Renew Your Commitment to Those Who Follow!

Jody Danneman
University of Georgia, 1988

In this edition of *The Rainbow*, we are exploring the “behind the scenes” of how the Fraternity works. I can tell you from first-hand experience, that the unsung heroes and one of main reasons for our success are our advisors.

As an undergraduate, I was always aware of who our chapter advisor was at Beta Delta Chapter at the University of Georgia. He was “that alumnus” who showed up at chapter meetings, gave some words of wisdom (or caution) at the end of the meeting, and seemed close to the

chapter’s officers.

It wasn’t until I was elected as an executive officer that I really understood the important role our advisor, Marc Galvin, played in the success of the chapter. He was the “glue”—the continuity from one administration to the next to ensure the chapter didn’t repeat the same mistakes. He was the Delt who challenged us to be better. He was the mentor who spent the time teaching us leadership skills, business management, fiscal responsibility, and team building. He was the man who spent hours after chapter meetings giving career advice, sometimes even dating advice, and counseling us on how to be better men. He was the big brother in college that we didn’t want to let down, but always knew was there for us should we need him.

It was because of Marc’s positive impact on my life that I decided to serve as chapter advisor at our Beta Epsilon Chapter at Emory University. What I didn’t realize is that my younger, undergraduate brothers would have

an equally important impression on my life. It was (and continues to be) so rewarding to extend the bond of brotherhood from my undergraduate days to new generations of Delts.

I guess that is why our top chapters in the Fraternity are also the ones that have an active and engaged chapter advisor who, in many cases, is serving with several assistant advisors on his team. These are the chapters where our undergraduate brothers report having the best Delt experiences.

All of which is why I am focused on renewing our commitment to those that follow.

The Fraternity is doing an evaluation of our current volunteer roster. We want to ensure we have advisors who are in close proximity to the campus where they volunteer and are active with the brothers.

Next, we will recruit volunteers where needed to provide the essential coaching, mentoring and support our undergraduate brothers need and deserve. With our undergraduate brotherhood numbers nearing 10,000 strong, this is an initiative that must be successful.

If you are interested in volunteering, please contact our director of volunteer services, Allen Wente, at the Central Office or via email at allen.wente@delts.org. If you don’t have the time right now to volunteer, our Educational Foundation would appreciate your financial support to help fund the training and continuing education the Fraternity does for our advisors.

As each of us advance, more follow. Just as each of us has received, it is now time to give. Your undergraduate brothers need you!

MAGAZINE MISSION

- Inform members of the events, activities and concerns of interest to members of the Fraternity.
- Attract and involve members of the Fraternity via appropriate coverage, information and opinion stories.
- Educate present and potential members on pertinent issues, persons, events and ideas so that members may be aware of and appreciate their heritage as Deltas.
- Serve as an instrument of public relations for the Fraternity by presenting an image of the Fraternity commensurate with its quality and stature.
- Entertain readers with its information and quality writing and editing, so that it is a pleasure to read and share with others.

HOW TO CONTACT

Contact The Rainbow staff via e-mail at rainbow@delts.org or by calling 317-284-0203.

SUBMISSIONS

Letters to the editor, chapter reports, alumni notes, alumni chapter reports, news stories, photographs, manuscripts, subscriptions and death notices for publication should be sent to Brook Pritchett, Director of Communications, 10000 Allisonville Road, Fishers, IN 46038-2008.

Delta Tau Delta Continues to Grow

Expansions and Installations help more men live the Delt values.

UT Dallas-Installation

The Lone Star state welcomed its 10th chapter on Sept. 6 as the Iota Omega Chapter was installed at the University of Texas at Dallas.

The *Ritual* and *Rite of Iris* ceremonies were performed by the men of Epsilon Eta Chapter at Texas A&M-Commerce at the Magnolia Hotel in downtown Dallas. The installation banquet was also held at the Magnolia Hotel. Western Plains Division President Josh Schneider (Texas State University, 1998) presented the newly-installed chapter with the Bible, robes, and installed Arthur vonWerssowetz (University of Tennessee, 2006) as chapter advisor of Iota Omega.

Mark Helmus (Ohio University, 1986), Executive Vice President of the Delta Tau Delta Educational Foundation, was present to address the attendees. Jack Kreman (University of Nebraska-Kearney, 2004), chief operating officer of Delta Tau Delta, presented the Eversole Badge and gavel to the chapter president, Luke Lewis. The evening culminated with a keynote address from International President Jody Danneman (University of Georgia, 1988) and the presentation of the chapter charter to the men of Iota Omega.

Joining in the celebration was Daniel Hernandez (UC-Riverside, 2007), Assistant Director of Fraternity and Sorority Life at UT-Dallas, Director of Growth Kyle Yarawsky (Morehead State University, 2010), Former Western Plains Division President Bob Marwill (Uni-

versity of Texas, 1959), Leadership Gifts Officer Mike Slaughter (University of Oregon, 2006) and a number of other alumni from around the Dallas area.

Located in Richardson, Texas, a suburb of Dallas, the University of Texas at Dallas is a public research university and member of the University of Texas System. The campus is home to 13,000 undergraduates. Delta Tau Delta joins five other fraternities and four sororities and currently holds the highest GPA on campus.

James Madison University

Delta Tau Delta welcomed the newest chapter to the Fraternity on Nov. 15 with the installation of the Kappa Beta Chapter at James Madison University. Fifty-one founders were initiated to officially bring a charter of Delta Tau Delta to the JMU campus in Harrisonburg, Va.

The Iota Zeta Chapter at Virginia Tech performed the *Ritual* and *Rite of Iris* ceremonies.

"It was a true honor to witness the birth of a new chapter and to welcome a group of outstanding young men into Delta Tau Delta," said Jim Russell, executive vice president. "The Kappa Beta Chapter has quickly established itself as a campus and academic leader. We are grateful for the partnership with the campus administration and the commitment of the alumni who are supporting the men."

The UT-Dallas Chapter was installed as Iota Omega on Sept. 6.

Southern Division President Lee Grace (Western Kentucky University, 1984) presented the newly-installed chapter with the Bible, robes, and also presented the chapter's academic advisor, Kristin Sowden, with the sweetheart pin. Executive Vice President Jim Russell (Purdue University, 1975) presented the Eversole Badge and gavel to the chapter president, Zach Carter. The evening culminated with a keynote address from Vice President Jim Garboden (University of Pittsburgh, 1988) and the presentation of the chapter charter to the men of Kappa Beta.

James Madison University is a public university with an enrollment of 20,000 students. The 29-chapter Greek community consists of nearly 3,500 students. Kappa Beta is ranked first on campus academically among all fraternities.

University of Maryland

The Delt flag returned to University of Maryland-College Park on Oct. 17 after a six-year hiatus. The formal colony ceremony took place in the West Chapel on the University of Maryland campus where 61 founders were introduced as the new Delta Sigma Colony of Delta Tau Delta. Members of Theta Epsilon Chapter at American University along with Delta Tau Delta consultants performed the ceremony in front of a packed house of family, friends, university staff, Greek community members and brothers from Theta Epsilon. Eastern Division President Anthony Albanese (American University, 1996) welcomed the men to the Fraternity during his address at the event.

The University of Maryland at College Park is the flagship campus of the Maryland University System. Located just north of Washington, D.C., UMD has an undergraduate population of more than 6,000 students. It has a strong Greek system with 10 percent of undergraduates belonging to fraternities or sororities.

The College of New Jersey

Delta Tau Delta established a colony on Oct. 23 for the first time at The College of New Jersey. Ninety-four men founded the colony, making this the largest colony ever started by Delta Tau Delta and the largest fraternity on campus. The ceremony took place in the Library Auditorium, and Theta Tau Chapter from Moravian College conducted the ceremony. Family, friends, alumni and members of the Greek community packed the auditorium. Albanese was present to welcome the newest colony to the Eastern Division.

The College of New Jersey is one of the top public liberal arts colleges in the country. The college has a total of 7,200 students with seven schools and more than 50 degree programs. The TCNJ Greek community is comprised of 14 fraternities and 15 sororities.

Cal Poly

The Delta Tau Delta expansion team in San Luis Obispo, Calif., began the colonization process at Cal Poly on Oct. 27. The expansion concluded on Nov. 21 with 85 founders. Cal Poly has experienced an increase in Greek life interest where a number of students are unable to find their right fit in the Greek community, leading to the need for a new fraternity.

Cal Poly is ranked as one of the top engineering schools in the country. The university boasts a 17,600 undergraduate student population and Delta Tau Delta joins a Greek community of 35 chapters.

Marquette University

In April 2014, Delta Tau Delta was selected to be the new fraternity to join the Marquette Greek community in the spring of 2015. Delta Tau Delta left Marquette in 1979 after a 10-year run and has long anticipated the opportunity to recolonize the Zeta Alpha Chapter. This fall two staff members completed preliminary recruiting efforts to establish a group of 14 founders. A three-man expansion team will arrive on campus Feb. 2, 2015 to begin recruiting for the Zeta Alpha Colony. The recolonization will conclude with the formal colony ceremony on Feb. 27.

Marquette University is a premier Jesuit institution in downtown Milwaukee. Marquette has an undergraduate population of 8,500 students and Delta Tau Delta will join a 16-chapter Greek community.

Emory

In September 2014, the IFC at Emory University voted to approve the recolonization of Delta Tau Delta. The Beta Epsilon Chapter existed from 1882 to 1984 and 1989 to 2008 with a total of 1,497 initiates. Specific details are still in the works for a spring recolonization beginning in 2015.

Emory is a high-ranked research university in the metropolitan Atlanta area. The university has an undergraduate student population of 7,800 and Delta Tau Delta will join a 26-chapter Greek community.

JDRF Involvement Remains Strong

Delts across the country are more involved and engaged than ever with the national philanthropic partner, the Juvenile Diabetes Research Foundation. The new school year started strong with many chapters showing a continued dedication to the cause of curing diabetes. Even the Central Office staff became involved with its own fundraising and awareness campaign.

Kettering University

The Epsilon Iota B Delts at Kettering University have been walking and making a difference in their community with two walks under their belts already this semester, donating a total of \$1,120 to JDRF.

For their first walk, the Kettering B Delts chose the Traverse City Walk because the date worked for the members and they could stay for the weekend at a brother's cabin. Creating a team page online, they encouraged friends and family to donate to the cause. Between the six Delts who walked, they raised \$900. These men

turned this weekend walk into a brotherhood bonding event.

"This was a very successful weekend not only because we raised money for JDRF but also because we got to spend the weekend bonding with our brothers. It was an experience I will never forget," said Matthew Cromer (Kettering University, 2018), philanthropy and community service chairman for Epsilon Iota B Chapter.

Another group of Kettering Delts attended the JDRF Walk in Warren, Mich., on Sept. 28. These men were

inspired by the stories of people they met at the walk who are living with T1D. Through their fundraising efforts, they raised \$220 to JDRF.

Members of Epsilon Iota B volunteering at a recent JDRF walk.

By Veronica McSorley

Clemson University

The men of Theta Mu at Clemson University had an early wake-up call for their commitment to JDRF at the BMW Performance Center in Greenville, S.C., on Sept. 20. Their dedication and positive attitudes didn't go unnoticed.

"What an amazing asset the DTD men from Clemson were to the success of our Walk," said Jenny Park, special events assistant for JDRF. "We had so many families compliment them and the great job they did. I went to Clemson and understand what the scene is like there, so to have 15 guys show up to our Walk site at 6 a.m. ready to go was nothing short of a miracle of God. Not only that, Clemson is an hour away from our Walk site, so that means they left at 5 a.m. I'm so impressed with their overall attitude and willingness to stay until the very end of the event to make sure there was nothing else they could do."

In total, 53 brothers showed up throughout the day to help with registration, parking and to interact with participants in a positive manner.

"We were honored to be involved with the JDRE Walk in Greenville and really enjoyed our experience enabling the community to come together in such a wonderful fashion. We will continue this partnership and be volunteers to the Greenville walk year in and year out," said Aron Goldstein (Clemson University, 2016), philanthropy chairman of the Theta Mu Chapter.

University of Idaho

National Hazing Prevention Week, Sept. 22-26, proved very profitable for the Delta Mu Chapter at the University of Idaho. Delta Mu was the most actively involved chapter during National Hazing Prevention Week (NHPW). The Interfraternity Council of the University of Idaho commended the chapter on its involvement and will be donating \$1,000 to the Juvenile Diabetes Research Foundation in the chapter's name.

The chapter participated in every event during the week with more than 84 percent involvement and an outstanding 94 percent attended the hazing prevention speaker.

