A QUARTERLY MAGAZINE devoted to Fraternity and college interests. The official organ of Delta Tau Delta Fraternity. Subscription rate, \$3.00 per year.

ALL CHAPTER REPORTS, alumni notes, alumni

chapter reports, news stories, photographs, manuscripts, subscriptions and death notices for publication should be sent to the Central Office of Delta Tau Delta Fraternity, 3242 North Meridian St., Indianapolis, Ind. 46208.

JACK A. McCLENNY, *Editor*, 3242 N. Meridian St., Indianapolis, Indiana 46208.

Second-class postage paid at Fulton, Missouri. Published at 1201-05 Bluff Street, Fulton, Mo. 65251, and issued four times during the year.

ARNOLD BERG

A MOST PRODUCTIVE meeting of the Arch Chapter was held in Washington, D. C., on Saturday and Sunday, November 13 and 14, 1965.

This meeting of the ten members of the Arch Chapter, dedicated Deltas from all walks of life and all parts of the country, is always a stimulating experience. The creative and constructive work of the Arch Chapter is a source of genuine soul-satisfaction to each of the participants. The accomplishments of the November meeting were of particular significance because of the actions taken to promote the continued growth of, and dedication to, Delta Tau Delta.

A large volume of business was transacted at the Arch Chapter meeting and at the meeting of the Board of Directors of the Fraternity. I will high-light some of the many items of business transacted. Two of the most important, in my opinion, are awards for excellence, both to undergraduate chapters and to alumni.

Ten chapters of the Fraternity were selected for the Hugh Shields Award for Chapter Excellence. This award is to be an annual designation of Delta Tau Delta's "Top Ten" chapters, and is covered in more detail elsewhere in this issue of *THE RAINBOW*. You can be sure that the flag symbolizing this award will be flown with great pride by each of the chapter recipients. I congratulate, most heartily, the first recipients.

The test of a great fraternity is the

product it produces—its alumni. Their accomplishments in their chosen fields of endeavor are criteria of how well the undergraduate chapters selected their pledges, how much the chapters contributed to the intellectual, physical, and spiritual growth of their members, how far these alumni travelled in worthy human endeavors, the contribution that each has made to make ours a better world in which to live, and how well we serve our fellow man. This is the measure of a great fraternity.

The roster of outstanding Deltas who have distinguished themselves in their respective fields of endeavor is an inspiring one. It is the desire of the Arch Chapter to take cognizance of and give recognition to many of our distinguished members, so that all may know that the Fraternity encourages and takes pride in their accomplishments. At each meeting of the Karnea, several outstanding Deltas, who have distinguished themselves in their particular business or profession, will be selected for this award and honor.

It is believed that this award of distinction will play a most important part in the continued growth of Delta Tau Delta. It will focus the attention of every Delt on the fact that the great purpose and satisfaction of life is in accomplishment and making our world a better place in which to live.

The Arch Chapter approved 17 colleges and universities as fields for expansion, with 30 additional campuses being studied for future action. Of our seven colonies, five were recommended for chartering within the current school year, providing certain minimum requirements are completed.

It was the consensus of the Arch Chapter that in the continuing growth

of the fraternity system there is a need for additional chapters of existing fraternities, and that there is a need for an increasing number of new national fraternities to keep pace with the expanding population and increasing student enrollments. Delta Tau Delta will lend its support to the National Interfraternity Conference in encouraging this program.

During the course of the meeting, loan applications exceeding \$500,000 for construction of new chapter houses and the remodeling of existing houses were reviewed. The total cost of such projects totals over \$1,100,000.

Considerable time was devoted, during the course of the meeting, to report the condition of the various undergraduate chapters of the Fraternity, and appropriate action was taken to provide guidance and assistance in all necessary areas.

A very important step was taken in the establishment of a permanent Scholarship Advisory Committee, consisting of undergraduate and alumni members to assist the Supervisor of Scholarship in giving direction and leadership in this important area.

To participate in a dynamic growth pattern for Delta Tau Delta, the Board of Directors authorized the employment of Mr. Frank H. Price, Jr., as Director of Program Development, effective January 1, 1966. Frank is a most capable and dedicated Delt who is just now completing his doctoral examinations in psychology from Purdue University. Frank will be assisting Al Sheriff in the progress of the Fraternity in the exciting years ahead.

The November meeting of the Arch Chapter was indeed most stimulating and soul-satisfying.

ARCH CHAPTER MEETING

1965 All-Delt Football Team

By EDWIN H. HUGHES, III, *DePauw*, '43

THE 1965 COLLEGIATE football season was a banner one for Delt gridiron participants. At least 194 undergraduates, including pledges, evidenced the contributions of the Fraternity to the 1965 football wars. (It is necessary to use the "at least" because once again there were several chapters failing to report.) Added to those who played, a number of Delts made contributions to their school's successes by serving as student managers or trainers.

The list of players is more complete this year than it has been many times in the past, thanks to Jay Langhammer, *Texas Christian*, '66. Jay compiled a list of Delt footballers, broken down to positions and listing special honors through participation in bowl games and signing with professional teams. Brother Langhammer, who will begin service with the Air Force in April, has agreed to write an article on Delts performing in professional football. It is planned that this article will appear in next summer's *RAINBOW*, before the start of the 1966 professional season.

With the return of full scale platoon football to the college game, THE *RAINBOW* has followed the form of the press services and magazines and has picked two all-star teams, one for offense and one for defense. In making a final selection, all sorts of ways of presenting it have been suggested. Thought was given to making two different selections—one representing the major college teams and another comprised of the outstanding stars playing for the small colleges. Another interesting possibility was to name an all-star team for each of the four Divisions of the Fraternity. Out of habit and indecision, it was finally determined to stick with the traditional All-Delt team.

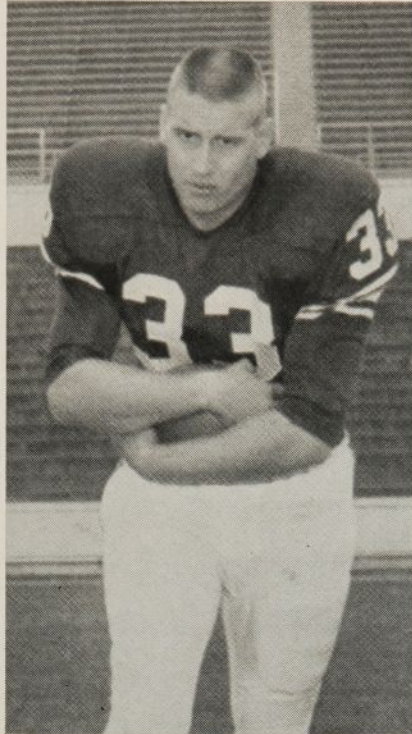

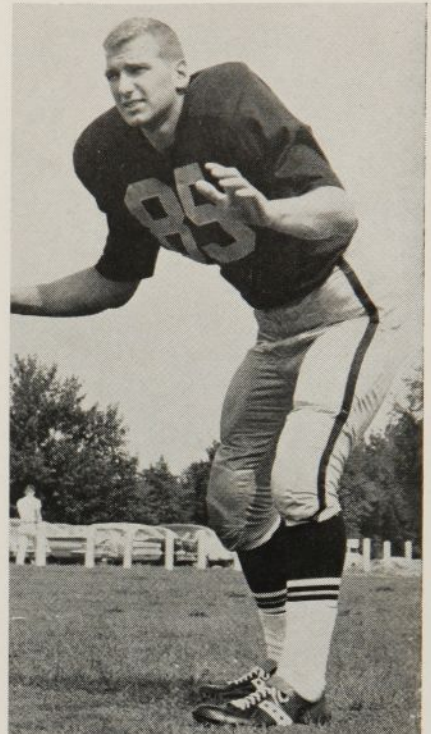

Dick Agness was elected captain of the 1966 team at Lawrence. Kent Nix

of TCU tied a conference record by throwing four touchdown passes against Rice. Playing in the Sun Bowl, Kent completed 15 of 27 passes. For the season, he had 65 pass completions for a total of 792 yards. Colorado's Larry Fischer, halfback, and Dave Zaharias, center, were all-con-

ference selections. Chuck Gardinier of Brown was an Ivy League all-star and co-captain of his team. His teammate, Otto Kolibash, kicked a 48-yard field goal against Dartmouth. The University of Oklahoma failed to achieve the lofty ratings of the years under Coach Bud Wilkinson, but the

Delts BOB CORBY and DENNY CIRBES gain yardage for Purdue

JERRY OBERDORF, *Northwestern*HAL YEICH, *Lehigh*TERRY MULLIGAN, *Iowa*

future looks brighter with the presence of sophomore quarterback Gene Cagle. Gene was awarded the Wilkinson Award for the most valuable player in the varsity-alumni game and was chosen for the Big Eight Conference academic team. Jay Urban of Santa Barbara was cited to the all-conference team. Outstanding on Florida's team, Alan Poe was named to the All-Southeastern Conference team and was selected to play in the North-

South game. Greg Palamountain, California's defensive halfback, was outstanding all season long and was given special recognition for his play in the game against Air Force Academy. Joe Miller was captain of the W. & L. team and an all-state selection. Jack Newton won the college coaches award for outstanding academic and football achievement at Hillsdale. Ed Anderson, Delaware guard, was a first place choice on the Middle Atlantic

Conference team. Maine climaxed an excellent season with its appearance in the Tangerine Bowl game, and Delts Vern Walker and Keith Kalman played important roles in the team's success. Vern made the All-Yankee Conference team, the all-academic team, and honorable mention All-New England. Keith was chosen on Vermont's all-opponent team and was an honorable mention on the Yankee Conference

THE ALL-DELT TEAM

Offense

End	Bob Hadrick, Purdue
Tackle	Jerry Oberdorf, Northwestern
Guard	Tom Schuette, Indiana
Center	Larry Kaminski, Purdue
Guard	Charlie Weaver, Lehigh
Tackle	Joe Avezzano, Florida State
End	John Palmer, Ohio State
Quarterback	Kent Nix, Texas Christian
Halfback	Alan Poe, Florida
Halfback	Larry Fischer, Colorado
Fullback	Hal Yeich, Lehigh

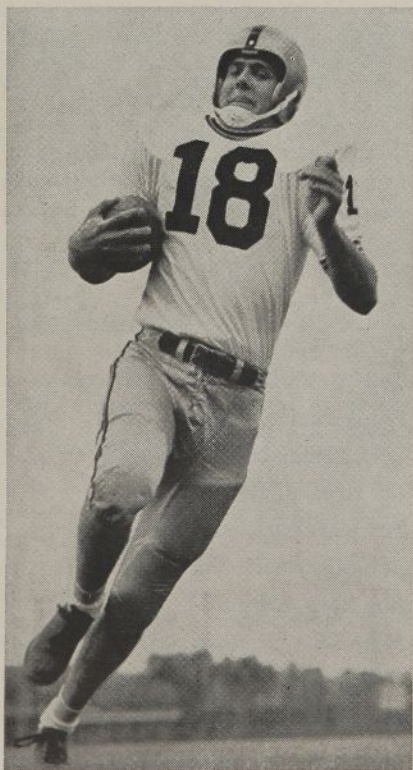

Defense

End	Tom McFarland, Western Reserve
Tackle	Frank Pennie, Florida State
Guard	Porter Williams, Texas Christian
Tackle	Jay Urban, Santa Barbara
End	Terry Mulligan, Iowa
Linebacker	Bob Mastrovita, Tufts
Linebacker	Bob Rath, Stanford
Linebacker	Mike Shea, Northwestern
Halfback	Greg Palamountain, California
Halfback	Craig Ritchey, Stanford
Safety	Pat Conway, Florida State

TOM SCHUETTE, *Indiana*

team, though but a sophomore at Maine.

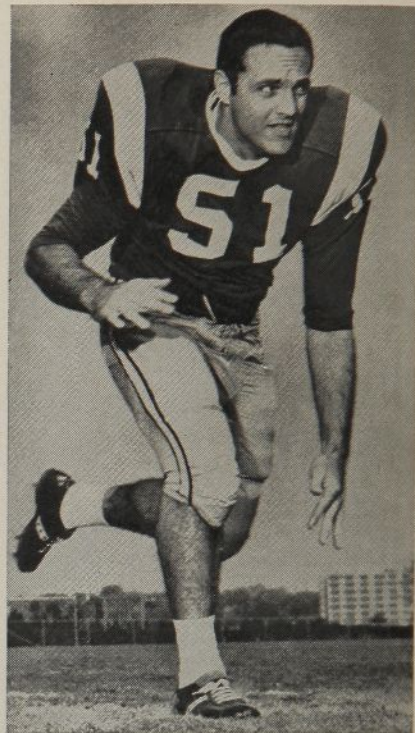

Purdue's great offensive end, Bob Hadrick, was chosen for several All-American teams even though he missed several games due to injuries. Bob now holds the Purdue record for most pass receptions in three seasons and most yards gained in three sea-

BOB HADRICK, *Purdue*

sons. He has signed to play pro ball with the Denver *Broncos*. Bob's teammate, Larry Kaminski, was All-Big Ten center, played in the Blue-Gray game, and also signed with Denver. Mike Philpot was an all-conference defensive end for Baker. As usual, there were enough Deltas on the Stanford squad to make a full team—13 actives and 14 pledges. Craig Ritchey was an outstanding defensive halfback and was chosen to play in both the East-West and Hula Bowl

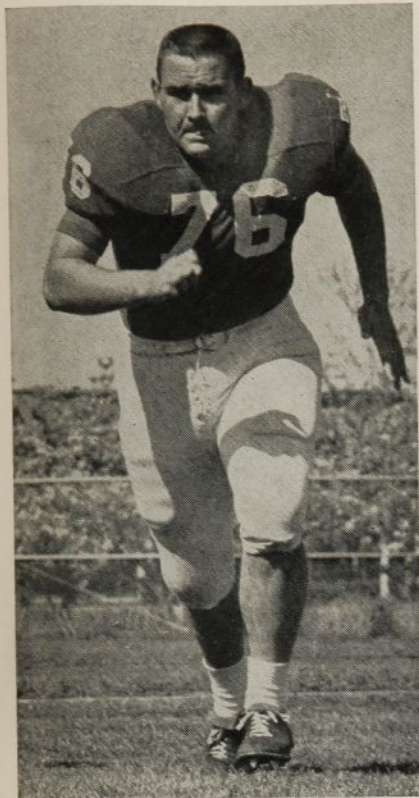

KENT NIX, *Texas Christian*

games. Drawing special praise at Western Reserve was defensive end Tom McFarland. In addition to being co-captain of the team, Tom received the trophy for the outstanding senior on the team, was rated by his coach as the best defensive end in the entire state of Ohio, and has been contacted by the New York *Giants*, the Dallas *Cowboys*, and the San Diego *Chargers*. The familiar name of Hal Yeich again appears as the All-Delt fullback. He was captain of Lehigh's team this year, was chosen outstanding player of the Lehigh-Lafayette game, was

JOE AVEZZANO, *Florida State*

All-Middle Atlantic Conference fullback, and was selected on the first team of the E.C.A.C. college division All-East team. Lehigh's Bob Adelaar received an NCAA scholarship for post-graduate study, for his academic and athletic achievements. His teammate,

ALAN POE, *Florida*

MIKE SHEA, Northwestern

Dick Smith, was second team All-MAC center. Beta Mu's vice-president, Bob Mastrovita, was co-captain of the Tufts team and received the Class of 1882 scholar-athlete award. Steve Beattie, sophomore fullback, broke the Tufts all-time rushing rec-

ord for one game when he gained 265 yards against Susquehanna. Northwestern's Jerry Oberdorf was chosen for the All-Big Ten academic team. Quite an impressive record of individual performances by Delt gridiron performers for 1965!

Following are all the initiated Deltas known to have played college football in the 1965-66 season, arranged by positions played:

Ends: Bob Adelaar, *Lehigh*; Dick Agness, *Lawrence*; Tersh Baker, *W. & L.*; Jim Beirne, *Purdue*; Bill Brisbane, *Brown*; Craig Campbell, *Lawrence*; Dick Disbrow, *Lawrence*; Joe Flax, *Santa Barbara*; Chuck Gardiner, *Brown*; Bob Hadrick, *Purdue*; Jim Hutton, *Baker*; Bruce Keith, *George Washington*; Tom McFar-

BOB MASTROVITA, Tufts

land, *Western Reserve*; Dave McLaughlin, *Michigan*; Joe Merkle, *Pennsylvania*; Scott Miller, *W. & L.*; Terry Mulligan, *Iowa*; Bill Ostrander, *Stanford*; John Palmer, *Ohio State*; Jim Perry, *Kansas State*; Mike Philpot, *Baker*; John Rajala, *Minnesota*; John Roccio, *Tufts*; Bill Rogers, *Western Reserve*; Jim Stasik, *W. & J.*; John Weatherby, *Brown*; and John White, *Maine*.

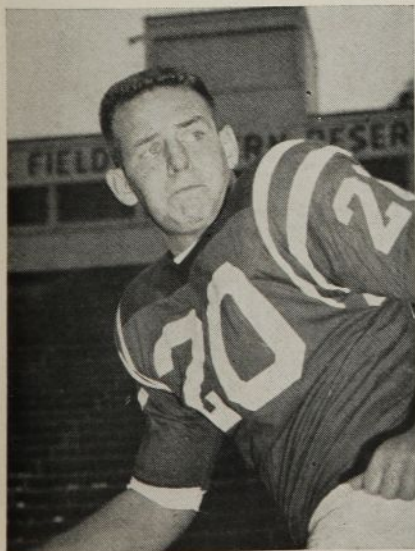

Tackles: Mike Aoki, *Willamette*; Joe Avezzano, *Florida State*; Bill Benowicz, *Lawrence*; Jim Bonk, *Purdue*; Jerry Brady, *Pennsylvania*; Mike Bray, *Santa Barbara*; George Cook, *Hillsdale*; Brian Evans, *Idaho*; Ferg Flanagan, *Stanford*; Gerry Gates, *Pennsylvania*; Dick Grimwade, *Lawrence*; Fred Heidinger, *Kansas*;

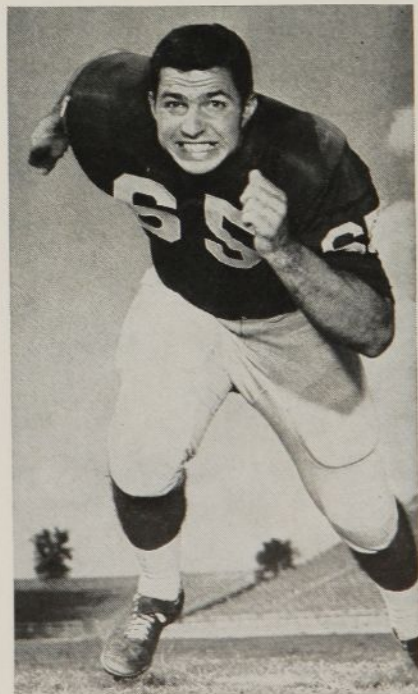

BOB RATH, Stanford

Bruce Kehrli, *Stanford*; Bill Mittlefehldt, *Lawrence*; Charles Myers, *W. & L.*; Jerry Oberdorf, *Northwestern*; Frank Pennie, *Florida State*; Jay Urban, *Santa Barbara*; Vern Walker, *Maine*; and Roy Worthington, *Colorado*.

