# Karnea 1978

f a single overriding evaluation of the Fraternity's Seventy-Fourth Karnea could be made, it might well be what one delegate described as a "spirit of partnership" between alumni and undergraduates.

Efforts have been made during the past few years to heighten alumni involvement and to prove the benefits of closer undergraduate-alumni relations. Success has been experienced at local, regional and division levels through accelerating programs of training and increasing attendance at such social functions as Homecomings. The Jazz City Karnea in New Orleans evidenced the same new spirit and attitude nationally.

The largest attendance of both alumni and undergraduates since 1958 included representatives from all five colonies. There were 725 Delts and guests at the Karnea Banquet. Committee chairmen reported exceptional interaction among alumni and undergraduate members. Sessions were lively, sometimes heated, unavoidably lengthy, but productive.

Special thanks went to alumni and undergraduates who conducted well-planned Mini-Seminars on topics of most concern to chapters, to members of the Karnea Planning Committee who spent many hours since the beginning of the year to host the affair, to chapters at LSU, Tulane and Southeastern Louisiana, for conducting the traditional model Ritual ceremonies, and to Karnea Secretary Robert P. Stapp.

An innovation, the Heritage Room, with displays of Fraternity memorabilia, slide films and other visual presentations, drew enough interest to be placed already on the agenda for the 1980 Karnea in Pittsburgh.

And after the usual competition of presentations for future Karneas, the delegation voted to recommend that the Arch Chapter select Denver for 1982.

eadership Luncheon Speaker E.
Henry Knoche described success as
requiring the concerting of many talents,
open-mindedness and willingness to hear
varying views. The former acting director
of the CIA, now a Boeing executive, said,
"The basic similarity between modern
organizations and fraternities is that each
involves learning how to live together and
work together to achieve together as a
group; each should aspire to social, moral
and intellectual improvement."

Chapter scholarship awards were given to winners in the four Fraternity divisions, and two others received special "Discretionary Awards" for creative, effective academic program development.

Chapter awards were based on an evaluation system utilizing scholastic average compared with division average, overall program of scholastic development, pledge education, chapter academic honors, and creation of unusual academic programs within the chapter.

Winners were: Epsilon Chapter, Albion, in the Northern Division; Beta Iota Chapter, Virginia, Southern Division; Beta Nu Chapter, MIT, Eastern Division; and Epsilon Beta Chapter, TCU, Western Division.

Discretionary Award winners were Beta Tau Chapter, Nebraska, for setting up a detailed scholastic program involving both actives and pledges; and to Delta Tau Chapter at Bowling Green, for an academic workshop in which members identify problem areas and suggest solutions, with assistance from a consultant from the Life Planning and Personnel Development Center at BGSU.

For their special awards, the Nebraska and Bowling Green chapters appropriately received creative laser-engraved plaques. Presentations were made by R. James Rockwell, Jr., the Fraternity's director of academic affairs and a laser consultant, as well as vice-president of Control Dynamics Inc., Cincinnati.

Mr. Rockwell also acknowledged 14 chapters who achieved chapter averages above 3.0 in 1977-78: Michigan, Kenyon, Albion, Virginia, Emory, MIT, Washington & Jefferson, Pittsburgh, Cornell, Tufts, West Virginia, Colorado, Nebraska, and Texas Christian.

# Karnea '78

rch Chapter members elected by the Seventy-Fourth Karnea represent a cross section of expertise and geographic locations, important to effective national leadership. All have long records of volunteer work for the Fraternity, including previous Arch Chapter service. They are:

President William J. Fraering, Tulane '46, president of Fraering Brokerage, New Orleans, who moves up from the position of vice-president and ritualist.

Vice-President and Ritualist the Rev. G. C. "Tex" McElyea, Ohio Wesleyan '47, a former president of the Western Division, rector of St. Lukes Episcopal Church in Dallas.

Second Vice-President Donald G. Kress, Lafayette '58, New York City broker, who moves from the position of Fraternity treasurer.

Treasurer Kenneth N. Folgers, Illinois Tech '58, Chicago architect, formerly the Fraternity secretary.

Secretary Wayne A. Sinclair, West Virginia '68, Charleston, W. Va., attorney who was Eastern Division president from 1973 to 1977.

Director of Academic Affairs R. James Rockwell, Jr., Cincinnati '59, vice-president of Control Dynamics Inc., Cincinnati, who was re-elected to his Arch Chapter position.

The division presidents, also members of the Arch Chapter, are not elected by the Karnea, but by individual divisions. They are Dr. Bert Hayes, Athens State '52, a member of the Athens State College faculty, Southern Division; David L. Nagel, Iowa State '63, Urbandale, Iowa, banker, Western Division; John W. Wood, Jr., South Dakota '68, Minneapolis attorney, Northern Division; Marion R. Llewellyn, West Virginia '34, Erie, Pa., industrial executive, Eastern Division.

# Karnea '78

At the concluding Banquet, Dr. Frederick D. Kershner, Jr., who had presided over the Karnea, turned over the gavel of leadership to the newly elected President William J. Fraering.

Dr. Perry E. Gresham, president emeritus of Bethany College and a legend in the fine art of speaking, presented an inspirational address on the meaning of being a Delt and the significance of the restoration that has taken place at the Fraternity's Founders

House in Bethany, W. Va.

When he finished, there appeared to be nothing that could top the moment. But Dr. Gresham strode to a microphone at the end of the platform and there, with piano accompaniment from Tom Sharp, the 70-year-old educator, writer, speaker, musician, displaying a rich baritone voice, appropriated the theme music from "Camelot" to sing his own lyrics, "In Bethany."

Toastmaster for the Karnea Banquet was Richard H. Englehart, a Los Angeles insurance executive and a Western Division vice-president. Father Thomas Duhé, Louisiana State '72, gave the invocation.

Alumni Achievement Awards were presented to seven men for distinguishing themselves and their Fraternity through exceptional career accomplishments. Retiring President Kershner made the presentations to Arthur C. Avril, G. Shelby Friedrichs, Robert G. Gillespie, E. Henry Knoche, I. William Martin, Jr., James T. McIntyre, Jr., and Charles "Blackie" O'Neal (see page 10). Mr. Avril gave an acceptance talk, representing the group.

Newly elected members of the Distinguished Service Chapter, introduced at the Banquet, were Richard H. Englehart, Henry A. Mentz, Wiley H. Sharp, Jr., Fred C. Tucker, Jr., and Walter J.

Verlander (see page 23).

Former Presidents Dickinson, Boyd, McCracken, Nichols,

Hartford, Hughes, Reynolds, and Williams

#### **Alumni Achievement Awards**

From Left: Knoche, Martin, McIntyre, Avril, Gillespie, O'Neal, and Friedrichs.

Arthur C. Avril, Ohio State '25, who invented a method of manufacturing dry concrete mix, is president of the Sacrete Company, Cincinnati. Although he is president of five corporations and an active partner in a German company, Mr. Avril finds time to serve several civic organizations. He and his wife were the first couple in the world to fly more than a million miles together, reaching that mark in 1963. Since then they have flown another million and a half miles together.

G. Shelby Friedrichs, Tulane '33, is chairman of the board of Howard, Weil, Labouisse, Friedrichs, Inc., New Orleans investment bankers. He is a trustee of Tulane University and former president of the Tulane Alumni Association, in addition to being active in many New Orleans business and civic organizations. An expert sailor, Mr. Friedrichs is a former commodore of the Southern Yacht Club of New Orleans.

Robert G. Gillespie, Alabama '28, former chief justice of the Supreme Court of Mississippi, currently serves as a visiting professor of law at the Mississippi School of Law. Judge Gillespie, who lives in Jackson, was an agent of the FBI during the 1930's, helping track down John Dillinger and other law breakers of that era. After being appointed to the Supreme Court of

Mississippi, he served for 28 years without being challenged by opponents in a single election.

E. Henry Knoche, Washington & Jefferson '46, joined the Central Intelligence Agency in 1953, after serving as a Naval officer in two wars. He held positions of intelligence analyst, deputy director of CIA planning and budgeting, deputy director of the Office of Current Intelligence, director of several agency components including an office charged with evaluation of foreign military developments, liaison man with Senate and House committees studying CIA activities, deputy director, and acting director of the agency. Today he is an executive with Boeing Aerospace in Seattle.

James T. McIntyre, Jr., Georgia '61, has one of the nation's most demanding positions as director of the Office of Management and Budget at the White House. President Carter initially nominated Mr. McIntyre as deputy director of OMB in early 1977. He was confirmed unanimously by the Senate, as he was for his present position, which he has held since March of this year. OMB is responsible for the financial plans under which the nation spends about \$500 billion a year. Moreover, President Carter has given OMB primary responsibility for charting a reorganization of the Executive Branch of the Federal Government.

I. William Martin, Jr., West Virginia '49, began his professional career with Commercial Credit Corp. in Washington, Pa. Since that time he has progressed through offices in Pittsburgh and the company's home base at Baltimore to become president of this leading consumer finance organization. The company he heads serves consumers and small businesses in 45 states. It has more than 540 offices employing 2,700 persons, and receivables outstanding exceed \$1.5 billion. He also is on the Executive Committee and Board of Directors of the National Consumer Finance Association.