"Delta Tau Delta continues to display anti-hazing values and builds a brotherhood supported by trust, responsibility and respect," said Nicholas Ryan (University of Idaho, 2017), Interfraternity Council new member development chairman.

Central Office

On Nov. 1, a team of 10 Central Office staffers laced up their sneakers on a bitterly cold morning and participated in the Monumental Half Marathon/5K in Indianapolis in support of JDRE. In the weeks leading up to the race they hosted several fundraising events in an effort to raise as much money as possible for our national philanthropic partner. Dine and Donate at Scotty's Brewhouse, Lunch and Learn with keynote speaker Kevin Wanzer (Butler University, 1989), fun challenges and chili day at the office were some of the many fundraising activities put on by the Central Office staffers. Through their many efforts, the staff raised \$6,334 for JDRE.

The men of Theta Mu Chapter at Clemson University spent an early Saturday volunteering.

Dedicated Brothers Help Family in Need

The men of Gamma Eta Chapter jumped at the opportunity to help fellow brother, Casey Syron, and his family during their time of need.

The men of the Gamma Eta Chapter at George Washington University raised more than \$27,000 in a matter of weeks after hosting an unforgettable “Delt’s Tau-Gate” in late September for brother Casey Syron’s (George Washington University, 2016) father and his ongoing battle with cancer.

Syron’s father, Tom, was diagnosed with colon cancer in 1988, then kidney cancer eight years later. Again in 2012, he received another diagnosis of stomach cancer, ultimately leading to the removal of his stomach. Two short months after beating it, he was diagnosed again.

In spectacular Delt form, the brothers of Gamma Eta rose to the occasion and dove head first into event planning to raise funds to offset the rising cost of medical care for Syron’s father. The event was a roaring success, making local and national news. The outpouring of support and funds came from 10 countries on five different continents.

“This philanthropy felt different. The brothers have all dealt with cancer throughout their lives somehow, so we were able to all add an individual passion behind raising the money to help out my dad,” said Casey Syron. “This philanthropy would not have been able to reach this broad of an audi-

ence were it not for the total dedication of the brotherhood.”

The chapter recruited every sorority on campus to participate in a corn hole tournament, and also teamed up with local businesses to raise money through sales. With an outstanding turnout and show of support, the men were able to make a substantial dent in the costly medical bills which had piled up over the course of four cancer diagnoses, and also give Syron’s father a much-needed morale boost to continue his ongoing battle.

“The men of my chapter were able to step up, fight for my dad, and give him the encouragement that he so desperately needs right now,” said Syron. “This is what true brotherhood is.”

Members of Gamma Eta Chapter prepping for Delt’s Tau Gate.

Omicron Goes Green

Ongoing relationship with the University of Iowa recycling program leaves campus more green than ever.

The men of the Omicron Chapter at the University of Iowa began a legacy of dedicated community service in 2012 by donating many a man hour to the University's recycling initiative and waste reduction campaign. Today, the men continue the tradition of service by giving up traditional tailgating activities before football games, and instead showing up early on game days to man the entry gates and encourage fans to recycle. This year, the men of Omicron donated more than 500 hours during the 2014 football season.

Kinnick Stadium at UI goes green as part of the game day recycling effort to reduce the amount of trash ending up in the landfill after football games. This game day recycling program is part of the UI's 2020

Vision sustainability goal to divert 60 percent of waste from the landfill by 2020.

Before each game, the Omicron Delts bring energy to the recycling initiative by cheering on fans as they recycle, educating them on the importance of recycling, and changing the culture and mindset of the campus on the subject of sustainability.

"As a long time staff member at

the University, I have rarely seen the level of involvement and leadership as displayed by the men of Delta Tau Delta," said Dave Jackson, assistant to the associate vice president of facilities management. "In many ways, they have renewed and reinvigorated my faith in our Greek system and its capacity to change lives for the better."

Along with the sustainability initiative, the Omicron Delts are also highly involved in other aspects of the UI campus, including student recruitment, campus orientation, campus safety events, Homecoming court and other community service projects.

"The Delts are definitely, each year, leaving this campus better than they found it," said Jackson.

The University of Iowa benefits from Omicron Delts and their commitment to keeping the university clean.

Journey to Excellence: From Bid Day to Graduation

Does being a member of Delta Tau Delta make a difference in the lives of young men? We hope it does, but how? Are they better equipped to face the academic challenges of college? Are they more prepared for life after graduation?

At Karnea 2014, the Fraternity was introduced to a new version of the member education program, *The Road: The Journey to Excellence*. It is designed with clear directions for chapters to educate all members and make a difference in their lives. Piloted for the last year, the Journey encompasses many of the objectives of the original program, but expands the program to include several areas of education.

The Road: The Journey to Excellence is the umbrella

for all member education spanning from bid day to graduation day. The new program is broken down into four sections.

New Member Education: In the first eight weeks of membership, men will learn the history of the Fraternity, expectations of membership, the mission and values and personal leadership skills.

Recruitment Education: After initiation, members participate in three recruitment workshops focused on teaching the skills to recruit productive and engaged men.

Ritual Education: Members then transition into *Ritual* education for the next year. Meeting once a month, members discuss and explore the Fraternity's ceremonies and their importance in leading a values-based life.

Member Education: The last section of *The Road* has specific objectives for each academic year geared toward life skills, personal leadership and service and philanthropy.

Chapters were given an opportunity to opt into the new version at Karnea. Forty-five chapters signed up for the program and participated in the Road Retreat, a new weekend training to learn vital skills to implement the program. Ongoing coaching and additional education will be provided at the 2015 division conferences.

Chapters who want to opt in for next year will be able to sign up in the spring.

By Ellen Shertzer

Leadership Experiences Provide Invaluable Lessons

Just as The Road: The Journey to Excellence focuses on educating members from bid day to graduation, the Fraternity also offers leadership experiences for every member on this continuum.

This past summer Delta Tau Delta saw the second iteration of its leadership experiences, Ignite and The Charge. Ignite is a weekend experience in a camp type setting for men who have joined the Fraternity within the past 12 months. The Charge is an intensive five day experience in the city of Chicago helping participants map out a personal strategic plan.

Participation and enthusiasm for both continue to grow. More than 100 emerging leaders took part in the Ignite, and 94 percent of The Charge participants stated it was the defining moment of their undergraduate career.

The Fraternity knows that interest is growing and participants are feeling positive about their experience. What is becoming more apparent, and maybe even more exciting, is the impact they are both making on members who attend.

A structured assessment process has been established to track how participants feel about their experience, what they learn, and what impact they are making in their chapters.

By attending Ignite and The Charge our brothers;

- Are more engaged members: Both Ignite and The Charge participants are 23 percent more likely to be elected to leadership positions in their chapter.
- Feel more confident in their ability to lead: Ignite participants who felt prepared to take on a leadership role increased by 40 percent by the end of the weekend.
- Have a greater self-awareness: Every participant at The Charge was able to develop a personal plan of action to improve their professional and personal goals.
- Are developing a greater affinity for the Fraternity even outside their chapters: Attendees from both Ignite and The Charge are attending other programming at a higher level than the average member.

Alumni Engagement

It is also opening opportunities to engage alumni who otherwise would be unable to interact with students. Because of this, it is important for Delta Tau Delta to commit to growing these experiences to the point they become engrained in the organization's culture. This can be achieved by accomplishing the following goals.

More than 50 alumni were able to participate in part or throughout the entire experience. If you are interested or know of any alumni or volunteer to recommend serving in the following roles please contact Assistant Director of Leadership, Doug Russell for more information at Doug.Russell@delts.org.

Ignite:

- Small group facilitator: time commitment Thursday evening – Sunday afternoon
- Alumni panel: time commitment Saturday evening The Charge
- Small group facilitator: time commitment Tuesday evening – Sunday afternoon
- Mentoring panel: time commitment Saturday evening

"The Charge was the program that has most impacted my life and I will never forget the lesson learned through this experience. This program allowed me to examine where I'm at, gain a further appreciation for the Fraternity, and look past the Fraternity into my everyday life."

Kirk Haganman

University of Iowa, 2016

An alumnus volunteer and undergraduate work together at Ignite.

2014 Annual Report

The past year, specifically the fiscal year ending July 31, 2014, was one of achievement for Delta Tau Delta. The Arch Chapter and Central Office staff are working collaboratively to execute the Fraternity's strategic plan which focuses on four key areas: Undergraduate Engagement, Alumni Engagement, Community Engagement and Strategic Growth. The plan drives our accomplishments of which there were many in our 156th year:

- Undergraduate membership grew for the seventh consecutive year and surpassed 9,000 men for the first time, finishing at 9,375. Delta Tau Delta ranked third in average chapter size among all fraternities with an average of 69 men, up 20 since 2004. Overall Delt undergraduate membership grew by 61 percent in the past decade.
- Five new chapters were installed during 2013-14. Lindenwood University and Northeastern University joined the Delt family for the first time, while chapters were rekindled at Boston University, University of Chicago and Vanderbilt University after long periods of absence. A total of 259 men were initiated into Delta Tau Delta through these new chapters. New chapters were installed this fall at the University of Texas at Dallas and James Madison University.
- Our overall campus footprint grew to a record 133 schools on July 31. The growth has continued this fall with a successful recolonization at the University of Maryland and first-time colony launches at The College of New Jersey and Cal Poly-San Luis Obispo.
- Academically, Delt students continue to post strong classroom effort. The all-Delt average for the Spring 2014 term surpassed 3.0 for the fourth time in five semesters. Nearly six of 10 chapters achieved an aggregate GPA above the all-men's average on their campus and 63 percent were above the all-fraternity average. The revitalized Kershner Scholars program recognized 1,982 men who achieved a 3.5 GPA or Dean's List recognition on their campus. That's one in every 4.5 men.
- In our second year of a national partnership with Juvenile Diabetes Research Foundation (JDRF), Deltas upped their game by providing 16,395 hours and raising \$188,494 in the fight to eradicate Type 1 diabetes.

Beyond the numbers, the significant and ongoing work to provide a well-grounded and values-based Delt experience continued via The Road: The Journey to Excellence. Initially introduced in 2008, The Road

is a comprehensive member education and development program. Its relaunch at the 2014 New Orleans Karnea followed two years of study by staff, the Arch Chapter and higher education professionals along with feedback from students and chapter volunteers. The intentional development process from basic orientation during the new member period to recruitment education, *Ritual* education and ongoing member education during the undergraduate years intends to reach every student and form the foundation of a positive Delt experience that lasts a lifetime.

Finally, while we look eagerly to future accomplishments, much of the pride in Delt membership stems from a rich history. For the first time, access to the entire catalogue of the *Rainbow* became readily available this year through a searchable online archive. It's certainly worth a look at: <http://deltatadelta.archeios.com>

USES OF REVENUE

What's Going on in There?

The Delta Tau Delta Central Office handles a wide range of responsibilities, from fiscal matters to chapter management to educating members. Find out the role of the Central Office and how the people in Fishers, Indiana can help you.

Chapter Management

- Provide educational resources for members
- Manage chapter Consultant program
 - ▲ Provide chapter visits
 - ▲ Share best practices and evaluate chapter operations
 - ▲ Assist in strategic planning and transition
- Help facilitate membership reviews and assist with alumni supervisory committees
- Serve as primary contact for higher education partners and parents
- Provide Ritual education

Housing Support

- Develop long-term housing plans
- Provide educational material and training to members of house corporations
- Manage loan programs
- Maintain property insurance program

Leadership Development

- Develop and execute programming for Ignite and The Charge
- Write and direct curriculum for division conferences
- Manage Presidents and Advisors Retreat
- Provide chapter support for The Road: The Journey to Excellence

Expansion & Recruitment

- Identify potential campus expansion sites
- Prepare and present campus expansion presentations
- Provide on-site recruitment and training for new colonies
- Facilitate colony petition and chartering process

Alumni Support

- Recruit potential volunteers
- Educate new chapter volunteers through the New Advisor Development Institute
- Facilitate Programming for newly-engaged alumni at expansion sites
- Maintain online volunteer training

Educational Foundation

- Raises funds from alumni, undergraduates, parents and friends
- Provides grants to the Fraternity for educational programming
- Maintains Fraternity archives and museum including the Bethany Founders House
- Owns and operates the Fisher-Nichols memorial Headquarters

Enough is Enough

In the Summer 2014 edition of *The Rainbow*, we took a look at where the Greek movement was going, and more specifically, where Delta Tau Delta was going and what impact the organization is making on its members. We also challenged Delts to evaluate their own beliefs to affirm they were truly living the values of the *Ritual*.

Unfortunately, not all Delts live those values.