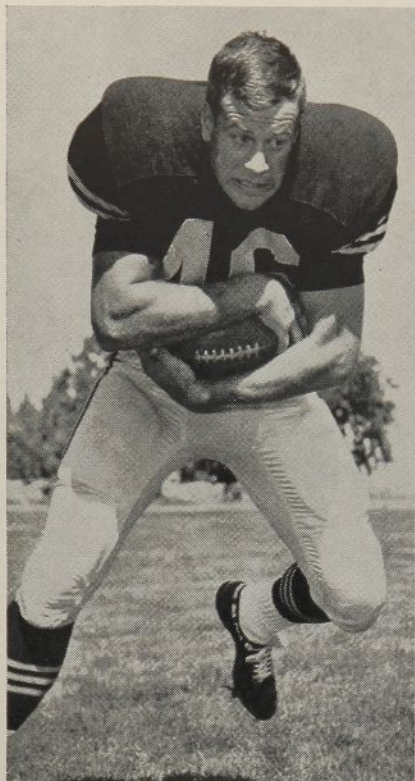

Guards: Rod Allison, *Willamette*; Ed Anderson, *Delaware*; Tom Anderson, *Colorado*; Dennis Arch, *Stanford*; Jerry

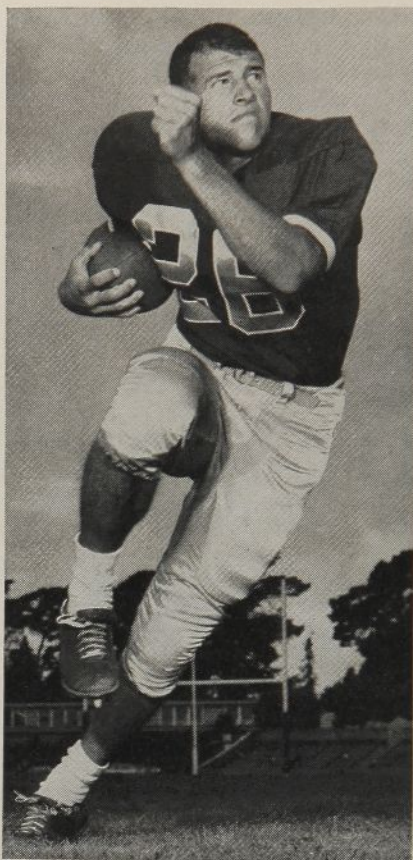

TOM MCFARLAND, Western Reserve

PORTER WILLIAMS, Texas Christian

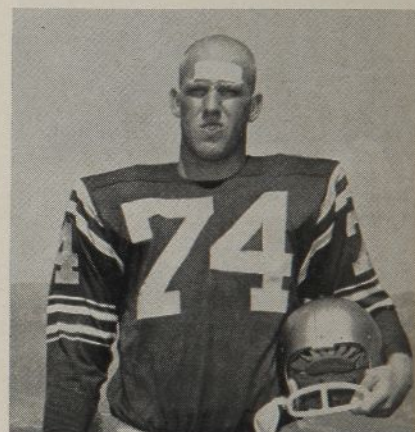

LARRY FISCHER, *Colorado*

Above, GREG PALAMOUNTAIN, *California*;
right, JAY URBAN, *Santa Barbara*

FRANK PENNIE, *Florida State*

CHARLIE WEAVER, *Lehigh*

CRAIG RITCHEY, *Stanford*

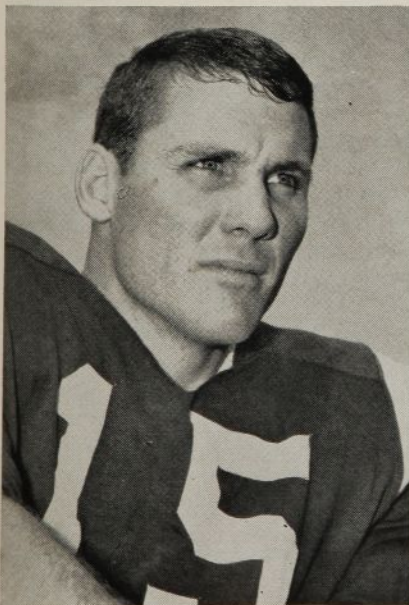

LARRY KAMINSKI, *Purdue*

JOHN PALMER, Ohio State

Bevan, Minnesota; Bud Brooks, Willamette; Ron Collins, Santa Barbara; Mike Hall, Wabash; Pete Herwick, Pennsylvania; Skip Jacobsen, W. & L.; Bill Jordan, Pennsylvania; Alex Keddle, George Washington; Gary Quintiere, Lafayette; Roger Reese, Baker; Tom Schuette, Indiana; Howie Smith, Hillsdale; Wicky Stuart, W. & L.; Bob Taylor, Pittsburgh; Charles Weaver, Lehigh; Don White, Maine; and Porter Williams, Texas Christian.

PAT CONWAY, Florida State

Centers: Tom Cerul, George Washington; John Garner, Baker; Frank Hoder, Wesleyan; Keith Kalman, Maine; Larry Kaminski, Purdue; Arnold Krogh, Stanford; Wayne Looney, Willamette; Jim Mills, Stanford; Frank Pokorny, Western Reserve; Mike Riselli, Tufts; Mike Shea, Northwestern; Dick Smith, Lehigh; and Dave Zaharias, Colorado.

Linebackers: Jamie Andrew, W. & L.; Doug Giffin, Lawrence; Mike Hutter, Brown; Floyd Koch, Lehigh; Bob Mastrovita, Tufts; Charlie McDonald, Maine; Joe Miller, W. & L.; Glenn Myers, Stanford; Bob Paszek, George Washington; Bob Rath, Stanford; Paul Robinson, Wabash; and Larry Smith, Santa Barbara.

Quarterbacks: Gene Cagle, Oklahoma; Steve Fiji, Lawrence; Tony Gero, Florida State; Kent Nix, Texas Christian; Jim Oram, W. & L.; Carl Schneider, Purdue; Rich Stevenson, Wesleyan; Jim Troppmann, Stanford; and Gary Wodder, Northwestern.

Halfbacks: Billy Andrews, W. & L.; Bill Bevan, Minnesota; Bob Blunt, Stanford; Jeff Brodine, Butler; Harry Brookby, W. & L.; Dick Callaway, Wabash; Denny Cirbes, Purdue; Pat Conway, Florida State; Bob Corby, Purdue; Russ Diller, Indiana; John Erickson, Willamette; Larry Fischer, Colorado; Pete Galaher, Texas; Larry Hultgren, South Dakota; Gerard Lynch, Brown; Jack Newton, Hillsdale; Bob Oar, Stanford; John O'Boyle, Lawrence; Wayne O'Dell, Baker; Bob Orthey, DePauw; Greg Palamounian, California; Hank Perry, Baker; Joe Petko, Florida State; Alan Poe, Florida; Craig Ritchey, Stanford; John Shelt, Idaho; Jerrold Takahashi, Santa Barbara; Greg Trachik, Wesleyan; and Paul Woody, Pennsylvania.

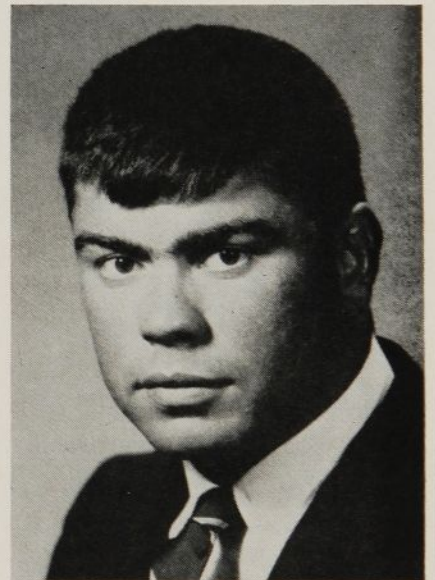

Fullbacks: John Anthony, W. & L.; Steve Beattie, Tufts; Tom Elliott, Stanford; Jim Large, W. & L.; Jim Mewha, Purdue; Mike Raclewicz, Pittsburgh; Jim Smith, Indiana; Carmen Sporio, Pittsburgh; Dutch Wright, Maine; and Hal Yeich, Lehigh.

Specialists: Steve Habkirk, Hillsdale, punter; Otto Kolibash, Brown, field goals; and Wilfred Meckel, Brown, kick returns.

Plans are being made for group tours to Hawaii and possibly other Pacific stops, following the Karnea. Why not plan to join brother Deltas and Delt ladies on a post-Karne flight to the exotic tropics?

Lehigh Delt Wins NCAA Scholarship

Robert S. Adelaar, Lehigh, '66, has been awarded one of 22 National Collegiate Athletic Association \$1000 scholarships for post-graduate study. The awards are made to scholar-athletes who distinguished themselves in college sports participation. While lettering three years in varsity football, Bob proved extremely versatile, seeing action at fullback, center, linebacker, and defensive end.

BOB ADELAAR

Enrolled in the difficult combined curriculum of liberal arts and industrial engineering, Bob is an honor student, carrying a 3.36 cumulative average out of a possible 4.0. He is active in Arcadia, Lehigh's student governing body, has served as secretary of Cyanide, the junior class honor society, and is a member of Phi Eta Sigma scholastic honorary.

BABCOCK BEGINS, 1893

By F. DARRELL MOORE, *Ohio, '16*

PROBABLY THE BIGGEST gain that Delta Tau Delta made with the election of Kendrick C. Babcock as President at the 1893 Karnea was the approach to continuity of policy and the development of several outstanding members of the Arch Chapter. The previous four years had seen four Presidents, none of whom had first been elected by a convention, although three of them were later elected to that office by convention delegates. Only Lowrie McClurg had brought to the office a record of long service to Delta Tau Delta.

Kendrick Babcock had been a delegate to conventions as an undergraduate member of Beta Eta, and had been elected as Editor of *THE RAINBOW* at the 1889 Karnea, following his graduation. He had been a most successful editor. Although the nominating committee in 1893 had not presented his name as either Editor or President, the delegates chose to elect him over the interim President, Charles Dickinson.

DUERR BEMOANS DICKINSON'S DEFEAT

On January 9, 1894, Duerr wrote: "I shall never cease regretting that Dickinson was not returned as President. He was worth a dozen Babcocks. . . . The only reason I remained was because . . . withdrawal would mean loss of power for us . . . we can regain much lost ground and maintain our influence in the Arch Chapter. This sounds very much like machine politics, but . . . I am merely trying to guard against the too powerful influence of other sections of the Fraternity."

When W. L. Mason was elected President of the Western Division, Duerr advised him, "As for your duties, find out what your chapters are doing, examine their standing carefully, prod them up where you see any wrong policies and ideas cropping out, correct them. . . . Whenever any-

thing of interest comes along let me know about it, and I will insert it in the *JOURNAL*."

MCCLURG ADVISES DUERR

"An organization such as ours," Lowrie McClurg wrote Duerr, "must be ruled by persuasion; its constituent members cannot be coerced successfully. If that is tried it will fly to pieces. That is Curtis's great mistake; he means to say 'You must.' Rannells tried the same plan and in consequence we were without representation at the Tech for nine months. The Fraternity is now in apparently better shape than it has been for five years, and in my opinion it is because these autocrats have been displaced."

During the college year 1894-95, both Babcock and Max Ehrmann were enrolled in the Harvard Graduate School. After one year as Editor, Eberth, who was also doing graduate work (at Johns Hopkins) resigned, and Max Ehrmann was prevailed upon to accept the editorship. Edwin Holt Hughes, who was elected Editor in 1895, held a pastorate at Malden, Massachusetts, and was also active before his election. The proximity of the four Arch Chapter members was found to be a great advantage, as they could hold frequent informal meetings, and correspondence was not subjected to delays. The four worked harmoniously together.

One characteristic of the general officers of the Fraternity that might be pointed out was that Babcock, Duerr, Hines, Ehrmann, and Eberth were all teachers—in college, preparatory schools, or in public systems—during much of their lives.

An improvement in division president selection was promulgated by this Arch Chapter when it passed a resolution that it would not recognize the election of a division president unless he had been elected at a division conference which had a majority of

the chapters represented. This was directed mainly at the Western Division, which had usually delegated selection to the next conference's host chapter.

CHURCHILL CRITICIZED FELLOW MEMBERS

Churchill voiced dissatisfaction with other members of the Arch Chapter in a letter to Babcock, January 8, 1894. Henry Eberth was singled out for especial criticism. It was time for the second number of *THE RAINBOW* and the first one had not been issued. "Duerr was late with the *JOURNAL*, but I don't blame him . . . it would have been better if it had not been issued until after the *Minutes* and *RAINBOW* No. 1 were out. Then there is Hines. Is he sick or dead? Still as a clam! . . . Even Summers has the fever."

Duerr frequently had to prod W. L. Mason, President of the Western Division, to get him to attend to Arch Chapter business. He finally wrote Mason in August, 1894: "I can conceive of no excuse which could justify the course of negligence which you have been pursuing during the past three months. . . . Kindly attend to outstanding correspondence at once. If your vote on Wabash is not recorded on or before August 17, it will be cast in the negative."

EXTENSION AND RETRACTION POLICIES

In the May, 1894, issue of the magazine of the Delta Upsilon Fraternity there appeared an interesting editorial on extension and retraction. "Extension seems to have been the ruling passion of all the western fraternities. However they are now . . . more careful in placing their chapters. . . . In their over-haste to grow, many inferior institutions were entered, and the result of such promiscuous expan-

sion was a large percentage of defunct chapters.

"Beta Theta Pi and Phi Delta Theta each lost about 20% of their chapters; Phi Gamma Delta 36%; Sigma Chi and Delta Tau Delta 40% . . ."

Alvan Duerr discussed expansion in a letter to Churchill dated June 23, 1894: "I agree with you that we are losing many opportunities by groping about without any definite policy. Though why that policy should manifest itself only in extension, I cannot see. . . . We must not let our bars down or everybody will flock in. . . . Does the acquisition of three chapters fail to satisfy you for a year? What do you think of making room for newcomers by removing some of the debris? Beta, Theta, Kappa, Xi, Phi, every one of them should go. Are you willing to build up Delta Tau Delta that way too?"

Lowrie McClurg added his powerful influence to the retraction policy. In October of 1894 he wrote Babcock: "I rejoice greatly at the loss of Xi (Simpson) and Omega (Iowa State). That leaves the Western Division in better shape than any of the others. All state universities save two, and they are of excellent quality. . . . It is only sixteen years since we had 25 chapters . . . and, save the University of Illinois, not having a state university on our list. When I get to thinking of '78 and '94 from a Delta Tau Delta standpoint, I am filled with admiration for what she has accomplished."

When Duerr was criticized for voting against the recommendations of phonarchs who reported favorably on petitioners, he pointed out that his attitudes were well known when he was elected to office. Although he was born in Ohio, attended the preparatory department at Kenyon, and had been a member of Chi Chapter for two years, the young Duerr persistently maintained what he called the "eastern viewpoint" on the chapter problem. During the 1893-95 period he voted against all expansion, except the re-establishment of Beta Nu, and he was not afraid to be a minority of one. It was observed of him that he took defeat as gracefully as he took victory. Lowrie McClurg was generous in his praise of Duerr's functioning as Secretary, as were other Arch Chapter members in their reports to the 1895 Karnea.

WABASH PETITIONS

Prof. H. M. Kingery, *Wooster*, '84, wrote various members of the Arch Chapter that a petition from Wabash College would be presented at the 1893 Karnea. "The petitioners are the ten active members of a local organization which for three years has existed here on terms of equality with Beta Theta Pi, Phi Kappa Psi, Phi Gamma Delta, and Sigma Chi. Its

KENDRIC C. BABCOCK

members have always won more than their proportion of college honors. . . . Wabash is a desirable field for a chapter . . . founded in 1832 . . . has fine grounds and buildings . . . excellently equipped scientific laboratories and museums, the largest college library in the state . . . faculty of twenty men headed by a young and active president . . . property and endowment of \$750,000. Wabash has been conservative . . . maintaining a high standard, and has a name for thoroughness and depth of culture. . . . I am prepared to endorse the petition heartily."

When the Arch Chapter considered the petition, it was rejected. Some confusion resulted, as Secretary Alvan Duerr was forced to correct an impression that it had been granted.

H. H. Herdman wrote December 7, 1893: "We intend to make another application for a charter. We have the hearty approval of the chapters in Indiana. . . ."

Ernest R. Keith, *DePauw*, '90, vouched for the standing of Wabash College. "I am glad to see that this matter has been narrowed to the single question of the position of Wabash College. The consensus among Indiana Delts is that Wabash is one of the best institutions in the state." Duerr answered him as follows: "The decision of the Arch Chapter last August was that should Delta Tau Delta care to enter Wabash College, she could not do so through a better lot of men. . . . The rank of Wabash College among the institutions of Indiana has not influenced the Arch Chapter much, because the policy of the Fraternity has changed in the last ten years, so that many chapters which now hold charters could not get them were they to petition now. . . . The Arch Chapter will give all information relating to the petition very careful and unprejudiced opinion."

The Northern Division Conference in 1894 recommended the granting of a charter to the petitioners.

On May 21, 1894, Duerr acknowledged receipt of a second petition. He was appointed Phonarch Especial to make the investigation of the petitioners, but found it impossible to go, and wrote to Miner Hines for suggestions as to a substitute. "Can you suggest a good conservative man? . . . I feel we cannot afford to grant a charter, and we should not send a commissioner who will send a glowing account in favour . . . it has no future and has had no past. . . ."

Hines suggested Lowrie McClurg, and Duerr wrote him June 7, 1894: "Could you visit the Wabash petitioners. . . . It is necessary to send a man . . . that will not be overwhelmed by the clamour of our Hoosier alumni."

McClurg accepted. "I confess to being prejudiced . . . but will try to be impartial. I believe now that Wabash is better than Hanover. . . . If we could cut off the latter by entering the former, I should favor the matter with all my heart."

With his usual aplomb, Duerr replied: "I am not personally at all in favour of the petition because of the petitioners. We are not their first choice. . . ."

McClurg had written Hines "I do not favor the matter unless we can get rid of Hanover." Three months

earlier, he had written Churchill that he hoped that there was no chance of a charter being given Wabash. In his report to the Arch Chapter, however, McClurg stated that he had been converted entirely from his opposition to Wabash. "There is no reason why the Fraternity should hesitate one instant so far as the petitioners are concerned; the only possible ground can be the College, and I believe that no one who visits it will ever vote against it."

"Having been on the ground and originally opposed to this movement, I have made a close investigation, and I do not hesitate to recommend the College as a fit and proper place for a chapter of Delta Tau Delta."

"So far as the boys are concerned, there is not one who would not be admitted to any Chapter in the Fraternity should he choose to enter it. . . . I was impressed by the general good appearance of the student body."

Duerr wrote June 28 that the report had changed a number of the members of the Arch Chapter and that it looked at present that the petition would be granted. "However we can do nothing until Babcock returns from Alaska."

The petition was approved by the Arch Chapter by an eight to one vote. At first the new chapter was to be designated as the Beta Sigma, but President Babcock decided to name it the Beta Psi, as the former chapter at Wabash had been known as the Psi.