Charles O'Neal, Iowa '27, novelist, playwright, motion picture writer, and former Iowa varsity football player, usually is referred to by his nickname, "Blackie." His novel, "Three Wishes for Jamie" won the Christopher Award and was made into a successful musical play for which he shared credit with Abe Burrows. He has written solo and jointly for RKO, Warner Brothers, Fox and other major Hollywood film producers, and for such television programs as "The Untouchables" and "Kraft Theater." Mr. O'Neal also has been highly successful as a play producer on the West Coast. However, he prefers to talk about his son and granddaughter, Ryan and Tatum, who chose the more visible phases of show business in front of the cameras.

# Why the Resurgence Of Fraternities?

By PETER GRIFFITH M. I. T.

T T HAS become increasingly obvious in recent years that the fraternity and sorority systems in the United States have begun to enjoy an era of new growth and

prosperity.

Chapters are being reinstated on campuses where they have not been for years. Houses that have just held on for the past decade or two have begun to thrive again. New universities and colleges are being colonized at an ever increas-

What is the reason for this change? Will the growth continue? Most importantly, why the resurgence of fraternities?

This prosperity is due not only to a change in the fraternities themselves, but also to a change in the attitudes toward them. There has been a change of mood evident on campuses everywhere. The pressure to "do your own thing" has become less prominent.

Campus demonstrations during the period of unrest in this country assisted in the decline of the fraternity system because participation in almost any campus related organization was considered to be pro-establishment, and for that reason it was discouraged.

There was a period of years when small pledge classes due to poor rushes led to financial difficulties. Chapters whose house corporations did not have sufficient assets in reserve eventually folded; others made do as best they

The years of campus activism have given way to campus involvement. The sixties and Vietnam are now behind us. A new generation has come into being, a generation that has not closed its eyes to involvement with groups, whether they be the family unit, the local youth group or the frater-

College campuses are no longer scenes of great unrest; they have once again become the centers of social and mental learning for which they were intended.

With these changes in our society, the fraternity also has changed, meeting the needs of the individual to be himself and also provide the brotherhood and friendship that defines the meaning of the word fraternity. Fraternities have become more than mere social groups. Many now are regarded as a source of campus and community leadership.

The Karnea Essay Contest was initiated by the Arch Chapter in 1976 and has become a regular biennial event. For submitting the best essay on this year's topic, "Why the Resurgence of Fraternities?" Peter Griffith of M.I.T. received an expenses-paid trip to the New Orleans Karnea, where he read his winning essay at a regular session. He also received \$50 in cash

A senior and current president of Beta Nu Chapter, Mr. Griffith is captain of M.I.T.'s water polo team and last year was named most valuable player and All-New England first team member. His home is in Rancho Palos Verdes, Calif.

Runners-up in the contest were Shane B. Hansen of Albion College and Joseph C. Heim of the University of Pittsburgh. Excerpts from their essays also are presented here.

Chapter houses are havens for the most highly regarded and in-(Continued on Page 46)

#### Focus on Ideals By JOSEPH C. HEIM

Why did the flame (of fraternal ideals) flicker? Maybe it was because fraternities became places of escape behind our great oaken doors where we want to get away from the maturation process called education. The emphasis became social prestige over integrity and personal development and certainly over our ideals and concern for our fellow man.

. . . I submit that the reason for the resurgence of fraternities today is that our ideals - and yes love have again become the focus or crux of the fraternity. The ideals and love have always been there, it is at times they have not always been the main focus.

Indeed, the very essence of fraternity living is often expressed through simple means. Few ways are better than calling one a "brother" and greeting him after a long absence or simply being there when he has a problem and needs someone to lean on. This is the ex-

pression of our ideals. This is the essence of fraternity.

As the pace of life in the 1970's quickens, as values, ideals and relationships are blurred by innovations of science and millions of competing ideas and voices, collegiate men across America are rediscovering the importance of being associated with and an integral part of a close group of friends, sharing in a commitment to themselves, to the fraternity, and to the community for the benefit of all.

Also, as the pressures of academic achievement are increased by a shrinking job market, the role of fraternities becomes even more important; it is important to complement the academics and assist in developing the social skills essential to functioning in this world, to. talk, and to participate in sporting activities relieving some of the tensions and anxieties, and to develop friendships which will last beyond the college years through the rapidly changing times.

# Looking Ahead

Top: Change of Command Bottom: The Karnea Committee

New Delt President
Offers Plans
For Continued Growth

DELTA TAU DELTA'S newly elected president already has put some of his plans in motion. Some of them involve continued expansion of leadership programs initiated by Dr. William O. Hulsey, immediate past second vice-president.

"The time seems ripe to recruit alumni from areas of dense chapter populations — Atlanta, Columbus. New Orleans and Indianapolis, for instance - and train them as key figures in the leadership program," President Bill Fraering says. "This will give the Fraternity a permanently trained base from which to develop leadership projects on a regional basis. It will increase alumni participation. provide continuity, and certainly be tremendously important for undergraduates. We have a wealth of alumni expertise and I am confident many will be willing to contribute some of their time for this kind of effort."

Mr. Fraering also intends to "fine tune" responsibilities of Arch Chapter members. To do so, he has asked each retiring officer to write a manual giving his impressions of the job. After editing by the President, the manuals will be passed on to new officers, who will in turn produce manuals at the conclusions of their terms.

Increased emphasis on division conferences, regional conferences, and chapter installations are planned by Mr. Fraering. "I want to get more Arch Chapter members visible at conferences and installations too," he says, "and to continue the practice of each chapter receiving at least one Arch Chapter visit every two years."

Another proposed area of development is direct service to house corporations. "The basis of this program is an outstanding report by a committee headed by former President Fred Tucker," Mr. Fraering explains. "Using that and other information, I would like to see us put together an inventory package for each house, giving its value, capacity, re-

placement value, feasible rental structure, and other data that will enable each group to evaluate its individual situation. House corporations can't become experts in all phases of fraternity house management, and I think they will welcome carefully prepared guidelines that can assist them in determining the most feasible methods of matching rental rates to insurance, upkeep, improvements, and replacements."

The new president gives much credit to his predecessor, Dr. Fred Kershner, for "initiating imaginative programs and continuing development of many others started in previous years." He points particularly to the increased role of division vicepresidents, something he intends to define and expand further.

In addition, Mr. Fraering hopes to involve nationally known Delts in a variety of fields to critique and

hopefully take part in special programs. "We need to look at such possibilities and identify the people available," he says.

#### Plans for Expansion

Expansion, long one of Mr. Fraering's favorite topics, is certain to remain in the forefront of considerations, "There will be further expansion, you can be sure of that," he says, "and it will take place according to the Bylaws, the schedule, and the assurance that each will be of lasting benefit to

the entire Fraternity.'

President Fraering has been a working alumnus for more than 25 years. His first official positions were as president of the New Orleans Alumni Chapter and president of Beta Xi (Tulane) House Corporation in 1954. Since then he has served as vice-president and president (two terms), of the Southern Division, secretary, second vice-president (two terms), and first vice-president. He also has served during the past six vears as Delta Tau Delta representative to the National Interfraternity Conference.

The New Orleans company he heads, Fraering Brokerage Co., is a food distributor, broker, and manufacturer of syrups for food manufacturers. It operates under three brand styles: Fraering Brokerage Co., Inc.; Dubon Co. (food distributor); and Southern Sweeteners & Syrups Co. (syrup manufacturer).

The President's wife, Barbara, also is well known among Delts who attend national events such as Karneas. They have a daughter, Mrs. Diane Provensal. Their son, William, Jr., LSU '74, died in an automobile accident in 1974.

In addition to his business and fraternity contributions, the new president is recognized as an unofficial public relations ambassador for the city of New Orleans and a seafood gourmet cook.

#### WAR-TIME STUDENT AT TULANE

When young Bill Fraering entered Tulane University in the summer of 1943, college life had become disheveled by World War II. At 16, still two years away from draft age, he enrolled in the University's speeded-up program of consecutive semesters, separated by one-week vacations, on a yearround schedule.

A graduate of Jesuit High School in New Orleans, Freshman Fraering set his sights on a degree in mechanical engineering. Through the persuasion of a friend, he also became a Delt.

The initiation class that year consisted of two young men, Bill Fraering and Preston Mottram. Then, suddenly and unexpectedly, the entire Delt chapter consisted of two young men, Bill Fraering and Preston Mottram.

All the others, having joined the Navy V-12 program, were called to active duty one week after the initiation. Urgency of the war led to commissioning of juniors, along with seniors in the V-12 classes.

War-time survival for Beta Xi Chapter seemed questionable until a Texas Delt, Dick Keiser, was transferred by the Navy to Tulane. He contacted the two remaining chapter members and the three found two more Delts among Navy men on campus. Together they convinced alumni to open the house for weekend parties and the chapter maintained that semiactive status throughout the war.

V-12 Student Fraering

At 17, Mr. Fraering also joined V-12, receiving a commission along with an engineering degree in 1946. Called to immediate active duty, he served aboard the light cruiser Cleveland (CL 55) until being discharged later that year.