Within the last six months, three Delt chapters have been closed for failing to uphold the values of the Fraternity, while 15 others have been investigated by their campus or the Fraternity for risk management infractions.

A few of the undergraduates of the Fraternity have determined the course for the whole chapter. While members are continually encouraged to not only recruit, but also live their values daily, that doesn't

always happen. And when that doesn't happen, the results can paralyze a chapter.

"I was recently meeting with a chapter and when I asked the group how they recruited, the recruitment chairman said 'We recruit new members based on the values of the Fraternity, truth, courage, faith and power'" said Dave Sirey, director of chapter services. "But, a new member spoke up from the back of the room and said this was the first time he had heard

those four values mentioned. It was very disheartening, but not unique. Many of our Delt chapters need to embrace a richer cultural experience and begin to recruit, educate, retain and live the values so they can become successful."

How does Delta Tau Delta help poor-performing chapters?

Throughout the year we work with our under-performing chapters to try and right the ship. We seek to build men, creating real, effective leaders within the chapter.

"We have a commitment to ourselves and others to uphold the strict standards of Delta Tau Delta," said Jody Danneman, international president. "When our chapters fail to hold their members accountable to those standards by practicing internal accountability, it falls to the Arch Chapter to intercede. At its most

By Brook Pritchett

extreme, that action can be to expel members and to withdraw the charter.”

When the difficult decision to close a chapter is made, it isn’t simply done to cut out the bad. It’s done with a larger goal in mind, to help the men learn from their mistakes and become better people.

The leadership of DTD always considers the future of the chapter as a whole as well, with the hope to bring the chapter back to the campus at a later time when we feel there is a higher probability for success.

“When we see a chapter is heading down the wrong path, we try to intervene as quickly as possible, said Jack Kreman, chief operating officer. “When that doesn’t work, the Arch Chapter does what’s best for the chapter and temporarily suspends the chapter until it feels it will face a more successful return on campus. When the Arch Chapter arrives at this decision, it is always because the chapter no longer properly advances the Mission and Values of Delta Tau Delta.”

What has changed?

The leadership of Delta Tau Delta has not only taken a much more proactive approach, but higher education institutions have also changed the way misconduct is handled.

“The reality of the situation is that colleges and universities have a low tolerance for misbehavior,” said Kreman. “The choice is simple. Either we can hold ourselves accountable to our Mission and Values or the school will. If our chapter leaders decide they will no longer hold each other accountable to our values, then the school will. And when the school does, it usually results in more severe sanctions and/or suspension of recognition.”

What can you do to help?

First and foremost, get involved. Whether you’re an undergraduate or an alumnus, the success of the Fraternity is in your hands.

The majority of members are not officers in the chapter. Just because a member may not be the one making final decisions in a chapter, this does not mean that it is excusable to allow the chapter to make poor decisions.

The easiest way for every member to help the chapter is to first and foremost be a well-informed member. This does not just mean reviewing the Member Responsibility Guidelines and understanding campus policies. This also includes developing an understanding of the mission and values of the Fraternity, not just as they existed in 1858, but also why they are relevant today and tomorrow.

Once individual members are all informed, it then becomes a more educated chapter discussion regarding events; this will also help in discussions regarding individual behavioral issues. Only when there is a communal standard on what is and is not acceptable can members hold each other accountable.

What does the future hold?

The unfortunate reality is that the dice have already been cast on the future of Greek life-University relationships. Because of some very unfortunate incidents involving Greek students, campuses have started to take the stance that Greek life is not a right; it is a privilege and can be taken away.

Clemson, Virginia, West Virginia, Central Florida. These universities have all decided in the last 18 months to suspend their entire Greek systems in response to incidents. The Dartmouth faculty recently voted to recommend the university end Greek life to address the trends of binge drinking and sexual violence.

Obviously, we cannot change the minds of those who truly are “anti-Greek,” but we can certainly help those who advocate for Greek life by holding ourselves to a standard that encourages sound decision making and responsible behavior.

We know guys will make decisions that might not always be the right fit. We know they want to go to college and have both an educational and social experience. We aren’t asking our undergraduates live an anti-social, hermit life. We’re asking them to live their values, all day, every day.

With every decision made, those four fundamental principles should serve as a guide to help do their work, fulfill their obligations, maintain their self-respect and bring about that happy life.

As You Advance, Remember That Others Follow

Foundation Welcomes Ron Dykes (Auburn University, 1969) to Bethany Society

On Oct. 23, 2014, Mark Helmus presented Ron Dykes with his Bethany Society Blazer. Ron joins more than 300 members who have given \$25,000 outright or \$100,000 in a planned gift to support the education of youth and inspiration of maturity through the Delt Foundation. Thanks, Ron, for your generous support! For more information on the Bethany Society, go to www.deltfoundation.org.

Delta Alpha Kappa Society Grows to 100 members!

Founded in 2014, the Delta Alpha Kappa Society seeks to recognize those Annual DeltFund donors who choose to support the Foundation via recurring gifts. The initials were first added to Fraternity images in 1870 and stood for a secret motto within Delta Tau Delta, which was later declassified. It means, "Labor for the beautiful and the good."

The Foundation is pleased to share that the DAK Society has reached 100 members. To date, DAK members have pledged an average gift of \$657, which represents

a 180 percent increase on average over their previous gift. Additionally, 77 percent of members are under 40 years of age indicating that recurring gifts are an attractive giving method for many of our younger donors.

We will continue to accept new "Charter Members" through July 31, 2015. All Charter Members will be recognized as such in the 2015 Honor Roll of Donors. To become a member,

Ron Dykes

donors need to set up a recurring donation made via a regular payment plan (monthly, quarterly or yearly). Donations can be run on the 1st or the 15th of every month. Making a recurring gift allows you to build a very significant contribution through smaller installments. For example, donors can join the Order of the C— (premier leadership annual giving society) for as little as \$84 per month. To learn more visit us at www.deltfoundation.org or call Steve Vedra at (317) 284-0210.

9,375 Reasons to Join the Heritage Society

This past academic year, the Fraternity achieved an all-time record with 9,375 undergraduate members. You can help shape their future by just adding a few sentences to your will, naming the Delta Tau Delta Educational Foundation as a beneficiary to your IRA, or by documenting another type of planned gift. These can be perfect for those who want to give back and do more for tomorrow's Delts, often at little to no present cost.

Benefits to you can include:

- Flexibility – Most planned gifts don't happen until after your lifetime, meaning no current financial impact. You can also adjust your plans at any time to fit changing needs and circumstances.
- Versatility – You can structure your planned gift to leave a percentage of your estate to the Delt Foundation, minimize taxes, and/or create an income stream for you or a loved one.
- Recognition – By including the Foundation in your estate plans, you become a member of the distinguished Heritage Society, a visible reminder to all Delts of our commitment to "remembering that others follow".

For more details on how you can include the Foundation in your planned giving, contact Mark Helmus at (317) 284-0210 or mark.helmus@delts.org.

Don Kress Honored

On Nov. 13, 2014, Donald G. Kress (Lafayette College, 1958) was honored at a dinner which recognized his more than 60 years of membership and service in Delta Tau Delta. This good Delt has given generously as a chapter advisor for Nu and Rho Chapters, as Chairman of the 1968 New York City Karnea,

Eastern Division President, Foundation Director since its inception in 1981 and the only Foundation Investment Committee Chair during that span. One of the most enduring legacies of his term as international president was the fulfillment of a commitment to visit every active chapter. During the 2014 Fall Board of Directors meeting, Kress was elected as a Life Director for the Delt Foundation. Thanks again, Don, for all that you have done and continue to do on behalf of Delta Tau Delta Fraternity.

In honor of Don, Monroe Trout (University of Pennsylvania, 1953) presented him with a Delta Tau Delta themed painting. Trout is a well-recognized artist whose paintings are included in some of the most exclusive art collections in the world. If you would like to have one of these unique Delt paintings and help the Foundation support the Fraternity at the same time, you can receive your own giclée on canvas for \$250, of which \$200 will be treated as a tax-deductible charitable gift to the Delt Foundation in Don's honor. If you're interested in a giclée of this unique Delt piece or making a gift in honor of Don Kress, please contact us at foundation@delts.org or call 317-284-0210.

Matching Gifts Enable Donors to Double Their Support

Many companies and foundations will match the value of charitable gifts made by employees and their spouses, board members and retirees.

Note: Matching gifts should be directed toward the Delta Tau Delta Educational Foundation, not the Fraternity. To find out if a particular company or foundation has a matching gift program, you can visit our new matching gifts search engine at www.deltfoundation.org. This search engine provides the proper forms, contacts and giving criteria for more than 19,000 companies!

Check Your Lifetime Giving and Stay Informed

Are you curious about how far away you are from the next giving level or interested in updating your contact information to make sure that you receive the latest news from the Foundation? Visit us at www.deltfoundation.org and create your account today!

Donor testimonial with Rob Shattuck, Oklahoma State 2002

How has Delt played a role in your life, career, family, etc.?

My time as an undergraduate member was extremely beneficial to my development as a contributing member of society. There are so many circumstances in life after active membership that require you to draw upon the experiences you have while going through chapter life. For example, I had the opportunity to work as a chapter leadership consultant for the Fraternity, and while in that role, I reconnected with a woman who became my wife. Being a Delt teaches you how to prepare for life outside of school.

Why did you make your first gift to the Foundation? Why do you give now?

I began my giving right after completing college, and I continue to give to help support the programs, academics and conferences. I have been given much and it's only right to return what I can back to the Fraternity. Aside from providing resources for the Fraternity, I want to set an example for the undergraduates in my chapter. I think if many brothers find a way to give, it brings a greater sense of community within the Fraternity. Also, the more they give, the greater the programming and support that can be provided from the Foundation.

RENEW

BY D. MARK HELMUS (OHIO 1986)

EXECUTIVE VICE PRESIDENT

The theme of the 2014 New Orleans Karnea was “Renew.” For those who attended, or read Arch Chapter President Jody Danneman’s perspective on the “Renew” theme in the fall Rainbow, perhaps you understand the value behind such intentional renewal efforts. Personally, my prior employer – Butler University – emphasized as part of “The Butler Way” – the need for renewal by seeking improvement every day.

It is in that spirit that I invite you to consider what “renewal” means to you, personally, while reading about the Foundation’s recent successes, challenges, and future goals. FY14 (8/1/13-7/31/14) was truly a record-setting and ground-breaking year on several fronts. What follows is an overview of our work and progress – our ongoing renewal, if you will – as well as some new opportunities for you to consider.

- From a pure fundraising standpoint, the Annual DeltFund recorded a new high of \$819,717, bettering our previous high by more than \$28,000! This was in large part due to another record, that being 181 Order of the C—members (\$1,000+ donors to the unrestricted Annual DeltFund) and the introduction of our newest donor recognition society, Delta Alpha Kappa (DAK). DAK (which is the Fraternity’s public motto – We Labor for the Beautiful and the Good) recognizes and encourages recurring gifts from donors, often enabling them to make more generous and meaningful contributions than they would be able to do through outright gifts.
- After more than two decades of telemarketing, the Foundation has chosen to decrease its reliance on this method of communication and solicitation. While it will continue in a modest fashion, our focus has shifted to more personal contact with alumni. This will come primarily through the Foundation’s four professional development staff – myself, Steve Vendra (Butler 2002), Mike Slaughter (Oregon 2006) and Dylan Pyne (George Washington 2012). If you are interested in meeting to learn more about the work of the Foundation and our efforts to advance the Fraternity’s future, please contact us at 317-284-0210 or Foundation@delts.org.
- We launched our new website (www.deltfoundation.org) last fall. It allows alumni to check their giving history, update their contact information, register for Foundation events, search for employer matching gift opportunities and provides substantial gift planning information.

President Danneman shared his initial concerns with the concept of “renewal”, harkening back to “renewing” subscriptions and other mundane tasks. He ultimately concluded, however, that it is every Delt’s responsibility to seek ongoing growth and improvement – renewal, if you will – and the Delt Foundation is committed to doing just that in its continual effort to educate youth and inspire maturity.

I encourage you to read the following pages about how thousands of alumni, undergraduates, parents and friends – through their gifts to the Delt Foundation – are positively impacting the experience of nearly 10,000 young men across the country each and every year. Moreover, I ask that you consider renewing your support of and involvement in Delta Tau Delta.

If you would like to see a full copy of our FY14 Honor Roll of Donors, please contact us at 317-284-0210, foundation@delts.org, or visit our website at www.deltfoundation.org.

"Thank you so much for everything! Without your support, none of this could have been possible. I had one of the best weekends of my life and without a doubt this is the most influential and formative experience of all my time on this earth. Ignite instilled in me inspiration and a profound realization of the larger significance of the organization to which I have committed my life."