RE-ESTABLISHMENT AT ILLINOIS

Earliest documentary reference to the proposed re-entrance into the University of Illinois is a letter from Duerr to C. H. Gordon dated October 27, 1893: "I shall be glad to offer any assistance which you may desire in reference to a possible petition from Champaign, Illinois, though the attitude of the Arch Chapter concerning it can not be insured."

Babcock consulted McClurg, who responded: "As to the University of Illinois I really know nothing as to its standing . . . or as to the class of men who attend it . . . those who composed our former chapter were excellent so far as I have met them. . . . I would favor granting a charter."

The formal petition, dated Decem-

ber 1, 1893, is quite an interesting document. "All fraternities were prohibited in the University during the year 1879, and up to December 1, 1891. . . . Every student upon entering the University was required to sign a promise not to be connected with any secret organization during his residence at the University. Before graduation he was required to sign a statement that he had not so been connected. . . ."

"Your petitioners have a membership of fourteen active members and have also pledged several strong men. . . . There has never been a time in the history of the University of Illinois when conditions were so favorable for the planting of good fraternities. . . ."

ROY O. WEST APPOINTED PHONARCH

Duerr notified Roy O. West, *De Pauw*, '90, of his appointment as the Arch Chapter's representative to make the investigation of the local fraternity. West accepted graciously, and went to Champaign December 11, reporting promptly under date of December 13. "I met the petitioners . . . and became quite well acquainted with all of them. . . . I talked with the registrar as to their scholarship. . . . Both the registrar and Professors Edwards and Van der Voort, the latter two being Delta Tau Deltas, recommended the petitioners very highly in every respect. I think Delta Tau Delta could not hope to institute a new chapter with better men. . . . Illinois was formerly an industrial school, having only about 300 students. It is now a university having about 600. The state has just given it \$300,000 and a new era seems to be coming. . . . While most schools in the west have a less attendance than last year, this one shows a gain . . . backed by the powerful state of Illinois which is just awakening to the importance of maintaining the institution. I believe this is an opportune time to enter. . . ."

Duerr took a negative attitude: "For goodness sake let's defeat the Illinois petition. If we are not careful, we will have a lot of the worst new chapters on hand imaginable."

On March 5, 1894, however, he notified the Arch Chapter that the petition had received the necessary seven-ninths vote.

Reflecting its previous attitude on expansion, Rho Chapter passed resolutions deploring the action of the Arch Chapter in granting the charter to the Illinois petitioners.

President Babcock attended the installation April 7, in Chicago, which was conducted by the Chicago Alumni Chapter. He reported that he met all the men and "They are the best looking lot of men we have ever started with, so far as my knowledge goes. The number rather displeased me, but . . . they explained . . . that six are seniors, and those added since the petition was sent in are freshmen. . . . Some ten of the Beta Pi men were down from Evanston, and that chapter shows an improvement too."

The first chapter at Illinois had been designated Upsilon; by an interesting coincidence, not planned, the new chapter was the Beta Upsilon.

NEBRASKA PETITIONS

W. S. Summers, *Iowa State*, and E. H. Thornbrue, *Simpson*, suggested as early as 1889 that the Fraternity include the University of Nebraska as a field for expansion. Summers was elected as Ritualist at the 1891 Karnea, and through his influence a petition was presented to the Arch Chapter.

A motion to grant the petition provided that before the initiation the chapter must have provided a suitable and proper chapter house. As the change in the *Constitution* putting all expansion and retraction into the control of the Arch Chapter did not become effective until the following January, it was ruled that the Nebraska petition must be presented to the chapters for their votes. On December 14, 1893, Alvan Duerr reported that the petition had been defeated by a negative vote from one of the Western Division chapters. "Good for it," he wrote Babcock, "I am glad to see our backwoods neighbors—with due respect to our Minnesota brethren—asserting themselves." The dissenting vote had come from Beta Pi (Northwestern).

Duerr notified Summers on January 29, 1894, that a constitutional point had arisen which might change the vote. "The chapter casting the negative vote seems to have reconsidered." He referred the matter to Babcock for a decision. "There seems to be an

insane desire to see another western chapter. If we must have one, I prefer that it be Nebraska."

An alumni chapter had been formed in Lincoln, Nebraska, under Summers's leadership; its roster showed a justice of the Nebraska Supreme Court, a member of Congress, five bank executives, the superintendent of schools, and other prominent names. Summers wrote that the alumni chapter had pledged its support to the building of a splendid chapter of Delta Tau Delta at the University of Nebraska.

On February 4, Duerr wrote Babcock that he had concluded that, regarding Beta Pi's vote on the Nebraska petition, "... the only just way ... is to record the vote as cast in the affirmative and consider the petition granted. It goes against the grain somewhat, but we must be fair." President Babcock ruled that the petition was granted.

Beta Tau Chapter was established at Nebraska April 7, 1894—the same date that Beta Upsilon came to Illinois. Beaumont Apple and W. L. Mason, of the Iowa chapter, initiated the men. Among the charter members were two future governors of Nebraska, Adam McMullen (1925-29) and Arthur J. Weaver (1929-31); and a future governor of Utah (1925-32) and Secretary of War (1933-36), George Henry Dern.

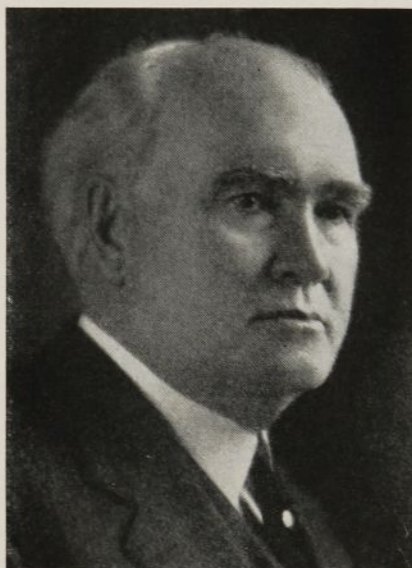

REVIVAL OF BETA NU

The Arch Chapter was quite anxious to revive the chapter at the Massachusetts Institute of Technology, which had died out in 1893. Edwin Holt Hughes was designated by the Arch Chapter to take the matter in hand. Using Alfred S. Hamilton, *Stevens*, as a nucleus, Hughes constantly advised with him in securing a new group entirely divorced from the former chapter.

On April 24, 1894, Hughes wrote: "Here is the Tech petition ... the number of available men is very large. Thompson and Hamilton have moved splendidly and have exercised splendid judgment. There is ... an evident congeniality among the men themselves ... all fine looking boys ... genteel without being fast, and moral without being cranky. Some of them have been rushed diligently by other

fraternities and we are remarkably fortunate in securing them." The petition received the unanimous approval of the Arch Chapter, and Beta Nu was re-established by Hughes on May 17, 1894.

On November 5, one of the members of Beta Nu, Albert W. Thompson, wrote Eastern Division President Malvern: "Far from finding trouble arising from our proximity to Tufts ... we find it much better for us. The best of good feeling exists between us and we are in constant co-operation and in perfect sympathy and harmony with one another."

WILLIAMSON S. SUMMERS

OHIO STATE UNIVERSITY GROUP PETITIONS

Five students at Ohio State University presented a petition for a charter November 1, 1893. In a covering letter, John R. Tanner stated: "In ... starting a Greek letter Fraternity at the Ohio State University, we have been influenced by a desire to be together in one organization, and having heard a great deal of the Delta Tau Delta as being one of the most prominent of recognized fraternities, we have unanimously decided that it is the one we wish to join. Two of the signers of the petition had an opportunity to join other fraternities, but refused in order to join in establishing our proposed chapter. Another

is a nephew of one of the founders of the Delta Tau Delta (Eugene Tarr). ..."

Miner T. Hines was appointed to investigate the petitioners, and he reported December 4 as follows: "After the first few questions concerning the petitioners and their courses, I immediately told Mr. Tanner that I would not recommend the granting of a charter. ... The petitioners, from an institution of over 700 students, number five. ... This I consider a poor nucleus for a chapter, and so informed them. I agreed to call upon them in January when a better showing might be made."

After his second investigation, Hines reported, "About six years ago, [we] visited Ohio State University at the request of the then President, Lowrie McClurg. We reported that the institution was a desirable one in every respect for Delta Tau Delta. My opinion remains unchanged. ... I have met the petitioners three times, have thoroughly investigated their antecedents, and am satisfied that they are worthy."

Henry Eberth announced that he had changed his opinion, and also endorsed the petition.

Duerr wrote Malvern March 5: "Owing to the fact that new light has been thrown on O.S.U. am going to ask you to vote on the petition. ... Hines is a little off in his report, for I know the institution and men myself and both are rotten. Everybody from far and near is writing not to grant the petition." On March 21, 1894, Duerr reported that the O.S.U. petition was defeated.

SECOND PETITION RECEIVED

Duerr reported July 21 that he had received another petition from Ohio State. One of the petitioners, Charles MacGuire, wrote Robert Churchill in September, 1894: "I returned to Columbus last Tuesday and to my great surprise I found Mr. Babcock here before me ... on his way east he stopped over with us two days. We expect now that Mr. Duerr will be here in a few days."

"With the presentation of a second petition from the institution," wrote Babcock, "it seemed best to have some member or members of the Arch Chapter who had voted against the first petition to make the investiga-

tion. The great question was not so much the University . . . as the personnel of the petitioners and the student body.

"At my first visit to the University I went about the campus unchaperoned. The men with whom I mingled gave a favorable impression. . . . We met several of the petitioners, and the next afternoon I had the good fortune to meet them all together. . . . Taken as a whole they were fairly congenial, with the right conception of what a fraternity is for, and some ideas of fraternity methods. . . . I recommend that the petition be granted."

To Robert Churchill he added, "I shall probably vote for the petition this time, but am hardly enthusiastic over the matter."

Northern Division President Robert L. Harris, *Kenyon*, '96, presented the formal report, as Phonarch. "I had a good opportunity to size up the university men as a whole. . . . As to the petitioners . . . I found them a congenial, gentlemanly lot. . . . As a chapter they hold a strong place in college politics and are well represented. Socially they are above average, and morally they stand well.

"Their firm grasp of the fraternity idea is probably due to the influence of Tarr who has been reared in a Delta Tau Delta atmosphere, he being closely related to Founder Eugene Tarr . . . he has labored for three years with the idea of founding in O.S.U. a chapter of Delta Tau Delta.

"While personally I have been opposed to placing a chapter in O.S.U., at the same time I am satisfied that in a very few years Ohio State University will stand high among the best institutions in the state, and is now a desirable place to enter."

Duerr was very doubtful about O.S.U., notwithstanding the recommendations of Babcock and Harris. His was the only negative vote, as the petition was approved.

Hines was appointed to arrange for the installation. With the aid of four undergraduates from Chi, Beta Phi was installed November 19, 1894.

In THE RAINBOW of January, 1895, the chapter reported: "Our reception was not quite so warm as it might have been, though we expected coolness on the part of certain fraternities. Phi Delta Theta, Alpha Tau Omega,

Sigma Alpha Epsilon, Beta Theta Pi, and Pi Beta Phi answered our greeting and bade us welcome. . . ."

ALPHA AND THE CHOCTAW DEGREE

In January of 1894, Alvan Duerr wrote Babcock: "Alpha has written me that they had a plan of initiating some worthy, prominent alumnus each year into the Alpha Choctaws. They have asked for the co-operation of the Arch Chapter in his selection." Later, Duerr elaborated: "In addition to our ritual, every Alpha man is initiated separately into what is known as the Alpha Choctaws. It is into this order or degree peculiar to Alpha that they propose to initiate some alumnus of one of our other chapters, who has distinguished himself in his work for the Fraternity."

DIFFICULTIES WITH ALPHA

A loyal Alpha alumnus, Lieutenant F. J. Koester, '85, had been assigned to the military department of Allegheny College, and at once immersed himself in a campaign to restore Alpha to its former eminence. "Three or four years ago," he wrote Duerr in February of 1894, "a very wild crowd obtained control of this chapter and very nearly wrecked it. They contracted debts which they never paid, bled the alumni on all occasions, and behaved generally in a very reckless manner . . . the chapter membership was allowed to fall until at the close of last year we had no one in college. This year I arrived from the west and took hold of affairs. We now have eight men in college, with several alumni in addition on the active list. The men are young, are doing good work, and have the confidence of the alumni."

Malvern wrote Babcock after attending the Eastern Division Conference in Meadville, in February of 1894: "Saturday night I saw a regular meeting of Alpha. . . . I was agreeably surprised. . . . All was decorum and their strict adherence to business was a surprise to me. . . . I tell you Alpha has a truly fraternal spirit."

THE PROBLEM OF ALPHA'S DEBTS

Lowrie McClurg also attended the Meadville Conference. In a letter dated March 11, 1895, he stated: "Alpha is thoroughly awakened as to the payment of her debt and in-

tends doing it, but . . . cannot . . . in the specified time. . . . It is by no means certain she owes as much as Hines says. . . . Hines has been exceedingly careless in some ways as Treasurer. . . ."

Lt. Koester reviewed Alpha's problems December 17, 1895, in a letter to Babcock: "I came here in 1893 and found a chapter without members, without furniture, no credit in town, and \$500 in debt. . . . The alumni got together and initiated a few men, all young and inexperienced, and not one above freshman. We had to fight for existence . . . supported almost entirely by the alumni. All the other fraternities combined against us. . . . In 1894 we began to pay the [old] local debts. The nature of these debts will show you the nature of the old crowd. We had debts for servants, hotel bills, cigars, printing, flowers, meat, rent, caterer, and other merchandise. . . . We were constantly hampered by some of the old members who helped contract the debts."

In a letter to Alvan Duerr, who was asked to pass it along to Treasurer Frederick Hodgdon, Koester repudiated the debt of Alpha Chapter to the Fraternity: "Up to 1883 Alpha worked industriously for the good of the whole Fraternity, and spent hundreds of dollars of her own money to push the cause. Delta Tau Delta would not be in existence today if it had not been for Alpha. We never received a cent for the money expended by us . . . if the General Fraternity would pay us the money we would have enough to pay our debt and build a chapter house. . . . We never called upon the Fraternity for aid of any kind. . . . Ten or twelve members of Alpha owe this entire debt. . . . The individuals should be discovered and dismissed. . . . The Arch Chapter should . . . go to the individuals. . . ."

McClurg took immediate issue with Koester. "I . . . protest against your loose talk. . . ." He denied that no attempt had been made to collect Alpha's debt; definite dates had been set for its settlement by the chapter. "Previous to 1883 Alpha did good work for the Fraternity; I doubt if any chapter could have done better," McClurg conceded, but he denied the assertion that the chapter spent hundreds of dollars of her own money

(Continued on page 45)

BRANCH RICKEY

By FRANCIS M. HUGHES, *Ohio Wesleyan, '31*

ON DECEMBER 10, 1965, a New York columnist wrote, "A man died in Columbia, Missouri, and there was sadness all over the country. He was greater than any of his deeds, and greater than all of them, and the sadness was for the man."

The reference was, of course, to Branch Rickey, *Ohio Wesleyan, '04*, who passed to the Chapter Eternal on December 9, just eleven days before his 84th birthday.

Dr. Ralph W. Sockman, the distinguished clergyman who conducted the funeral services at St. Louis, said that within his memory, the death of no private citizen had evoked a more profound and widespread feeling of sorrow throughout the country.

To one not gifted in the fine art of eulogy, the task of paying adequate tribute to one of the most vibrant personalities ever to walk upon the American scene, and to one of the proudest wearers of the Square Badge of the Fraternity, is most sobering.

The writer knew Branch Rickey from the very early years of my boyhood; he was an intimate friend of my father, and the Delt classmate of my uncle and father-in-law at Ohio Wesleyan; he introduced me to the girl who became my wife; my daughter-in-law is his oldest grandchild. To me, he was not "Mr. Rickey," as he was to most people; to me he was "Uncle Branch."

Many others, more knowledgeable, have written countless words on his contributions to baseball, the national sport and his chosen profession. So we will pass over the fact that his was the finest mind ever brought to that game; that modern baseball reflects many of his innovations, including the farm system; that he was unmatched in his ability to develop

BRANCH RICKEY

young players; that he built championship clubs; that he singlehandedly made the most enduring contribution to the game by breaking the ban that had barred qualified Negroes from the sport.

Thus, in paying this tribute to him, we do so, not as an expert in the field of professional baseball, but rather with an intimate knowledge of the splendid personal characteristics which the man possessed.

Branch Rickey said many years ago that among the principal qualities which he would hope to see in the young men who were to become his sons-in-laws were honesty, industry and infinite kindness. Branch Rickey himself possessed all of these same characteristics in great abundance.

He was a man of unqualified honesty and integrity. He traded a Dizzy Dean, sore arm and all, for a fabulous price, but only after a full revelation

of the player's condition. His integrity in fact was of such magnitude that on occasion, refusing to reveal facts which might cast serious reflections upon the integrity of others, he chose to suffer severe personal criticism and abuse. In the complicated patterns of the business of professional baseball, his word, once given, was as good as his bond. He refused to play baseball or attend a baseball game on Sunday, not by reason of any personal scruples, but only to honor a solemn promise made to his mother.

Branch Rickey was a man of remarkable industry. His life encompassed a variety of vocations and avocations; schoolteacher, coach, athletic director, soldier, lawyer, all in addition to his service to baseball. No call from his alma mater, Ohio Wesleyan, ever went unheeded: at his death he was expending his vital energy and remarkable talents as National Chairman of a multi-million dollar building and endowment campaign for his university. He was always deeply involved in some worthwhile cause, and the honors conferred upon him were legion. He never slowed down or wanted to slow down. He said that as far as his life was concerned, only his funeral cortege would move at a dignified pace!

He accepted every request made of him by his Fraternity. He attended many Karneas; he served on the Arch Chapter as Secretary of Alumni; he spoke often at fraternity functions on challenging themes. One of our favorite memories of Branch Rickey will be that of him sitting in the living room of a chapter house, surrounded by a host of undergraduates listening to this great raconteur in rapt attention. He was a superb storyteller, with an infectious sense of humour.

Scott Carpenter—Man-in-the-Sea

Known world wide as one of America's original astronauts as a result of his role in Project Mercury, Commander M. Scott Carpenter, Colorado, '47, has now "reversed his field," so to speak, and become a leader of the Navy's team of aquanauts. Cmdr. Carpenter headed a team of Navy men and a few civilian scientists comprising Operation Sealab II, an attempt to learn more about man's capability to live and work under the sea for extended periods.

In this project, men lived in Sealab II, a 50-foot long cylinder, for 15-day periods, except Carpenter, who remained 30 days. The project ran 45 days, with 10-man teams rotating between Sealab and the surface.

Following are remarks made by Cmdr. Carpenter to a group of journalists, edited slightly to eliminate some matters of specialized technical interest.

THERE IS A SMALL but expanding group which believes that it is imperative for the U. S. Navy to develop a broad capability for exploiting the ocean floor. There is a larger group which believes it is mandatory for this nation to explore the outer reaches of space.

I belong to both, and my experience with the two assault groups dedicated to these credos allows me to make some comparisons and draw some conclusions which are pertinent to the safe, expedient and successful conduct of our Man-in-the-Sea Program. The comparisons reveal, among other things, some similarities in the two endeavors, and there are more of these than the casual observer might realize.

