was stationed in San Bernardino, California, while recovering.

Ted Ottens, '46, has been elected president of the Interfraternity Council which position he will hold for two terms. Ted is also president of the very active "Stevens Date Bureau" and is business manager of the college yearbook, *The Link*.

Austin McCormack, '45, was elected president of Pi Delta Epsilon, national honorary collegiate journalistic society.

Several of the brothers lent able assistance in fighting the \$4,000,000 Hoboken fire. Brothers McQuaid, McBride, McCall, and Sellman gave up much of their time and energy battling the smoke and flames.

Howard McCall was in charge of cleaning up the debris after the recent hurricane. Howie organized a gang that has sawed and chopped enough wood to keep a good fire in the house during cold winter nights.

Bill McQuaid, '46, our active social committee head, has left for pre-midshipman's school. Bill was the company commander of Company 8 before he left.

David Resch, '45, and John Corn-

well, '45, have left pre-midshipman's school at Asbury Park for Middle school at Northwestern and are enthusiastic about the change.

Richard Diaz, '44, past house president, and president of the I.F.C., has seen a lot of action as engineering officer aboard an "L.C.I."

Bob Fitch, Lt. U.S.N., '42, and wife dropped in on our last house party. He is stationed at Patuxent, Maryland, where he holds an engineering job in the Navy Air Corps.

Dick Guerin, '46, had the lead in a successful showing at school of the play "Mr. and Mrs. North." This play was followed by the "Navy Ball" and a great party at the Delt House.

Brothers Arve Larsson, '46, and Bill Tutzauer, '46, have recently made visits to the house.

Prospects for the coming year appear to be very favorable with the chapter house again being returned to the Deltas.

By EDWARD A. MACDOUGALL, II.

★

Lane Summers, chapter adviser, writes that the Gamma Mu chapter house at 4524 19th Avenue, N. E., Seattle, Washington, is to be open from November 1 on and it will be available in part for transient Deltas.

★

Delta Nu—Lawrence

Delta Nu has had very good success at Lawrence in the past semesters. We initiated seven members at the end of last semester and expect to initiate ten more at the beginning of next semester. We now have seventeen actives and twenty-four pledges.

We are having our formal dance

October 6 and all through the semester we have had parties every week. Our Fraternity grade average at the end of last semester was 1.485, which shows that we have also had time for studying.

We are now in the midst of the football season here and we have five men on the starting eleven. In tennis, we had five men of an eight-man squad.

We are very fortunate in that there has been a rumor coming from the Dean's office that we will be able to move back into our house next September.

By GERVASE C. BLICK.

★

Mu—Ohio Wesleyan

Once again Mu Chapter can contribute to the RAINBOW, after a year of inactiveness. Now Mu is proud to boast of its new members and pledges. When the Navy pulled out of our Shelter those actives who were here were charged with inspiration to start up a strong nucleus from which a strong chapter could be built after this war. On August 1, seven men were pledged. Every week the old brothers injected a little of the fraternity life that we all know and love into the new men. Strong bonds of fellowship were tied and within two months the boys were ready for initiation. The October initiation was really something. Not only did it surprise the alumni, but actually the officers were amazed at what they had done. Over thirty enjoyed the ceremonies and banquet that followed. The alumni realized they were desperately needed and turned out in good order to make that important day of fraternity men as good as ever.

Delta Nu Chapter at Lawrence

Tau pledges at Penn State.

Speeches were made with lumps in the throat, songs cleared the air, and after it was all said and done Mu Chapter regained twice the enthusiasm it had put into effect at the beginning.

Now the chapter is in another semester. The Shelter once again has been taken over by the university, but the boys were willing to continue and now occupy rooms on the midway of campus life, Winter Street. In the few months that Mu has been active she has done many things. Mu published the only fraternity paper on the campus. This was for the sake of her men far from home. Mu was the only fraternity chapter on the campus to uphold her scholastic standards. The boys felt it was their duty, also, to organize their alumni better, especially those in Delaware. The chapter claims campus leaders in Bill Eells who has been secretary-treasurer of the Student Body, and Jack Moss who now heads the Y.M.C.A. Brother Kavlin of Bolivia now heads the O.W.U. International Committee.

Bob Grove still stands by as chapter adviser, as does Ed West who handles the housing problems. Bill Eells remains as president with Marc Kavlin as treasurer.

By WILLIAM H. EELLS.

★

PAUL G. HOFFMAN, *Chicago, '12*, has been elected a member of the board of directors of the New York Life Insurance Co. Mr. Hoffman is president of the Studebaker Corp. and chairman of the Committee for Economic Development.

eral Delt sons who refused membership in other fraternities, started from scratch, so to speak, without a single active and today has a well-organized chapter functioning in the chapter house. Special credit is due to WALTER B. NISSLEY, *Penn State, '10*, chapter adviser and chairman of the committee, who gives constant guidance to the group and keeps other members of the committee in touch, and C. M. "SALLY" MARTSOLF, *Penn State, '09*, who put his shoulder to the wheel and spent a week of his vacation indoctrinating the pledges with the fundamentals of Delta Tau Delta's principles and operation.