Henry Raschke, University of Southern California, 2015

"Thank you so much for giving me the opportunity to attend this fantastic experience to Ignite at no charge. I now feel more empowered than ever to bring back positive change to my chapter anchored in the values of Delta Tau Delta."

Nicholas Augspurger, Vanderbilt University, 2015

"Thank you very much for this great weekend. I learned a lot about myself and how others lead. I stepped out of my comfort zone and learned more about what it means to be a Delt. I greatly appreciate this opportunity."

Andre Jordan, University of California-Riverside, 2017

BETHANY SOCIETY

This loyal legion of Delt alumni have helped secure the future of Delta Tau Delta by providing significant resources to support leadership and educational programming at the national and local level. The Society was founded in 1998 and has grown to more than 240 members. Membership is restricted to alumni and friends of the Foundation who have made a lifetime total of cash gifts and pledges over \$25,000 or a planned gift in excess of \$100,000. Each member receives a signature green blazer with an embroidered Coat of Arms. Special cloisonné buttons are awarded when their lifetime giving for cash exceeds \$100,000 or they make a planned gift of \$500,000.

DAK SOCIETY

Founded in 2014, the Delta Alpha Kappa Society seeks to recognize those Annual DeltFund donors who choose to support the Foundation via recurring gifts. The initials were first added to Fraternity images in 1870 and stood for a secret motto within Delta Tau Delta, which was later declassified. It means, "Labor for the beautiful and the good." To become a member, donors need to set up a recurring donation made via a regular payment plan (monthly, quarterly or yearly). Donations can be set up to be run on the 1st or the 15th of every month. Making a recurring gift allows you to build a very significant contribution through smaller installments.

"I would like to express my sincerest gratitude towards the part you played in the California Ignite event. I can honestly say the event reinvigorated and rejuvenated my belief and practice as a Delta Tau Delta brother. The education and facilitators were phenomenal and given the chance, I would recommend that others attend without any hesitation."

Dustin Santjer, University of South Dakota, 2017

"I'm full of appreciation to have experienced Ignite. In addition to meeting great brothers, both students and alumni, I am inspired to really make a lasting and positive impact on my chapter. There is always another step forward that my Fraternity can make in becoming a better group. I also want to change the image that Delts have on my campus."

Matthew Hill, Chapman University, 2016

DELTA TAU DELTA

STEVE ARLIN

OHIO STATE UNIVERSITY, 1967

Ohio State baseball legend Steve Arlin was inducted into the Omaha College Baseball Hall of Fame on July 3, 2014 in Omaha, Neb. Arlin, along with three other inductees, was honored at the TD Ameritrade College Home Run Derby at TD Ameritrade Park and was featured on ESPN's live broadcast.

Arlin led the OSU team to a College World Series victory in 1966, where he also was named College World Series Most Valuable Player. Arlin was elected to the College Baseball Hall of Fame in 2008, the same year his jersey was retired at Ohio State. Arlin, who was selected 13th overall by the Philadelphia Phillies in the 1966 Major League Baseball draft, went on to play six seasons in the big leagues between the San Diego Padres and Cleveland Indians organizations.

BROCK AYERS

WESTMINSTER COLLEGE, 1982

The Blue Blazer Investment Committee, founded at Westminster by Brock Ayers in 1996, is a group of about 40 students who work together and decide how to best invest a growing portfolio. The committee, which has three Delt undergraduates serving in executive positions, just reached the half million dollar milestone.

The program started with a \$200,000 seed fund from the college's Board of Trustees during 1996 to spark student interest in investments. The Blue Blazer committee's stock portfolio has an 8.02 percent rate of return since 1996, which compares favorably with equity returns from the Dow Jones Industrial Average, 5.72 percent, the NASDAQ Composite, 7.42 percent and S&P 500, 5.82 percent over the same time period.

SCOTT BERGREN

NORTHWESTERN UNIVERSITY, 1968

On April 12, Scott Bergren, CEO of Pizza Hut and Chief Innovation Officer of Yum! Brands, received the Alumni Merit Award from the Northwestern Alumni Association. Each school of the university nominates one individual each year to receive the honor for outstanding achievement

in their profession. Bergren was nominated by the Medill School of Journalism, Media, and Integrated Marketing Communications.

In his current position, Bergren has been involved in both the for-profit and philanthropic arms of the organization, the latter of which raises money for the World Food Programme, part of the United Nations Outreach. He has visited under-resourced areas of Central and South America, where he witnessed the positive impact of philanthropic activity for those living in need.

R. STEPHEN BROWNING

UNIVERSITY OF ARIZONA, 1973

Stephen Browning has accepted the position of chief development officer for Sound Mental Health, the largest mental health provider in the Northwest. In his new position, he will oversee both

the development and communications areas of the organization. Previously, he served as President and CEO for Pet Partners, a Bellevue-based national non-profit.

EDWARD BRYANT

NORTHWESTERN UNIVERSITY, 1963

Edward Bryant, known as a pioneer in health care law, received the American Board of Medical Specialties' 2012 Distinguished Service Award for his leadership within the organization. The American Board of Medical Specialties is a nonprofit established in 1933 to create uniformity in physician certification and to increase public awareness of the value of specialty certification.

Bryant, who founded the first health care practice within a Chicago law firm in 1979, has helped restructure the ABMS governance body, draft bylaws for a new board of directors, and assist the organization in meeting new reporting requirement implemented by the IRS. He is known nationally for his work on corporate restructurings, mergers and acquisitions, and joint ventures.

Bryant also dedicated much of his time to teaching and counseling lawyers, including as a professor of health law at Loyola University of Chicago School of Law from 1985 to 1992. Loyola University of Chicago School of Law named their Annual National Competition in Healthcare Transactions in Bryant's honor for his service to the University.

He has been honored by Delta Tau Delta with its Alumni Achievement Award and by citation to the Distinguished Service Chapter.

MICHAEL CARD

UNIVERSITY OF SOUTH DAKOTA, 1981

Michael Card was appointed dean of Graduate and Distance Education at the University of South Dakota, a public coeducational research university with more than 10,000 undergraduate and postgraduate students. Card was chapter advisor for the Delta Gamma Chapter from 1991-2002.

Card received his undergraduate degree in political science and government from USD and received his Ph.D. from the Ohio State University in public policy and management in 1992.

GERRY "SPUD" DICK

DEPAUW UNIVERSITY, 2010

Gerry "Spud" Dick was named a 2014 Cassidy Turley Rising Star. He is an associate at the Cassidy Turley Indianapolis office, a privately-owned commercial real estate services firm

headquartered in Washington D.C.

The honor was awarded to Dick, along with 23 fellow Rising Stars, for his exceptional professional achievements and leadership potential. The Rising Stars are recognized for their ability to generate new business, provide exceptional client service, and collaborate with other company service lines and professionals across markets. For his extraordinary efforts, Dick attended the National Leadership Conference in San Antonio, Texas, where he had the chance to hear from select clients, senior brokers and other Cassidy Turley leaders. He is a graduate of the Delta Tau Delta Leadership Academy.

RYAN EWING

NORTHERN ARIZONA UNIVERSITY, 2005

Ryan Ewing was honored with the Northern Arizona University Alumni Association's Excellence in Achievement by a Recent Graduate Award at NAU's 90th Homecoming. This award recognizes a young alumnus/alumna who has achieved outstanding success in

their professional career in a relatively short amount of time.

In 2007, Ryan joined Amazon to help open the company's first order-fulfillment center in Arizona. He gained invaluable experience in transportation logistics and inbound and outbound operations, leading the safest of all shifts based on audit scores and incident rates. He was promoted to operations manager within a year. In this role, Ewing supervised managers and more than 300 hourly employees at any given time.

After additional promotions and reassignments, Ewing came to head the team responsible for orientating new leaders into Amazon Operations business units worldwide. As senior manager of worldwide manager technical training, he spent six months last year in Europe standardizing the hiring programs for employees in Fulfillment Centers across five countries.

GARY GADDIS

INDIANA UNIVERSITY, 1979

Gary Gaddis currently is serving a two-year term as the president of the Board of Trustees of St. Luke's Hospital of Kansas City, at which he has served as the St. Luke's/ Missouri Endowed Chair for Emergency Medicine since 1999. He has delivered talks about emergency medicine topics on four continents in

14 countries, and in 2012, he was chosen by the American Academy of Emergency Medicine to receive its Peter Rosen Award.

The award, named for a founder of the specialty of Emergency Medicine, recognizes an individual who has made an outstanding contribution to AAEM in the area of academic leadership. Nominees for this award must have 10 or more years of experience in an EM academic leadership position and must be an AAEM member.

RANDY HEAD

WABASH COLLEGE, 1991

Indiana Senator Randy Head was among those recognized during the Indiana Philanthropy Alliance Statewide Conference on June 11 and 12. Sen. Head was named 2014 Public Policy Champion of Philanthropy.

Over the past 10 years, Head has served on the Cass County Community Foundation's board of directors. He has been a supporter of public policy that encourages and promotes philanthropy in Indiana. Most recently, he authored a resolution honoring the centennial anniversary of the community foundation movement in this country, which was unanimously adopted by the Indiana Senate on Feb. 24, 2014.

NICHOLAS PERLICK

BETHANY COLLEGE, 2000

In 2014, Nicholas Perlick was named vice president for development and alumni relations at Eastern Kentucky University. Prior to his position with ECU, Perlick served as the director of development for Middle Tennessee State University for more than five years, where he played a pivotal role in the centennial campaign that is poised to exceed its goal with more than a year remaining.

Previously, Perlick served as executive director of the Middle Tennessee Medical Center Foundation from 2006 to 2009. He received his undergraduate degree in political science from Bethany College and his graduate degree in higher education administration from Florida State. He is currently pursuing his doctoral degree in health and human performance at Middle Tennessee.

GEORGE SEIDE

UNIVERSITY OF FLORIDA, 1972

George Seide, attorney and certified family law specialist, was honored in 2014 as one of the "Top 100 Attorneys in Southern California" by Thompson-Reuters legal publishers and Los Angeles Magazine. While Seide is in the exclusive practice of family law in Los Angeles and Ventura counties, the esteemed recognition was not limited only to family law, but included all legal practice areas.

As a writer and lecturer on family law topics, Seide has been active in local and state bar associations, including Beverly Hills Bar Association, San Fernando Valley Bar Association and Association of Certified Family Law Specialists and was the chairperson of the California Bar Family Law Section Executive Committee. Additionally, he was chairperson of the California Bar Council of Sections and was on the California Bar Board of Governor's Task Force on Sections, representing all members of the California Bar.

TEREN SHAFFER

CHAPMAN UNIVERSITY, 2009

In July of 2014, Teren Shaffer was appointed the director of classical music of the Instrumental Music Conservatory at the Orange County School of the Arts. As the director of classical music, Shaffer oversees Frederick Fennell Wind studies, orchestra and string, and piano programs.

Shaffer also serves as the associate conductor and general manager of the Orange County Youth Symphony Orchestra, cover conductor Sinfonia Gulf Coast in Florida, and is the co-founder and director of artistic management for First & Grand Entertainment LLC.

Shaffer holds Bachelor of Music degrees in instrumental conducting, bassoon performance and music education from Chapman University's Conservatory of Music. Additionally, he received his Master in Music from the University of Cincinnati's College-Conservatory of Music.

TRISTAN SMITH

TULANE UNIVERSITY, 2013

Tristan Smith, a lighting project specialist at Big Ass Solutions, an industrial and commercial fan and light manufacturer in Lexington, Ky., is offering all Delta alumni 30 percent off the company's most popular residential fan, the Haiku.

Smith's father, who is also the owner of Big Ass Solutions, is providing this offer as a thank you to Delta Tau Delta for making Smith the person he is today. The company actively hires Deltas in the area and has more than 600 employees with a consistent 30 percent growth in sales each year.

PARRY "MATT" THOMAS

UNIVERSITY OF FLORIDA, 1973

Parry "Matt" Thomas, a long-serving volunteer in Baton Rouge, La., was named Louisiana's 2014 Cox Conserves Hero award by Cox Communication. The Cox Conserves Heroes program was created through a partnership between The Trust for Public Land and Cox Enterprises, the parent company of Cox Communications, to honor local conservation volunteers.

Thomas was honored for his service with TULIPA, The University Lakes Improvement and Preservation Association, where he frequently spends time picking up trash and removing invasive plants that cause water quality problems around the University Lakes. For his efforts, Thomas received \$10,000 to be donated to TULIPA, where he serves as president. His organization is currently working with the Baton Rouge Area Foundation on a plan to rejuvenate the LSU Lakes.