For example, we face many of the same problems in:

1. The design and fabrication of the machines, and particularly the environmental control systems.

2. The selection and training of the crews.

3. The suit design, manufacture, and fitting.

4. The physiological and psychological studies conducted before, during, and after the experiments.

These are becoming more and more important as we approach prolonged mission times.

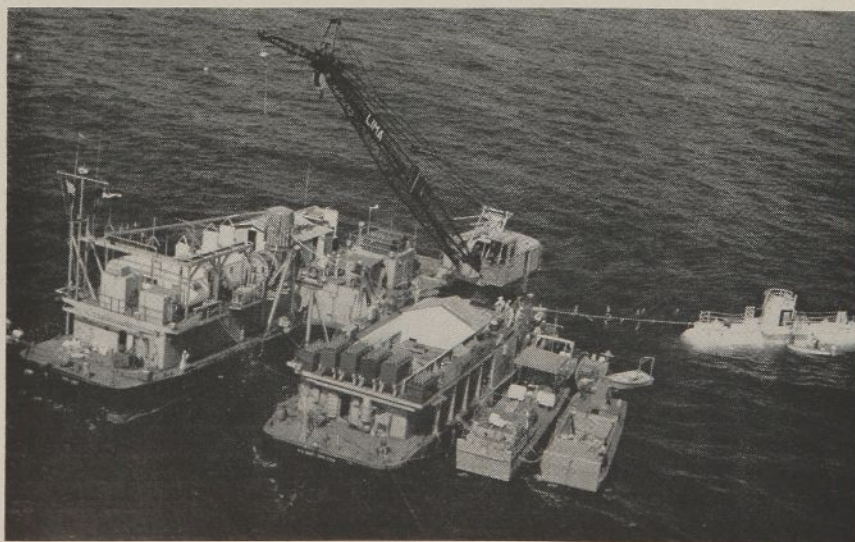

Both must design and test hardware and select, train, and test men specifically for use in a foreign environment. We share a common need to search for new materials and new techniques.

We both need a vast array of talent and equipment, not only to do the job but to carry on the research which is prerequisite.

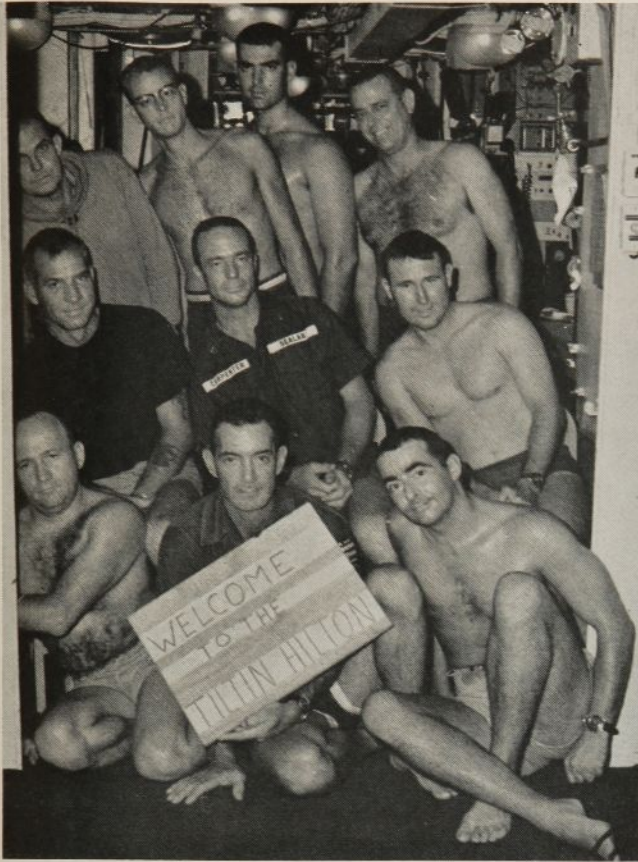

Both pit man against danger, confront him with unknowns, and both say "no" to the physical barriers that we face. Both will ultimately enrich our life on this planet.

After the first *Mercury* flights the recurring question was, "What was it really like?" And we answered a thousand times, "It was great, beautiful, exhilarating, a hell of a thrill." The truthful answer is that we got up in the morning and went to work. Now after the *Sealab* operation the question most frequently asked of me is, "Which is more exciting, more hazardous—better? Check one." A comparison is possible, a choice is not.

There is no need to pit man in space against man in the sea. One is a superbly sophisticated, glamorous effort, and its impact has set this country on its next hundred years' course. It ranks currently between God and motherhood. The other is a newly legitimized child represented by a nucleus of 50 dedicated men working

Sealab II, right, surfaced alongside staging vessel

Above, Commander CARPENTER checks out the life support system; left, the first team of aquanauts pose inside their "home," dubbed "the Tiltin' Hilton" because of the 6% tilt.

with mail order equipment, in marginal conditions, using outmoded techniques.

Now when I tell you we got up in the morning in *Sealab* and went to work, you'd better believe it. I have never worked as hard or as long but, on the other hand, never has there been for me as much personal satisfaction as there was during the entire *Sealab* operation. We knew we were doing a good job and there was a mood of cheerfulness and willingness to work that made everyone give his best. A lot of this has to do with the fact that divers are a very special breed. The profession calls for more guts and motivation than any other I know. I wanted to say to them, "You're magnificent, I respect and admire you, I'm proud to be one of you"—but I figured only Gregory Peck would do that.

Let me tell you what one day in an aquanaut's life is like. First, a last minute recap of the dive plan. It is necessary to do this because as soon as a diver and his buddy, both intelligent, cooperating, communicative hu-

man beings, step thru that hatch and enter the water world, they become mute and essentially deaf. Their vocabularies are reduced to less than a dozen words, spoken only with raised fingers or the rap of a knife hilt against a gas bottle. A diver's most urgent cry—"Mayday"—can be uttered only with 4 fingers or 4 raps, and the raps don't carry very far.

We desperately need a research program dedicated to the development of a reliable diver-to-diver communication system that does not encumber him with wires and does not compromise the performance of his breathing apparatus.

The divers will spend their first 10-15 minutes in the water working against the clock on delicate assembly tasks and intricate two-hand co-ordination tests. These, as well as measures of whole body strength, are done pre- and post-dive, in the water, in an attempt to measure the degradation of man's performance during long exposure to cold water.

Once these tests have been accomplished they can get on with their

work. This can consist of any number of tasks related to the ocean sciences: salvage, rescue, marine biology, geology, sound and light propagation, installation of marine weather instrumentation, logistics, and maintenance of underwater equipment. By and large this work is done with ordinary tools that can be found in any mechanic's tool box, and with equipment that works well on dry land but invariably develops some ailment after immersion in salt water. We need to devote more human engineering talent to the development of special equipment and tools for use in this dim, weightless, corrosive world.

If the diver's work carries him into water much deeper than his habitat, his suit is compressed by the increased pressure until it becomes paper thin and loses nearly all its thermal insulation properties, and he gets cold faster.

Ultimately we need to develop and adapt the liquid cooled Apollo suit to our use. The liquid flowing thru the garment could be heated with a small radioisotope package that will

replace one weight on a diver's belt.

The astronaut's EVA chest pack and the diver's breathing apparatus are a study in contrasts. The lung currently in use is not as reliable as it can be made. It has many design defects and reflects very little of the tremendous advances recently made in the field of human engineering that are so evident in aircraft, spacecraft, and space age personal equipment.

The astronaut in flight faces a splendid panel of instruments which provides immediate and continuous evaluation of all the components and systems upon which his security depends. In addition he has three shifts of eyes and ears around the world helping him, thru telemetry, to check his equipment.

The diver, in contrast, has little or no instrumentation, in or out of his habitat. And when he is in the water he is alone. He and his companion are completely beyond the help of any man.

We do have some safeguards—for instance, a man can help his buddy get back home with an extra mouthpiece on his own equipment. But the need to give the diver better equipment, more instrumentation, and longer and deeper excursion times still exists.

Our most imaginative thought must focus on the design of the habitat and the whole concept of undersea living. Man must be able to sever his psychological as well as his physical ties to the surface. Adaptation of nuclear power would give us a completely autonomous, self-propelled research vehicle. It would avoid the many problems we face when we try to handle a subsurface object with a surface vessel and it would open up unprecedented depth and endurance capabilities.

The *Sealab II* habitat was luxurious in many respects, with larger port-holes and wall-to-wall carpeting, but we are not served well by a cylindrical design. We need more room in the diving station; this was our worst bottleneck. We need telescoping legs to help us level it on uneven terrain, separate laboratory areas away from traffic and cryogenic oxygen storage.

Meanwhile—back with the aquanaut. He re-enters his topside world not in a 15-minute blaze, but by purging his body slowly, and sometimes

painfully, in a decompression chamber. A man remaining at 650 feet must wait six days to step outside the chamber.

In Houston we have the free world's largest altitude chamber, capable of accepting the entire lunar excursion module, command module and service module at one time. For undersea work we have a scattering of small pressure chambers around the country; one goes to 800 feet.

We need a 2,000-foot capability now, with a large water-filled compartment which will allow us to evaluate the immersible equipment. It must be capable of being pressurized with helium, argon, or other rare gasses as the need arises, and in it we need to study the effects on man of very high pressures. Does he slow down, become sluggish? What cellular changes occur? How are his organic functions altered?

Aquanaut carrying monitors, to be released to check ocean currents.

A marriage of cellular chemistry and definitive physiological and psychological studies, which is so badly needed, could center around a deep submergence center with a high pressure facility such as this. Accurate measures of caloric intake and metabolic rates could be made, and a study of inert gas uptake and elimination by the human body. We must have a better understanding of this before we really begin to understand the decompression and narcosis problems you've heard so much about.

One of my chief regrets is that we could not bring back better photographic documentation, but the light level and visibility around *Sealab* just didn't permit it. These pictures would have been of great value in attracting

young, intelligent, hard driving men into our group of fifty.

I know the talent is out there. I know there are men looking for a field to which they can commit their lives.

The disparity between the equipment used by aviators and divers is incredible, but pilots are a very powerful group. They have fought for the innovation and safety precautions that *this* program needs now if it is to move out of the "Gee Whiz, we did it" stage.

I think it narrows down to a basic feeling among the participants in these modern sustained experiments. We want more than remaining alive. We cry to industry "Make it better, make it last longer, make it easier to operate." After the feeble beginnings of pushing body and mind—figuring out a way to beat the odds, we *always* want more. It is not an uncommon trait among men.

An airplane that bears this nation's emblem, a spacecraft that carries the colors of our country around the globe and a United States research vessel embarking on a mission in the depths of the world's oceans, must be stamped superb. The resources to make them so are here in this country. I don't want anything but the best.

STRAIGHT A INITIATES

William R. Goodwin was initiated December 5 by Delta Epsilon Chapter at the University of Kentucky.

Donald J. Loarie was initiated January 16 by Beta Pi Chapter at Northwestern University.

Edward T. McClellan and Michael L. McCluggage were initiated January 16 by Mu Chapter at Ohio Wesleyan University.

HENRY AGARD WALLACE

FARMER, FIGHTER, HUMANITARIAN

SEVENTEEN YEARS ago he was a candidate for President of the United States, following an active career of public service. Since that time he has been retired from politics, and essentially from public life. Despite the years, he is well remembered, and because of the years, more kindly remembered, thanks to the perspective which the interval brought both to the man and his critics. We speak of Henry A. Wallace, *Iowa State*, '10, who was called November 18 to the Chapter Eternal.

Born on the family farm near Orient, Iowa, on October 8, 1888, he was the son of Henry C. Wallace, *Iowa State*, '92, a staunch Republican who served as Secretary of Agriculture under Presidents Harding and Coolidge. Young Henry followed his father in choice of alma mater, graduating first in his class. He followed him as editor of *Wallace's Farmer*, and as a member of the Cabinet. But he left his father's party in 1928, supporting Alfred E. Smith, and all his major public offices were held as a Democrat.

Following his graduation from Iowa State, Mr. Wallace became associate editor of *Wallace's Farmer*, and, in 1924, editor, which position he held until 1933. During this time he was active in farming, and conducted experimental work which led to development of hybrid corn giving much improved yields. His research and experimentation, during this and later periods of his life, also led to improved poultry, eggs, and winter strawberries. It is not unlikely that his achievements in agricultural research, though not so widely known as his political life, may prove a more lasting contribution to the nation and the world. Not long before his death he said, "The greatest satisfaction of my life has been watching living things grow and change."

Summoned by Franklin D. Roose-

HENRY A. WALLACE

velt to be Secretary of Agriculture, Henry A. Wallace occupied the position his father had held only ten years before. Prominently displayed in his office was an oil portrait of the elder Wallace, testimony of the comradeship between the son and his late father.

Mr. Wallace almost immediately became a controversial figure, as he initiated a policy of paying farmers to cut production in an effort to raise prices of farm products. His measures included plowing under of crops and slaughtering young pigs, which he defended as temporary necessities because industry was "plowing millions of workers into the streets."

A vigorous supporter of President Roosevelt's domestic policies, Mr. Wallace was also a spokesman for internationalism in an era of pronounced isolationism in most of America. Mr. Roosevelt chose him as running mate in 1940, and Henry A. Wallace served as Vice-President of the United States from 1941 through

1945. In this post he traveled widely abroad, especially in promoting the "Good Neighbor" policy in Latin America.

Blocked for the Democratic party renomination for the vice-presidency, Mr. Wallace was appointed Secretary of Commerce in 1945 and served until 1946. He was fired by President Truman as a result of a speech in which he called for accommodation with Russia based on "spheres of influence."

As the candidate of the Progressive party for President of the United States in 1948, Mr. Wallace was called a captive of the Communists; largely, no doubt, because he campaigned for friendlier relations with Russia. In the years since then, he came to recognize and denounce the true aggressive aims of international Communism, and swung so far in his political orientation as to support Mr. Eisenhower in 1956 and Mr. Nixon in 1960. Moscow listed him among "the enemies of mankind."

Mr. Wallace authored a considerable number of books, ranging from somewhat technical works on agricultural topics, through economics and political philosophy. He was at one time editor of *New Republic*. Throughout his life he was concerned with human suffering and want in the world, and was an early advocate of using America's surplus to aid less fortunate peoples. Derided as advocating "milk for the Hottentots," he lived to see foreign aid on a massive scale become national policy.

A statement by President Johnson is one to which most Americans, of whatever political persuasion, can subscribe: "The death of Henry A. Wallace stills an original American voice. He always spoke his mind—and always from a deep sense of social justice. His views may not always have been popular, but they were always sincere."

FRANK PRICE

Director of Program Development

RECOGNIZING THE NEED to provide greater breadth and depth of management at the top administrative echelon of the Fraternity, the Board of Directors at its November meeting in Washington, D. C., appointed Frank H. Price, Jr., Auburn, '59, to the new position of Director of Program Development, effective January 1. As the title indicates, Frank will be concerned with developing new programs to meet the needs of our growing Fraternity, as well as modifying and updating existing programs to better serve those needs. He will also assume many of the functions of the former position of Administrative Assistant, vacant since Al Sheriff was promoted to become Executive Vice-President. Like all Deltas on the Fraternity's staff, Frank will spend some time in the field, visiting both undergraduate and alumni groups; these will be special-purpose missions, in contrast to the regular service of the full-time field staff.

Many Deltas have already gotten to know Frank Price through his very active participation in Fraternity affairs. Since the day of his pledging by Epsilon Alpha Chapter, there has been hardly a day when Frank was not in some position of service to his chapter and his Fraternity.

Early recognized as a "trouble-shooter," he was thrust suddenly into the job of steward while still a pledge, when the housemother resigned unexpectedly. As an active, he served simultaneously as corresponding secretary and rush chairman, assuming the latter responsibility—again on short notice—in the summer, a brief month before the fall rush period was to begin. Epsilon Alpha enjoyed an unusually good rush, both numerically and quality-wise. In the next election, Frank was chosen president of the chapter. At the same time he was leading the chapter, he was also

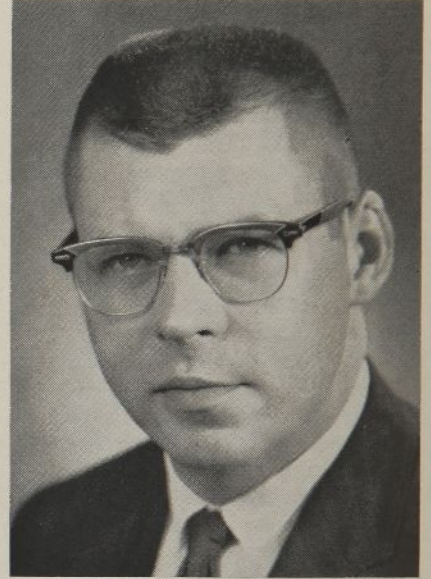

business manager of *The Plainsman*, Auburn's student newspaper.

Born in Decatur, Alabama, Frank attended the public schools in that city. At Auburn he majored in industrial psychology, pursuing this to earn the B.S. and M.S. degrees at that institution. An excellent student, Frank was tapped for Phi Kappa Phi national scholastic honorary, and was listed in *Who's Who Among Students*. While a graduate student at Auburn, he assisted in rushing for the Delt chapters at Tulane, Emory, and Georgia.

Following his second graduation from Auburn, Frank entered Purdue University for work toward his Ph.D. While studying there, he, with Fraternity Historian Darrell Moore and two other graduate students, banded together to reactivate the Lafayette Alumni Chapter, of which Frank became president. At Purdue he was tapped for Sigma Xi, national research honorary.

After completing his Ph.D. studies, Frank joined the research staff of the U. S. Army Enlisted Evaluation Center at Fort Benjamin Harrison near Indianapolis. He rapidly rose to the position of Chief, Evaluation and Analysis Branch, in which he supervised the research activities of 12 professional psychologists and advised the Commanding Officer on personnel measurement matters. Maintaining his active interest and participation in the Fraternity, Frank served the Indianapolis Alumni Chapter as treasurer and, most recently, president. He also found time to be Co-Adviser to Beta Zeta Chapter at Butler University.

Frank is a bachelor, although no longer "eligible," as he will be married in May to Miss Carolyn Pike, an Evansville, Indiana, Chi Omega. Among his hobbies and outside interests, Frank lists golf and "house hunt-

FRANK H. PRICE, JR.

ing." He maintains his interests in the military establishment through a commission in the U. S. Army Reserve. Frank is a director of U. S. Diversified, Inc., an Indianapolis-based distributing firm.

Professionally, Frank holds membership in the American, Midwestern, Southeastern, Alabama, and Indiana Psychological Associations. His professional training and demonstrated competence in the areas of management, personnel, and training will greatly strengthen the administrative resources of the Central Office, and be of great benefit to the Fraternity.

From the time of his pledging, Frank has worked at being a Good Delt. His belief in Delta Tau Delta and the fraternity movement has been demonstrated continuously through volunteer service. Now, devoting his full time and talents to the Fraternity, he will furnish additional leadership and impetus to the growth and progress of Delta Tau Delta.

DICK CLARK HEADS GENERAL BAKING

P. RICHARD CLARK, *Ohio Wesleyan*, '39, is the new president of General Baking Company, which is listed by *Fortune* as among the 500 largest corporations in the United States, and is one of the largest concerns in its industry, with sales of over \$164,000,000 last year. Mr. Clark joined the company in 1963 as vice-president, finance, and treasurer, and became president last May.