★

Beta Xi—Tulane

During the past five or six months, Beta Xi has not been using the chapter house. This was occasioned by the fact that all of our house men were either graduated or withdrawn from school last March and April. Since the chapter was composed mainly of Navy V-12 trainees who were unable to leave the campus except on week ends, we thought it inadvisable to continue using the house, and, therefore, vacated it, with a view to renting it for the duration to a family. The necessary work could not be done immediately, however, and the house remained vacant until about six weeks ago, at which time it was entirely done over, including painting, wallpapering, refinishing the floors, etc. It was then, in consultation with the alumni chapter, which had kindly financed all the work, that a system was worked out where-

Added to the growing list of outstanding performances by alumni is that of the alumni committee of Tau Chapter at Pennsylvania State College. This steadfast group, inspired by sev-

by we could use the chapter house on week ends and it could remain locked up during the week.

The fact that we are able to use this beautifully redone house adds greatly to our prestige on the campus and the chapter has already shown improvements, both in morale and numbers.

In the past, our activities have been confined mainly to meetings and rush parties; however, in the future, we expect to be able to have open house after football games and such social activities. Plans are being laid for a winter formal and teams are being organized for the forthcoming Pan-Hellenic sports.

By F. PRESTON MOTTRAM.

★

Beta Tau—Nebraska

The chapter of Beta Tau is still active on the campus at the University of Nebraska despite the fact that we have given up our Shelter for the present and are now doubling up with ATO's. This system is working out very well as an emergency measure and the name of Delta Tau Delta and its fine traditions are still present in full spirit.

Beta Tau has always been well represented on the Nebraska football squad and this year is no exception. Lyle Kops is playing first string tackle and is doing a great job.

The alumni of Beta Tau have been especially active since the outbreak of the war. At the present time, they are making plans for postwar operation of a new Shelter and other activities forthcoming for Beta Tau. Once a month, the active and alumni chapters hold a joint meeting at which time business matters are discussed, among other points of interest to the future welfare of Beta Tau.

By GORDON EHLERS.

★

EUGENE L. VOSS, *Iowa, '20*, assistant vice-president of the Continental Bank & Trust Co. of New York, has been elected vice-president in charge of the bank's business in the Chicago and Midwestern territory.

Gamma Lambda at Purdue

Gamma Lambda—Purdue

Even with a near-record pledge class of 24, Gamma Lambda's rush chairman, Harry Sanders, is already planning for an extensive November rush. Since return of actives who missed the summer session will nearly balance any losses at the end of this term, we are looking forward to one of the largest wartime enrollments.

Trade dinners and dances with various sororities, record dances, and serenades emphasizing popular as well as fraternity songs were all part of a successful social season that was climaxed by "Club 400," our fall formal.

Ed Mejer was recently elected president of Green Potters, freshman organization, to join Jim Jennings, Student Senate president, as head of a student governing body; Hahn, Holloway, Knight, and Sanders are also on Senate. Mike Orey is on the football squad, and Dean Trump is expected to play varsity basketball this winter. Behind Dale Cue's excellent pitching, we again captured the interfraternity softball crown.

Bob Gwinn, a recent graduate and a member of engineering honoraries Pi Tau Sigma and Tau Beta Pi, received an award for the highest grades in aeronautical engineering. Ray Billett is a pledge to both honoraries; Bill Haynes, Marine transfer from Kansas, also is a pledge to Tau Beta Pi.

September 11, in a midsemester initiation, Gamma Lambda admitted four new brothers, Ed Mejer, Dick Hoover, George Matheson, and Jack Feldhaus. Another initiation is planned for near the end of this term. By FRANK HOLLOWAY.

Ship Named for Allegheny Delt

A new United States Navy ship bearing the name "Derickson" honors the late Com. Richard B. Derickson, Allegheny, '94, a distinguished officer of the United States Coast and Geodetic Survey and member of a family outstanding in the history of Meadville, Pa.

A news release by Admiral Leo Otis Colbert, director of the service, related that the newly commissioned ship had been constructed by the Navy and transferred to the coast and geodetic survey and that it had been named for the late commander. The "Derickson" is now engaged in survey operations in waters adjacent to the Aleutian Islands.

Com. Derickson became connected with the survey service in 1894 as a recorder. He became a field officer in 1896, subsequently passing through all commissioned grades until he was commissioned to the rank of commander in 1917. He served on the Alaska coast, both United States coasts, and in the Philippines, where in 1926 he was made director of coast surveys for the Philippine area, in which capacity he remained until his retirement in 1929. After that time he made his home in Seattle, Wash., until his death several years ago.

COL. JOHN P. BAUM, Georgia Tech, '24, in charge of the clothing section in the Office of the Quartermaster General.

LT. (j.g.) ROBERT F. TYLER

No western slope district court judge ever made Lt. (j.g.) Robert F. "Toby" Tyler, Colorado, '37, more nervous than did Admiral Ernest J. King, Gen. Dwight D. Eisenhower, Lt. Gen. Omar Bradley, and others of the high command when they boarded the subchaser 1321, skippered by Lt. Tyler, a few days after D-day to make an inspection of beachheads on the French coast. Before the war, Lt. Tyler was assistant district attorney of Delta County, Colorado.

The little 110-foot wooden subchasers were originally used to combat the submarine menace and to patrol the coasts of the United States. They were sent to France for the same reason, but since Jerry either didn't have any submarines or couldn't afford to risk the few he had by sending them in the English Channel after D-day, a new job had to be found for the craft. The 1321 was a general utility craft for Rear Admiral Kirk's flagship on and after D-Day. It went through the Normandy assault without a scratch, although ships were blown up all around and it was attacked by air and by 88's ashore.