He and Preston Mottram, now a vice-president of Universal Foods in Milwaukee, remain close friends and get together often in New Orleans.

# Venture Paradise The "Boys from Bali Hai" walk along a beach near one of their Polynesian hotels. From left are Hugh Kelley, Muk Mc-Callum and Jay Carlisle.

T'S BEEN nearly two decades since two Delts and a Kappa Alpha friend left lucrative jobs in California to take a crazy fling at living on the beautiful island of Moorea where they could absorb the Polynesian sunshine just a dozen miles across the channel from Tahiti.

Don "Muk" McCallum, Hugh Kelley and Jay Car-

lisle are still there.

The story of "The Boys from Bali Hai" has been told through the years by writers of most top American magazines and on such television programs as "What's My Line?" and "The Merv Griffin Show." Yet, reporters and television producers continue to search them out, along with airline personnel and tourists who have discovered the life described by the three adventurers as akin to a fairy tale.

Actually, the three consider themselves businessmen, not just adventure seekers, although they readily admit their motive was and continues to be the excitement of making a living where and how

they want to do it.

Visitors see them as a trio of exhuberant, fortunate Americans who proved that the old Hope & Crosby "Road" stories actually can exist. The truth is, the barefoot businessmen, as they once were described by a newspaperman, didn't reach their goal quite that easily.

Muk McCallum graduated from the University of Colorado in 1954. Hugh Kelley graduated the following year from the University of Southern California. Both active Delts, they met in 1957 at

Newport Beach, Calif.

Muk was a manufacturer's agent for fishing tackle lines and Hugh was a practicing attorney. Both knew Jay Carlisle, a broker on the Pacific Coast Stock Exchange, who also lived at Newport Beach. He had gone to high school with Muk and to

USC with Hugh.

As the three became good friends, they discovered a common dream of leaving the American rat race to live in bathing suits among the relaxed people of some far-off South Seas island. They even began purchasing Tahitian music for their hi-fis, learned to play mandolins, and gave parties at which they wore Tahitian pareus wrapped around their waists.

In 1959, Hugh Kelley accepted an invitation to join the crew of a boat sailing in the Trans-Pacific Yacht Race. When the owner of the boat decided to take it on to Tahiti, it was not difficult to pursuade

Hugh to go along.

When he returned to California, Hugh told his friends about a vanilla plantation he had discovered for sale on Moorea. In a very short time, the three friends were wearing their pareus for real, running their newly acquired plantation on the dream island.

There was only one problem. After one year of

what Muk calls "very shrewd operations," they were broke. But so was the owner of a small hotel next to their home on Moorea. Instead of following their first inclination to head back to California, they took over the hotel, naming it the "Bali Hai."

The place wasn't much — three rooms and four run-down bungalows, but it kept them where they wanted to be. Jay and Hugh ran the business while

Muk began selling stock to friends.

"We were kept alive by the Pan American and Qantas Airline crews who would land in Tahiti and then dash for the Bali Hai to raise hell with the three strange Americans at their odd hotel," Muk recalls.

All three took turns running out to meet planes and trying to chase down customers. They also battled the French and local Tahitian governments who refused to give them residence permits. Still, they managed to improve and expand their facilities, combining their own skills with those of the

cheapest native labor they could find.

Profit was an unknown commodity for many months. Then in December of 1962, Life Magazine carried an 8-page color layout on the "boys," their friends, the beautiful Polynesian surroundings, and the hotel. That was followed by articles in True, Argosy and Esquire. People read and came to see. Even the French government, deciding the hotel was helping Polynesian tourism, eased the pressure, although never actually providing the residence permits.

The Los Angeles Times West magazine, Playboy and Parade came to do features, and were followed

by more tourists.

In 1965 the trio bought a small hotel on Raiatea and in 1974 built a third, their ideal Polynesian hotel on the island of Huahine. The television ap-

pearances brought more visitors.

Today, The Bali Hai Hotels are internationally known. They feature overwater bungalows, which have been imitated by others in the Pacific. Their dining rooms have fruits and vegetables from their plantation, which now is a very profitable venture. There is tennis, swimming, bicycling, outrigger canoeing, cruises on the catamaran "Liki Tiki," Tahitian feasts, dancing, and such entertainment as firewalking, and always live Tahitian music.

Although they now have a manager and trained staff, all three remain active in their venture. Hugh Kelley is in charge of construction and legal work, Jay Carlisle handles all of the finances, and Muk McCallum runs the planation.

They still place high priority on enjoying life, however; guests find the owners joining them

regularly in all activities.

And even as they move into that inevitable bracket known as middle-age, they still are described by writers as "The Boys from Bali Hai."

# Leaders of a Turnaround

By CHRISTOPHER WALL Northwestern '78

**Edward Bryant** 

William Kunkle

PERHAPS the most overlooked contributors to the success of the individual fraternity chapter are the alumni Delts who volunteer their time, knowledge and experience to assist and help guide the operation of the chapter. Although alumni who boost the chapter financially are deservedly lauded for that support, those who spend time working directly with the chapter are often taken for granted.

Certainly the brothers of Beta Pi Chapter at Northwestern University have benefitted greatly from the persistent dedication of two alumni in particular: L. Edward Bryant and William Kunkle (both '63). During the span of the decade that they have served on the Board of the House Fund Corporation, they have seen Beta Pi through good and bad times, and it is largely through their concern that the chapter remains an active one today.

The anti-fraternity backlash of the 1960's hit Northwestern late but hard, and Beta Pi's membership, which had stood at well over 100 during the middle and latter part of the last decade, fell to a low of only 16 actives who returned for the fall rush of 1975.

During the summer of the same year, national advisers recommended that the House Fund Board close Beta Pi, and build resources for the future. Rush had been dismal for three straight years, and house leadership that remained was young and inexperienced. Certainly the suggestion seemed a reasonable one.

But the board, under the leadership of President Kunkle and Chapter Adviser Bryant rejected this suggestion, instead embarking on an ambitious program of renovating the house.

Under the diligent direction of alum Wes Snyder ('57), the public areas of the house were overhauled and beautifully redecorated. The work was financed by a large contribution from Brother John H. Hutchinson ('22), and lifted the spirits of the actives who returned that fall.

Working in concert with the House Fund Board, and buoyed by the newly decorated shelter, the actives pulled off their first successful rush since 1971. But there was still work to be done; bills were too high, membership was low, and chapter leaders were mostly inexperienced.

To ensure the continued success of the chapter, Mr. Bryant and Mr. Kunkle worked closely with chapter officers, training them and helping them to streamline operations. Indeed, it was not at all

Chris Wall received his bachelor's degree from Northwestern University in June and is enrolled in the Northwestern Graduate School of Management, majoring in marketing and finance. As an undergraduate, he was secretary, rush chairman, and alumni relations chairman for Beta Pi Chapter. He also played four years of varsity basketball, lettering three. He is a previous contributor to The Rainbow.

uncommon to find the executive board spending Saturday afternoon at Ed Bryant's Evanston home, discussing chapter affairs

over a cold beer.

The sacrifices of Bryant and Kunkle did not go without substantial results. As the chapter officers gained experience, rush began to improve, membership continued to grow, and alumni interest, which had been on the decline, perked up. Last year, for the first time in eight years, the chapter alumni program operated in the black. Needless to say, the Central Office was pleased.

When one takes the time to look at the occupations of Mr. Kunkle and Mr. Bryant, their dedication is all the more impressive. Mr. Kunkle has served on the House Fund Board for 10 years, yet free time is a very scarce commodity on his schedule. A 1969 graduate of Northwestern Law School, Bill has worked for the last several years in the state attorney's office in Chicago. An assistant district attorney, he is the coordinator of all criminal cases tried in Chicago, and has prosecuted many prominent cases himself. During his time there, he has gained a reputation as a very effective prosecutor.

In the fall of 1976, Bill ran for judge of the Cook County Circuit Court on the Republican ticket, but was not successful. This past December he resigned as HFCB president, although he remains on the board, to further pursue the judgeship in the next election.

Mr. Kunkle's dedication to Beta Pi dates back to his days as an undergraduate. He served as social chairman, Karnea delegate, and president of the chapter during his days at Northwestern. Upon graduation he moved to South Carolina in the employ of Union Carbide, but returned to Chicago when he decided that the Bar was his calling.

Immediately he plunged back into chapter affairs, this time as a member of the House Fund Board. Whether helping to train officers, setting up the Homecoming celebration, installing new fixtures or a bathroom exhaust fan in the shelter, or just playing a game of beerball, "Kunks" has

always been there when the chapter called.

Perhaps the only person who can rival Mr. Kunkle's dedication is Ed Bryant. Like Mr. Kunkle, he keeps busy with a barrister's schedule. Also a graduate of Northwestern Law School, Ed is a junior partner in the prestigious Chicago law firm of Gardner,

Carton & Douglas.

He has continued to serve the University as well as the N. U. Delt chapter. Besides his considerable role in Beta Pi affairs, Ed is serving or has served in recent years as president of the Northwestern Alumni Club of Chicago, president of the Northwestern Young Alumni Council, president of the Northwestern Alumni Fraternity Board, and as a Young Trustee of N. U.