ROBERT WHITE

CASE WESTERN RESERVE UNIVERSITY, 1977

Robert White, a teacher at Shaker Heights High School in Shaker Heights, Ohio, has been honored by the Classical Association of the Middle West and South (CAMWS) with an Ovatio, the organization's highest award for service to CAMWS and the Classics profession.

The award was presented to

White at a banquet attended by more than 450 members of the organization at its annual meeting in Waco, Texas.

Founded in 1905 at the University of Chicago, the Classical Association of the Middle West and South, Inc., is a professional organization for classicists and non-classicists at all levels of instruction which promotes the Classics through the broad scope of its annual meeting, through the publication of both original research and pedagogical contributions, and through its awards, scholarships and outreach initiatives.

Two Delts See Election Success

Two Delts, Greg Abbott (University of Texas, 1980) and Mike Perros (University of Kentucky, 1981,) were elected into office this past election season on Nov. 4.

Abbott, the current attorney general of Texas, won the governor of Texas race against Democrat Wendy Davis. He is the first new Texas governor in 14 years and will be sworn into office in January. The top two focuses for Abbott once he's in office will be to keep Texas number one in the nation for creative jobs and to elevate the quality of education in the state.

Abbott is a native Texan, born in Wichita Falls and raised in Duncanville. He attended the University of Texas for his undergraduate degree in finance, and then proceeded to earn his J.D. from Vanderbilt University Law School.

Perros was elected mayor of Danville, Ky., after a tight race with incumbent Paige Stevens. Perros won with a platform focusing on job creation and the eradication of crime and drug use, issues that spoke volumes to the citizens of Danville. Both candidates were in agreement regarding the primary issues but differed in professional background and leadership style.

Perros was born and raised in Danville and has an extensive history of civic involvement including serving as the president of the local Red Cross Chapter, president of the Heart of Danville Main Street Program, president of the Danville-Boyle Co. Chamber of Commerce, president of Danville Schools Educational Foundation and as a founding member and president of the Danville-Boyle Co. UK Alumni Association.

Delta Chi Class of '64 Celebrates 50 Years of Excellence

Oklahoma State University's Delta Chi Delts, who pledged in the fall of 1964, met for three days at Great Cedar Lodge in Branson, Mo., to celebrate the 50th anniversary of their joining the Fraternity.

Members in attendance were Jerry Barnett, Dick Starr, Lynn Ruffin, Dave McCarty, Ken Ontko, Joe Millar and Chip Woodward. Other Delts joining in but not a part of the new member class were Mark Gilbert, Dale Atherton, Robert Gibson, Tom Pettegrew, Alan Fransen and Rick Morris.

The group had fun golfing, shopping and sight-seeing but mostly catching up on events since leaving Oklahoma State University.

Many memories of chapter life were relived and laughed about, but all agreed that being a Delt added much to their lives. Many in the group have been snow skiing together annually for approximately 25 years as well as meeting to enjoy Oklahoma State football games.

Members of the Delta Chi Class of 1964 include Ken Ontko, Joe Millar, Lynn Ruffin, Dave McCarty, Jerry Barnett, Chip Woodward, Dick Starr.

2,000 MILES ON WISDOM

2,000 Miles on Wisdom is a true story written by Jim Serger (University of Cincinnati, 1993) that combines a bicycling journey, customer service excellence, and a passion for making a difference. A tremendous customer experience will create lifelong loyalty, and Serger's 10 ingredients in *2,000 Miles on Wisdom* will guide any business to the core of true customer service.

THE BROKEN CIRCLE

Professor and Historian David P. Bridges (University of Kentucky, 1985) brings the story of physician-turned-warrior, James Breathed, to life in the historical novel, *The Broken Circle*. The story is a saga that depicts the impact of the American Civil War on the culture of the South and its bedrock principles of faith in God, family values, hard work, community, self-government and ethics.

The battles, locations and dates are all historically accurate, and Bridges also accurately incorporates the details of the weapons, culture, language, clothes and food of the Civil War period. The characters and their dedication to the South are based on real people. Bridges was inspired by his own Southern lineage and was compelled to tell the story of a man who exemplified the South's effort to preserve and fight for a cause they felt was just and the principles they believed America was founded upon.

The Broken Circle is Bridges' fourth book and first literary historical novel.

GEORGE CARSON: LOS ANGELES PIONEER

The Historical Society of Southern California recently published a biography of George Carson, prominent 19th century Los Angeles civic leader and land developer, written by Judd Grenier (University of Minnesota, 1951), professor emeritus of history at California State University Dominguez Hills.

Carson, a Mexican War veteran, traveled west during the Gold Rush era, entered business and politics, married into a renowned Spanish family, and established the city of more than 90,000 people that bears his name. This volume is the fifth in a series of California histories that Dr. Grenier has published.

PATRON SAINT

Jarrold Miller (Florida State University, 1990) penned his first novel, *Patron Saint*, about a jaded news photojournalist who learns of a family secret from his late grandfather, a World War II hero, which could change the world as we know it or lead to his own demise.

Miller carefully crafted a tale with two interwoven stories, one set in a Nazi-occupied Italian town as an American pilot and Templar Knight fights to escape relentless enemies, and the other set in present time while the pilot's grandson rushes to uncover the secrets his grandfather unlocked so many years ago. *Patron Saint* is an expertly crafted historical fiction novel that will surely leave you burning the midnight oil to finish.

SEXUAL JIHAD

Nick Calvin's (DePauw University, 1955) first foray into fiction novel writing involves two kidnapped professional tennis stars and a sheik prince who takes them as his wives in the midst of an Islamic holy war in his tantalizing first book, *Sexual Jihad*.

Drugged before their final at the U.S. Open, and shipped half-way around the world, the story's female protagonists, Marie and Ingrid, wake up trapped in a lion cage somewhere in the mountains and at the mercy of the sheik prince. The families of Marie and Ingrid engage a man experienced in the spectrum of Islamic extremists to locate and rescue their daughters.

STRAIGHT A AT STANFORD AND ON TO HARVARD: HOW TO LEARN FASTER AND THINK BETTER

Peter Rogers (Stanford University, 1986) recently penned the instructional book *Straight A at Stanford and on to Harvard: How to Learn Faster and Think Better*. This book reveals the methods to obtaining the highest marks in education and passing exams with near perfect scores. Rogers, a previously poor student turned scholastic achiever, believes students should be trained in academics and optimal learning methods as athletes are trained in their sports.

Learning methods such as SIRS, flashcards, word play, word associations, mnemonics, walk and talk, shadowing, neurogenesis, angiogenesis, mitochondrial biogenesis, brain glyco-gen, verbal skills, thinking strategies, condensed notes, how to read a book, speed reading and much more are discussed in Rogers' recent book.

STRANGERS AMONG US

Jim Oshust (Ohio State University, 1958) recently penned the murder mystery novel *Strangers Among Us*. The clever page-turner immerses readers in a story filled with murder, deceit and intrigue as the tale's protagonists delve deeper into a 70-year-old murder investigation.

Oshust is a 45-year veteran of major sports, exposition and entertainment facility management. He has had management roles in two Olympic Games, 1994 World Cup Soccer Championship, 1998 Goodwill Games, as a consultant at the 2004 & 2010 Olympics, and numerous event facility projects here and abroad.

WHAT THE BIBLE HAS TO SAY ABOUT THE U.S.A.

Veteran Christian author David Heeren (University of Delaware, 1961) has penned his newest religious book, *What the Bible Has to Say About the U.S.A.*, an in depth look through the lens of Scripture at the 10 crucial issues facing America.

Heeren, an award-winning writer, has authored or co-authored 13 books, five of which are Christian in nature.

Dan Abrams

Duke University, 1988

In 2014, Abrams has made frequent appearances on "Good Morning, America" and has been host of "Nightline" and chief legal affairs anchor for ABC News since 2013.

Duane Allen

Texas A&M-Commerce, 1965

During August, the lead singer of the Oak Ridge Boys was inducted into the Texas Country Music Hall of Fame in Carthage, Texas. His three band mates joined him in concert and were named honorary Texans during the 17th annual country music celebration.

Greg Berlanti

Northwestern University, 1994

Berlanti created, wrote and produced "The Arrow," now in its third year on The CW, and his latest show, "The Flash," premiered Oct. 7. In September, CBS-TV committed to Berlanti as executive producer of new series "Supergirl."

Chris Cowan

Ohio University, 1989

After serving as executive producer of the 2013 TV series "Polyamory: Marriage & Dating," Cowan was executive producer of 2014 TV documentary "Dangerous Toys."

Will Ferrell

University of Southern California, 1990

This fall, Ferrell was executive producer of seven episodes of new NBC-TV comedy show "Bad Judge" while being the lead actor and producer of comedy "Get Hard," which will be in theaters on March 17. Ferrell will also co-star with Mark Wahlberg in comedy "Daddy's Home" and has announced he will be in "Zoolander 2" with Ben Stiller.

Stephen Gaghan

University of Kentucky, 1987

Gaghan's recent projects have included co-writing 2013's "Call of Duty: Ghosts" Xbox360 game and creating 2014 TV crime series "S.I.L.A."

Al Harrington

Stanford University, 1958

After playing detective Ben Kooka in 64 episodes (1969-75) of the original "Hawaii Five-O" TV series, he is now the only living member of the original cast. Recently, Harrington has appeared as a guest actor in five episodes of the current "Hawaii Five-O" CBS hit show, including two in 2014.

Bill Hemmer

Miami University, 1987

Since joining Fox News in August 2005, Hemmer has been a key Fox News anchor on the network's "America's Newsroom" from 10 a.m. to 12 noon (CST). Before joining Fox, he spent 10 years with CNN.

JT Hodges

Texas Christian University, 2000

After playing four sold out shows during Nashville's June Country Music Association Fest, Hodges has continued touring and finishing final tracks on his second CD. In September, he opened for Toby Keith at the Washington State Fair and is playing at the December Step Up America Heroes Appreciation Festival in Vero Beach, Fla.

Eddie Ifft

University of Pittsburgh, 1994

A successful standup comedian on TV and in clubs for years, he is now doing a mobile audio/visual podcast on the Internet with a completely refurbished short school bus as his studio.

Ewan Leslie

Western Kentucky University, 1987

Leslie is currently looking at new projects after serving as executive producer of 2013 film "Welcome to the Jungle." His earlier films included "The Vampire's Assistant," "Hotel for Dogs" and "She's The Man."

James Marsden

Oklahoma State University, 1995

Marsden appeared on "The Tonight Show Starring Jimmy Fallon" to promote his latest film, "The Best of Me," which opened in theaters on Oct. 17. He is currently filming a remake of 1973 science fiction hit "Westworld," with Anthony Hopkins, for a 2015 spring release. Other upcoming films for 2015 include the comedy "Unfinished Business" and "D-Train."

Matthew McConaughey

University of Texas, 1992

After winning both an Oscar and Screen Actors Guild Award for "Dallas Buyers Club," he received a Primetime Emmy best actor nomination for the HBO "True Detective" series. His latest film, "Interstellar," opened on Nov. 7 and "The Sea of Trees" is now in post-production for early 2015.

Mark Norby

University of Texas, 1993

Norby had a banner year in 2014 as both a stunt double and stunt coordinator for movies and TV shows. He was stunt coordinator for the HBO "True Detective" series; was Matthew McConaughey's double in "Interstellar;" and did stunt work in TV series "The Mentalist," "Revolution" and "Cross Bones."

David Sullivan

Baylor University, 2000

His latest film, "The Veil," with co-stars Jessica Alba and Thomas Jane, is in post-production, as is "Sitter Cam," both of which will be out in 2015.

Delt SPORTLIGHT

FOOTBALL

The 2014 college football season featured three Delt head coaches, two of whom are leading their teams in Pioneer Football League action. **Jim Parady** (University of Maine, 1983) is the winningest coach in Marist College history and in his 23rd year as head coach. **Jeff Voris** (DePauw University, 1990) is finishing his ninth season at Butler University and won a share of the Pioneer Football League crown with a 9-4 record in 2013. Third year head coach **Brian Mayer** (Sam Houston State University, 1993) has led his high-scoring Navarro College offense to a 26-7 record going into his conference playoffs this fall. In his 16th year as running backs coach for Oklahoma is former OU quarterback **Cale Gundy** (University of Oklahoma, 1994).

Helping lead Stanford to a 6-5 record (as of Nov. 22)

Jeff Trojan

are seven Delts who have seen action for the Cardinal. Kicker **Jordan Williamson** is now the school's all-time leading scorer while fullback **Lee Ward**, defensive end **Blake Lueders** and offensive lineman **Brendon Austin** have seen starting duty. **Jeff Trojan** has been a valuable receiver while special team player **John Flacco** has also contributed. Safety **Tom Hennessey** has played well for Idaho on defense and special teams. He had a career-best 11 tackles versus Arkansas State.