★

CLARENCE "DAD" PUMPHREY, Buchtel, '74, that grand old gentleman of the Fraternity, known to many throughout Deltdom because of his constant Karnea attendance, enjoys his Fraternity contacts, although he has been in Bethesda Hospital, Cincinnati, Ohio, for nearly a year now.

▼ FRATERNALLY YOURS ▼

I am writing you concerning our son, Major William A. Miller (Alabama, '34), who was reported missing in action over Steyr, Austria, February 23, 1944. We received copy of the August *RAINBOW* (and thank you for it). You have his name on the Honor Roll as killed in action. Although his superior officer, Col. Mills, wrote us to have no hope as he feels sure he was killed, a letter from the War Department September 30 still lists him as missing in action. We are hoping he will come back. He hasn't been home since a year ago last June and he left for overseas the last of November, so he hasn't received any mail from Delta Tau Delta since that time. . . . Am enclosing a copy of clipping from the *Cleveland Plain Dealer* about his receiving the Silver Star. Respectfully, MR. AND MRS. W. C. MILLER.

★

Enclosed please find a check for five dollars. That is the balance that has been due on my Loyalty Fund since 1940. I was in the Upsilon Chapter at Rensselaer. I am rather ashamed of the time that has lapsed since I have owed this payment. Yet, I can't help remark about my surprise at the statement you sent with the note on the back about men in the service need not heed.

It seems to me that it is quite significant of our Fraternity because one would expect to see instead a lot of crying due to wartime burdens. Yet, there it is, a note that servicemen who are now receiving "room and board" plus a salary from their government need not pay. I feel that now is the time we in the service should help tide our Fraternity over the hump to peace. . . .

I am now stationed at Grosse Ile as a flight instructor and find the base a very enjoyable one. My wife and I have been very fortunate in being together throughout all the traveling I have done in the U. S.

Best wishes to the Fraternity and more power to Upsilon while this sorry condition exists. LT. (J.G.) WALTER L. WATSON, *U.S.N.R., Rensselaer, '40.*

★

Enclosed is \$10.00 to serve as part payment on my Loyalty Fund note balance. The other half I hope to pay when I return to Stanford University after the war to complete my last year of college. But I did want to pay half of it now so that its small contribution might at this time help keep Delta Tau Delta growing stronger and stronger. As a Delt with two older brothers, my father, and two uncles in the chapter—one of my brothers and my father being chapter presidents—I'm very proud of the Fraternity.

Since my entry into the Army, I've met brother Dels over all the country and they've all been fine fellows. Both my

brothers—one a Lieutenant Commander in the South Pacific and the other a Lieutenant, senior grade, in the Naval Air Corps—have had similar experiences. So here is half of my payment and I hope I'll be back in a few years to pay the other half. Sincerely, LT. FERRIS F. BOOTHE, *Stanford, '44.*

★

. . . I was much interested to read the Fraternity's report on its contributions to the war effort. It made me feel justly proud to be a member of an organization which has aided our country so substantially in its time of need. The Fraternity's war record will raise its banners to new and greater heights, so that on that happy day when the transition is made back to educational rather than military contributions the fame of ΔΤΔ will be greater than ever before.

It has been my good fortune to come into contact with several brother Dels out here in the Pacific, in the past few months. Their associations have done much to remove the emptiness and loneliness that inevitably occur in surroundings such as these. I can assure you that many enjoyable hours were spent reminiscing over those happy times back in our respective Shelters. One fact was brought out to me in these conversations—how all of us look forward to receiving each new issue of *THE RAINBOW*. We all agreed that *THE RAINBOW* keeps us currently informed on the Fraternity's progress and it also often aids us in keeping track of the

paths of brothers we knew back in school.

In closing may I pledge my aid in helping the Fraternity speedily to return to normal operations, when that not-too-distant time arrives. Fraternally yours, ENSIGN NORMAN O. SMITH, *U.S.N.R., Wisconsin, '43.*

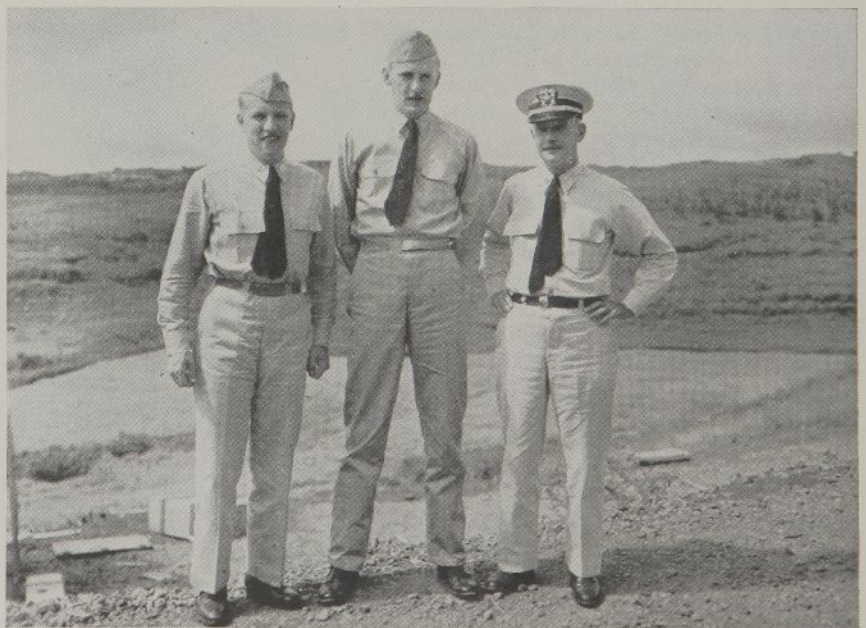

★

Chester L. Gray, DePauw, '46, is in the armed forces overseas. I'm sure he would want to continue his payments, so I am enclosing a check for \$10.00 to reduce the balance of his account. He is in Australia in the Headquarters Detachment of the Signal Section. MRS. RUBY L. GRAY, his mother.