General Baking is a manufacturer, distributor, and retailer of fresh and frozen foods and candies, with plants, warehouses, distribution centers, restaurants, and stores located throughout the entire United States. Its subsidiaries include Van de Kamps on the West Coast, Eddy Bakeries in the Northwest and Rocky Mountain areas,

and Bond Baking and other Bond products on the East Coast and in the Central U. S.

Dick Clark was born in Orrville, Ohio, on April 15, 1915. In high school he was president of his junior class and a star athlete, playing football (team captain his senior year), basketball and track.

Entering Ohio Wesleyan in September, 1935, Dick was pledged to Delta Tau Delta, and was initiated the following February. He was elected to the combined responsibility of treasurer and house manager of Mu Chapter in April, 1936—as a freshman—and held the office through his senior year. Dick performed on Mu's intramural teams in football, boxing, and wrestling. Between his junior and senior years, he assisted Ed West, president of Mu's house corporation, and Ronald Rosser, architect and another Mu Delt, with a major addition to the chapter house. Dick was graduated in June, 1939, with a B.A. degree, and honors in business administration.

His first job after graduation was as an accounts receivable clerk; this was followed by a period as junior accountant with a leading national CPA firm, and then a stint with a bank. In October of 1940 Dick joined the Cleveland accounting firm of Brubaker, Helfrich and Taylor, remaining there until entering the naval reserve in April, 1943.

After initial training at Bayonne Supply Depot, Ensign Clark was sent to the Naval Supply Corps school at Harvard. Graduating in October, he reported to the USS *Proteus*, a submarine tender, as disbursing officer.

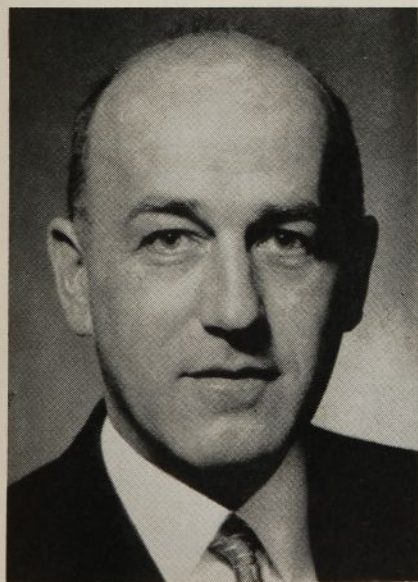

Ten months of duty at Midway, where the *Proteus* was with the Pacific Submarine Fleet, were followed by a move to Guam, where the ship served as an advance base. When word of the Japanese surrender was received, the *Proteus* proceeded to Tokyo Bay, arriving a few days before the formal surrender ceremonies took place aboard the *Missouri*.

Returning to inactive duty as a full lieutenant in November, 1945, Dick became a junior partner in the Clewell M. Smith Company, Cleveland accounting firm. He received his CPA in January, 1949, and the following year started his own firm of Connor and Clark.

Dick left Cleveland early in 1956 to become secretary and controller of Standard Packaging Corporation. He was elected a director a few months later, then vice-president and controller, and finally senior vice-president. He was also a director of many other industrial corporations, and served for several years on the board of the Merchants National Bank of Bangor, Maine.

A class agent for the Ohio Wesleyan Alumni Fund, Dick also serves his *alma mater* as chairman of the Special Gifts Committee for Ohio Wesleyan's "Thrust Toward Fulfillment" program for the Metropolitan New York region, which includes Westchester, lower Connecticut, and New Jersey.

The Clarks—Dick, Janet, and three children—live in Short Hills, New Jersey. Dick maintains his contact with Delta Tau Delta through the Greater New York Alumni Chapter.

P. RICHARD CLARK

From Delts Everywhere

A SALUTE TO NORM

By JOHN J. GROVE, *Pittsburgh, '34*

ALMOST 200 PITTSBURGH area Delts, and some from distant points, were present October 22 for a testimonial dinner honoring Norman MacLeod, *Pittsburgh, '17*, national President of Delta Tau Delta from 1927 to 1933. Included along with alumni were actives and pledges from the chapters at Allegheny, Carnegie Tech, Penn State, Pitt, W. & J., and West Virginia, and a delegation from the colony at Bethany College.

The Arch Chapter was represented by President Arnold Berg, *Indiana, '32*; Treasurer Albert J. Murphy, Jr., *Penn State, '38*; and Eastern Division President H. Watson Stover, *Butler, '21*. Other national representatives on hand were Executive Vice-President Al Sheriff, *W. & J., '49*, and Historian F. Darrell Moore, *Ohio, '16*.

Branch Rickey, *Ohio Wesleyan, '04*, a friend of Norm MacLeod for 40 years, was present, for what was to

be his last Delt gathering. Speaking warmly of Norm's service to the Fraternity, Brother Rickey said, "Our presence here tonight is but a small rate of interest for the benefits we all have received on the investment of one man's life in Delta Tau Delta."

The program opened with an invocation by The Very Reverend N. R. High Moor, *Kenyon, '14*. Kenneth R. Query, *Ohio, '30*, touched briefly on the history of the Pittsburgh Alumni Chapter since its organization in 1902.

John Sandor, an undergraduate Delt at West Virginia University, sang several operatic selections, accompanied by Dr. Robert S. Runzo, *Pittsburgh, '50*.

Joseph H. Lehmann, III, *Pittsburgh, '62*, spoke in behalf of recent graduates.

Toastmaster John Grove introduced Norm MacLeod, citing his many years of service to the Fraternity, to the

University of Pittsburgh, and to the cause of fraternities. He recalled that Norm had been a member of the Alpha Alpha Fraternity at Pitt which became Gamma Sigma Chapter in 1914, and reviewed the highlights of his service to the Fraternity since his initiation: Vice-President in 1923; President in 1927 (the youngest man ever elected) serving until 1933; in 1934, headed the delegation that presented a plaque to Bethany College, commemorating the founding there of Delta Tau Delta; General Chairman of the 1937 Karnea; following that event, cited to membership in the Distinguished Service Chapter.

Norman MacLeod has been a trustee of the University of Pittsburgh since 1937, and a member of the board of Allegheny General Hospital since that same year. He is a member of the Pitt lettermen's club and

Beta Alpha Has

A WEEKEND TO REMEMBER

By DAVID B. ENGLEHART, *Indiana, '49*

Beta Alpha Dedication Program Chairman

Beta Alpha's Shelter from the parking area

FOR BETA ALPHA DELTS—undergraduate and alumni—July 23-25 was truly a weekend to remember, as we enjoyed wonderful Delt fellowship while dedicating our new Shelter. We joined together in the rewarding experience of a memorial service to our Delt brother of Beta Alpha, Hugh Shields, Executive Vice-President of Delta Tau Delta for many years, who passed into the Chapter Eternal on April 19. We all felt sincere pride in the memorial to Brother Shields, and in the beautiful new Shelter which we gathered to dedicate. This spacious new home for Beta Alpha results from years and years of devoted activity by Indiana University Delts to provide a beautiful, functional chapter home, where brotherhood and fellowship would flourish in the hearts and minds of all Delts.

In attendance were alumni, undergraduates, and friends. The fathers of the undergraduates were invited, and many of them were in attendance. Too often the father of a college student sees only the financial side of sending his son to school, and has little opportunity to see where and how he lives, or to meet his son's friends. This occasion afforded each father a wonderful opportunity to see

these things and to learn more about Delta Tau Delta, and a close feeling was apparent among the alumni, undergraduates, and fathers.

A number of rushees were present and participated in those events which were appropriate for them. Eight of these boys, who had been "on the fence," were pledged. Several said that they had never understood the strong bond that exists between Delts until attending this program and witnessing "brotherhood in action."

The weekend, which provided something for everyone, began Friday evening with the greeting of Delts arriving from throughout the country. An informal buffet was then provided.

Saturday morning, groups toured the new Shelter from top to bottom, and inspected the house inside and

CLAUDE WARREN and ARNOLD BERG hold plaque in memory of HUGH SHIELDS

out. A minor misfortune was the breakdown of the air conditioning, on one of the hottest days of the year.

The first event on the program was the memorial service for Hugh Shields. Opening remarks were made by Claude M. Warren, '38, president of the Beta Alpha House Corporation. George O. Browne, '22, a classmate of Hugh Shields, expressed in terms of personal experience the great influence that Brother Shields had exerted in his life, and read from a letter from an alumnus unable to be present, as follows: "From the time that 'Spike' pledged me . . . through my first adventures with Beta Alpha; my later departure [and] his phone call . . . encouraging my return; his help through my days as house manager, treasurer, and through chapter president—and help still later on, I doubt that any one person ever had greater influence on me."

Additional comments were made by Mr. J. Dwight Peterson, *Sigma Chi*, president of the National Interfraternity Conference and a past national president of Sigma Chi Fraternity. Mr. Peterson and Hugh Shields were longtime friends through their work in the fraternity movement, and Mr. Peterson's remarks could not have been more complimentary regarding Hugh Shields and Delta Tau Delta.

As a fitting close to the memorial service for Brother Shields, our national President, Arnold Berg, '32, summarized the feelings of all Delts for Hugh Shields, and our deep appreciation for his life-long dedication

to Delta Tau Delta and the fraternity movement.

The next event was dedication of the Shelter. Fred Hill, '31, speaking on behalf of the house corporation, pointed out the years of work that had gone into planning and creating the new house, and he outlined plans for its proper maintenance and future growth.

Robert Thopy, president of the undergraduate chapter, thanked all concerned on behalf of the chapter, for the efforts they had put forth in making possible the new Shelter. He predicted continued growth and progress of the chapter.

Beta Alpha's longtime chapter adviser, Dr. Leon Wallace, '25, dean of the Indiana University School of Law, expressed his belief that the new home would serve to further solidify the position of Delta Tau Delta on the campus of Indiana University. Dr. Wallace spoke appreciatively of the co-operation he had received over the years he served as adviser, from which post he recently retired.

Our new chapter adviser, Logan Blank, *Lehigh*, '59, gave an analysis of the chapter's situation and promised that the efforts of all would be directed to claiming and retaining the lead among Indiana University fraternities.

A distinguished guest was Dr. Elvis J. Stahr, Jr., *Sigma Chi*, president of Indiana University. Dr. Stahr was most impressed with the new Shelter, and he commended the directors of the house corporation for their foresight in providing a structure which contributes so much toward meeting the current and future housing and social needs of a growing educational institution.

The dedication was completed with remarks by President Arnold Berg. He congratulated all those involved in making the chapter's new home a reality, and stated that their achievement exemplifies the attainable goals of such plans and efforts being undertaken by Delt chapters everywhere.

Following a buffet luncheon was an open afternoon of fellowship. A golf tournament was held, and additional tours of the Shelter and of the vastly enlarged campus of Indiana University were conducted.

The evening began with a social hour, and this was followed by a banquet for all alumni and fathers

Dr. ELVIS STAHR, *Sigma Chi*, president of Indiana University, signs the guest book.

and a meeting, with ample opportunity to renew old friendships and rededicate ourselves to Delta Tau Delta. We were privileged to hear a message from Dr. Joseph D. Boyd, *DePauw*, '48, President of the Northern Division of the Fraternity.

Obviously, many Delts could not be present for the weekend, but we received some wonderful letters and telegrams from them, with many reminiscing about their undergraduate days at Beta Alpha. They spoke of memorable experiences, whether at the just-vacated Shelter, one of its smaller predecessors, or even the rented room over a shoe store in downtown Bloomington which served the chapter in 1905.

The last Shelter was built in 1936, designed to accommodate 35 men. In recent years it usually was jammed with many more. Just before moving into the new Shelter, the old house was packed, and 20 members were living in rented quarters outside. The present structure eliminates the problem. It is built to sleep 84 men, with excellent facilities for dining, entertainment, recreation, and, most importantly, study. We believe it is by far the most attractive, spacious, and functional fraternity house on the Indiana University campus. We invite all Delts and friends to visit Beta Alpha's new home, and observe the chapter's enthusiasm and vigor. In good spirit, we challenge anyone to match this!

Executive Committee for the 1966 Karnea: GENE W. ROSSMAN, Promotion Chairman; ROBERT D. HOLMES, Publicity Chairman; ROBERT W. GILLEY, General Chairman.

A CENTURY AGO, Americans with pioneer imagination and courage turned their eyes and their wagon wheels toward the Oregon Country. There they found a land of great resource: rich soil for their plowshares, giant timber for their saws, abundant water-power for their mills, scenic beauty for their souls. This describes a majestic section of our great nation, an area won by men of vision like Thomas Jefferson, Lewis and Clark, and all the venturers who rolled over the Oregon Trail in wagon trains, or braved the long sea voyage "round the Horn."

Next August, Delts from all over the country by automobile, train and plane, will converge on Portland, Oregon, City of Roses, for what promises to be one of the most exciting Karneas ever. A golden land of great abundance and diversity, Oregon today offers endless excitement and intrigue. The fascinating topography of Oregon—blending great rivers, lakes, and sparkling streams with green timber-covered mountain ranges and warm peaceful plateaus to the east, verdant productive valley land to the west joining a cool Pacific shore with 400 miles of uncluttered, uncrowded sandy beaches—has created one of the nation's most scenic and exciting outdoor recreation areas.

Within an hour's drive from Portland, it is possible to ski at Timberline Lodge on the majestic slopes of Mt.

OREGON CALLS

By GENE W. ROSSMAN, *Washington, '31*

Hood, enjoy rock and surf fishing, beachcombing, clamming for the succulent razor clam, and swimming in fresh water lakes that border the Pacific Ocean shore. The Karnea committee plans to make all of these activities available to visiting Delts.

The Cascade Range is Oregon's

most impressive scenic feature, dividing the state into two distinct regions. All of the Cascades' towering peaks such as Mt. Jefferson, The Three Sisters, Three Fingered Jack, Mt. Washington, and the queen of them all, Mt. Hood, rising 11,000 feet above

REED BRICKER, BROKER

Younger members of the Fraternity who are considering the securities business as a life work might well consider the career of Reed Bricker, Western Reserve, '17, a graduate both of Reserve and of Case Institute of Technology. We are pleased to re-print here an article which appeared some time ago in the Case Alumnus, with figures brought up to date:

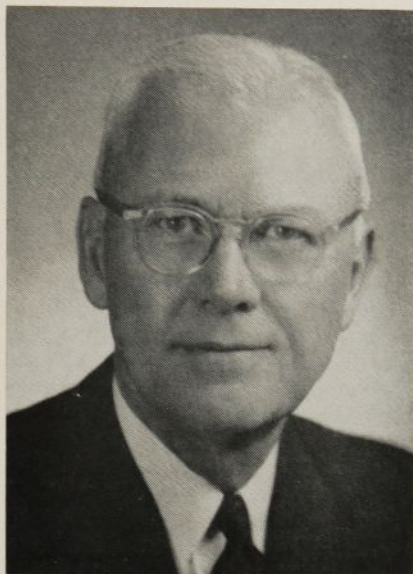

UP AND DOWN goes the stock market, and with it goes the blood pressure of millions of investors. Right on top of the action, but probably the most serene man around is Reed Bricker, account executive with Paine, Webber, Jackson & Curtis of Cleveland. For more than 38 years the stock market has been his business and major hobby.

An economics course in Bricker's second year of college set up points of interest that exerted a strong pull away from the engineering education on which he had planned. Banking and finance, stocks and bonds, the kaleidoscopic action of the stock market—all became part of a new and fascinating world.

"Almost everything that happens is reflected in the market," Bricker pointed out. "I found this interplay of a thousand and one forces exciting. The daily newspaper took on new meaning and life. It became a game of sorts, trying to figure where everyday occurrences would affect certain stock quotations in the days to follow. Occasionally one will outguess the so-called insiders and professionals. That provides a real thrill."

More than just an interested observer after college, Bricker's interest in the securities market and economic trends occupied an increasing part of his spare time.

The threads of the web continued to tighten. By 1926, Bricker became engaged full time in security analysis

REED BRICKER

with a Cleveland investment house. Eight years later, he began his present work of handling individual and institutional investment accounts.

Today, he is the leading salesman for Paine, Webber, Jackson & Curtis in the entire Cleveland area. Among the firm's 740 registered representatives across the country, Bricker is ranked in the top ten. He has found his vocation interesting and satisfying—so much so that retirement exerts only limited appeal.

Bricker feels that the broker's job is unusual in that it not only provides the means to a livelihood, but puts him in a position to assist those about him in creating financial independence for themselves. Conscientious and qualified counsel is particularly important to the beginning investor, many widows, teachers, and others of limited means.

At the same time, his work gives him the training and experience to

help himself. He should be much better able to recognize the unusual opportunity when it presents itself. This can be important.

Bricker has an engineering degree from Case Tech as well as his A.B. He was asked how engineers fare in the investment field. "Definitely above average," he replied. "Generally they are more objective. Their training results in a more accurate appraisal of the facts and figures. Sentiment is less of a factor with the engineers. They are apt to be less influenced by personal hopes or fears."

"Since Biblical days things have run in cycles. The stock market is certainly no exception," Bricker believes. "Its ups and downs may vary in magnitude, or in duration, but won't cease."

ALUMS!

Your fellow alumni, especially your chapter brothers, are eager to have news about you, and THE RAINBOW is eager to print it. While we receive some items from various companies, and a great deal from the armed services, we are largely dependent on you alumni yourselves for such news. If you, or any Delt you know of, has recently had a promotion, made a change in his work, been elected to office, invented or published something, achieved any honor or recognition, or had any newsworthy experience, won't you please drop us a letter or card with the information. If available, a recent photograph is desirable to accompany the news item.

If your company has a public information office which sends out news releases, please make sure they know you are a member of Delta Tau Delta, and that they have this address: Editor, THE RAINBOW, Delta Tau Delta Fraternity, 3242 North Meridian Street, Indianapolis, Indiana 46208.

The First Hugh Shields Awards

By DR. FREDERICK D. KERSHNER, JR., *Butler, '37*

NOW THAT THE SELECTION of the first ten chapters to win the Hugh Shields Award for Chapter Excellence has been completed, and the recipients duly notified—together with the President and Dean of Students on their respective campuses—it is time to recount the story which lies behind this event. For the overwhelming majority of Delts, the new Award comes as a complete and unheralded surprise.

The beginning was in 1963, when several members of the Arch Chapter began to wonder if the scholarship awards program so laboriously developed over the past fifty years was achieving all that it could and should. The proliferation of plaques and cups had inevitably reduced the value of any single part of them. Fraternity awards for scholarships were often less impressive than campus cups, and always insignificant compared to campus intramural athletic trophies, some of which were half as large as full grown men. Did the national Fraternity want to go further in this direction? Should it attempt to compete, in giving away largesse, with such experienced giants as the colleges, universities, philanthropic foundations and the United States government? Many of us were very doubtful.

There was another objection to the way things seemed to be going. As a direct consequence of the growing scholarship emphasis, many undergraduates, and some alums, seemed to be getting the mistaken idea that the choice which a chapter faced in today's world was to be either a social club or a scholarship club.