Twenty-two Delt players helped lead DePauw to a 7-3 record this season. **Amen Galley**, **Connor Jeffers** and **Jason Kirchhoff** have been good runners and receivers while **Tyler Leising** played well at tight end. Season-long starters on the offensive line included **Kody Bontreger**, **Hunter Logan** and **Cody Campbell**. Key DePauw defenders were back **Hamm Hooper**, linebacker **Nick Freund** and lineman **Michael Mitsch**. Kicker **Logan Brettell** was a leading scorer for Baker and teammate **Josh Kock** was a key defensive lineman.

The Lawrence squad had 17 Delts on the squad. Among leading tacklers were linebacker **Brandon Taylor**, back **Dan Taylor**, back **Jacob Lueck**, lineman **Terrence Huff**, back **Zach Eichhorst** and back **Nick Ulloa**. Offensive leaders for Lawrence included running back **Dalton Sendelbach**, receiver **Trevor Spina** and **Wes Hetcher** plus linemen **Luke Zablocki** (who played both ways), **Spencer Swick**, **Sosaeh Connahvichnah**, **Patrick Pierson**, **Jason Straughan** and **Pip Wasserborg**. Other good players were linebacker **Saxon Justice**, one of Kenyon's top tacklers, and defensive tackle **Odunayo Oyesanya** of Westminster and offensive lineman **Grant Clark** of Quincy.

The National Football Foundation named **Jim Host** (University of Kentucky, 1959) as its 2014 recipient of its Outstanding Contribution to Amateur Football Award. As founder of Host Communications, he began a long-standing business relationship with the NCAA in 1975, handling all its radio, publishing and corporate sports marketing for more than 25 years. Host is credited with implementing the first collegiate corporate sponsorship program with the NCAA in 1983 and helped found NCAA

Jordan Williamson

Football USA, Inc. in 1998. After dominating the sports marketing field for decades, he retired in 2003 and was to be honored at the 57th NFF Annual Awards Dinner in New York on Dec. 9.

The top active Delt player in the 2014 National Football League season has been Houston Texans kicker **Randy Bullock** (Texas A&M University, 2012), the team's top scorer through the first nine games. He has kicked three field goals in two contests, including a career-best 55 yarder plus kicks of 50 and 49 yards.

Deep snapper **Tanner Purdum** (Baker University, 2007) has played in every game for the New York Jets in his fifth NFL season. After four seasons and 56 games with the Tampa Bay Buccaneers, fullback **Erik Lorig** (Stanford University, 2009), joined the New Orleans Saints. After being on inactive status due to an injury in August, he was activated in late October. Eleven year NFL safety **John Lynch** (Stanford University, 1993) and his broadcast partner have been elevated to the Fox network's number two NFL television team.

SOCCER

Returning to the Pennsylvania squad this fall were two 2013 All-Ivy League first teamers. Also seeing action for Penn was **Aaron Chen**. Seeing action on defense for 7-5-3 Ohio State was **Konrad Kucharski**, who had played in nine of the first 15 contests. With several games left, **Jake Pugliese** has been a season-long starter in goal for Allegheny. Through 16 games, he had played more than 1,500 minutes while allowing just 28 goals, posting two shutouts and making 78 saves. Key teammates were **Liam McNamee** (14 starts) and **Brenton Stoddart** (12 games). Finishing his first season as assistant coach

and recruiting coordinator for the 12-7 James Madison women's soccer team was **Scott Gersany** (University of Florida, 2005).

Stevens Tech finished the regular season with an 11-3-1 record going into the Empire 8 tournament. Quinn Conner had started every game while teammates **Gerald Lamina** and **Colin Sawula** have also played. **Connor Hollrah** started 12 contests for 7-7-1 Westminster, prior to the SLIAC playoffs. Seeing action for the 8-4-3 Case Western Reserve team were **Rusheel Shah** (nine starts), **Slater Jameson** (14 games) and **Ryan Finstad**. **Santiago Alvarez** of Lawrence played in 16 games and scored four points. Other team members included **Darrick Brown** of Bethany and **Brandon DeCicco** of Marietta.

CROSS COUNTRY

The top 8K time this fall belongs to **Jon Osman** of Wittenberg who was NCAC Runner of the Week with a time of 24:50 in a 34th place finish at the NCAA Division III Pre-National. He also had an 8K time of 26:41 at the All-Ohio Championships. Teammates included **Michael McDunn** and **Walter Bockert**. **Jack Hue-mmler** of Pennsylvania had a time of 26:32 in the Princeton Invitational open 8K run. **Logan Stockton**, the top runner for University of the South, was Southern Athletic Association Runner of the Week after placing seventh (26:57) in the Sewanee Invitational 8K. His top 8K time was 26:16 at the Commodore Classic and he was third (27:14) at the Panther Invitational.

Logan Stockton

Six Delts were key runners for Baker and were led by two-time HAAC Runner of the Week **Eddy Esquivel**, who placed second in the Maple Leaf Invitational 5K and 10th (26:35) at the 8K Missouri Southern meet.

Gunnar Hays had a best 8K time of 27:47 at the NAIA Mid-States Classic and **Joe Linder** had a best time of 28:02. Other competitors for Baker were **Jamie Steury**, **Carter Breithaupt** and **Andrew Dare**. The top runner for LaGrange was **John Lynch** and other cross country squad members included **Will Megl** of Westminster, **Derek Armstrong** of Quincy, **Gage Freeman** of Marietta and colony member **Roberto Guiducci** at College of New Jersey.

BASEBALL

Former major league catcher and front office executive **A.J. Hinch** (Stanford University, 1996) is now manager of the Houston Astros. After retiring as a player, he managed the Arizona Diamondbacks in 2009-10 and was vice president of scouting for the San Diego Padres this past season. As a player, he was with the Oakland A's (1998-2000), Kansas City Royals (2001-02), Detroit Tigers (2003) and Philadelphia Phillies (2004).

Serving as bench coach for the St. Louis Cardinals National League playoff club was former big leaguer **Mike Aldrete** (Stanford University, 1983). On Oct. 28, he joined the Oakland A's as the new bench coach. **Steve Buechele** (Stanford University, 1983) spent the last three weeks of the season as the Texas Rangers bench coach after managing the team's Round Rock farm club in the Pacific Coast League. In late October, the Rangers named him as their bench coach for 2015.

Two Delts played in the majors during the 2014 season. Reliever **Drew Storen** (Stanford University, 2011) helped lead the Washington Nationals to a division playoff spot and was the club's closer in the last month of the season. He pitched in 65 contests with a 2-1 record, 11 saves and a 1.12 earned run average. Making his big league debut for the Arizona Diamondbacks was **Bo Schultz** (Northwestern University, 2008), who pitched in four games before finishing the season with a 10-8 record in 28 contests for Reno of the Pacific Coast League. Following the season, he was acquired by the Toronto Blue Jays and will shoot for a bullpen spot in spring training. Minor league players during 2014 were pitcher **Jack McGeary** (Stanford Univer-

sity, 2011) who pitched 10 games in the Los Angeles Dodgers farm system and outfielder **Greg Zebrack** (University of Pennsylvania, 2012), with the Nationals' farm clubs in Hagerstown and Albany.

After taking his Stanford club to the 2014 College World Series, head coach **Mark Marquess** (Stanford University, 1969) ended his 38th season with a career record of 1,530-807-7, two College World Series crowns, 12 Pac-12 titles and 14 CWS appearances. He will be leading the Cardinal for a 39th season this spring. Starting his 12th year as head coach at Gonzaga University is **Mark Machtolf** (Stanford University, 1987), who has won 298 games. Also in his 12th year at the University of the Pacific is former big leaguer **Ed Sprague** (Stanford University, 1988) with 236 career wins. **Shawn Redd** (Texas Christian University, 2010) is in his first season as director of baseball operations for the University of Arkansas-Little Rock team. He oversees all day-to-day operations, equipment, travel and other duties related to the coaching staff and team. For the last four years, he had been TCU baseball's facilities manager for game day operations.

BASKETBALL

Basketball great **Bobby Leonard** (Indiana University, 1954) was inducted into the Naismith Basketball Hall of Fame in early August. As an NBA guard, he played seven seasons before going into coaching, leading the Indiana Pacers to three American Basketball Association championships. For a number of years, he has been a member of the Pacers broadcasting crew. Leonard is now the sixth Delt inducted into the Naismith HOF, the others being coach **Ward "Piggy" Lambert** (Wabash University, 1911), coach **Pete Carrill** (Lafayette College, 1952) plus players **Charles "Stretch" Murphy** (Purdue University, 1930), **Harlan "Pat" Page** (University of Chicago, 1910) and **Andy Phillip** (University of Illinois, 1944).

Back for his second year as assistant general manager of the NBA Sacramento Kings is **Mike Bratz** (Stanford University, 1977). After his playing career, he has worked in front office positions with several other NBA clubs. **Nevada Smith** (Bethany College, 2002) is in his second season as head coach of the Rio Grande

Vipers, the Houston Rockets' club in the NBA Development League. His team posted a 30-20 record and gained a playoff berth last season. In October, Smith, a star player for his alma mater, was inducted into the Bethany College Athletic Hall of Fame. Now in his first year with the NBA New Orleans Pelicans is group sales account executive **Matt Perrin** (Southeastern Louisiana, 2010).

Nevada Smith's former college teammate, **Todd McGuinness** (Bethany College, 2002), has started his seventh season as head coach at Hartwick College after an 18-10 record last year. Returning as head coach at Baylor University is **Scott Drew** (Butler University, 1993), who led his 2014 squad to an 18-10 record and the NCAA's Sweet 16 round. The winningest coach in DePauw University history, **Bill Fenlon** (Northwestern University, 1993) is now in his 23rd season with a career record of 375-203 at the school.

GOLF

At the final 2014 Champions Tour, golfer **Scott Dunlap** (University of Florida, 1984) tied for 18th (279) and won \$39,373. For the year, he finished 10th among money leaders with \$1,100,891. Dunlap won the Hawaiian Championship and had five other top 10 finishes on the Tour. CBS sportscaster **Bill Macatee** (Texas State University, 1977), who is now in his fourth decade in the broadcast business, realized a professional dream in May when he hosted the televised final round of the Byron Nelson tournament in his adopted home area. When Macatee was a young sportscaster at the ABC Dallas affiliate in the late 1970's and early 1980's, he met Nelson and watched as he planned the golf course that remains home to his tournament in Las Colinas.

Producing the Perfect Combination

Family Man, Volunteer, Professional, Brother

In 1985 Jody Danneman joined Delta Tau Delta as a new member and has been serving the Fraternity ever since.

Danneman's day job is executive producer and president of Atlanta Image Arts, a full-service production company focusing on television and live events. At night, he dons the hat of husband to Sally, father to Marianne and volunteer to Delts across the world as their newly-elected president.

The Rainbow staff recently sat down with Danneman to learn more about who he was when he joined, who he's become, and what he hopes to achieve as president of Delta Tau Delta.

What is your Delt story?

I pledged Beta Delta Chapter at the University of Georgia in the fall of 1985. As a new member, I was tapped to be an assistant treasurer and I have been holding an office in the Fraternity ever since!

My junior year, I was elected as the chapter's vice president, and the following year, served Beta Delta as chapter president.

My undergraduate Delt days were one of a close brotherhood that was focused on growing and becoming better – both as a chapter and as men. Of course, we had a lot of fun – but that was rooted in the values of the Fraternity, which we used as our “compass” to do the right thing at the right time.

Why do you volunteer?

I volunteer because I strongly believe that Delts must remember those who follow. I have been so blessed throughout my entire Delt life to have brothers who have been a coach and mentor to me. These are the men who taught me that it is important to give back, and encouraged me to volunteer when the Fraternity needed me.

To that end, I have never really sought out an office. I have just always said “yes” when asked to serve. Delta Tau Delta has given so much to me that I could never turn her down when needed.

I will say one of the joys of volunteering for the Fraternity has been my realization that we are an inter-generational brotherhood. It is not just about younger Delts being taught by the older alumni. Delts have so much to learn from each other...no matter the age. At this point in my Delt life, I can honestly say that I have

learned equally as much from my younger brothers as I have from my older ones.

Our Fraternity has grown and prospered because of generations of Delts who have passed along their passion, wisdom, conviction and dedication for the Fraternity. In order for us to continue to be successful, I believe strongly that all Delts must give back.