★

Am enclosing photo taken a short time ago in South Pacific. Through a mutual friend the writer met the two other Dels, and coincidentally, learned that they were sons of good civilian pals of mine. We all three made our first appearance in Bedford, Ind. It was a happy meeting and it was decided we'd put up a good appearance for a photo with the enclosed result—nicely pressed uniforms plus ties—and it felt good, too. Needless to say we did plenty of elbow bending at a near-by Naval Officers Club. Fortunately, we were able to be together for three days.

Reading from left to right: Lt. Don R. Wallis, Washington & Lee, '34, U.S.S. Monterey; Lt. (j.g.) Hank French, Indiana, '36, U.S.S. Monterey; and Lt. J. M. Avery, U.S.N.R., Indiana, '12, 117th NC Battalion, all c/o Fleet P. O., San Francisco.

LT. DON R. WALLIS, LT. (J.G.) HANK FRENCH, and LT. J. M. AVERY, all *U.S.N.R.*

Traversing miles on land and sea, the May, 1944, RAINBOW served as a tie for Delts who have not seen each other since they were officers in World War I, in France. From New Guinea, Sgt. Fred Beerman, Northwestern, '16, wrote to Russell H. Pray, Michigan, '16, that one of his sergeants, Paul Morgan, Michigan, '45, had showed him a copy of THE RAINBOW. "You can imagine my surprise," he said, "when I saw your picture with three other Delts." The other Delts who were photographed with Mr. Pray at a reunion last spring in Long Beach, California, are Morley Griswold, '15, Lt. Col. John Bertolero, '17, and Ray Gould, '15, all Michigan alumni.

We've all seen active service and action plenty. Look forward to THE RAINBOW. It's a swell issue. We three would be glad to hear from old chapter mates. Fraternally, J. M. AVERY.

★

... I would appreciate your entering a note, in the section of THE RAINBOW on affairs of Delta Eta men, to the effect that I am now in the employ of the Creole Petroleum Corporation doing Civil Engineering work in South America. Are there other Delts in this section of the world? Sincerely, EDWARD H. HARRIS, Alabama, '35.

Brother Harris' address is in care of the Creole Petroleum Corp., Apartado 172, Maracaibo, Venezuela, South America.

★

Here is a clipping from the *Kenyon Alumni Bulletin*, just received, telling of the death of "Brick" Southworth. Not only was he a member of Chi Chapter, as were all of his brothers, but his wife (the late Alice Williams Southworth) had four brothers in Chi—Benjamin H. Williams, '93, Herbert F., '96, Dayton, '99, Harold, '05, and two cousins of varying degrees, Karl and Daniel Frederick. "Brick's" son and the son of one of his brothers (at least) were members of Chi, as well as Herb Williams' son. So it was very much a Kenyon and Delt family. I knew all of my own generation, as well as the parents of both Brick and Alice—as fine people as one could wish to know. I believe Dan Williams also had a son in Chi, and both Dan and Karl had older brothers who graduated from Kenyon but were nonfraternity men.

I hear that young Richard Taggart has been pledged to Chi. His uncle, Frank T. Jones, '35, is a graduate of Kenyon and a member of Chi, now in the army. His maternal grandfather, the Rev. Frank R. Jones, was a seminary classmate of mine, but was not a fraternity man. Yours fraternally, REV. WILLIAM A. GRIER, Kenyon, '97.

★

... Life goes on about the same on this island (Guadalcanal). I was quite happy to meet Don Small, a brother at Mu while we were in school, a couple of weeks ago. Don had just arrived on the

island recently and is a member of a Navy band. We ran into each other the night of the Jack Benny USO show at which Don was playing. Both of us are very much interested to find out if you know of any other Delts who might be stationed here. Fraternally, JOHN O. PETERS, WO (J.G.), Ohio Wesleyan, '41.

★

... I am very pleased and proud to be able to furnish you with the following information concerning my son, Frank W. Edmands, Jr., Dartmouth, '45, who is a member of your Fraternity.

Last week he was selected by the Commanding Officer of the 2162nd Army Air Force Basic Unit, Hawthorne School of Aeronautics, Orangeburg, S. C., as the outstanding aviation cadet of his class. This honor gave him the Beverly E. Howard award of a \$50 War Bond.

The letter of commendation read as follows in part: "You have been selected from among your classmates as the outstanding aviation cadet of Class 45-A. It is with sincere pleasure that I commend you for your attitude and ability. You have demonstrated while at this station outstanding ability not only as a pilot but as a soldier, a scholar and an athlete as well. In the opinion of the supervisory personnel under whom you have worked you have demonstrated that you possess those characteristics essential to the commissioned officer."