As an undergraduate, Mr. Bryant held many chapter offices, including vice-president, and was president of the Northwestern Student Senate. He has been chapter adviser since 1964, only relinquishing that position last

December to succeed Mr. Kunkle as HFCB president.

The example set by these two men serves as a model of what alumni can do for a chapter through voluntary work. Without their concern and dedication, there would be no Delt Chapter at Northwestern today, although current membership is hovering around a healthy 50, and the potential for further growth certainly is present.

No doubt most chapters around the country have their own Ed Bryants and Bill Kunkles, but seldom do they receive proper recognition for the work they do. For Brothers Kunkle and Bryant, the work itself has served as its own compensation: they enjoy it and prefer to praise others rather

than be praised.

But at Beta Pi, the Brothers realize the contributions made by special alums like Ed and Bill; the fact that the chapter still exists is ongoing testimony to their efforts, and for that the brothers and alumni are eternally thankful.

#### A Smile From Above

I F THE late Hudson Stuck, University of the South 1892, is looking down upon current events on earth, he probably is smiling.

The famous mountain climber, who died in 1920, may soon have his way. Strong efforts are being made to change the name of Alaska's Mt. McKinley to "Denali."

Mr. Stuck gained international fame in 1913 when he became the first person to climb the 20,300-foot mountain. Many others had tried in vain to conquer the granite cliffs, crevassed glaciers, and avalanche-ridden slopes rising tier upon tier into upper space, 17,000 feet above the surrounding countryside.

A missionary among the Indians of Alaska and the Yukon, Hudson Stuck had followed with interest each successive attempt to conquer his beloved "Denali," the Indian name for Mt. McKinley, and the only word for it that he would toler-

ate. It was his contention that the Indians who had known the mountain long before the white man came had the right to say what it should be called.

After his great climbing feat, the determined Delt fought to his dying day to preserve the mountain's primitive name. Friends said it was one of the few battles he ever lost, for he was a man of great intellectual prowess and strong convictions.

When he died at Fort Yukon at the age of 56, the New York Times carried a complete account of his life and achievements. His story also was written by the late Numa F. Vidal, Colorado '23, for two magazines, The Saturday Evening Post and The Rainbow in 1950.

Today a major movement is underway to bring about the name change. Indications point toward success, something that would have made Hudson Stuck happy indeed. N THE wall of David O'Loughlin's office in Pittsburgh is a framed page from Sports Illustrated magazine telling of his winning the Western U.S. singles squash title for the fifth time.

The young director of planning and development for Allegheny County not only believes in maintaining sports competition, in which he excelled as an undergraduate at the University of Pittsburgh, he recommends it for everyone.

"The education of one's emotions so as to be able to cope with life beyond the athletic field is the most important benefit in sports, in my opinion," he says.

That opinion is well known and respected in Allegheny County. In his cabinet-level position, the 1963 Pittsburgh graduate has become closely associated with creative ideas for public recreation and athletics. Among those ideas are swimming pools featuring giant wave action for three county parks, a skybike trail, county-wide jogging and bike beltways, and even ice golfing on a park lake.

Stressing leisure-time planning, he has made plans to double the number of county tennis courts.

"Beyond my own experience, I have observed others being helped tremendously in the growing-up process, emotionally as well as mentally and physically, through sports," he explains.

Mr. O'Loughlin traces some of his philosophy on that subject to an aunt who is an educator he admires greatly. "She often has said that we spend long hours and thousands of dollars in educating the minds of young people, but we spend little, if anything at all in educating the emotions of those same young people," he says. "Situations of stress are necessary parts of life. Sports offer the opportunity at an early age for individuals to involve themselves in stressful situations and learn to cope with both victory and defeat.'

While he believes in team sports, Mr. O'Loughlin emphasizes what he calls "lifetime sports" as important to the physical, mental, and emotional health of Americans.

# Educating the Emotions

David O'Loughlin

"I believe that such lifetime sports as tennis, squash, racquet ball, paddle ball, handball, jogging, cross-country skiing, downhill skiing, swimming, canoeing, kayaking, white water rafting, hunting, fishing, golf, and bowling should be taught at as early an age as possible in our schools," he says with obvious conviction.

Mr. O'Laughlin's own undergraduate days at Pittsburgh were filled with competition in many sports. He competed on Delt intramural teams and earned seven letters in varsity competition.

Attending the University on an athletic scholarship, after excelling in high school football and baseball, he played left halfback on an undefeated Pitt soccer team. In tennis, he was most valuable player three years and captain two years.

But it was in squash that he gained widest attention, three times being named most valuable player on the team, with a national ranking of third in intercollegiate competition and, in 1963, a

number 4 ranking among all U.S. players. In addition, he played third base for the Pittsburgh Pirates' Little Pirates while in college.

After receiving his undergraduate degree, Mr. O'Loughlin went on to earn JDS and LLB law degrees from the University of Pittsburgh. He passed the Pennsylvania Bar Exam in 1966 and was admitted that same year to practice in the Commonwealth of Pennsylvania State Supreme Court and Commonwealth Court. The following year he received an MBA degree from Pittsburgh, majoring in finance.

After serving for three years as legal counsel for an investment banking firm, Mr. O'Loughlin became associated with the office of the mayor of Pittsburgh, first as federal aid coordinator, then housing coordinator for the city.

During 1976 he was director of the Allegheny County Department of Parks, Recreation and Conservation, before assuming his present duties as head of the Allegheny County Department of Planning and Development in early 1977. He also serves as a member of the Southwestern Pennsylvania Regional Planning Commission.

His wife, the former Johanna Grubschmidt, is an attorney with Reed Smith Shaw & McClay in Pittsburgh.

Although his drive today is channeled primarily toward solving problems in housing, transportation, and industrial development, David O'Loughlin remains a strong advocate of wide-spread recreation. He also continues to practice what he prescribes for others. He is a ranking tennis player in Pittsburgh. He has been ranked in the top 20 U.S. squash racquet players five times and has added one Western United States Doubles Championship to his five singles titles.

His advice to all who will listen is to get into some competitive physical activity. "I simply am convinced that the benefits for anyone taking part in both team and individual sports extend well beyond physical fitness itself," he

savs.

In THE lobby of Morgantown's archaic Hotel Morgan, while people passed to and from places of business and leisure, the life of an elderly woman was about to be lost. And on the fifth floor of that same hotel, a young Delt was packing for a trip home and a formal that evening.

Within minutes, fate would bring these two lives together, and when it was over, many would refer to what was to happen as a

miracle.

Eugene Manasterski was a heavy-set junior from the University of Pittsburgh. His dark curly hair usually was uncombed and he wore thick glasses that he was always adjusting to get a better view of things. He was serving in his third month as president of Gamma Sigma Chapter, and he was in Morgantown for Delta Tau Delta's Eastern Regional Conference.

He had mixed emotions about leaving the conference early to attend a formal that evening, but because he was late and another brother, Mike D'Alesandro, was waiting in the lobby, he didn't have time to reconsider his

decision.

When he reached the lobby, he realized that D'Alesandro had left. Rushing to the door, he was relieved to see that D'Alesandro was parked in a car outside, with his girl friend and her roommate.

As he loaded his suitcase into the trunk of the car, Manasterski realized that he hadn't returned the key to his hotel room.

"Michael," he said, "I'm going to return these keys, and I'll be

right back.'

"Manasterski, you..."
D'Alesandro replied both amused and disgusted.

On his way into the lobby,

#### THE AUTHOR

John "Huck" Finn, a 1978 graduate of the University of Pittsburgh, has been a regular contributor to The Rainbow as an undergraduate. He received the Fraternity's top writing award for 1976-77 and was named to the Editorial Board in 1978.

# Life Saving Effort

By JOHN FINN Pittsburgh '78

Eugene Manasterski

Manasterski noticed a thin, pale elderly woman apparently sleeping on the bench. After returning the key, he took a second look at the woman and realized that something was wrong.

The woman's hair was pulled tightly into a bun on the crown of her head. She wore a vanilla nightgown under her beige overcoat. Her eyes were closed, her skin was cold and her face was

chalky white.

It was not an unfamiliar sight to Manasterski who serves as an emergency medical technician on an ambulance crew during the summers in his hometown of Aliquippa, Pennsylvania. He had seen similar situations many times and he knew immediate action had to be taken.

An expert in Cardio Pulmonary Resuscitation, Manasterski began administering the first phase — shake and shout. "Are you all right," he cried while jostling the woman. There was no response, so he ran to the door of the hotel lobby and frantically waved for D'Alesandro.

Initially, D'Alesandro didn't respond. It was just another delay, he thought to himself, but as Gene began to wave even more frantically and to yell,

D'Alesandro rushed into the hotel.
When he reached the lobby and
saw the unpleasant sight, he knew
there was a problem, because
D'Alesandro was also experienced
in CPR. Learning it is part of the
pledge training program at
Gamma Sigma Chapter.

Gently, the two young men lifted the woman off the bench and on to the floor. Already her face had turned blue. She was not breathing and her pulse was weak.