What has your personal/professional life been like since graduation and how has Delt intertwined throughout?

I have been so blessed in both my personal and professional life. Without a doubt, Delta Tau Delta has had a positive impact on both. It was as an undergraduate that I learned those values that make me a better man, husband and father. It has been my association with those brothers, who are at the top of their game in business, that have taught me how to be a successful businessman.

So many people think “it is just a Fraternity,” but it is so much more. If you listen, learn and implement her valuable lessons and try to live up to the principles in our most sacred ceremonies, you will be successful in your life.

How do you balance home/work/Delt?

I believe you make time for what is important. The key is to know what is important and when.

I am fortunate that in my professional life, I have some flexibility in scheduling. If I have to do some work for the Fraternity in the middle of the day, I just shift my professional tasks to later in the evening, as long as

it doesn't impact a deadline that I need to meet for a client.

Personally, my wife Sally and daughter Marianne are so supportive of my volunteer work for the Fraternity. Sally's brother is a Delt and her mother has been very active with Delta Gamma through the years. So, she "gets it."

Marianne has known Delta Tau Delta since the day she was born. The brothers have been so wonderful to her through the years, it is like she has hundreds of big brothers all across the country!

What is your fondest Delt memory?

My favorite Delt memories always surround two activities, first, any time I spend in our *Ritual* centers and focuses me. Those that know me well know that I am a "Ritual thumper." Our most sacred ceremony spoke to me many years ago as an undergraduate and continues to do so today. So, it is a special time for me any time I participate in it. Even at this point in my life, I learn something new each time I see it performed.

My other fondest Delt memories revolve around those times that I am just hanging out with the brothers.

As an undergraduate at a large state school chapter, we had plenty of social events. We played every intramural sport UGA offered. We raised money and volunteered our time for a lot of different philanthropies. We studied in our "study shack" behind the Shelter.

Yet, the best times I remember were in the spring. Every Friday afternoon, the chapter would purchase salad and baked potatoes – and the brothers would bring their own steak over and just hang out together. We would put the speakers in the window of the

Shelter blasting all those (now) 80's classics, and play volleyball until it got dark. Then, we'd grill the steaks, and share a meal together – as brothers.

While I have thoroughly enjoyed every Delt meeting, conference and convention I've been to, the best times are always the "casual" ones that surround those events just hanging out with your brothers.

Who has influenced you most as a volunteer?

I could honestly fill a *Rainbow* with all the Deltas who have influenced me as a volunteer. So, instead of listing all the individuals, I want to thank those groups of people who have had such a huge impact on my Delt volunteer life.

For me, it all starts with our undergraduate brothers who I've had the privilege of working with through the years. It is so rewarding to be the advisor, division vice president or Arch Chapter member who works with a chapter, watches as it succeeds and be there as it is recognized for its efforts. The enthusiasm, energy, drive and dedication motivates me in my work with the Fraternity.

Of course, a special subset of that group is the chapter officers who you really get to know as a volunteer. At first, it is about getting the work of the Fraternity done. But as you get to know each other, the bond of brotherhood kicks in and takes the fraternal experience to that of "family."

Along those same lines, our alumni brothers who are in the trenches every day with our undergraduate colonies and chapters keep me energized. These are men, who in many cases, have been in their role of advisor

or house corporation member for many years. Yet their commitment, focus and desire to provide the best Delt experience possible is awe-inspiring.

Lastly, those brothers who have served on the Arch Chapter, Undergraduate Council and our amazing staff at the Central Office have made such a positive impact on me as a volunteer. Simply put, one person can't do it all. It takes a team that has each other's back, and works closely together to achieve the Fraternity's goals. Over my entire volunteer career I have found these men and women to be the absolute best!

What are you most looking forward to as president?

There are so many things that I am looking forward to while serving as president. Traveling around the Fraternity and visiting with my brothers is certainly at the top of my list. We have such a diverse and strong brotherhood;

"I volunteer because I strongly believe that Delts must remember those who follow. I have been so blessed throughout my entire Delt life to have brothers who have been a coach and mentor to me. These are the men who taught me that it is important to give back, and encouraged me to volunteer when the Fraternity needed me."

spending time with them is one of the greatest joys of the office.

I am also looking forward to serving as the chair of the Arch Chapter. For more than 10 years, I have had the privilege to sit around that table, and I am really excited about the opportunity to lead the

incredible talent we have on the Arch Chapter as we continue to grow and build the Fraternity.

Lastly, I can't wait to be at the installations of some of our largest colonies in the history of Delta Tau Delta. The amazing growth we have experienced, both at existing chapters and through our colony expansions, is unprecedented. The culmination of that success can be seen in the face of every colony member when they are initiated into our great Fraternity.

What are your goals for the next two years?

At Karnea, I put forth to the brotherhood the four areas I felt the Fraternity needed to concentrate for the next two years.

First and foremost, we need to continue to grow. Our strategic plan calls for 10,000 undergraduate Delts by 2016. We need to hit that number, not because it is in our plan, but because the world needs more Delts!

Now, growth needs to come mainly from our existing chapters. Our expansion through establishing colonies has been the main engine of our increase in membership. I am asking our chapters, some who have been on their campuses for more than 100 years, to kick it up a notch and grow in membership.

Secondly, we need to increase, train, develop and nurture a stronger alumni volunteer base. With the fast growth in membership, our undergraduate brothers need and deserve active and engaged advisors and assistant advisors working with them on a daily basis.

Third, we are far more than a social body and we have a responsibility to the society in which we live. Juvenile Diabetes Research Foundation (JDRF) is our national philanthropy that we have committed our time, talent and treasure. We are locked in their mission to take "Type 1 to type none!" and I have challenged the Fraternity to raise \$1 million by the 2016 Karnea and to double the hours we volunteer to JDRF.

Lastly, we launched "The Road: The Journey to Excellence" at the New Orleans Karnea. This is the next generation of our membership education program that provides a variety of educational sessions from Fraternity values to life skills to career preparation. The key is that it is now a holistic undergraduate experience for our members or, as I like to say, from pledgship to graduation.

The program is amazing and I want all our brothers to experience it for two reasons. First, the Fraternity is committed to lives of excellence, and this version of "The Road" provides our members with the tools they need to achieve it. Secondly, it is going to help keep our members engaged as they hit their junior and senior years. We've needed programming for this demographic of our undergraduate brotherhood, and now we have it.

We started a preliminary rollout this semester with close to 40 percent of our groups participating. It is my hope we can expand that number to more than 80 percent by 2016.

How will you measure success?

For me, success will be attained if the Fraternity is in better shape on the day I leave office than it was on the day I was installed.

There are so many numbers we can analyze to gauge how we are doing. How many members do we have? What is our retention rate with new members? The retention rate to graduation? How does our financial balance sheet look? How many brothers attend our many leadership opportunities?

The reality is we are in the experience business for our members, and it is their time as brothers of Delta Tau Delta that make them better men.

We will know success by how our men are thought of on their respective campuses, how many of them graduate with a good GPA that starts them on a successful career, and by how many alumni want to give back to the Fraternity by freely and cheerfully contributing their time, talent and treasure.

What's the best advice you have received to help do your job?

Honestly, the best advice I have received is to "have fun." Some of my biggest mentors in life are the former international presidents of Delta Tau Delta, and just about all of them have counseled to not let the job consume me, but to stay balanced, and most of all have fun.

I have to say; I think it is great advice because it is how I have tried to lead my life in all facets--personal, professional and Delt.

I guess that is why I am so looking forward to these two years. We're going to get a lot of work done--and have fun doing it!

Danneman helps produce many of the videos used by the Fraternity.

Leadership Academy Graduate Turned Navy Lieutenant

The USS Oak Hill, an amphibious naval warship, sailed up the Hudson River on May 21 through the heart of Manhattan as the flagship of the 26th Annual Fleet Week New York. And at the helm of the ship was Delt alumnus and Sailing Academy graduate Navy Lt. Chris Mikell (University of Florida, 2007).

Fleet Week New York, taking place May 21-27, is a time-honored celebration when the citizens of New York and surrounding tri-state area meet sailors, Marines and Coast Guardsmen, and honor those men and women in the sea services. Local citizens are able to tour warships, visit numerous exhibits, and even view military demonstrations and witness firsthand the latest capabilities of modern maritime services.

During the 2014 Fleet Week on May 23, Lt. Mikell, along with 16 servicemen, participated in a re-enlistment and promotion ceremony at the National September 11 Memorial in Manhattan. Presided over by Rear Admiral Scott A. Stearney, the moving ceremony commenced in front of one of the reflecting pools where the twin towers once stood. It was there that Mikell was promoted from lieutenant junior grade to lieutenant.

"That's such a special and impactful place for our nation and it was special to be able to be there and it be such a happy moment," said Mikell, on how it felt to stand where so many had lost their lives on one of the most tragic days in the nation's history.

Chris Mikell receives his new lieutenant bars from his daughter, Addyson.

By Taylor Williams

The moment was doubly special for Mikell because his entire family was present for the celebratory occasion, even his three-year-old daughter, Addyson, who was the one to place his new lieutenant bars on his dress white uniform. The Kodak moment, followed by hundreds of shutter clicks from photographers standing by, is one Mikell will remember for a lifetime.

"To her it was just her and daddy playing around, but she definitely stole the show," said Mikell of the special moment.

While in New York, Mikell also toured the recently-opened National September 11 Museum. As a member of the armed forces, he had a particularly poignant experience viewing the wreckage of the twin towers and the somber atmosphere of the museum.

"It was a great reminder of why we do what we do, why we fight this battle," said Mikell.

A picture-perfect moment with his daughter and an unforgettable tour of the museum weren't the only memories Mikell made during Fleet Week New York. He also bumped into two Delta Zeta Chapter brothers, Tom Cockriel (University of Florida, 2010) and Jesse Kirsch (University of Florida, 2008), both of which are also Sailing Academy veterans.

However, this time, he had a much larger ship to show his brothers—the USS Oak Hill.

The USS Oak Hill, a dock landing ship, is an amphibious warfare ship with a well dock to transport and launch landing crafts and amphibious vehicles. The USS Oak Hill saw nearly 100,000 citizens on board for public tours, but Lt. Mikell, as driver of the week's flagship, gave his brothers a more personalized tour of the vessel.

"I gave them the VIP tour," laughed Mikell. "I took them everywhere. They were blown away."

It was then that Brother Cockriel made the connection of Mikell's journey from sailing the Mary Day at the 2010 Delt Sailing Academy to becoming an award-winning warship driver in the United States Navy. Mikell currently holds the title for the 2013-14 Junior Officer Shiphandler of Year, edging out the 17 other East Coast junior officers to become the best warship driver on the entire eastern seaboard.

Mikell remembers his experience on the Mary Day fondly as his first time sailing and manning the helm of a water vessel. It was on the Mary Day that Mikell first tried his hand with nautical charts and instruments, the tricks of the trade for seamanship. They are the same instruments and methods he used when commanding the USS Oak Hill.

From the Mary Day to the USS Oak Hill, Mikell's path to the Navy has been anything but smooth sailing. After graduating with a degree in public relations, he promptly went to work in sales at a shipping company in 2007, working in a cubicle for the next two years. Unhappy with the position and unsure of his future while in the midst of the recession, Mikell recalls seeing the "Accelerate Your Life" campaign for the U.S. military and was soon scheduled to attend Officer Candidate School.

"I quit my job so I wouldn't have anything to fall back on, and it kept me going and I got through it," says Mikell of the rigors of Officer Candidate School. "I wanted to see if I had the fortitude to face down adversity."

Mikell at the helm of the USS Oak Hill.

And face down adversity he most certainly did. Since joining the Navy and becoming a surface warfare officer, he has been deployed on two ships, the USS Fort McHenry and the USS Oak Hill, and was a part of the crew who was the first response to the Libyan ambassador's assassination.

This ability to face down adversity and overcome all obstacles is a skill honed in his undergraduate years in the Delt house at the University of Florida. As the chapter faced a membership review during his senior year, Mikell was tasked with identifying those unwilling to right the ship and put the chapter on the course of excellence once again. While difficult, his commitment to excellence and the Fraternity's mission helped the chapter overcome hard times and recover.

"I wanted to come back years from now and see the Delt letters standing, and to this day they still are," said Mikell on how he made those difficult choices.

Mikell compares the experience of Delta Tau Delta to that of life on a Navy ship, "you care for it and clean it and make sure it's working properly, but the ship can't sail itself. And the Fraternity cannot exist without dedicated members."

The Key to Success

According to Joel Wardle (Morehead State University, 2017), the key to continued success in life, be it academics, athletics or Fraternity recruitment, is applying yourself daily until your goals are achieved. And as a three-time competitor of the World Dwarf Games (all before the age of 20), it's safe to say he knows what he's talking about.