He has completed his primary training at that field, and has since been transferred to Shaw Field, Sumter, S. C., to take his basic training. ... Yours very truly, FRANK W. EDMANDS.

★

There seems to be no better way of telling my Fraternity brothers of my status than through THE RAINBOW, so please put me in the service list so they can see I finally made it. For three years, I was working for the Navy, trying all the while to get released from civilian status and was only recently successful. ... Fraternally, ENSIGN RICHARD W. TOWNSEND, Oklahoma, '39.

★

... I am now beginning my tenth month of foreign service as a Weather Observer, and it appears that I shall spend many more. Life in South America isn't quite as glamorous as popularly believed, though as life in the Army goes, I guess it is pretty good. We live a pretty good existence, but the monotony gets you after a while. Fraternally, CORP. PHILANDER NORTON, Wesleyan, '43.

★

I lost track of things for a few years, but returned to the States several months ago after being in the South Pacific for about two and one-half years. I joined the service early in 1941 and was appointed to the regular Navy in the fall of 1942.

I am enclosing the balance of my Loyalty Fund and will be very happy to receive the issues of THE RAINBOW once again. Fraternally, LT. D. C. CHRISTENSEN, Washington, '38.

PFC. CHARLES W. MONCRIEF, JR.

Your letter accompanying acknowledgment of my son's Loyalty Fund payment which arrived yesterday was read and I only wish the things stated therein could have been possible for him in the future as a member.

I have the sad duty of advising you that in the Roll of Honor of Delts having made the supreme sacrifice his name will have to be included. The very day I sent, or rather made out, check for the Loyalty Fund at his request, September 26, we received that terrible telegram from the War Department that he had been killed in action in France (Southern) on August 20. ... Sincerely yours, CHARLES W. MONCRIEF.

Mr. Moncrief is the father of Pfc. Moncrief, Jr., who was a member of the Dartmouth Chapter, in the class of 1946.

★

I have been overseas since November, 1942, here in the Pacific, and mail here has been erratic at times. I'm sure that you are doing a swell job under the circumstances and think that your note about servicemen not having to pay was very thoughtful, but since I've only been able to spend twenty-five cents in the past two months, I'll enclose the amount due. ... Semper Fidelis, CAPT. RICHARD F. WARREN, U.S.M.C., Rensselaer, '41.

★

Enclosed herewith hand you check in the sum of \$9.00 covering Annual Alumni Dues for the years 1944, 1945, and 1946.

Owing to the difficulty in getting money out of this country (New Zealand), am forwarding dues for two years in advance. Fraternally, WALTER J. RADFORD, California, '08.

★

Capt. L. B. (Brad) Laughlin, Michigan, '41, was given a leave in July after spending two and one-half years in Australia and New Guinea with the Army Air Forces. Very truly yours, L. LAUGHLIN.

Distinguished Service Chapter Roster

- W. F. Packer Allis, Nu (Lafayette), '95, Easton, Pennsylvania
- *Elisha Hoffman Anderson, Mu (Ohio Wesleyan), '85

(Continued on Page 43)

▼ THE DELT ALUMNI CHAPTERS ▼

Athens

Twenty-one alumni of Delta Tau Delta and their wives were guests of the House Association at a banquet October 7 at Hotel Berry.

Attending from out of town were John Finnicum, Cleveland; Mr. and Mrs. Dunkle King, Wellston; Mr. and Mrs. William Beckwith, Parkersburg; Al Gardner, Amesville; F. Darrell Moore, Troy, N. Y.; Capt. Robert Perkins, U. S. Marine Corps; and Kenneth Morgan, Delaware.

Local alumni and guests included Mr. and Mrs. M. D. Hughes, Dr. and Mrs. H. R. Wilson, Mr. and Mrs. Loring Connell, Prof. and Mrs. Frank B. Gullum, Mr. and Mrs. H. C. Bobo, Mr. and Mrs. W. H. Herbert, Mrs. Lee Roach, Mr. and Mrs. D. M. Goddard, Mr. and Mrs. David H. Hughes, H. D. Palmer, Robert Essex.

Leslie Clark, William Wassink, and Frank Jeric, of the local chapter, were guests of the alumni.

A program of group singing was followed by the annual meeting of the House Association.

DAVID H. HUGHES

Chicago

The 19th annual Durbar will be held at the Illinois Athletic Club on Friday night, November 10. This rousingly informal Delt get-together was originated by Pete Hummelgard and for many years has been wet-nursed by Carl Wolf. It was formerly sponsored by the Beta Pi group and held on the eve of the Northwestern Homecoming football game, but it has gradually grown to be part of the activities of all Delt alumni in Chicagoland. We always have a big crowd for the dinner and the talkfest afterward. All are invited.

Following the mailing of the Chicago alumni chapter newsletter in August, it was sad to receive news that Robert A. Johnson, Omega, '44, who was serving with Merrill's Marauders in Burma, was killed in action April 10. Our own Prof. A. F. Gilman, Gamma Zeta, '97, sent us a copy of his booklet, "Origin of the Republican Party," which he wrote while a professor at Ripon College in Wisconsin, and his book tells of the events there that led to the Grand Old Party's formation.

The weekly luncheons at the Fair Store are directed by Charles F. Axelson (attendance), Frank B. Calkins (reception), and Port Arthur (social). We must guarantee at least 20 in attendance, so come often.