Manasterski began to administer CPR while D'Alesandro assisted. Gene knew that if it had not been started immediately, the brain would start to deteriorate. He didn't know if he had started in time, but he continued to work, quickly but calmly. As D'Alesandro would say later, "He had everything completely under control."

In the meantime, D'Alesandro notified the desk attendant, who happened to be a first-year medical student. The attendant immediately called for an ambulance.

Thirty minutes later, through the use of drugs and defibrilators, the woman stabilized, and the paramedics were able to transport her to the hospital. The woman had been saved, at least temporarily, and Mike and Gene assisted in lifting her into the ambulance.

As the ambulance sped away, the four young people headed for the car and prepared to go home. Not much was said on the way home. The faces of the four were blank, drawn and pale.

There were no medals given. There weren't even any words of congratulations or thanks. But the woman still lives and it is believed she will recover completely. She has no idea who saved her life through some quick thinking and quick acting, but it is safe to assume that she is thankful.

# Why Fool With Alumni?

By MICHAEL T. DEAL Georgia '72

A S undergraduates, all of us have heard complaints about alumni not supporting the Chapter. Many members take the attitude, "Why fool with the alumni when they don't support us?" We often see, however, that many of these same complaining undergraduates graduate and become the apathetic alumni. Why?

As alumni we often hear another alumnus complain of being practically ignored while visiting the chapter house. To the alumnus, his having stopped for a visit demonstrates some concern and support for the undergraduate chapter. If the greeting is impersonal, the alumnus takes the attitude that the undergraduates do not value the support of alumni. Then he becomes the apathetic alumnus. Why?

To begin with, we should realize one very important fact — we will be alumni for many more years than we were undergraduates. One may be an undergraduate for four, maybe five years. Assuming one graduates at age 22 and lives to age 62, alumni status spans 40 years. Compare the time periods now. The Fraternity does exist primarily as an organization for college men. It would be very difficult, though, for Delta Tau Delta or any other fraternity to function or even exist without alumni.

Every undergraduate should really think about his upcoming role as an alumnus. He should determine what role he will play as an alumnus. To paraphrase an old saying, "Treat alumni as you yourself want to be treated when you become an alumnus."

The alumnus is important to the

undergraduate chapter for several reasons. First of all he is a good source of guidance and counsel, Second, he is an ideal source of prospects for rush. There will be alumni in many cities where there are no undergraduate members to contact prospects. Third, alumni are a source of funds. Fourth, alumni might well be able to assist a graduating member in getting a good job.

With all of these possible benefits from alumni, why would any undergraduate chapter neglect its alumni relations?

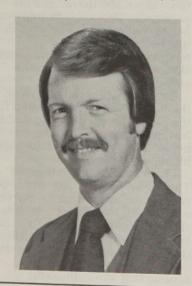

Benefits also are available to the alumnus from the Fraternity. First, it enables him to maintain contact with these college peers he was close to. Second, by maintaining contact with the undergraduate, one can keep in touch with young people. This could enable one to be a better father. Also, if one has a son, the Fraternity can help him mature while enjoying his college life should the son follow in the footsteps of his Delt father.

Considering all of this, why would any alumnus not keep in touch with the Fraternity?

Here are some recommendations:

#### THE AUTHOR

As an undergraduate, Mike Deal, Georgia '72, held the Beta Delta Chapter offices of record-

ing secretary, vice-president, treasurer, and president. Upon graduation, he entered the family business in Toccoa, Ga., for three years, then went to work for Allied Mills, Inc. in sales, moving back to Athens. He also married the former Wendy Webb, a Little Sister of Beta Delta Chapter.

Mr. Deal currently is international sales representative for CWT Farms International, Inc., Gainesville, Ga., exporter of poultry and livestock supplies and equipment throughout the world.

He also remains active in the Fraternity, working closely with the Georgia chapter, as president of the Atlanta Alumni Chapter, and chairman of the Delt Alumni Update to be held in Atlanta on December 1.

#### For Alumni;

 If the Central Office does not have a current address, send it in and do so any time you move.

2. The next time you are near your alma mater, stop by the chapter house and talk with the members.

3. When you know of a good young man about to enter a college, send a recommendation to the appropriate chapter or to the Central Office.

4. Write to the Central Office for the nearest alumni chapter and also ask for the names of members having the same zip code. Then get in touch with them.

5. Don't be afraid to donate a little money to a summer rush effort, house refurnishing, or other special projects.

(Continued on Next Page)

#### For undergraduates;

- 1. Treat alumni like you will want to be treated. You'll be one soon.
- 2. Send regular newsletters to the alumni so they can keep up with chapter activities.

3. Make sure you send in reports to be printed in the Rainbow. Alumni are proud to see their own chapter's activities in print.

4. Get the names of alumni living near your home and visit them when you go home.

5. When problems arise, seek advice and counsel from alumni. They may be able to help.

If both alumni and undergraduates become more concerned about good relations, our already great Fraternity could surpass our greatest hopes. In addition, we'd each be a better person for the experience.

# alumni

Mark W. Miller, Ohio '70, having served more than six years as a Navy pilot, has been employed as a pilot by Continental Airlines, based in Denver.

Robert L. Rose, Tennessee '52, has been appointed plant manager of Monsanto's Bridgeport, N.J., chemical manufacturing facility.

James M. Kraft, Ohio '57, retired recently from USAF, HQ Air Force Systems Command, Andrews AFB, Md., as chief, Research & Development and Base Procurement Division. He now is procurement manager, Pan American Technical Services, Inc., Palm Bay, Fla.

Degen

Bernard J. Degen, II, George Washington '59, executive director of the American Association of Oral and Maxillofacial Surgeons, has received an honorary fellowship in the Interf. Postricts. The

national College of Dentists. The honor, conferred at the organization's convocation and banquet, was in recognition of "the professional manner and statesmanship which have earned him the respect of his peers, nationally and internationally in health administration, government, industry and finance."

Robinson

Forrest Daniel Robinson, Indiana '71, Indianapolis, has been named a career representative of the Indianapolis/Spence general agency of National Life Insurance Co. of Vermont, Prior to

joining the company he was marketing manager for Madison National Airways and general manager for Eagle Airways, Inc., both in Indianapolis. He is an adviser to the Indiana Aeronautics Commission on a comprehensive marketing study of Indiana's Air Transportation System.

Huntsman

Roy W. Huntsman,

Florida '54, president of PM North Florida, Inc., Gainesville, has been elected president of the Society of Professional Business Consultants for the coming year.

The society is a national association whose members specialize in practice management consulting to physicans and dentists on a fee-for-service basis, offering advice on financial matters. Mr. Huntsman has been a management consultant since 1961 and is a member of the Institute of Certified Professional Business Consultants.

Allan Hughes, DePauw '48, has been elected 1979-80 president of the Anaheim, Calif., Chamber of Commerce.

D. Robert Smedley, Florida Tech '71, has been transferred by his firm, Black & Veatch consulting engineers, to its new Detroit regional office in the Renaissance Center. Mr. Smedley is a group leader on a project that will prepare a comprehensive plan for improvement of the city's wastewater collection-treatment system and for the reduction of combined sewer overflows into the Detroit and Rouge Rivers.

John T. Trotter, Delaware '73, has been elected a trust officer of Capital Bank, Baton Rouge, La. Mr. Trotter, who received his B. S. and law degrees from Louisiana State University, is a member of the Louisiana and Pennsylvania bar association.

Patrick F. Meyer, Villanova '74, has joined Gillette, Inc., in Boston, on the product management staff of the Personal Care Products Division. He recently completed his MBA in marketing at night at Fordham University. Formerly with Equitable in New York, he received an award from the Direct Mail Marketing Association for the best direct mail campaign of 1977.

Robert Windeler, Duke '62, author of books concerning Hollywood celebrities, was an August 8 guest on the Mike Douglas Show, discussing his book "The Films of Shirley Temple."

William V. Goodwin, Rensselaer '49, has been appointed division vicepresident and general manager of RCA Missile and Surface Radar, Morrestown, N.J., a business unit of the RCA Government Systems Division. For the past ten years, Mr. Goodwin has been RCA's chief executive for the AEGIS program, the Navy's fleet defense system for the 1980s and beyond, for which RCA is prime contractor.

First Lt. Theodore E. Dailey, Jr., Syracuse '75, has been assigned to an Air Force tour of duty in the Orient.

James H. Bailey, Emory '69, Atlanta, has been elected an assistant vice-president of The London Agency, Inc., a managing general agency specializing in excess-surplus lines. Mr. Bailey, who joined the company in 1974, is responsible for property and package placement. He previously was a marine underwriter with Great American Insurance Co.

Dr. I. Leonard Stright, Allegheny

'35, retiring vice president for academic affairs at Ohio Northern University, received the honorary Doctor of Laws degree at the June Commencement of Allegheny College.

Robert W. Young, Kent State '63, is librarian at the British Columbia Institute of Technology and lives in Burnaby, British Columbia.

Alpheus E. Forsman, George Washington '63, is manager of the Trademark Law Department of Ralston Purina Co., St. Louis.