The World Dwarf Games is an athletic competition organized by the International Dwarf Athletic Federation for those diagnosed with dwarfism to compete at an international level. The games began in 1993 in Chicago and are held every four years at locations around the world. Wardle's first foray into the World Dwarf Games was in 2001 in Toronto, Canada when he was merely six years old.

"I was born with a sports mind," said Wardle. "My mom had me in the pool at three and swimming

by five."

He also competed in 2005 at age 10 in Paris, France, and most recently competed in the 2013 games held in Lansing, Mich., at Michigan State University where he brought home five medals: a gold and silver medal in swimming, a gold medal in weightlifting, and a bronze medal in basketball.

To achieve the outstanding results he did, Wardle states it was all about applying himself by training hard, even when working out was the last thing he wanted to do. He translates that mentality into his commitment to Delta Tau Delta.

"Through the games, the one thing I've learned is that to get results you have to apply yourself and commit," said Wardle. "In the chapter and in recruitment, if you don't commit yourself to bringing in quality guys, you won't and the chapter suffers for it."

Joel Wardle competes in the World Dwarf Games.

According to Wardle, each member of the Fraternity must commit wholly to the task of succeeding now to ensure a lasting legacy of excellence for those that follow. His passion and dedication to Delta Tau Delta is evident, referring to his brother as his "second family."

"Coming to college with dwarfism is hard and joining allowed me to enjoy myself while also becoming more involved on campus," said Wardle, who plans to run for an executive position during the next chapter officer elections.

To round out an already busy schedule, which includes a heavy civil engineering course load and the Fraternity, Wardle also has future plans to compete next summer in the Paralympic trials for the 2016 Paralympic Games in Rio De Janeiro.

Wardle hails from Ashland, Ky.

By Taylor Williams

Overcoming Obstacles

While some college students use the summer as a time to unwind and relax after a long and stressful school year, Cadet Garrett Pyle (Washington and Jefferson College, 2016) decided to not only continue his education through the summer, but move it out of the classroom and halfway around the world. Pyle, along with 11 other ROTC cadets, spent 23 days nearly 350 miles off the western coast of Africa on the small island nation of Cape Verde teaching English to the local military.

Cadet Pyle participated in the Army ROTC-sponsored program titled Cultural Understanding Language Program (CULP), a highly competitive cultural awareness and language proficiency mission. Each year, the Army sends thousands of cadets around the globe to more than 40 different nations to participate in humanitarian services.

The purpose of the CULP program is to build strong and capable young leaders by immersing them in different cultures and exposing them to many different global perspectives. The cadet participants not only receive a crash course in the local language, gaining valuable language proficiency skills, but they also acquire a better sense of how others view the world and the United States.

"It wasn't just teaching English, it was learning each other's culture," said Pyle of his experience teaching the Cape Verdeans, who were eager to learn the language and American culture.

Pyle and his cadets completed morning and afternoon English lessons five days a week at the local military base, and spent the weekends attending the wide array of festivals put on by the Cape Verdeans. From fish festivals in town to music festivals on the beach, Pyle received a thorough education in the Cape Verdean way of life.

Overseas cultural immersion programs teach valuable lessons that cannot be learned in the classroom. One of the lessons Cadet Pyle quickly learned upon arrival, other than where to find his favored Pepsi on the island, was how to effectively communicate and solve problems without the common bond of a shared language.

One weekend after taking the ferry to a neighboring island, the cadets were tasked with teaming up with a group of Cape Verdeans to give a dilapidated old school house a fresh coat of paint. With only one cadet fluent in both English and Portuguese, coordinating and completing the task with the language barrier proved difficult. But with hard work and perseverance, Pyle and the rest of the cadets were able to find alterna-

tive means of communicating with the Cape Verdeans to get the job done.

"Here we are working closely with people we couldn't speak with, but we were able to work together to get the job done anyway," said Pyle of his experience working with the locals. "It shows you can overcome a huge obstacle like a language barrier to get a job done."

According to Pyle, navigating around a problem, such as an inability to verbally communicate, to complete an important task has given him confidence in his ability to problem solve in other facets of his life, including Delta Tau Delta. Pyle can now face challenges like organizing philanthropy events and motivating the chapter members with relative ease after his eye-opening experience on Cape Verde.

The three weeks spent immersed in a foreign culture has inspired Pyle to continue a career within the military working in the civil affairs spectrum and providing humanitarian aid to struggling nations. Pyle credits Deltas as the "driving force" behind this desire to make a genuine impact in the world.

Garrett Pyle experienced many cultures through his ROTC program.

Semester at Sea Combines Classroom Education and Real-World Experience

Jake Sandor (University of Oregon, 2017) satisfied a bout of wanderlust this fall term by participating in the Fall 2014 Voyage of the Semester at Sea program—Atlantic Exploration. Traveling on a ship that serves both as a floating university and residential home, Sandor's Atlantic voyage was a 108-day journey to 17 cities in 15 countries, including Russia, Germany, France, Italy, Morocco, Spain, Portugal, Brazil and more. Semester at Sea allows students to embark on a spectacularly unique academic experience where classroom education, real-world experience and cultural discovery combine to create the ultimate study abroad program.

As a student with Semester at Sea, Sandor experienced global issues first hand while his coursework provided educational context to his cultural experiences. He received a world-class education among students from 25 different countries and more than 250 institutions, including fellow Delt Aiden Meehan (University of San Diego, 2016).

Here is what Sandor had to say about his once-in-a-life-time experience:

Q: What inspired you to participate in the Semester at Sea program?

A: I had been actively pursuing Semester at Sea about a

Aiden Meehan and Jake Sandor.

By Taylor Williams

year before the trip began. I can't even begin to explain the amount of planning that went into making it happen for me. I have a passion for travel, and thought that this would be a perfect opportunity for making connections around the world and especially in the U.S.

Q: What skills or lessons have you learned from being in Delta Tau Delta that you were able to utilize aboard the cruise ship?

A: The most prominent skill that I have applied on SAS would be great communication skills. Even now being over halfway through the voyage, I am still meeting new people every day. I think it is really important to put myself out there, and be comfortable sitting down and eating lunch with a group of strangers. This skill stems directly from being in the Fraternity, as there are a lot of opportunities to meet people during the numerous events within Greek life.

Q: What sort of classes are you taking on board the cruise ship?

A: On Semester at Sea, there are about 50 different course offerings. I am taking Intercultural Communication, World Cities in Place, Time, and Culture, Music in Everyday Life, and Tourist Productions. The unique structure of this program lets us learn things about a certain place, and then go out and experience them first hand.

Q: What is it like living and studying on the water?

A: It's awesome. The rocking of the boat (which has actually been pretty mild) puts me right to sleep. Waking up every morning, and looking out my window to see open ocean is an unbelievable feeling. The ship has absolutely come to feel like my home, especially after being away from it for several days traveling.

Q: What has been the most memorable moment thus far?

A: That's an incredibly difficult question. Every country I have been to has been memorable for some reason or another. If I had to choose one, it would be going on a

camel trek through the Sahara Desert in Morocco. A group of 50 of us rode camels out into the dunes and stayed in a nomad camp. After that, we went to Marrakesh, and spent a lot of time in the markets. It was my first time on the African continent, and I definitely would like to come back.

Q: Which location has been your favorite?

A: That's also a tough question. I really loved Portugal. I spent a few days in a small beach town in the south called Lagos. The coastline has tons of cliffs, caves and secret beaches that are a blast to explore. It was a nice break from being in a big city. Lagos was absolutely gorgeous, and I will be revisiting as soon as I can.

Q: What inspired you to join Delta Tau Delta?

A: I was inspired to join a fraternity by my parents, who were both in Greek life. I knew that a fraternity would be a great way to meet people, and be apart of an organization on campus that people admired. I was inspired to join Delta Tau Delta from the first time I saw the shelter and met a few brothers. I came down for orientation over the summer before my freshman year, and was met by Nick Calcaterra, the recruitment chairman, who gave me a tour and then proceeded to get to know me. I could tell that he was genuine and intelligent; these were the qualities I wanted to fraternally associate myself with, so I joined Delta Tau Delta. After a very powerful bid talk, and getting to know numerous members who I thoroughly enjoyed, I accepted my bid.

Q: What impact has the Fraternity had on your life thus far?

A: Being in the Fraternity has changed my life immensely, even though I have only been involved for a year. Over the last year, I had enormous personal growth in figuring out what I want to do with my life. Much of this stemmed from being

around so many driven guys in Delta Tau Delta. I have met guys that I know will be my best friends and brothers for life, which is something I treasure. The Fraternity also helped put in words many of the guidelines that I lived my life by through the mission and values. Being in the Fraternity makes me want to get MORE involved on campus, in my community, and around the world.

Q: What have you learned from this experience that you'll be able to bring back to the Delt chapter?

A: One thing I want to do when I get back is to organize yearly brotherhood trips. Travel has a way of bringing people extremely close together, and often you experience a different side of people than you had before. Depending on the location, these trips could make for some unique community service opportunities.

Jake Sandor

CORRECTION:
The Winter 2014 edition of *The Rainbow* unintentionally listed Gary B. Newton, Delta Epsilon, as entering Chapter Eternal. We apologize for the mistake.

HEADLINES OF THE PAST

10 YEARS AGO (2004)

November was a busy month for chapter installations, with Gamma Nu (Maine) and Epsilon Alpha (Auburn) returning to the active roll while Iota Theta (Kennesaw State) was installed for the first time.

20 YEARS AGO (1994)

W. Charles Johnson Jr. (Southern Mississippi, 1993) became the first recipient of the Outstanding Recent Graduate Award since 1916 as the Fraternity resumed honoring men who had excelled in several areas of undergraduate life.

40 YEARS AGO (1974)

The men of Epsilon Alpha returned to the Auburn University campus in 2004.

An \$18,000 gift by John W. Galbreath (Ohio University, 1920) provided a substantial boost to the Fraternity's effort to preserve and restore the property at Bethany College where Delta Tau Delta was founded. The house will be purchased from a private owner in the name of Bethany College, while restoration and ongoing preservation will be directed by a Delta Tau Delta House Committee with representation from both the Fraternity and the College.

60 YEARS AGO (1954)

Gamma Pi at Iowa State dedicated its new Shelter in ceremonies attended by alumni from across the nation and included five charter members from the class of 1910. The modern facility represented the culmination of a 20-year dream for Gamma Pi leaders and was the first new Greek house built in Ames in 17 years.

80 YEARS AGO (1934)

The Fraternity's newest publication, "The Good Delt: His Book," was introduced. "It is a beautiful little book, and no man will be willing to lose, certainly not one who, receiving it as a pledge, ultimately becomes a Delt," wrote editor Stuart Maclean. "It tells the pledge all that he ought to know, beginning with the history and whole set-up of the Fraternity. After that it becomes personal, and discusses such things as campus life, idealism, financial responsibility, hospitality and manners."

100 YEARS AGO (1914)

Founder Eugene Tarr (Bethany College, 1860) was eulogized by Henry T. Bruck (Stevens Institute of Technology, 1876), the Fraternity's first president (1884-85). A lawyer and newspaper publisher in Wellsburg, W.V., Brother Tarr, 74, passed to the Chapter Eternal on Dec. 28, 1914. A decade earlier, Bruck paid a one-day visit to Wellsburg which included a six-mile carriage ride by horse to Bethany. "The day I spent with him will ever linger in my mind as one of the most delightful in my life," Bruck recalled. "Such a day and such a drive! It was late in autumn and the leaves were turning. The old horse that took us along the banks of the beautiful Buffalo Creek knew we did not want to hurry, and as we left him to his own devices, the reins lying loose on the dashboard of the buggy we just pattered along." In closing, Bruck paid this final tribute: "Brother Tarr's modesty and retiring disposition have really stood in the way of our knowledge of the relative positions of our founders in the organization of the Fraternity. Enough has been gathered however, to mark him without doubt as one of the most potent factors in our foundation."

Compiled by Jim Russell | Purdue University, 1975 | Executive Vice President

**When you
joined Delta
Tau Delta,
someone
was there to
show you
the ropes.**

Are you prepared to help today's brothers reach new heights?

Since your first day with Delta Tau Delta, your brothers have defined your experience. They believed in your potential and helped you get there quicker. When you make a gift to the Delta Tau Delta Educational Foundation, you enhance the Delt Experience for our undergraduate brothers.

Your gift gives brothers the chance to explore their true potential through leadership experiences, life-skills programming and building life-long relationships. Along the way, they teach others to live lives of excellence.