Listen some Monday, Wednesday, or Friday morning at 7:30 to Brother Chuck Acree on WLS, "Something to Talk About."

MERRILL M. DWINELL

Cleveland

The Cleveland Alumni Chapter activities continue to center around its weekly

luncheon meeting, with additional Fraternity interest maintained through the monthly *Bulletin* which is now in its tenth year of continuous publication. Under the direction of President Frank Pelton and a committee composed of Harold Hopkins, Leslie Morgan, and Wilson Ruddy, the Cleveland alumni have been co-operating with Zeta Chapter in its rushing program.

Two social functions appear on our calendar. The first will be one in which the ladies will join with us in an informal dinner and then to a football game. The other event will be the annual Christmas party at Zeta Chapter. In these hectic times we have found it difficult to promote the usual number of social affairs and have therefore restricted our activities along this line to our traditional functions.

Although, like most other alumni chapters, we have adopted the policy of not accepting dues from any of our members serving in the armed forces, our very efficient treasurer, Henry Eccles, has increased the dues-paying members above the number enrolled during recent years.

The members of the Cleveland Alumni Chapter continue to enjoy THE RAINBOW and are fully appreciative of the fine job of editing being done by Hugh Shields. We also commend the splendid alumni chapter newsletters we have recently received, the best of which in our opinion is produced by Don Van Buren for the Columbus Alumni Chapter.

As always it is the hope of the Cleveland Alumni Chapter that all Delts in this area will join with us in our activities. If you are located in or near Cleveland we will be glad to place your name on our mailing list to receive the *Bulletin* and all notices of chapter functions, if you will send your name and address to the secretary.

RANDALL M. RUHLMAN

Columbus

At the first regular luncheon meeting in September, officers for the new year were elected by the Columbus Alumni Chapter, as follows: Howard S. Sterner, Purdue, '17, president; John C. Winter, Ohio State, '37, vice-president; Don C. Van Buren, Western Reserve, '11, secretary; W. Edgar West, Ohio Wesleyan, '23, assistant secretary; Walter F. Heer, Jr., Dartmouth, '37, treasurer; and William C. Heer, Carnegie Tech, '43, assistant treasurer.

The annual fall roundup of the chapter and guests from central Ohio was held at the Darby Dan Farm of John W. Galbreath (Ohio) September 29. Ralph S. Fallon (Ohio State) was chairman of the committee on attendance; Rusk H. Whipps (Ohio State), entertainment; and Harold R. Frankenberg (Ohio State), athletic events.

Kenyon S. Campbell, chapter adviser of Beta Phi Chapter at Ohio State, was chair-

man, and Beta Phi Chapter was in charge of the party, which was attended by alumni from central Ohio and undergraduates from Ohio, Kenyon, Ohio Wesleyan, Miami, Cincinnati, and Western Reserve.

The annual Christmas party (sometimes called the president's party) will be held December 27. The annual Founders Day banquet and dance will be celebrated March 3, 1945.

DON C. VAN BUREN

Denver

Lt. (s.g.) Robert Knous, Colorado, '40, recently spent a short leave in Denver with his wife and twin daughters. He has been instructing Naval fliers on the West Coast and is now stationed in Corpus Christi. Bob reported that Jack Curtan, Colorado, '40, is now a sergeant in the Army and is stationed near San Francisco. Bob also reported that Loren Myers is now in England and is doing research work for one of the large aircraft companies.

Another recent visitor in Denver was S/Sgt. Tyler W. Miller. Ty recently returned from Italy where he had been in action for many months with General Mark Clark's Fifth Army on the Anzio beachhead and points northward. He is now stationed at Hot Springs, Arkansas.

An event of interest to many Beta Kappa Delts was the recent newspaper article concerning Lt. (j.g.) Robert Fred "Toby" Tyler. Toby commanded the PT boat which recently carried Prime Minister Churchill, General Eisenhower and others from England to the Normandy beachhead.

Several members of the Denver Alumni Chapter were able to attend a recent Beta Kappa initiation and they report that they were extremely well pleased with both the personnel and the attitude of the twenty members and four pledges comprising the active chapter of Boulder. Perry Bartlett has done an excellent job of holding the active chapter together and we all owe him a great deal.

Alumni chapter luncheons are still held the second Wednesday of every month at Daniels & Fisher's tearoom and the dinner meetings are held the last Wednesday of every month at the Olin Hotel. All visiting Delts are cordially invited to attend.

FRED G. HOLMES

Indianapolis

On September 29 the Indianapolis Alumni Chapter of Delta Tau Delta held its annual meeting and dinner at the Columbia Club at 6:30 p. m. The following officers for the coming year were elected at that time: Joseph R. Morgan, president emeritus; Fred T. Hill, president; Claude M. Warren, first vice-president; Larry Gordon, second vice-president; R. E. Hueber, secretary; and Theodore M. Pruyn, treasurer.

The Indianapolis Alumni Chapter has a full program outlined for the coming year. Their main purpose will be to promote further the reinstallation of active chapters in the state of Indiana, plus increasing the interest in the Delta Tau Delta Fraternity. Our good vice-president, Claude M. Warren, is out to double the membership in the Indianapolis Alumni Chapter for the coming year. I might add that the past year the alumni club enjoyed their highest number of members.