Dr. Ted Skinner, Kansas State '33.

has been a member of the Million Dollar Club with Red Carpet — Larison, San Diego realty company, for the past five years. He entered the real estate business after 35 years of teaching and administration in Kansas, Colorado, Texas and California.

Mark Potter, Purdue '57, is a partner with Murphy & Dickey, Inc., a Westchester, Ill. manufacturer's representative organization specializing in industrial measurement and control systems. He is a ham radio operator with the call WQUZ.

# Distinguished Service Chapter

#### RICHARD HAYS ENGLEHART Indiana '45

Genuinely a fraternity man; ever faithful not only to Beta Alpha Chapter but to many other chapters as well; for years a participant and leader in the Indianapolis Alumni Chapter and the Northern Division, upon moving to California he contributed his time and talents to the Western Division, serving as Division Vice President and giving exemplary service toward reactivating Delta lota Chapter; his record of service, loyalty and love is an inspiration and challenge to all Delts.

Given under our seal, March 23, 1977.

## FRED C. TUCKER, JR. DePauw '40

Outstanding business and civic leader, field secretary for rush on graduation from DePauw, officer of Beta Beta House Corporation for twenty-five years, International Treasurer, Vice President and President of Delta Tau Delta, he has provided the Fraternity with an outstanding example of the ingredients which characterize a Good Delt. A second-generation member of the Distinguished Service Chapter, his enthusiasm and selfless devotion to the Fraternity have made him one of its most illustrious sons.

Given under our seal, March 23, 1977.

#### HENRY ALVAN MENTZ, JR. Tulane '41

Honored and respected lawyer and civic leader, lifelong supporter of Beta Xi Chapter, Vice-President of the Southern Division, frequent toastmaster and speaker for the New Orleans Alumni Chapter, active in the colonization and installation of Epsilon Kappa Chapter and Epsilon Phi Chapter, he has served always as an inspiration to his brother Delts.

Given under our seal, March 29, 1978.

#### WALTER JAY VERLANDER Tulane '41

Since his initiation by Beta Xi Chapter this Good Delt has given constant service to his Fraternity as president of the New Orleans Alumni Chapter, member of the Beta Xi House Corporation, member of the 1962 and 1978 Karnea Committees. He helped in the installation of Epsilon Kappa, Epsilon Phi and Epsilon Psi Chapters, setting an example of service and dedication to Delta Tau Delta.

Given under our seal, March 29, 1978.

#### WILEY HOWARD SHARP, JR. Tulane '54

A faithful alumnus of Beta Xi Chapter and supporter of the New Orleans Alumni Chapter, this Good Delt was instrumental in the founding of Epsilon Kappa Chapter and Epsilon Phi Chapter. As first president of the Epsilon Phi House Corporation he provided the leadership in acquiring the chapter house. His record of service and devotion make him the "Good Delt."

Given under our seal, March 29, 1978.

James V. Pease, Cornell '58, and Michigan State '62, is director of research and a partner of McDonald & Co., a major regional investment banking concern in Cleveland, Ohio. He also teaches Principles of Investment at Notre Dame College, where he is on the Board of Advisors. Mr. Pease and his family live in Shaker Heights.

Kenneth D. Binkley, Purdue '57, recently purchased a pharmacy in Elk-

hart, Ind.

**Dr. Dennis Jeffers,** Ohio '71, is in Emory University's oral surgery residency program. He and his wife live in Atlanta.

Rich Clark, Emory '71, recently was hired by Pizza Hut, Inc. as research menager in the Corporate Marketing Research Department, Wichita.

Denton Hammond, Arizona '69, has been transferred from Charlotte, N.C., to Atlanta, Ga., where he has a supervisory position in the Consulting Department of Touche Ross & Co. He has been with the company six years.

David L. Holden, Duke '75, graduated from the University of Texas Medical School in Houston in May and is in residency in surgery at Hermann and M.D. Anderson hospitals, Houston.

Dr. Robert Sheldon Beardsley, Oregon State '72, is assistant professor in pharmacy administration at the University of Maryland at Baltimore campus. Dr. Beardsley received his Ph.D. from the University of Minnesota and currently is doing research on patient education of drugs.

Thomas S. Berlin, Michigan State '73, has joined the Detroit office of Ernst & Ernst as a senior consultant. He conducts executive searches and consults in the areas of compensation planning and management development. Prior to joining Ernst & Ernst, Mr. Berlin was senior compensation specialist with Michigan Consolidated Gas Co. in Detroit.

Donald T. Glenn, Jr., Georgia Tech '71, has been elected a member of the Institute of Management Consultants and has been certified as a CMC (Certified Management Consultant). A Fort Lauderdale resident, Mr. Glenn is president of Glennco Services, which include general management, management of human resources, financial control, compensation, manufacturing, physical distribution, administration and information and control systems.

## Special Guest In Panama

Ross H. Copeland, Butler '53 and Purdue '55, associate director of The University of Kansas Bureau of Child Research, was invited by the chief executive of Panama, Gen. Omar Torrijos, to help greet and brief President Carter when the president traveled to Panama for ceremonies associated with the signing of the Panama Canal treaties on June 16 and 17.

Mr. Copeland attended the signing ceremonies, but his main concern was a visit by the presidential party to the Special Habilitation Institute in Panama. The institute, directed by the general's sister, Berta Torrijos de Arosemena, is known for its progressive programs of care and service for severely handicapped children.

Mr. Copeland, who has served on the directing council of the Interamerican Children's Institute, is a longtime acquaintance of the general and a professional colleague of Mrs. Arosemena. They are working under a formal agreement between Panama and The University of Kansas to develop and promote collaborative international programs for gifted and handicapped children.

Mr. Copeland, who has spent the last eight years working to promote international cooperation on child research among the countries of the Western Hemisphere, recently gave the keynote speech at the fifth Caribbean Congress on Mental Retardation at Willemstad, Curacao, in the Netherlands Antilles. The meeting was attended by about 600 professionals who care for and train handicapped children in several Caribbean nations.

Mr. Copeland has served at the University of Kansas Bureau of Child Research for the past twenty years. He is a senior research scientist and Associate Director of the Bureau, and has also served as chapter adviser to Gamma Tau Chapter at KU for the past three years.

Morgan

G. Michael Morgan, GMI '72, has been promoted to production manager of G.M. Singapore PTE, Ltd., in the Republic of Singapore. This is a new G.M. subsidiary being established by

Delco Electronics Division. Automotive electronic parts and circuit board sub-assemblies will be produced in the

new facility.

LCDR Arthur B. Carden, Florida '66, has been awarded the Navy Commendation Medal by the Secretary of the Navy for meritorious service as officer in charge of the Technical Assistance Field Team in Khorramshahr/ Abadan, Iran, on the Persian Gulf. He was cited for his technical, operational, and managerial expertise in advising the Imperial Iranian Navy in all aspects of Naval operations, and for his close rapport with Iranian Navy counterparts, which achieved total cooperation and trust in his assignment with the Military Assistance Advisory Group in Iran.

**Dr. Thomas H. Brand**, Michigan State '63, graduated in June 1977 from the College of Osteopathic Medicine at M.S.U. and completed internship this fall. He is practicing general medicine

in Detroit.

Current officers of Choctaw Alumni Association are shown with Eastern Division President Marion R. "Lew" Llewellyn at a spring meeting in Erie, Pa. From left are Treasurer Richard A. Stewart, Allegheny '56; Vice President Paul Remaley, Allegheny '24; President Andy Williams, Allegheny '77; Mr. Llewellyn; and Secretary Bruce Bernard, Case Western Reserve '72. The event drew the chapter's largest gathering in more than a quarter century. Northwestern Pennsylvania Delt alumni from all chapters are invited to join the Association.

Ludy E. Langer, California '48, Sacramento, Calif., has been elected to a second term on the Board of Directors of the University of California, Berkeley, Alumni Association. He also is active in Boy Scout work, being appointed recently to the Executive Committee of the Golden Empire Council, B.S.A. In 1975 he received the Silver Beaver Award. He reports that his father, Ludy Langer, California '16, still is going strong at 85, having retired after 32 years as an automobile dealer in Los Angeles.

Dr. Monroe E. Trout, Pennsylvania '53, has been elected senior vice president, medical and scientific affairs, of Sterling Drug, Inc. Dr. Trout, who lives in New Canaan, Conn., also is a recipient of the American College of Legal Medicine "President's Award."

Dr. Ronald D. Wenger, Ohio Wesleyan '66, recently completed advanced surgical training at Mayo Clinic and now lives in Madison, Wis., where he is a member of the East Madison Clinic and holds the appointment of clinical instructor of surgery at the University of Wisconsin Medical School.

John B. Harper, Alabama '64, an attorney in the District Counsel's Office, Internal Revenue Service, Nashville, for the past eight years, has been appointed assistant district counsel, Birmingham, Ala.

Hamer

Fred G. Hamer, Cincinnati '66, has been promoted to vice president, Land Mobile Marketing, for Pathcom Inc., U. S. manufacturer of 2-way radio/telephone communications equipment. He

formerly was marketing manager, Land Mobile Products. In his new position, Mr. Hamer oversees all operations, including marketing, sales and advertising coordination for the group, which manufactures and distributes the Pace Landmaster and Seamaster Marine lines. He and his family live in Rancho Palos Verdes, Calif.