Therefore the Arch Chapter came to a unanimous conclusion that what was needed was an award which would stress over-all balance in fraternity activity, rather than a single attribute by itself. The award was to

depend upon pride and sentiment for its appeal, like the Navy "E" or the "Old Oaken Bucket"; for this reason it has taken the form of a simple flag, devoid of pecuniary interest.

Once this decision had been taken, some important additional values became discernible. For example, many chapters think of themselves as "the best" or "one of the best" in the Fraternity because they happen to be strong on the local campus. Until now the smug, parochial and unbalanced chapter has had an easy time kidding itself that it is undoubtedly the best in Delta Tau Delta. Hereafter, that illusion will be hard to maintain. Even the most hard-headed egotists will have trouble explaining to themselves why the "best chapter in the Fraternity" (local judgment) couldn't get into the group of *ten* best in the Fraternity (nationwide comparative judgment).

Perhaps most important of all, the Hugh Shields Award system gives to the ambitious group of men some concrete lines of self-help and improvement to steer by. Henceforward there should be no doubt in anyone's mind about what is needed to obtain topflight recognition. Thus the award helps to encourage intelligent change—another phrase for progress.

Certain problems were recognized from the first, and the present system contains safeguards against all of them, it is believed. Any effort to rank chapters in order of merit would involve a tremendous amount of subjectivity; therefore, it was agreed that the ten winning chapters should be regarded as equal, with no listing of first, second, third, or other places.

To ensure maximum objectivity and fairness, no single office or person casts more than 40% nominally (20% in actuality) of the vote for excellence.

Would the large chapter have an advantage over the small chapter, some asked. Perhaps, but the categories have been so established that mere numbers have been deliberately discouraged as a basis for judgment, and at present there may be a tendency to favor the small chapter slightly if (with less man power) it does as well as the group with 90 or more men.

Another problem is that of prompt evaluation. We hope to announce the awards about December 1 for the academic year preceding, but before the opening of the second semester, in any case. The chief obstacle to this is delay in receiving scholarship returns from the NIC reporting agency. In some cases it may become very important for the Supervisor of Scholarship to receive *campus* reports of scholastic achievement.

For other details one should turn to the provisions of the Arch Chapter Motion of July 27, 1965. As of the present date, our experience has shown several things about the five basic criteria which chapters ought to understand:

1. *Scholarship.* In the current choices, we were compelled to rely upon index and campus rank more than we desired, because chapters gave us little or no information about local scholarship programs, per cent of pledge class initiated, honors, or original devices. We would be inclined to rate originality above all other scholastic factors, but unless the information reaches the Supervisor of Scholarship no credit can be given. Chapters anxious to advance in the standings, please take note!

2. *Internal Organization and Property Maintenance.* It should interest many chapters to see that of the current top ten chapters, two occupy housing that is 40 or more years old,

and only two enjoy Shelters that have been built since 1960. In other words, it is not the house itself, so much as the way the property is administered and its future planned for, that counts in demonstrating excellence.

3. *Standing on Campus.* A reputation for marvelous parties doesn't help a chapter much, unless combined with signs of responsibility. We found that a group which was a leader in campus awards and campus citizenship nearly always had a good social and intramural reputation, but the converse was much less likely to be true; chapters often had "social lion" or athletic reputations, but nothing else going for them, and suffered in the over-all campus rating for this reason.

4. *Fraternity Education and Ritualistic Observance.* Really good pledge training programs were much too rare for comfort. Few chapters actually taught good manners or good human relations. Beyond any doubt, a chapter which developed an outstanding pledge education program, designed to develop social skills and supply social deficiencies in its pledges, would rate high on next year's list.

5. *Alumni Relations.* Only a handful of chapters had any program worthy of the name in this area, vital though it is to the future of the fraternity system. Rho Chapter, which does have an imaginative effort under way, elevated itself near the top almost on this basis alone. Of all five categories, this is the one where competition is least, and quick recognition for effort and achievement most easily obtained by the ambitious undergraduate chapter.

What do we notice about the first Hugh Shields Award winners, the top ten for 1964-65? (1) To begin with, four are in the Northern Division, four in the Western Division, and one each in the Southern and Eastern Divisions. There is no effort to split up awards among Divisions; all ten could go to the same Division if the individual chapters merited the choice. (2) Six are from state universities, two are from engineering or technical institutes, one is from a small liberal arts college, and one is from an urban commuter-type university. (3) Seven of the top ten are in large universities of 10,000 or more students; three are from small or limited enrollment in-

stitutions. (4) Seven are chapters with memberships of 90 or more; three have "small" memberships of 40 to 70 men. (5) Seven of the ten scored in all five categories, while three had a complete blank in one of the five categories. No chapter came anywhere near a perfect score.

We believe that there is a great reservoir of untapped student energy and Fraternity pride in our membership. We believe also that fraternity alumni are tremendously anxious to work *with* undergraduates through the fraternity system. We see the Hugh Shields Awards as a step toward a more progressive and co-operative band of brothers.

We expect the top ten to want to keep on top, the second ten to want to displace them by correcting weaknesses and producing new ideas. For all chapters, including those to be chartered in the years ahead, we hope the Hugh Shields Awards will provide a realistic measuring stick of progress on the road to topflight quality, bringing them closer to a fraternity life of enjoyment, stimulation, and development of individual potential for every member.

For Delta Tau Delta in its larger national sense, the Hugh Shields Awards testify to our firm intention to be a progressive, forward-oriented fraternity leader, satisfied with nothing less than balanced excellence.

WINNERS OF THE HUGH SHIELDS AWARD FOR CHAPTER EXCELLENCE

Iota—Michigan State University

Beta Nu—Massachusetts Institute of Technology

Beta Phi—Ohio State University

Gamma Mu—University of Washington

Gamma Xi—University of Cincinnati

Gamma Tau—University of Kansas

Distinguished Service Chapter Calls Two To Membership

CITATIONS to membership in the Distinguished Service Chapter were presented recently to Major General Robert M. Ives, Retired, *Columbia*, '21, and Reed L. McJunkin, *Cornell*, '32. Gen. Ives's citation was presented at a meeting of the Houston Alumni Chapter, and Mr. McJunkin received his citation on the occasion of the dedication of Beta Omicron's new Shelter, in Ithaca. Texts of the citations are as follows:

ROBERT MILLARD IVES
GAMMA EPSILON, '21

President of the Houston Alumni Chapter; outstanding leader in the City of Houston where his civic activities have been legion; distinguished soldier, retiring with the rank of Major General in the United States Army; effective assistant in the expansion of Delta Tau Delta in the Lone Star State; his enthusiasm and efficient performance in every fraternal assignment mark him as a Good Delt, intensely devoted to the Purple, White, and Gold of the Fraternity.

REED LAVOSIA MCJUNKIN
BETA OMICRON, '32

Treasurer of the Beta Omicron House Corporation for many years; Chapter Adviser to Beta Omicron Chapter; member of the building committee for its new chapter house; with abiding faith in the future of his chapter and his Fraternity, he has brought a quiet and effective performance to all of his fraternal responsibilities, and his devotion in the bond remains undimmed since the hour of his initiation.

WASHINGTON HOSTS 57TH ANNUAL NIC MEETING

Justice Clark Honored

By ROBERT E. NEWBY, *George Washington, '24*
Vice Chairman, Conference Arrangements Committee

THE NATION'S CAPITAL was the scene of the 57th annual meeting of the National Interfraternity Conference, December 2-4, 1965. The registered attendance—540 undergraduates and 376 graduates—exceeded all expectations of the local arrangements committee, of which Justice Tom C. Clark, *Texas, '22*, was honorary chairman. This year, as always, the meeting brought together graduate and undergraduate fraternity leaders, college presidents and deans from throughout the country.

One of the founding members of the Conference, Delta Tau Delta has long played an active role in NIC affairs. Four Deltas have served as presi-

dents of the Conference—more than any other fraternity: James B. Curtis, *Butler, '80* (1915); A. Bruce Bielaski, *George Washington, '04* (1924); Alvan E. Duerr, *Kenyon, '93*, and *Williams, '93* (1931-32); and Joel W. Reynolds, *Tufts, '23* (1961).

This year's program was an exceptionally fine one, with Deltas again playing a very prominent part. The Fraternity's Executive Vice-President, Al Sheriff, *W. & J., '49*, was a member of the committee which developed the program for the undergraduates, based on the theme "E = M²C: Excellence Is a Product of Manpower, Motivation, and Continuity." The three-day program had so many sub-

jects under discussion simultaneously that no one delegate could possibly absorb all the valuable suggestions offered. There were separate programs for undergraduates and graduates, on matters of special interest to each.

Crowded into a full schedule of events was the "Old Pro Seminar"—a dialogue with fraternity leaders. There were fourteen tables identified as to topics under discussion, such as IFC Operations, Housing, Public Relations, Finance and Budgeting, etc., and each table was manned by two or more fraternity leaders familiar with the topic. Most popular was the "Rushing" discussion, handled by Norman MacLeod, *Pittsburgh, '17*, chair-

Left, a little Delt harmony; right, something for the inner man, at Gamma Eta.

man of the NIC's Committee on Rushing and a past national President of Delta Tau Delta.

The Fraternity Publications Display attracted wide attention. It contained a wide variety of manuals, rush brochures, leadership program outlines, and publications of all types from many campuses, and copies of all publications of the National Interfraternity Conference.

Highlight of the Conference was

J. DWIGHT PETERSON, *Sigma Chi*, left, presents the NIC Gold Medal to Justice TOM C. CLARK

the annual banquet, attended by more than 1200 persons. Fifty-six fraternity and college leaders at the head table looked on as Justice Clark was presented the NIC Gold Medal for distinguished service to the fraternity movement. Brother Clark is the third Delt to be so honored: Alvan Duerr received the award in 1940, the first year it was presented, from its donor, L. G. Balfour, *Sigma Chi*, then president of the Conference; and Henry M. Wriston, *Wesleyan*, '11, received the Medal at the 1952 Conference meeting.

Joel W. Reynolds serves as chairman of the NIC Committee on Resolutions, and also chaired a special study commission which reviewed the work of the Conference's headquarters office and offered suggestions for future improvements. Among the offerings of the Committee on Resolutions was one strongly supporting the efforts of our government to uphold freedom and oppose Communist aggression in Viet Nam and elsewhere, which resolution was passed unanimously by the delegates.

President Arnold Berg, *Indiana*, '32, was a member of the Nominating Committee of the Conference. Norm MacLeod is a member of the NIC Executive Committee. L. Ellsworth Naill, *Maryland*, '63, was in charge of photographic coverage of the conference. Reuben McCornack, *Kansas*, '64, handled banquet seating. Larry W. Self and H. William Pacella, both George Washington undergraduates, manned the information booth.

Six past Presidents of Delta Tau Delta were in attendance at the conference. In addition to Brothers MacLeod and Reynolds, there were Charles T. Boyd, *North Carolina*, '21; Robert W. Gilley, *Washington*, '30; Francis M. Hughes, *Ohio Wesleyan*, '31; and John W. Nichols, *Oklahoma*, '36. Besides President Arnold Berg, the Arch Chapter was represented by Secretary W. H. Andrews, Jr., *North Carolina*, '20. Others of the "official family" present, in addition to Al Sheriff, were RAINBOW Editor Jack McClenny, *Florida*, '49, and Hilbert Rust, *Indiana*, '26, Co-chairman of the Hugh Shields Memorial Fund Committee. Brother Andrews is the other Co-chairman.

Undergraduate Delts present as representatives of their local IFC's included David H. Doan, *Ohio Wesleyan*; James L. Goodwill, III, *Dela-*

ware; G. Stephen Huffman, *Cincinnati*; John D. MacLeod, *Wisconsin*; Wayne R. Presser, *DePauw*; Richard S. Roberts, *Ohio Wesleyan*; Thomas A. Sawyer, *Tulane*; L. Gale Wilkerson, *Oklahoma State*; and Alan A. Zorner, *Stevens*.

Delt Deans in attendance included Bruce T. Alton, *Ohio Wesleyan*, '61; Jerry D. Corley, *East Texas State*, '63; Dr. Russell A. Griffin, *Hillsdale*, '28; Robert E. Matson, *Ohio*, '53; William Tate, *Georgia*, '24; and Wallace W. Taylor, Jr., *Alabama*, '46 and *Emory*, '46.

All Delts attending the Conference were guests of the National Capital Alumni Chapter at a buffet luncheon held in Gamma Eta's Shelter on the campus of George Washington University. C. Robert Shelton, the chapter's alumni relations chairman, made the arrangements for the luncheon.

Anyone desiring additional information concerning the NIC, its services and publications, should write Paul Addams, Administrative Secretary, National Interfraternity Conference, 271 Madison Avenue, New York, New York 10016. Everyone interested in fraternities should obtain a copy of "N.I.C.—What It Is and What It Does."

The HUGH SHIELDS Memorial Fund Committee met in Washington. Seated, W. H. ANDREWS, Co-Chairman; CHARLES T. BOYD; JOHN W. NICHOLS; HILBERT RUST, Co-Chairman; standing, ARNOLD BERG; JOEL W. REYNOLDS, FRANCIS M. HUGHES; ROBERT W. GILLEY; and NORMAN MACLEOD. Not pictured: W. HAROLD BRENTON, TOM C. CLARK, MARTIN B. DICKINSON, PAUL G. HOFFMAN, and G. HERBERT MCCracken.

Special Report on

THE HUGH SHIELDS MEMORIAL FUND

NOTHING EQUALLING the response to the Hugh Shields Memorial Fund has ever been witnessed in the Fraternity World! In our first report, the contribution roster carried the names of over 1,000 Delts and friends. Now the list has passed the 1,400 mark. Furthermore, there have been few personal solicitations up to this time!

In the Committee's first statement, the initial goal for the Fund was set at \$100,000. Already we are nearing the \$50,000 mark. In that first report, your Committee announced formation of the Crescent Class of the Hugh Shields Memorial Fund, with pledges of \$200 or more entitling the donors to a beautiful Crescent Class Membership Scroll. Although this was a recent announcement, nearly 50 Delts have already qualified for the Crescent Class! We predict that you will soon find Crescent Class Scrolls on the walls of Delt offices in every part of the world.

THE COMMITTEE'S WASHINGTON MEETING

The first formal meeting of the Hugh Shields Memorial Fund Committee was held at the Washington Hilton Hotel on December 3, 1965. In addition to Committee members, we had the privilege of having President Arnold Berg, Executive Vice-President Al Sheriff, and Jack McClenny, editor of *THE RAINBOW*, at the meeting. The entire day was devoted to plans to make the Hugh Shields Memorial Fund the most significant development in the Fraternity World today. Various subcommittees were set up to give added national and international impetus to the Fund, including the solicitation of larger gifts, obtaining a minimum of at least 10,000 donors, determining types of scholarships to be awarded, etc.

With the Washington meeting enthusiasm at a high pitch, it is your Committee's judgment that the Fund's progress will constitute one of this century's most significant demonstrations of fraternity loyalty in the Greek-letter World!

EXCITING AND INSPIRING!

When your Committee announced formation of the Crescent Class, it actually underestimated Delta Tau Delta's alumni spirit. Almost before word of the Crescent Class had time to cross the country, three more exciting and inspiring developments took place:

1. A Delt alumnus immediately sent word that he would challenge 49 other Delts to join him in forming the "\$1,000 Class." Without publicity of any nature, nine Delts have accepted that challenge!
2. A number of Delts advised that their estate plans have been revised to provide in a substantial way for the Fraternity's Educational Fund.
3. Substantial securities gifts of Tennessee Gas Transmission, Borg-Warner, CBS, a major publishing company, and other stocks have been given to the Hugh Shields Memorial Fund.

Here is ample proof that Delta Tau Delta is on the march! Here are tremendously exciting and inspiring developments! Every man who loves the Purple, White, and Gold will rejoice at what is taking place in our ranks.

VITAL IMPORTANCE OF THE BROADEST POSSIBLE PARTICIPATION

To your Committee, exciting as word of substantial gifts is, and welcome as such gifts are, the truly important thing is to have thousands of Delts make a contribution to the Hugh Shields Memorial Fund, with its high objective of giving worthy young Delts an opportunity to complete their college study programs. Up to this time, on very short notice, 25 of our undergraduate chapters have contributed for each pledge and active. When the full undergraduate report is completed, we believe every undergraduate chapter will have answered the call! The undergraduate support is a further challenge to all Delts now through college and at work.

Is your name on the Roster of Contributors? Are you going to have a part in this important project? Your Committee recognizes fully that some are in a position to give financial help freely. Others are not so fortunate. Every Delt must answer that question for himself. What your Committee wishes to emphasize is that it has a deep conviction that the real measure of the greatness of the Fund will be the number of Delts participating as donors. For if the current list of 1,400 donors has taken the Fund to near the \$50,000 mark, consider what 20,000 or 30,000 donors would mean to the Fund and its objectives!

Never forget that your contribution to the Hugh Shields Memorial Fund is a gift of immortality not only for others but for yourself, too! Eternally it has been the law of life that a man lives by what he gives. In joining the Roster of Donors to this Fund, you will help countless young Delts in the years to come. You will help them build finer and richer lives for themselves and their loved ones. You will help them make a greater contribution to the world in which they are to live!

In our first report, we stated that the enthusiastic and loyal support of thousands upon thousands of Delts could bring the Hugh Shields Memorial Fund up to \$250,000, \$500,000, or \$1,000,000. Developments since that time have enhanced our confidence that these goals are attainable!

The answer, Brothers of Delta Tau Delta, lies in your hands! It is our prayer that your name will be on the Roster of Donors by the next listing, if it is not already there. If you know a Delt whose name is not on the Roster, please ask him to join us.

Fraternally yours,

W. H. ANDREWS, JR.

Chapter Publications Award Winners

CHAPTER newspapers and rush books have been evaluated, and the winning chapters selected by the judges. Criteria employed include the general appeal and interest to the intended audience (alumni in the case of newspapers, rushees in the case of rush books), quality of writing and editing, and attractiveness of layout and printing. In the case of newspapers, frequency of issuance is considered, although more than three issues per year does not influence the award. To be ranked, chapters must do their own work in the writing, editing, and layout; professional service in these areas disqualifies a chapter, except for honorable mention. Here are the winners:

NEWSPAPER FORMAT

First Place: Upsilon (Rensselaer)

Second Place: Nu (Lafayette)

Third Place: Gamma Pi (Iowa State)

Honorable Mention: Beta Upsilon (Illinois), Gamma Tau (Kansas), and Epsilon Iota (G.M.I.)

MAGAZINE FORMAT

First Place: Gamma Iota (Texas)

Second Place: Gamma Tau (Kansas)

Third Place: Delta Zeta (Florida)

Honorable Mention: Gamma Theta (Baker), Gamma Psi (Georgia Tech), and Delta Eta (Alabama)

Winning Delt floats and lawn displays from Homecomings everywhere. Above: Top, left, first place display at Ohio Wesleyan; right, Florida's top float; second row, left, best float at South Dakota; right, Maryland's first place float. Below: left, West Virginia's third place float features "Snoopy"; right, "B.C." dominates Georgia Tech's runner-up lawn display.

ALUMNI NEWS

Battalion surgeon for 2d Battalion, 32d Artillery, serving in Viet Nam is Capt. **Robert C. Allin**, *Northwestern*, '60. A 1964 graduate of Northwestern Medical School, he entered active service with the Army upon completion of internship.