Our newly-elected president, Fred T. Hill, promises us at least ten night meetings for the coming year. During the month of November there will be a party at the Butler chapter house honoring some five or six Deltas around Indianapolis who have been members of the Fraternity more than fifty years. R. E. HUEBER

Jacksonville

Bill Ostner, now a major with the U. S. Army at Fort DuPont, Del., was home on a fifteen-day leave in September. He is on the General Staff with the 22nd Corps.

Before being transferred to Fort DuPont, Bill attended the Command School at Ft. Leavenworth, Kan.—quite an honor, since officers from the British, Australian, and Russian Armies were also assigned to the same school.

Charlie Ostner has decided to make the Regular Army his career. At present, he is a captain, instructing in the OCS Gunnery Classes at Ft. Sill, Okla. He reports he frequently sees Phil Fairchild, of Ft. Lauderdale, and other Deltas.

All local Deltas were saddened to learn of the death of Bill Mitchell, Miami, who was killed in action in Italy on June 18.

Bill Roman, Miami, who graduated from University of Florida in 1939, is with the FBI in Oklahoma City.

Bob Carlisle has become quite a traveler in South America. He first went to Ecuador, then to other neighboring countries, and is at present stationed with the U. S. Army in the Canal Zone.

JOHN B. TURNER, Jr.

Kansas City

Weekly luncheons during the summer have suffered in attendance. Several "regulars" would like to see more of the following "occasionalists": Frank Ball, Louis Buschmann, Harry McCray, Charlie Miller, John Moore, Cal Morrow, Howard Patterson, Roland Record, Hanna Smith, and Ken Tapp. Why not make it a practice to save Thursday noon for ΔΤΔ?

Martin B. Dickinson, Gamma Tau, '26, Supervisor of Scholarship, has just returned from a meeting of the Arch Chapter looking much wiser but in need of rest. Upon being accused of traveling in a special car furnished by the "New Deal," Martin registered a sharp denial.

Newspapers throughout the State of Missouri carried the story this week about the election of our loyal brother, Charles L. Carr, Beta Rho, '13, to the presidency of the Missouri Bar. Charlie is the first president of this state-wide organization and the honor merits wide recognition. We herein extend our sincere congratulations. Incidentally, Charlie reports at

regular intervals about son Tom, Gamma Tau, '40, who as Lieutenant (j.g.) has sailed the South Pacific for the past two years.

At Gamma Tau, University of Kansas, Dean Frank T. Stockton, Alpha, '07, is doing a "bang-up" job as chapter adviser. With the able assistance of resident alumni, John Blocker, Gamma Tau, '28, and Bill Moore, Gamma Tau, '12, he keeps Gamma Tau operating upon a basis that approaches prewar levels.

J. (Bill) Gilges, Gamma Kappa, '24, recently acquired another silver bar and we extend congratulations. Captain Bill is now in the process of being transferred from Florida to Dallas, Tex. Here's hoping his next move is about 500 miles to the north.

We hear that Lt. Hal Quinn, Gamma Kappa, '40, is with the 8th Air Force in England, serving as Bombardier-Navigator on a Flying Fortress. Our best wishes for successful flights and a safe return.

KENNETH S. BATES

Los Angeles

Los Angeles alumni have been particularly fortunate in having such an outstanding Delt as D. W. Ferguson, Chicago, '09, as executive secretary. He is printing a newsletter, which we judge has a distribution of approximately 1,000 copies.

Our luncheons have been extremely successful in that we have so many outstanding Deltas in Southern California, consisting of 800 alumni representing every active chapter.

Southern California Deltas have done well in the armed services and are bringing credit to Delta Tau Delta daily. Here-with are just a few that have come to our notice: Edward S. Shattuck, Calif., Colonel, U. S. Army; Paul B. Roen, Nebraska, Commander, U. S. Navy; Sidney N. Nyhus, U.C.L.A., Lieut. Col., U. S. Army; Ward R. Nyhus, U.C.L.A., Lieut. Col., U. S. Army; Geo. W. Rochester, Chicago, Lieut. Col., U. S. Army; Thos. J. Cunningham, U.C.L.A., Lieut. Col., U. S. Army; Markley C. Cameron, Allegheny, Lieut. Com., U. S. Navy; Frank A. Richardson, U.C.L.A., Lieut. Com., U. S. Navy; Lewis J. Whitney, U.C.L.A., Major, U. S. Army; Geo. S. Badger, U.C.L.A., Major, U. S. Army; Rex Ragan, U.S.C., Major, U. S. Army.

On October 3, we had our Past Presidents' Luncheon, at which time, Past President Superior Court Judge Ruben Schmidt and Ernest W. Oliver, California, '04, spoke. Seventeen of the thirty past presidents were present.

JOHN KREHBIEL

Milwaukee

The Milwaukee Alumni Chapter plans to continue its weekly informal luncheon gatherings at the City Club each Tuesday noon during the ensuing year. There are some regulars who constitute the nucleus of the group. Occasionally a large group will be present. Many of our former regulars are in the service so we are marking time awaiting their return before holding any formal meetings, elections, and formulating policy.

When discussion turns to Fraternity af-

fairs, it is usually concerned with the role the alumni chapter will play in the reactivation of Beta Gamma, the Milwaukee area postwar rushing program, and ways and means of stimulating greater interest in the alumni chapter functions, particularly among the older members whose support is needed.

CARL G. GEZELSCHAP

New York

Along came September and with it came its third Wednesday, the twentieth, when the Greater New York Chapter held sway in the Sheraton's Victory Room.