Doug Oxsen, Oregon State '75, has been named regional sales manager of Universal Gym Equipment (Nissen Corp.) for the Southern California area. A former basketball player for OSU, he also is involved in physical condition-

ing consulting for Universal Gym Equipment. Mr. Oxsen lives in Santa Ana.

Gary Witzenburg, Duke '65, automotive writer, former engineer and race driver, has signed a contract to do his first book, a history of the Ford Mustang, for Automotive Quarterly Publications. His work has appeared in most major automotive publications. A versatile driver, he has competed in sports and formula cars, small sedans, and big bore Corvettes, winning in his own TR-4, Datsun 510 and formula Ford. In 1977 he served as chief instructor of Detroit Region SCCA's race driving school.

Dr. F. Rodney Drake, Colorado '62,

has moved from Denver to Potomac, Md., and has joined the teaching staff of child psychiatry at Walter Reed Army Medical Center in Washington. For the past three years he was in private practice in general and child psychiatry, as well as being on the volunteer teaching staff of the University of Colorado School of Medicine.

Ray F. Barnes, Jr., East Texas State '71, and Texas Tech '72, is a second officer for Delta Air Lines, having recently completed active duty as a C-130 pilot with the Air Force.

Edward K. Wardrip, UCLA '48 and Illinois '49, is group director, corporate consumer products research and development, for Standard Brands, Inc. His home is in Westport, Conn.

# Delt Sportlight

By JAY LANGHAMMER
Texas Christian '65

#### **PRO FOOTBALL**

One of the all-time great running backs, AL-PHONSE "TUFFY" LEEMANS, George Washington '36, became the second Delt enshrined in the Pro Football Hall of Fame in August. At his induction, "Tuffy" said "I'm probably the proudest guy in the world today. Never before did I allow anyone to call me Alphonse. You can all call me Alphonse today." In his eight-year career with the New York Giants, he rushed for 3142 yards and passed for 2324 yards and joins former Browns great DANTE LAVELLI, Ohio State '45, in the Pro Hall of Fame.

The early part of the 1978 season saw several of the Fraternity's veterans in new surroundings. Quarterback JIM PLUNKETT, Stanford '71, and wide receiver GENE WASHINGTON, Stanford '69, were both cut by San Francisco at the end of preseason play. Gene, who was handicapped by an achilles tendon injury during training camp, was promptly picked up by the Detroit Lions. But Jim sat idle for several weeks while he and his attorney, WAYNE HOOPER, California '44, contemplated offers from six NFL clubs. Jim decided to cast his lot with the Oakland Raiders because "it was a better situation for me. I like the Bay Area and just bought a home in Atherton. And it's good to play behind that Oakland line, although I'm not guaranteed I'm going to play."

The lack of a good offensive line was perhaps Jim's biggest problem during his two-year stay in San Francisco and he admitted being gun-shy. "I didn't think the protection was there all the time. I lost my confidence occasionally, especially when something negative happened. It's hard to perform when you're not sure of everything. It's not having enough time to throw, it's the worry that you won't have enough time. This makes you set up quicker and throw faster than you would normally like." With the Raiders, Jim is backing up Kenny Stabler and won't be under the pressures that he had to face with New England and San Francisco. Oakland is also famous for giving a fresh start to players found wanting by other clubs.

Six-year veteran safety JIM STIENKE, Southwest Texas State '73, was cut by the Giants midway through the pre-season schedule but was picked up by the Atlanta Falcons several games into the regular season. Defensive lineman PETE LAZETICH, Stanford '72, traded to Buffalo in early summer, reported to the Bills training camp but was unable to pass the physical. Quarterback MIKE BORYLA, Stanford '74, was active for the first two regular season games then suffered a knee injury and went on the injured reserve list for the second straight year. Giants offensive tackle GORDON KING, Stanford '78, and Jets linebacker MIKE MOCK, Texas Tech '78, are the only Delt rookies to make the NFL this year.

#### COLLEGE FOOTBALL

JOE STERRETT, Lehigh '76, an NCAA Division II All-American quarterback in 1975, was promoted to offensive backfield coach at his alma mater after serving as junior varsity head coach the past two seasons. Another former great back, ROD GARDNER, Lehigh '77, is in his second year as an assistant with the Lehigh junior varsity squad.

Sterrett

Among the Fraternity's leading returnees to the gridiron this fall:

GORDY CERESINO — Stanford linebacker
BILL "BLADE" ADAMS — Texas Tech kicker
PHIL FRANCIS — Stanford running back
JIM McCORMICK — Lehigh linebacker
RANDY MELLINGER — Wabash running back
RICH ANDRES — Lehigh quarterback
PAUL WARTH — Miami tight end

KIERON WALFORD — Oregon State kicker CHUCK EVANS — Stanford defensive end MIKE BAGGS — Baker quarterback BO DENNIS — Delaware running back

DAVE HALL — Missouri at Rolla end A complete review of the 1978 season will appear

in the next issue.

#### SOCCER

In a surprise move in late September, America's most popular homegrown player, KYLE ROTE, JR., University of the South '72, was sold by the Dallas Tornado to the Houston Hurricane, an NASL expansion team this past season. He was the Tornado's all-time leading scorer and had 6 goals and 7 assists in 1978 despite missing a number of games with an ankle injury. After the shock of the trade started wearing off, Kyle said "It's a hazard of professional sports. I understand it was an incredible deal. In Houston, because of the style they'll play, it could be a very good move for me. But that doesn't lessen the sadness over leaving Dallas."

#### BASEBALL

Pitcher RICK KREUGER, Michigan State '70, saw some early season action with the Cleveland Indians then was sent to Portland of the Pacific Coast League for the remainder of the year. He was one of the PCL's top relief hurlers, posting a 4-3 record and 3.29 earned run average in 37 games. Since he wasn't recalled by the Indians at the close of the PCL season, he may go ahead with plans to retire.

Second baseman PETE MAROPIS, Allegheny '76, who played with Knoxville of the Southern League in 1977, decided to pass up spring training this season to stay in dental school. But when the semester ended, his parent club, the Chicago White Sox, didn't have a spot open for him at the Triple-A or Double-A level and gave him his outright release.

JEFF KLINE, Ohio State '77, spent the summer working in the front office of the Columbus Clippers of the International League. He was a four-year starter in the Buckeye outfield and hopes for a career in pro baseball management. Another Beta Phi alum, RICK CUNNINGHAM, Ohio State '71, completed his second year as assistant director of information for the Major Leagues. He works in Commissioner Bowie Kuhn's office.

#### TRACK

In his final competitive meet of the year, four-time Olympic discus champ AL OERTER, Kansas '58, took first place honors at the inaugural National Sports Festival at Colorado Springs. "I'm satisfied" said the 41-year-old Oerter after winning his event with a toss of 197-2. "Three or four of these guys finished ahead of me at the AAU national meet. Now I've pulled even with them."

#### **TENNIS**

The Fraternity's only pro player, FRANCISCO GONZALES, Ohio State '77, is doing well on the pro circuit and has now played against many of the sport's big names. The Puerto Rican native is in his second year as a pro after being a two-time All-American for the Buckeyes.

#### **GYMNASTICS**

Ohio State's ROD NEWLAND was given All-American honors in vaulting for the second straight year in 1978. He was Big Ten champion and placed third in his event at the NCAA championships.

#### TRANSITION

JIM GARNER, TCU '65, is now Director of Sports Promotions for West Texas State University after nine years as Sports Information Director at his alma mater. In his new post, Jim supervises sports information and is involved with ticket office management.

#### **INSTANT REPLAY**

Which Brother holds the Delt record for most touchdowns in a college game? In recent years, HOWARD COOK, Colorado '59, and GIB GILMORE, Willamette '69, each scored 44 times against an opponent. But that total isn't even close to the actual mark. To find our leader, you have to go back 66 years to the 1912 season when BOB HEUCK scored 8 touchdowns for the University of Cincinnati against Transylvania, a school known more for its vampires than its football teams. Brother Heuck's 48 points in that game is also a Delt record but, strangely enough, is not the school record since a non-Delt teammate scored 51 points in the very same game. Heuck does. however, have the school record of 26 touchdowns in a career and was the Bearcats' captain in his senior year. Incidentally, the final score of that unusual game in 1912 was Cincinnati 126, Transylvania 0.

O NLY in desperation will a football team of the 1970's forsake its huddle to get off a last-ditch, time-saving play. But football was popular for many decades before a member of Delta Tau Delta created the idea of hunching together behind the line of scrimmage to call each play.

The year was 1924. Lafayette College, coached by a former University of Pittsburgh star, G. Herbert McCracken, was looking forward to a big game against the University of Pennsylvania. At that time, all teams called their plays at the line of scrimmage, through signals similar to those for

today's "automatics."

On the day before the game, Lafayette's graduate manager (forerunner to athletic director) received a surprise telephone call from the wife of a Penn assistant coach. Obviously conscience stricken, she explained that Penn had scouted Lafayette so well that its coaches and team knew all the plays and the signals used by Coach McCracken's squad. Considering that information grossly unfair, she felt obligated to at least give prior warning.