Philip Carey Manufacturing Company announced the appointment of **James W. Bartlett**, *Ohio*, '40, as administrative head of the firm's Southern Sales Division. Mr. Bartlett, a vice-president of the company, was already in charge of the Midwest and Eastern Sales Divisions. Joining Carey in 1940, he has served in many capacities, and has been a corporate vice-president since 1964.

Robert C. Becherer, *Purdue*, '23, president of Link-Belt Company since 1952, has been elected chairman of the board. Mr. Becherer was recently awarded the Doctor of Engineering degree by Rose Polytechnic Institute "in recognition of a distinguished career as private citizen and business leader."

Harris Trust and Savings Bank, Chicago, has named **Ralph A. Berg**, *DePauw*, '51, assistant cashier. With Harris since 1956, Mr. Berg has worked in several departments prior

RALPH A. BERG

Cmdr. ROBERT W. COLLINS

to his present assignment in the personal accounts division.

L. Andrew Borg, *Minnesota*, '36, is Commander in Chief of the Veterans of Foreign Wars. No honorary title, the job is a full-time assignment for the one-year term. This fall Mr. Borg made an inspection trip to Viet Nam on behalf of the VFW. In "civilian life" he is an attorney in Superior, Wisconsin.

Promotion of **A. Dean Burling**, *Pennsylvania*, '55, to an assistant vice-presidency was announced by First National Bank of New Jersey. He is the bank's advertising manager, and was formerly an assistant cashier.

Cmdr. **M. Scott Carpenter**, *Colorado*, '47, was the Honorary National Christmas Seal Chairman for 1965. Cmdr. Carpenter, whose mother succumbed to tuberculosis in 1962, feels an urgent concern for the programs of research, education, and treatment undertaken by the national association.

Recently retired from the Naval Reserve is Comdr. **Robert W. Collins**, *Mississippi*, '28. Comdr. Collins, a veteran of World War II and Korean service, and an attorney in civilian life, has served in Europe, the Middle

East, and the Pacific, as well as state-side.

Joseph H. Corbin, *Texas*, '41, has been appointed special representative in the Houston agency of American General Life Insurance Company. Mr. Corbin has been in the life insurance business since 1961, and had his own agency. An Air Force veteran and a pilot, he holds the rank of colonel. He had formerly been an officer with an oil company.

U. S. Steel Corporation has appointed **Daniel H. Core**, *W. & J.*, '40, general traffic attorney in Pittsburgh, Pennsylvania.

As a research associate with the Hospital Utilization Project in Pittsburgh, **Richard E. Davis**, *Allegheny*, '48, helps develop methods of better utilizing hospital facilities, as well as the time of physicians and hospital staff members. The staff furnishes consultative service to 38 hospitals in the area.

The Bureau of Research and Development of the Illinois state highway department appointed **Philip G. Dierstein**, *Illinois*, '49, Engineer of Pavement Research. He supervises the physical research laboratory of the bureau.

RICHARD E. DAVIS

DONALD B. GRIDLEY

John S. Disher, *Emory*, '65, is assistant field personnel manager with the Daniel Construction Company of Greenville, South Carolina.

The Dan Kemper Advertising Company, Chicago, has named **Carl J. Dueser**, *Illinois*, '33, chairman of its plans board.

A cash award of \$100 was given to Major **Robert M. Edwards**, *Colorado*, '53, for the best thesis in hospital administration at Yale University. Major Edwards received his master of public health degree from Yale last year, and is now assigned to Lowry AFB, Colorado.

The American Institute of Chemical Engineers, numbering over 26,000 members, has elected **William W. Ellis**, *Westminster*, '46, and *Missouri*, '48, as a director. Mr. Ellis is head of the Office of Post College Professional Education at Carnegie Institute of Technology.

Col. **John J. Farren, Jr.**, *Georgia*, '38, has been made commanding officer of the U. S. Army Post, Paris, France. Enlisting in the National Guard in 1930, he was commissioned through ROTC in 1938, and has been on active duty since 1941. He has served all over the world, and has been in France since 1962, most recently at U. S. Army Com Z headquarters in Orleans.

Named the 1965 distinguished alumnus of the Tulane University School of Business Administration is

G. Shelby Friedrichs, *Tulane*, '33. The award, established in 1952, is for "outstanding achievement in business, for leadership and service to industry, and continued interest in the problems of university education." Mr. Friedrichs is a partner in the New Orleans investment firm of Howard, Weil, Labouisse, Friedrichs and Company.

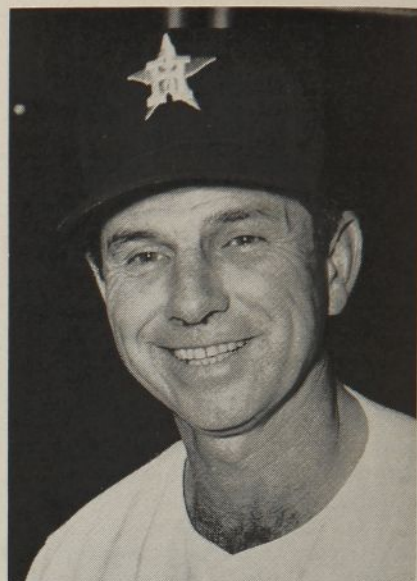

Driving a borrowed McLaren Elva, **Bernard T. ("Bud") Gates, Jr.**, *Indiana*, '46, won the Sports Car Club of America national championship race, with an average speed of 83.163 miles per hour. Mr. Gates is president of Bud Gates Lafayette Motors, Inc., of Indianapolis.

McGraw-Hill, Inc., has appointed **Donald B. Gridley**, *Northwestern*, '44, publisher of *Chemical Engineering*. He had been advertising sales manager of the magazine since 1960, and has been with McGraw-Hill since 1954.

George C. Grisaffe, *Arizona*, '63, has begun a one-year executive training program with the Atomic Energy Commission's Albuquerque Operations Office. He is assigned to the contract division.

Having been graduated from the Air Command and Staff College, Capt. **Richard W. Hafner**, *Ohio*, '53, has been assigned to the Air Force Academy.

Promotion to captain has been announced for **Samuel L. Hall**, *Nebras-*

GRADY E. HATTON

ka, '60, navigator on a C-141 *Starlifter*. Capt. Hall is with a unit of the Military Air Transport Service at Travis AFB, California.

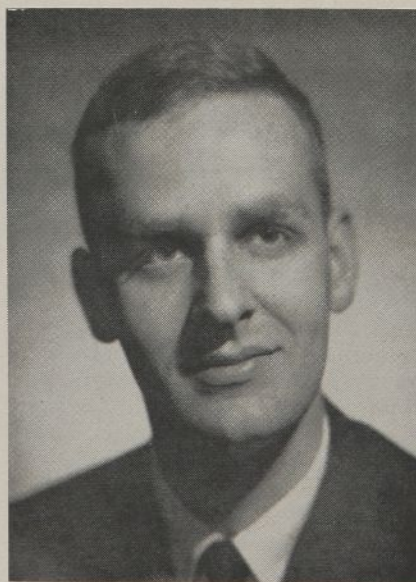

Emory University's Alumni Association has named **Isaac H. ("Ike") Hancock**, *Emory*, '62, as administrative assistant.

Winner of a \$2,500 fellowship from the Mellon Foundation, **David T. Harden**, *Emory*, '64, is attending Georgia Tech, working toward a master's degree in city planning. Mr. Harden is serving his chapter as treasurer of Emory's house corporation.

First Lt. **Daniel K. Harmon**, *Oregon State*, '62, a pilot with the 356th Tactical Fighter Squadron, has arrived with that unit for a tour of duty at Misawa Air Base, Japan. His unit will support the Pacific Air Forces.

Named a trustee of the Industrial Advertising Research Institute was **Robert L. Hartford**, *Ohio*, '36, vice-president of Penton Publishing Company, Cleveland. Mr. Hartford is a former member of the Arch Chapter of the Fraternity, having served as President of the Northern Division, Secretary, and Secretary of Alumni.

The year 1965 was a good year for **Grady E. Hatton**, *Texas*, '43, as he was selected by *Sporting News* as the minor league manager of the year, and was named manager of the Houston Astros. His fine job of leading the Oklahoma City '89ers to the Pacific Coast League pennant, while develop-

GEORGE C. GRISAFFE

ing young talent for the parent Houston team, was cited. This was the second time in three years that he had piloted the '89ers to the pennant.

Another Gamma Iota Delt, **Michael F. ("Pinky") Higgins**, Texas, '31, was inducted into the Texas Sports Hall of Fame. Mr. Higgins, now a scout for the Houston Astros, played with the Philadelphia Athletics, the Detroit Tigers, and the Boston Red Sox, and was manager of the Red Sox 1955-63 and 1965. The Associated Press selected him as American League Manager of the Year for 1955.

Lincoln Savings and Loan Association, Los Angeles, has named **Simeon C. Hixson**, Colorado, '59, and U.S.C., '59, a vice-president.

Manager of the United Nations special fund since its creation in 1959, **Paul G. Hoffman**, Chicago, '12, has now been made administrator of the United Nations Development Program. Mr. Hoffman, who rose to be president of Studebaker Corporation before retiring from industry, has since devoted himself to public service. He was the first administrator of the Marshall Plan, served two years as president of the Ford Foundation, and was a member of the U. S. delegation to the U. N. General Assembly. Mr. Hoffman served the Fraternity as President from 1939 to 1943.

Lafayette (Indiana) National Bank announced the promotion to assistant cashier of **David N. Howarth**, Wabash, '58, and Purdue, '58. A member

of the loan department, Mr. Howarth was with the bank from 1958 to 1961, and returned in 1964, in the interim being a partner in an automobile sales firm.

George J. Howick, Bowling Green, '57, has been appointed director of the Technology Utilization Division of the National Aeronautics and Space Administration. The division is responsible for identifying new knowledge and making it available through a variety of programs, including dissemination centers at eight universities and research institutes. Before joining NASA, Mr. Howick was an editor of *Steel*, *The Metalworking Weekly*, and served as manager of industrial technology services with Midwest Research Institute.

In addition to being director of public relations for Linfield College, **B. Bruce Huffman**, DePauw, '46, and Michigan, '50, is also assistant to the president for Development and Church Extension. Before going to Linfield in 1963, Mr. Huffman had been manager of the Oregon-Washington Packaging Division of the Mead Corporation and had been an account executive with CBS-Television in Los Angeles.

After flying 51 combat missions in Viet Nam, 1st Lt. **Thomas L. Kingery**, Oklahoma, '62, has been awarded the Air Medal with oak leaf cluster (signifying a second award of the Medal). The lieutenant is an F-102 Delta Dagger pilot.

District manager in Houston for Clark Controller Company, Cleveland, is **G. William Kisler**, Colorado, '41.

Dan M. Krausse, Texas, '46, has been named president and chief operating officer of Champlin Petroleum Company, a subsidiary of Celanese Corporation, and was also made a director of Champlin.

Judge **Frederick Landis**, Indiana, '32, has resigned from the Indiana Supreme Court to accept appointment to the U. S. Customs Court in New York. The federal position is life tenure.

Pilot of an armored helicopter, Capt. **David J. Larcomb**, Ohio, '59, is now in Viet Nam.

The new librarian at the University of Michigan's Education Library is **Donald G. Leatherman**, Michigan State, '50. Mr. Leatherman recently received the master's degree in library science from Michigan.

Named head football coach at his

H. THOMAS LINDY

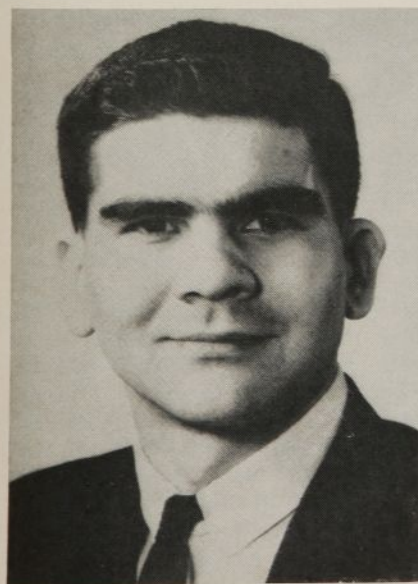

alma mater, **Edward W. Lewis**, Western Reserve, '46, also holds the title of assistant athletic director. Not only a fine teacher of the game, Mr. Lewis helped design some equipment, including a blocking machine.

H. Thomas Lindy, Bowling Green, '60, has been appointed associate director of the Tuberculosis Society of Columbus and Franklin County, Ohio. Mr. Lindy had been with the Montgomery County (Dayton) TB and Health Association since 1962.

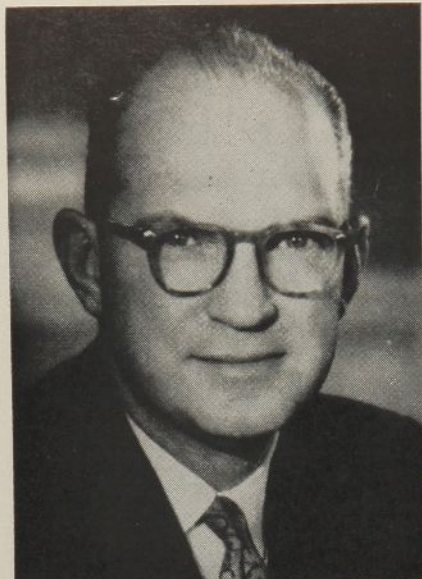

Carnegie Institute of Technology has presented its distinguished achievement award to **Louis C. Lustenberger**, Carnegie Tech, '26. Mr. Lustenberger, the president of W. T. Grant Company, has been a trustee of the Institute since 1960.

Bulk Terminals Company, Chicago, formerly a division of Union Tank Car Company, has retained its former management intact, with **Ben W. Martin**, Georgia Tech, '51, assuming the presidency. Joining the company in 1962 as executive vice president, he guided its development from swampland into a vast terminal. Prior to 1962 he had been with Mobil Oil Company and Monsanto Chemical Company, and served as a Navy pilot in World War II and the Korean War.

The Label Manufacturers National Association has elected as its president **William H. Martindill**, Ohio, '32. A former national Vice-President of Delta Tau Delta, Mr. Martindill is

GEORGE J. HOWICK

WILLIAM H. MARTINDILL

president of Michigan Lithographing Company, Grand Rapids.

Louis K. McLinden, *Pittsburgh*, '51, has been appointed sales manager for the Penn-Harris Hotel and the Penn-Harris Motor Inn, in Pittsburgh. Mr. McLinden had been with the Convention and Visitors Bureau since 1960, and before that was with the Sheraton hotels in Washington, D. C.

In his capacity as chairman of the Young Lawyers Section of the American Bar Association, **Robert S.**

ROBERT S. MUCKLESTONE

Mucklestone, *Washington*, '51, traveled all over the United States, Canada, and Europe, logging 100,000 miles. Mr. Mucklestone, a partner in the Seattle law firm of Holman, Marion, Perkins, Coie & Stone, is a member of the House of Delegates of the ABA and on the board of trustees of the Seattle Bar Association.

Federal-Mogul Corporation has named **Duane F. Murphy**, *Ohio*, '52, to the position of marketing services manager.

Robert W. Otto, *U.S.C.*, '53, is district operations manager in San Francisco for American Mail Line. Mr. Otto is a former vice-president of the Fraternity's Western Division.

Promotion to captain has been won by **Richard P. Platts**, *North Dakota*, '61, an aircraft commander at Travis AFB, California. Capt. Platts is a member of the Military Air Transport Service.

Membership in the President's Club of National Life Insurance Company of Vermont has been earned by **Richard C. Pursley**, *Miami*, '41. The honor is in recognition of outstanding client service and sales. Mr. Pursley, who has belonged to the organization previously, is with the Louisville, Kentucky, general agency.

Owen H. Richelieu, Jr., *U.S.C.*, '53, has been promoted to be a senior vice-president of Lincoln Savings and Loan Association, Los Angeles.

Libby, McNeill & Libby has appointed **Warren W. Rucker**, *Oregon*, '60, to a position in the advertising department of the firm's Western Division Marketing Department. Mr. Rucker was formerly with Procter and Gamble, in Cincinnati.

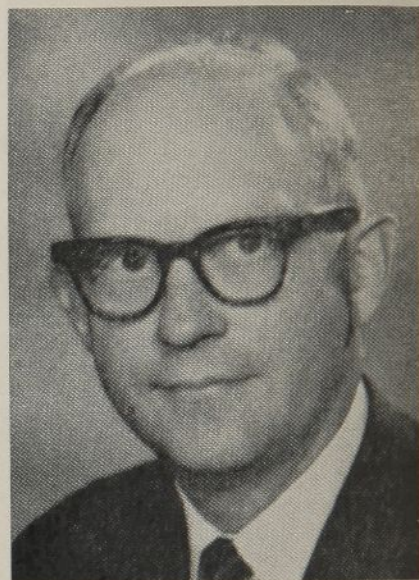

Cunningham-Limp Company announces the appointment of **Neale S. Schermerhorn**, *Michigan State*, '49, as vice-president. The company is an international firm of designers, engineers, and builders, specializing in industrial construction for leading corporations here and abroad.

Nearly doubling his quota, **Karl H. Schmidt**, *Ohio*, '41, sold \$586,000 in life insurance applications in a five-week competition, to rank 18th in the nation for National Life Insurance Company of Vermont. Mr. Schmidt is Akron representative for the Cleveland general agency of the company. He again earned membership in the firm's President's Club, to which he has belonged since its founding in

1956, and he is a life member of the Million Dollar Round Table.

Dr. (Capt.) **Charles D. Schwindt**, *Ohio State*, '60, has been graduated from the School of Aerospace Medicine at Brooks AFB, Texas. The doctor is assigned to a unit of the U. S. Air Forces in Europe, an element of NATO, and is stationed at Wheelus Air Base in Libya.

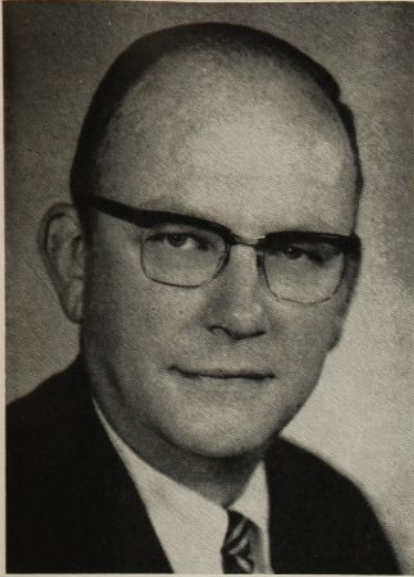

Aetna Life Insurance Company has named **Robert L. Sherman**, *Missouri*, '39, as supervisor at its San Francisco

NEALE S. SCHERMERHORN

general agency. Mr. Sherman is a graduate of West Point, and attended the University of Missouri School of Law.

Appointment of **Otto A. Silha**, *Minnesota*, '40, to the new position of general manager of the Minneapolis Star and Tribune Company was recently announced. Mr. Silha was business manager of the newspapers. He joined the *Star* as a copyreader on graduation from the University of Minnesota, and has been with the firm since that time except for four years with the Air Force in World War II, when he rose to the rank of major. In 1954 he was elected a director of the company, and in 1956 a vice-president. Mr. Silha is a regent of the University of Minnesota. As an undergraduate he was president of Beta Eta Chapter, and has served as a vice-president of the Northern Division of the Fraternity.