The luncheon and the meeting which followed were presided over by Prexy Bill Hyatt, who has assured us that he will see that the chapter whips through its routine business in true parliamentary fashion after each luncheon. We will then be able to sit back, light up our cigars, and further enjoy ourselves while one of our members gives us his observations on some interesting experiences in connection with his particular work or, for that matter, on any subject of interest.

The program for the coming months is one of the best yet for Allan Greene will tell us about Guantanamo Bay; Ed Vail is to tell us all there is to know about wood and wood construction; and George Mayoral is to give us the lowdown on television.

Our next get-together will be advanced to 12:15 sharp and this is to be the time from now on. The food is good, the speakers are excellent, the location is convenient, and the company is absolutely of the best.

JOHN T. ROBINSON

Pittsburgh

The Delt Doings of the Pittsburgh Alumni Chapter has met with a fine response. Several copies found their way overseas. In one case, the recipient was reading the bulletin when his commanding officer saw it and made known that he, too, was a Delt.

George P. Kountz, Jr., W. & J., was forced down over Germany last April 12 and has only recently been reported recovering from wounds in a prison camp in the Reich.

Capt. Herman Riester, after three years in Panama, has returned to this country and is now stationed at Camp Reynolds, just outside of Greenville, Pa. His brother, Lt. Al Riester, U.S.N.R., is stationed in Norfolk. Lt. Bob Jones has completed 51 missions over Europe in a Marauder.

The Pitt chapter is proudly announcing the biggest service flag in the Fraternity, with well over 200 stars already.

While visiting in Pittsburgh recently, Col. O. H. Schrader, Washington, '08, and Pitt chapter adviser 1931-37, reported he is considering returning permanently to Pittsburgh in the near future. He now lives in Chicago.

A special invitation is issued to the men home from the wars to attend the regular Tuesday luncheon, H-Y-P Club, in a private room on the third floor, where you can get service from noon until 1:30 and come when you like and leave whenever you're ready.

CHARLES R. WILSON

(Continued on Page 43)

▼ LOYALTY FUND LIFE MEMBERS ▼

Since the establishment January 1, 1926, of Delta Tau Delta's Loyalty Fund, its endowment fund, 4,573 men have become Loyalty Fund Life Members. Two hundred five have been added to this group from July 1 to October 6, 1944.

Following are the names of men initiated prior to January 1, 1926, who have become Loyalty Fund Life Members upon contribution of \$50.00:

Paul Winans Hiller, Stevens, '17
William Benedict Francis Drew, Stevens, '19
Donald Edwin Willard, Illinois Tech, '05
Robert Briggs Hartless, Illinois Tech, '21
John Rexford Mudge, Iowa State, '19
Jacob Arthur Wolf, Kansas, '24

Notes, signed at the time of initiation, have been paid in full by the following, who are now Loyalty Fund Life Members:

ALPHA—ALLEGHENY

William Howard Lavelly, '43
Andrew Theodore Sampson, '43

BETA—OHIO

Richard Fred Goos, '31
James DeForest Murch, Jr., '42
James Harrison Lee Roach, '37
George Paul Volenik, Jr., '43

GAMMA—W. & J.

David Benbow Crawford, '42
Thomas Scott Reed, '34
Alexander Conn Sherrard, II, '45
Edward William Starkey, '43

DELTA—MICHIGAN

Dan Morgan Belden, '39
John Kempf Edmonson, '42
Gilman Ernest Gambs, '43
Edward Wallace Reid, '41
Franklin Albert Torrence, Jr., '45

EPSILON—ALBION

Marvin Joseph Vann, '39

ZETA—WESTERN RESERVE

Fred James Meyer, '43
Paul Tennyson Williams, '47

KAPPA—HILLSDALE

Charles Roscoe Cummins, '42
David Francis Hayes, '46

Alumni Chapters

(Continued from Page 39)

St. Louis

Congratulations are in order for Will Beck, Lawrence, upon his recent marriage to Ann Ivey Walsh of Dallas, Texas, where Will has been stationed on detached duty.

In line for congratulations also are Norman Scott, Lawrence, and his wife, on the recent addition of a daughter to their family.

Al Schattgen, Missouri, who used to be a regular at our Monday luncheons, dropped by the other day and said he missed seeing the group but his war work at Sunnen Products kept him extremely busy. Al said he had heard from Karl Hoffman, Missouri, and that Karl was now a Captain and stationed at Charlotte, North Carolina. Capt. Hoffman and his wife are the proud parents of a daughter born earlier this year.

Letter from Lt. Don S. Holt, North Carolina, says that he is still on the West Coast and enjoying it after eighteen months in the Pacific.

Glad also, to have a letter from Capt. Paul Johnson, Missouri, stationed at Camp McCoy, Wisconsin.

Hear indirectly that Lt. Fritz Ellet, Missouri, is now stationed at the War Department in Washington.

August 19, Bill Gentry, Missouri, entertained the few remaining members of the chapter, Earl Page, Bruce Stake, and Bud Rollins, all of Missouri, and Forrest Boecker, Cornell, and George Buchanan, North Carolina, at his farm. A tasty meal of grilled hamburgers and all the trimmings was enjoyed by all. Greatly missed were the men in the services who had added many a high note to prewar gatherings of this group.

G. H. BUCHANAN, JR.