Despite that not-so-welcome news, Coach McCracken managed to go to sleep that night. But his subconscious mind apparently remained in motion. About 2 a.m. he awoke with the answer to his

problem.

That afternoon as the teams took the field, the Lafayette coach explained to officials what they could expect to see. Then, before each Lafayette offensive down, the team went back into a huddle to call the play, using ambiguous signals on the line just to time the snap of the ball.

The thought that had come to Coach McCracken in the middle of his sleep was the plain logic that his first and second teams huddled before plays in scrimmage because they knew each other's signals; why not do the same thing in a

game?

On that particular Saturday, Penn beat Lafayette 7-3. But Herb McCracken already established as

# Birth of the Huddle

1924 Herb McCracken 1978

an outstanding collegiate coach, became recognized as the inventor of the football huddle.

As a Pitt undergraduate, he played both ends and all four backfield positions during three seasons under the immortal "Pop" Warner, and also was captain of the Pitt basketball team.
Graduating in 1921, he coached three years at Allegheny College, then moved to Lafayette, where among his greatest thrills were three consecutive victories (1924-25-26) over his own alma mater.

Meanwhile, in 1922, he entered the educational publishing business, in an era when football coaching was only a seasonal position. He teamed with another Delt, Maurice R. Robinson, Dartmouth '20, to form Scholastic Magazines, Inc. Mr. Robinson now is chairman of the board, and Mr. McCracken, in semi retirement, is chairman of the executive committee.

His record with Delta Tau Delta includes just about every honor the Fraternity has to offer, including national President from

1946-48.

The revolutionary huddle created immediate interest throughout football. The December, 1924, American Football Coaches Association meeting in New Orleans featured a debate between coaches McCracken and Harry Stuhldreyer, then at Villanova, the latter defending the value of calling plays at the line of scrimmage. Observers reported that good points were made on both sides, but history has settled the issue.

Today, Herb McCracken lives in Ocean Ridge, Fla., from October until June and in Buck Hill Falls, Pa., during the summer. Several years ago he was elected to the National Football Hall of Fame for his record in coaching.

It has been nearly 55 years since the night he woke up with the radical new idea of a football huddle. But it is a night he never

will forget.

# Recollections of the Karnea

By BRAD WINCZEWSKI and ARNIE DASSINGER North Dakota

#### By WILLIAM C. GENTRY Virginia

OU can't just hear about a Karnea, you've got to experience it! Although as old as the convention itself. the old cliche still rings true. From the rigorous, impassioned debates of the business sessions to the wild and bawdy release of Bourbon Street, the Jazz City Karnea firmly etched itself in my memory as one of those events which brings, not only a smile, but even a chuckle years afterward.

As our group entered the Marriott that Wednesday evening, millions of questions raced through my head. But these questions received answers immediately. The warm handshakes and sincere feeling of trust at registration eased us into the mainstream of activity. Drawn into the psyche of New Orleans by the Jazz Reception, we then headed out to Bourbon Street.

A few hours later, with eves wide from go-go girls and legs rubbery from the street's alcoholic namesake, we treaded back, beginning a bracing nocturnal routine.

During the day, business sessions gave us a glimpse of the behind-thescenes action of the Arch Chapter, as we participated in discussions on dues increases, religious conflicts, and elections. Mini-seminars and a model Ritual demonstrated the finer aspects of fraternity life.

Meals at New Orleans' best restaurants were highlighted by Saturday's banquet with its awards and famous personalities. Jazz City Karnea was in-

deed an experience.

S WE TRY to recollect the events of the 74th Karnea, our attention wanders to the menu of our well preserved banquet program.

The refined and fancy names of our meal: salad mimosa, onion soup, baked whole rib eye, rissolie potatoes, broccoli polonaise, flamed and paraded baked Alaska, remind us of the final banquet with all its elegance. grace, and pride.

It was our last time together as a Karnea, and it was there that we truly felt the meaning of what it is like to be a member of an international fraternity. The instruments of our common bond were very present as we dined together with our brothers from all across the continent.

Many of us were amazed and impressed with the success of our older, accomplished, brothers. perhaps, are our shining stars and we strive to be like them. Hopefully we too can shine for our fraternity in future

Afterward, as we spoke to our noted brothers on a personal basis, we realized that they too had walked the very path we have only embarked upon. As they related to us the manner in which they had overcome many of the tribulations we are now facing, we began to develop a core of inspiration.

On the way to the Karnea we followed the "yellow brick road" for 32 hours to the city of New Orleans, or the "land of Oz" as we had preconceived it; we anticipated finding some magic sort of answers to the problems we had been having in our house. Instead we received assurance, hope, and confidence to solve our own problems.

We recall walking along Bourbon Street and meeting Delts from afar. At times the only indication of their being Delts was the joy of brotherhood that they exhibited in their actions. With this we were sure our fraternity had a good thing going for it and it made us all the more proud to be a part of it.

#### **BV WALTER JONES** Georgia

NLY New Orleans could have mesmerized me into spending so much money in four days. Yet, viewing the trip academically, what's a few dollars for an education...like the couple of hundred I spent the first night?

Alas, look at all I learned Tuesday night. For instance, there are 392 cracks in the sidewalk between the Marriott and Pat O'Brien's. French doughnuts have no holes. The entire American Legion was not wiped out by the Legionnaires Disease two years ago (Legion convention overlapped Karnea). And I didn't have to drink those 8 Hurricanes to buy a set of glasses after all.

I soon discovered Bourbon Street. too. There I realized when the sign out front savs bottomless, it means wearing a G-String. Before, I hadn't understood that "no cover charge" really means "one drink minimum" which further translates into two-fifty for a watery bourbon and water, but I know it now.

The most bitter fact to swallow after hearing so much about the New Orleans ladies who "sashay by" was actually meeting some. Very few of those gals looked beautiful, pretty, or even cute. But the ones who looked okay weren't women at all - they were female impersonators. Luckily I didn't learn about them the difficult way.

I picked up some information of value the next three days as well. That's when I fully grasped the definitions of poverty and hangover.

# SPIRIT OF PARTNERSHIP

By AL SHERIFF Executive Vice-President

VISIBLE evidence of the Fraternity's spirit of partnership between alumni and undergraduates is the continued upward swing of the annual Alumni Contribution Program.

The 1977-78 campaign reached a new high of \$89,481, with substantial increases in members joining the larger contributors clubs. With optimism based on past support, we are confident that you will help the Fraternity top \$100,000 in 1978-79.

Gratitude for the alumni support of undergraduate programs was expressed at the Karnea, officially and through informal conversations. Undergraduates also indicated willingness to share in shouldering the burden of constantly rising costs by voting a fee increase for themselves.

The Alumni Contribution Program enables Delta Tau Delta to have one of the most effective chapter consultation programs in the fraternity world, with five outstanding young men meeting not only with undergraduates, but also with house corporations and other interested alumni.

Leadership training programs at the division and region levels are proving to be increasingly effective also, both as instructional opportunities and in cementing personal relationships among chapters.

Meanwhile, a wide variety of services to individual chapters is updated regularly.

Through participation in the Alumni Contribution Program, Delts throughout the world reflect the lifetime association and commitment that is the backbone of our Fraternity's success.

The Fraternity's appreciation is extended to all of those thousands of Delts who helped make 1977-78 a banner year.

## RESURGENCE

(Continued from Page 11)

fluential members of the student population. They attract motivated persons who are powerful individuals as well as having an aptitude for teamwork and communication with others. They provide an arena in which these skills can be experimented with, and developed to their fullest potential.

In short, fraternities provide an environment which is conducive to the formation of leadership abilities and sound ideals. This leads to an increased awareness of the chapter.

Individual houses have begun to realize the importance of their standing in the eyes of the community. They are doing much to dispute the image of "a wild bunch of college kids." Many have become involved in community help programs, big brother — little brother functions, and of course fund raisers for local and national charities.

Open houses have let the community see that this great source of energy and manpower is actually an asset to the community and should be treated as such.

With this kind of involvement, benefits go hand-in-hand. Parents who have never been fraternity or sorority members are encouraging their children to join one. Universities are providing services and financial assistance for houses. And neighbors are more tolerant of the occasional disturbances that are inherent in the group living and socializing situation that fraternities represent.

Colleges and universities are beginning to take a new look at their long forgotten allies. With decreasing numbers of freshmen entering colleges in the coming year, the college entrance game has all of a sudden become a buyers market with increasing competition between colleges and universities for the persons wishing to further their educations.

The social life that a campus has to offer has become an important facet of the picture that a college or university can paint for a prospective freshman. They now point with pride to the number of fraternities and sororities on their campuses that attests to the diversity of the social life available, and to the stability of the campus itself.

It must be concluded, therefore, that the combination of the acceptance by today's society and colleges, of modern day fraternities coupled with the evolution of the principles and ideals which govern these fraternities has resulted in an era in which fraternities will prosper.

We can only hope that this will provide many opportunities in the coming years for the growth of Delta Tau Delta Fraternity.

Peter Griffin at the Karnea microphone