OTTO A. SILHA

John W. Stahlman, Kent State, '52, is acting chief of the economic section of the American Embassy in Jordan. He holds the rank of Second Secretary of Embassy.

After nine months' training and studying French and African culture

in Brussels, Belgium, **John D. Studstill, Emory, '64**, has been assigned to the Congo as a member of a special Methodist missionary task force. Mr. Studstill will serve in the city of Kolwezi, as a social worker.

The Philip Carey Manufacturing Company, Cincinnati, has appointed **Theodore D. Tillman, Kentucky, '54**, as sales manager of its Western Division. Previously a marketing manager at the Miami-Carey Division, he now is responsible for promotion and sale of that line of home appliances and accessories, and the Philip Carey line of building products.

Jere A. Young, Pennsylvania, '58, has been appointed assistant secretary of Industrial Valley Bank and Trust Company. Mr. Young had been with the Philadelphia law firm of Dechert, Price & Thoads. A *cum laude* graduate of the Yale University School of Law, he was editor of the *Yale Law Journal*. At Pennsylvania he was president of Omega Chapter.

As a member of the 19th Air Commando Squadron, 1st Lt. **Richard E. Young, Arizona, '62**, has a standing invitation to visit Vietnamese and American forces at their isolated outposts. The lieutenant, a navigator

JERE A. YOUNG

aboard a C-123 *Provider*, flies out of Tan Son Nhut Airfield. The squadron delivers reinforcements and supplies and evacuates wounded, often under Viet Cong fire, and the crews drop flares to light night combat operations.

OREGON CALLS

(Continued from page 24)

sea level, are of volcanic origin and perennially snow-capped. These mountain peaks joined north-to-south by the "skyline trail" overlook Oregon's "mile-high" playgrounds, where nature has created a million-acre wilderness recreation area unmatched anywhere in the world.

Between the Coast range and the Cascades lie fertile valleys. East of the Cascades are valleys and plains, cut by deep scenic gorges filled with fascinating geological wonders. Crater Lake, in the south central region, is situated in the caldera of Mount Mazama, a 12,000-foot volcano which erupted thousands of years ago, collapsing an entire mountain. The lake is six miles across and encircled by lava cliffs rising 500 to 2,000 feet above sea level.

The great gorge of the Snake River

forms most of the eastern boundary of the state, and the Columbia River the boundary to the north. Precipitous high bluffs and scattered overcroppings of volcanic spires and cathedrals rise from the floor of the Columbia River gorge, and dozens of cascading waterfalls dropping from dizzying heights create one of America's most scenic wonders.

Many of Oregon's historical sights have been identified along major travel routes. You may travel, in some areas, along parts of the old Oregon Trail, drive by the first capitol of the Oregon Territory at Oregon City, see the home of Dr. John McLoughlin of the Hudson's Bay fur trading era . . . view Albert Rim, highest fault on the North American continent or visit old Fort Clatsop, headquarters for Lewis and Clark, first explorers to reach Oregon overland in 1804.

Exceptional hunting and fishing opportunities are abundant in the wilderness areas of the state's national

forests. Oregon has the finest salmon fishing in the world, with lakes, streams, bays and ocean waters producing limit yields of Chinook salmon, steelhead, brook, rainbow and cutthroat trout, bass, and panfish.

Your host city of Portland is a teeming, exciting, and beautiful city of just under 500,000 people. It's a city of bridges, divided by the Willamette River . . . a port city of interesting waterfront . . . a garden city, with magnificent gardens and roses . . . a gourmet city with exciting cuisine of every variety . . . a golf city with some of the most beautiful courses in America . . . a shopping city that boasts Lloyd Center, the world's largest shopping center . . . a city of history with a new Oregon Historical Society Museum in the core area . . . a city of culture with a noted Art Museum, Symphony, and Opera . . . an exciting, fun city with hospitable friendly people . . . a great city for a great Karnea.

THE DELT INITIATES

Editor's Note: This department presents the chapter number, name, class, and home town of initiates reported to the Central Office from July 10, 1965 to January 15, 1966.

ALPHA—ALLEGHENY

- 1066. Frederick L. Porkolab, '68, Mercer, Pa.
- 1067. David L. Reed, '68, Medford, Mass.
- 1068. James A. Jackman, '67, Corry, Pa.
- 1069. Kenneth B. Frenke, '68, Mineola, N. Y.
- 1070. Stephen J. Congdon, '68, Ulster, Pa.

BETA—OHIO

- 1288. Douglas W. Allinger, '66, Sidney, Ohio
- 1289. Richard O. Merritt, '66, Lakewood, Ohio
- 1290. James F. Lewis, '68, Warren, Ohio
- 1291. John E. Pyle, '66, Greenfield, Ohio
- 1292. Brad L. Cooper, '68, Cincinnati, Ohio
- 1293. Robert H. Green, Jr., '68, Rocky River, Ohio
- 1294. William P. McMillen, '69, Stow, Ohio
- 1295. Russell M. Trupp, '68, Cincinnati, Ohio
- 1296. Robert D. Clevenger, '68, Marysville, Ohio
- 1297. Timothy R. Specht, '68, Lewiston, N. Y.
- 1298. Roger B. Penske, '67, Toledo, Ohio
- 1299. Charles V. Hughes, '68, Cleveland, Ohio
- 1300. Kenneth G. Martin, II, '68, Toledo, Ohio
- 1301. Dennis L. Crawford, '68, Warren, Ohio
- 1302. David A. Demor, '68, Pittsburgh, Pa.
- 1303. Walter L. Harrison, Jr., '68, Dayton, Ohio

GAMMA—W. & J.

- 871. Robert I. Rodgers, '66, Johnstown, Pa.

Gamma Xi Honors Mom Sawyer

By STEVEN S. UNANGST, *Cincinnati*, '67

THE BROTHERS of Gamma Xi honored Mom "Shifty Swingate" Sawyer November 14, at a surprise testimonial dinner in recognition of her ten years as housemother to the Cincinnati Delts. Eight of the past ten presidents of the chapter were present, traveling over 2000 miles to reminisce—seriously and humorously—about Mom's spirit and wisdom.

As a token of appreciation and pride, the chapter presented Mom with a round trip plane ticket to Portland, Oregon—to attend the 1966 Karnea. The Cincinnati Alumni Chapter, well represented in the 250 people in attendance at the banquet, presented her with a complete expense account for the trip. She served as official hostess for the Cincinnati Karnea in 1964, and she also attended the 1962 Karnea in New Orleans.

Howard Krueger, Mr. Delt in 1963, shared many remembrances of "Shifty" on this occasion, which we want to share with Delts across the nation.

"I remember the Mom Sawyer who trembled in her room as the Phi Kaps marched through the Delt House with drum and bugle at 3 a.m., leaving a trail of flour as memento.

"I remember the Mom Sawyer who befriended all pledges and whose memory of names continues as the 8th wonder of 'housemotherhood.'

"I remember Mom Sawyer warming her cold hands in a dark shack in the wilderness, where the Delts had their one and only Hay Loft Party.

"I remember Mom Sawyer, tightly robed and black hair net in place, standing outside her room in the middle of the night, offering thoughtful messages as the old furnace rumbled threats of explosion throughout the lower floors.

"I remember the Mom Sawyer who started the new sport of glass humming at dinner time, only to lose out in the finals of the Housemother's Glass Humming Contest of 1963.

"And finally, I remember Mom Sawyer's kindness, sincerity, loyalty, and love for Delt and all those who work hard for the Fraternity's success."

Brother Dan Early, president of

Gamma Xi during the 1964 Karnea, expressed everyone's gratitude succinctly. "I know, as we all do, that the Gamma Xi of today would never have been possible without the stabilizing force you have exemplified. I would be remiss to overlook those things which you do that we take for granted—those sewn-on buttons and crests, the millions of pieces of stretched crepe paper for floats, the diplomatic handling of the cooks, your extraordinary memory for dates' and rushees' names—but more important than

Mrs. ROSE SAWYER

these, the day by day and year by year continuity you have lent to Gamma Xi's programs, events, and operations."

Brother Mel Hensey, who, as Gamma Xi's president brought Mom Sawyer to the Shelter, spoke at the dinner. Congratulations poured in from all past presidents who have known Mom, as well as national President Arnold Berg and other members of the Arch Chapter, and President Langsam and other officials of the University of Cincinnati.

As the program was concluded with our sweetheart song, Mom said, "I will never forget this day; of all the things that have happened to me in the past ten years, this will stand out."

Florida State Delts Write Troops in Viet Nam

THE RAINBOW commends the brothers of Delta Phi Chapter at Florida State University for the letter of encouragement and support which they sent to an American unit in Viet Nam.

The letter, addressed to troopers of the 101st Airborne Division, reads as follows:

"Recently there has been much said about the demonstrators complaining about our men in Viet Nam. This small group of individuals has been given so much notice that we fear that you might think that they represent a far greater number than they do.

"It seems funny that we must defend in Viet Nam the right of free expression and speech. For in doing so, we give these demonstrators a tool to use against freedom and our American way. Who among us would have it another way? None, I'm sure.

"This Christmas, more than 99 per cent of America will join us in prayer for your safety and success. As you know, less than one per cent is a small portion of the vote, and we are still, due to your efforts, a democracy. Therefore, this one per cent does not matter even though they do make headlines.

"Let us hope that America succeeds in placing the flag of freedom deep in Viet Nam soil. For by doing so, the U. S. will give notice to the world that she will defend freedom any time and any place until success is hers.

"It saddens us to know that you will not be home for the season's holidays. Yet we know that you will understand and believe us when we extend to you a most sincere season's blessing.

"Respectfully yours,
"The Men of Delta Tau Delta Fraternity"

FRIENDS OF HUGH SHIELDS
AND DELTA TAU DELTA

Tom L. Melven

Salute to Norm

(Continued from page 20)

in 1962 was named a layman of distinction. In 1963 he was toastmaster at the Pittsburgh meeting of the National Interfraternity Conference, and he is currently a member of the Executive Committee of NIC. In the spring of 1965, the School of Business Administration, University of Pittsburgh, honored him with its distinguished alumni award.

"To Norman MacLeod, Delta Tau Delta has been a way of life for more than 50 years," declared Toastmaster Grove, as he presented Norm a handsome leather-bound book containing testimonial letters from the members of the Arch Chapter who served when Norm was President, the present members of the Arch Chapter, former Presidents of the Fraternity, the undergraduate chapters, and many close personal Delt friends. On the cover is the Delt crest in color, and the words "Presented to Norman MacLeod by the Pittsburgh Alumni Chapter, Delta Tau Delta Fraternity, October 22, 1965." As he accepted the book, Norm received a standing ovation.

In his remarks, Brother MacLeod stressed the great and growing importance of fraternities developing—and following—programs that will make positive contributions to education, and of seeking to build a better image of fraternities before all the publics. He pointed out that the college fraternity may well become the only remaining unit on our campuses dedicated to the values arising from small group living, bound by fraternal ties and brotherhood, where personal interest in one another surpasses the IBM card, the computer rating, or the dormitory number which now largely identify the student on our campuses.

In introducing President Arnold Berg, Norm called attention to the fact that the Pittsburgh area has long been known for its strong support of the Fraternity, and, in welcoming the 26th President of Delta Tau Delta, Pittsburgh was again demonstrating that her closeness to the birthplace of the Fraternity constantly served as an inspiration to Delts throughout this area.

President Berg paid high tribute to

Norman MacLeod for his many years of outstanding service to our Fraternity and the interfraternity movement.

The President reviewed briefly the remarkable growth and development of Delta Tau Delta, from a single chapter at Bethany to an international brotherhood of 91 undergraduate chapters of over 5,000 brothers, backed by nearly 60,000 alumni. He referred to the current expansion into new institutions and to the new and improved housing being obtained at chapters throughout the Fraternity. He commented on new programs designed to improve scholastic and operating standards, and reported on the inspiring response already evident to the Hugh Shields Memorial Fund.

President Berg outlined the challenge facing America's college students today and the response of Delta Tau Delta in its program which he termed "The Pursuit of Excellence." In predicting that the American college fraternity is here to stay, he stated that the original reason for the formation of fraternities has remained unchanged—the need and urge for brotherhood. Delta Tau Delta, in robust health, looks forward to the brightest future of its 107-year history.

The program was concluded with the singing of "Delta Shelter," led by Earl D. Hollinshead, Jr., Ohio, '48, accompanied by Dr. Runzo.

One of the notable features of the occasion was the attendance of eleven Delts who were initiated 50 or more years ago; in order of their class year, they are as follows: Branch Rickey, *Ohio Wesleyan*, '04; Charles F. Lewis, *Allegheny*, '09; James T. MacLeod, *Pittsburgh*, '11; Mark M. Grubbs, *Penn State*, '13; Paul E. Hutchinson, *Ohio Wesleyan*, '13; Levi Bird Duff, *M.I.T.*, '14; Marcus A. Follansbee, *Pittsburgh*, '14; N. R. High Moor, *Kenyon*, '14; Dr. William F. Swanson, *Penn State*, '15; Thomas A. Frazier, *Pittsburgh*, '16; and Walter Engelhardt, *Pittsburgh*, '17.

Heading the committee for the testimonial dinner were Kenneth Query and John Grove, with Henry E. Haller, Jr., *Pittsburgh*, '35, handling arrangements; W. Stewart Townsend, *Penn State*, '32, publicity; and James M. Donahue, *Pittsburgh*, '60, reservations.

Branch Rickey

(Continued from page 13)

Yet his greatest characteristic was his infinite kindness. When he first came to Ohio Wesleyan as a farm boy from Duck Run, Ohio, he was, most fortunately for Delta Tau Delta, met at the Hocking Valley station in Delaware, by C. E. Persons, *Mu*, '01. "You didn't become acquainted with Rick—you just *were* acquainted with him from the instant you shook hands," says Brother Persons of his old friend. Those of us who knew him intimately will always remember this characteristic—his instant genuine and gracious interest in whomever he met, and the piercing but kindly flash of his eyes beneath the magnificence of his shaggy brows.

Upon his death, many of the headlines carried a reference to the helping hand which Branch Rickey constantly offered. He was never one to say to a friend, "Let me know if I can help you." He never waited to be asked for help. He spent much of his time devising specific ways and means to assist people. There are a great host who will testify that in their hour of need or despair, a call came from Branch Rickey, and with that call a solution to their problem. He was deeply and sincerely loved by all who knew him well, a tribute to the infinite kindness which the man possessed.

Akin to his kindness was his great humility. He spurned every effort to include him in Baseball's Hall of Fame during his lifetime. He was more interested in perpetuating the memory of other baseball greats than in permitting a niche to be carved to his own memory. He gave to his chapter, at Ohio Wesleyan, in memory of his only son, the late Branch Rickey, Jr., *Mu*, '35, hundreds of volumes of his fine library, together with a substantial library endowment fund, but was hesitant that he be accorded any special recognition or honor because of the gift. He felt humbly and greatly honored by his membership in Delta Tau Delta. It would never have occurred to him that the Fraternity was deeply honored by his membership and by his contributions. His deep and abiding personal religion kept him a humble person.

Brother Rickey's Distinguished Service Chapter Citation sums up for us his significant life:

For more than fifty-six years active in the welfare of his Chapter and that of the general Fraternity; a shining symbol in the fight for human rights, he has always been, and is today, an inspiration and dynamic leader. Countless thousands of young men during his lifetime have been guided into manly responsibility by his wisdom and sympathetic understanding. If it is true, as he himself has said, that "luck is the residue of design," then it is as surely true that the respect and affection which he commands are the residue of a lifetime of compassion and accomplishment. Deltas everywhere are proud to call him "Brother."

Several years ago, at a Delt function, at *Mu* Chapter, Brother Rickey ended his remarks by turning to

Brother Persons and saying, "Thanks, Ed, for meeting me at the Hocking Valley Station that day!" We as his brothers in the bond and as his fellow countrymen may be equally grateful for having met and known this Good Delt and this great American.

OBITUARIES

COL. CARLISLE V. ALLAN, *Illinois*, '18, died December 8 in Washington, D. C., of cancer. He was 69.

A career Army officer, the colonel was awarded the Legion of Merit for devising the strategy by which the XV Corps, Third U. S. Army, cut off thousands of German troops in the closing of the Falaise Gap. For his planning of the corps' advance through Bavaria, he received a second award. Other decorations include the Bronze Star, the Air Medal, the Army Commendation Medal with cluster, the Chevalier of the Legion of Honor, and the Croix de Guerre with palm.

Born in Omaha, Nebraska, a descendant of Frederick Visscher, a colonel under George Washington in the American Revolution, he attended the University of Illinois for a year before entering West Point, where he was president of the Class of '19. He was assigned for further study at Columbia University, and earned the M.A. degree there, returning to the Military Academy as an instructor. While there he wrote a number of articles for newspapers and magazines.

Following World War II, Col. Allan was chief of the information division of Military Intelligence, then was assigned as military attache to the American Embassy in Switzerland, until his retirement in 1948.

After leaving the service, Col. Allan was a vice-president of International Products Corporation and a Washington representative for the Wayne Pump Company.

HARLAN O. ("PAT") PAGE, *Chicago*, '10, died November 23, following a brief illness, in St. Joseph, Michigan, at the age of 78.

Born in Chicago, he matriculated

first at Lewis Institute, but later enrolled at the University of Chicago, where he was a member of the championship football teams of 1907 and 1908, and the championship baseball teams of 1908, 1909, and 1910. He also played basketball at Chicago.

After graduation, Pat Page remained at his *alma mater* as head coach of basketball and baseball, and assistant coach for football and track. Later, moving to Butler University in Indianapolis, he turned out basketball teams which were nationally ranked in the early 1920's, and coached in three other sports there, too. His next position was head football coach at Indiana, and from there he returned to Chicago.

He was a member of the Helms Foundation Basketball Hall of Fame. In his playing days he stood 5' 7" and weighed about 160 pounds. Until 10 years ago, he pitched batting practice for a semipro baseball team in St. Joseph, and for the alumni in spring games against the University of Chicago varsity.

Babcock Begins

(Continued from page 12)

on the work of the Fraternity. "Except for \$15 given to Delta Chapter when that chapter was reorganized in 1880, [Alpha] never gave a penny to the General Fraternity. What money was spent in this way was the Fraternity's own, contributed by the chapters and spent by Alpha. . . .

"If you say that in 1883 *some members* of Alpha discussed going over to another fraternity, I . . . believe you; there are men with no higher regard for their personal honor than to do this very thing; but that a proposition was made to take *Alpha and her alumni* into another fraternity, I do not believe. . . . This would have been no more successful then than at the present time."

McClurg suggested the suspension of Alpha for three months and the removal of Koester as chapter adviser. "The Arch Chapter was more lenient to them than it should have been," he wrote Babcock in January, 1896. "Koester's assertions . . . in the realm of fairy tales."

Delta Tau Delta Fraternity

Founded at Bethany College, Bethany, Virginia (now West Virginia), February, 1858
Incorporated under the laws of the state of New York, December 1, 1911
Charter Member of the National Interfraternity Conference
